TUESDAY, FEBRUARY 10, 1857.

THE RAILROAD LEASE.

The Manchester Mirror condemns it, in the following manner.

The Governor and three of the Council have placed their names upon the lease of the Manchester & Lawrence road to the Concord. It was like pulling teeth, to one of the Council, but he came to it at last. The hearing was closed Wednesday night, winding up with a speech from John H. George, who came down on Manchester "like a thousand of brick," pouring out fury and wrath, giving vent to the long pent up feelings of the whole city of Concord. We do not know whether he indulged in personalities or not, but presume not, or else we should have heard of somebody hurt. Thursday noon, yesterday, the Council stood two and two, with a prospect that nothing could be done. The Governor expressed his readiness to sign it, (*of course he did*), but said he thought there would be a division in the Council. Finally, by what process we hope never to know, the third Councillor signed it, and the deed was accomplished; Messer of this District protesting and thereby saving his bacon.

The deed is done, but the end is not yet. "Truth crushed to earth shall rise again." The slavery agitation has been stilled forever, four or five times, since we can remember, but it don't stay so long, because slavery is wrong and freedom is right, and no compromise can change the complexion of them.

The union of these roads is wrong in theory and practice, an outrage upon the rights of the people of Manchester, Nashua and all the towns along the lines of both roads. The people are all right upon the subject, but the leading men of the State are in the railroad interest and now have carried the day. It will not last if these roads take any advantage of the power they hold. If they do not, feeling may be lulled for awhile, but it will rise again with terrible vengeance.

We supposed Governor Metcalf would sign the bill. It is in keeping with the past three years of his life. In a single hour turning traitor to the party upon whose offices he had fattened, saying to his whole previous life, "get behind me, Satan," he became a Free Soil Know Nothing, and a Neal Dow reformer. Last year he vetoed a bill *for* introducing *pure water* into Manchester, on the ground, we suppose, that he liked his water a little "*dashed*," and did not think that *pure water* was just the thing to take the lead in cities. Last year he gave many to understand that he would veto the the bill for the union of railroads, and now he approves virtually of the same thing. He has got at the length of his rope, and there was no influence that could be brought to bear to make him stand up for the rights of the people. We are glad his term of office expires so soon. As to the Councillors, we have nothing to say. On one point we have changed notions somewhat; we had supposed the policy of the Democratic party was against monopolies, but now we are satisfied that both parties are equally corrupt on this subject. The course to be pursued hereafter is, to vote for no man whose opinions are not decided in opposition to the union of railroads.

The Manchester American says:

We thank Mr. Messer, our candidate for Councillor in this district, for standing alone against the rest of the council, in opposition to the lease. We will give him such a vote as will show him what appreciation we put upon a man who remembers his constituents. And as for Mr. Coggswell, who was induced to go for the lease, we hope his constituents will send him to the tomb of the Capulets, and bar the door, so that he won't show himself among the Council another year.

We are aware the mouths of the hunkers are stopped in this matter, because their Councils and their prominent men have been connected with this and like schemes. N. G. Upham and J. H. George and Josiah Quincy, urged this particular thing pertinaciously, and so have nearly all the leading hunker politicians. It is their child, nursed to this age and thrust into a spasmodic precocity by a stratagem which is required all their art and brass to carry through. Let the people come forward and strangle it before it gets older, unless they want to be strangled by it.

☞ A piece of moral romance about the late Hon. Wm. Wirt's salvation from drunkenness, by the woman who afterwards became his wife, is going round in the papers at the present time. It is a very fine story, in all respects but one, viz., that there is no truth in it. Mr. Wirt was never a dissipated man;—and of course no such salvation ever happened to him. We say this on the authority of members of his family, who lived here a few years ago, and who then corrected the same error.

☞ Three incendiaries have been arrested in Roxbury. From information now in possession of the City Marshal, and from confessions by some one or two of the parties implicated, they are believed to have been concerned in setting half a dozen fires in Roxbury, within three or four months.

☞ Willard Daniels, of Oakland Co., Mich., is in prison at Detroit, for incest with his grand-daughter. He will go to the State Prison, and ought to stay there.

SINGULAR CIRCUMSTANCES.—On Wednesday morning last, says the Boston Chronicle, the body of a man, horribly mangled, was found upon the railroad track near the Stratford (Conn.) Bridge. It is supposed that he fell from the cars the night before. From papers found on his person, his name was supposed to be William Rea of Boston. Mr. Rea was, however, alive, and subsequent developments have excited a firm belief that the body is that of an Irishman named James Maguire, who had recently been in the employ of Mr. Rea, and who was supposed to have been connected with the burglary committed in the house of Rev. Mr. Woodbridge, in Auburndale, on Saturday night last.

On Sunday morning, after the burglary, it was found that the silver basket, containing silver to the amount of $150, had been abstracted. A boy of fourteen or fifteen years of age, who was employed by Mr. Woodbridge, was found tied to his bed in the basement. His story was that he had been set upon by three men, who had broken into the house, assaulted him, and left him in the condition in which he was found.

The story of the boy of course excited suspicion, and he was rigidly cross-examined. It was not until Monday evening, however, that he could be induced to own the truth. He then acknowledged that the story was false, and fastened the robbery upon an Irishman named James Maguire, who had formerly worked for Mr. Woodbridge, but more recently had been in the employ of Wm. Rea, Esq. An officer was despatched at once to the house of Maguire, but he had got wind of the matter, and was not to be found.

The mystery connected with the accident was cleared up, on the arrival of a letter from the Postmaster at Stratford, addressed to the Postmaster of West Newton. The letter contained a description of certain papers found on the body of a man who had been killed in that place, and also stated that he had in his baggage a quantity of silver ware, the marks on which correspond with those upon the silver stolen from Mr. Woodbridge. The circumstances related at once cleared up the mystery. *The burglar had been overtaken in his flight by death.* The body was probably that of Maguire, who had suddenly disappeared, and his ill-gotten booty was in his possession—together with papers belonging to his employer, Mr. Rae, at the time of his sudden and violent death.

☞ A terrific hurricane devastated the Phillippine Islands on the 27th of Octopor. All the suburbs of Manilla and the neighboring villages were reduced to heaps of ruins. The number of houses destroyed at that place alone was above 3,500. Official returns show that more than 10,000 houses were destroyed within a circuit of about eight leagues around Manilla. Six foreign vessels in the roads of Manilla were also driven ashore.

☞ Porter's Spirit of the Times says, that Flora Temple has made the best time in harness in both single and double miles, ever made upon the trotting turf; that she has conquered and virtually worn out every horse that has continued to enter against her, except Lancet, who is still in the beginning of his chapter, and that on uniting the time of twenty eight of her races, it will be found she has made a *hundred miles* in the aggregate time of *four hours, sixteen minutes, and eight seconds.* She is eleven years old—and was sold in 1851 for $85. Ten thousand wouldn't buy her now.

☞ A pedlar named Shaw was frozen to death during the late severe weather, between Lachute and Lakefield, Canada, and two men died at L'Assomption, from the effect of cold on the brain. They had been exposed to the weather, wearing only woollen caps or *tuques*. We hear also of the death of a woman from freezing near Dachapelles Bridge, also of the death of a man and a woman near Grenville, from the same cause.

MURDER BY A WOMAN.—Two Irish women in Manchester, named Hennesy and Coughlin, got into a quarrel on Friday, about a piece of cheese,—the result of which was that the Coughlin woman died. A coroner's jury is investigating the case.

☞ The rains of the last week, produced freshets in the Connecticut, Hudson, Mohawk, Hoosic, Schuylkill, Potomac and Ohio Rivers. Mills, bridges and boats suffer damage and loss.

HARD FARE.—The crew of schooner William P. Buckman of Eastport, (before reported abandoned,) when taken off the wreck were living on parched corn and half a pint of water per day!

READING OPERA CHORUS CLUB.—This is the name of a very large, and, we doubt not, talented choir of singers and players, from Reading, Mass., who have met the greatest success in giving Old Folks Concerts in Boston, in the costume of seventy-five years ago, or so. The Transcript says;

The new costumes of the company were decidedly tasteful and unique. Expansive bonnets, mammoth combs, loose robes, buckles and knee breeches, flourished in all the pomp and oddity of "ye ancient time." The leader of the choir kept up the spirit of the assembly by waggish allusions, and the presiding genius of the double bass, with the unmistakable air of "Old Mortality," furnished his quota of entertainment.

Now, although we are very partial to the "Old Folks" Concerts, we much dislike the idea of rigging in any *extra* dress for these occasions. As necessary is it to be clad in the robes of an Israelite, in order to read to bible acceptably. Neither are any "waggish allusions," nor levity of any sort, to our taste, while singing "the psalms our fathers sang."

The Transcript continues:

As the orchestra commenced the performance of the evening with "Auld Lang Syne," we were transported in spirit to the days of our venerable grandmothers and grandfathers, and were almost ready to "take a cup" to their memory. The Song of the Old Folks, written by Mr. Albert Laighton, of Portsmouth, N. H., for the "Old Folks Concert" in that city, a few weeks since, was "brought to mind." It would be quite an appropriate piece to sing at all these charming entertainments.

All true, neighbor Transcript, except that the song was written two years ago. It has been performed in various places, and is especially appropriate and beautiful.

THE MANUFACTURES OF CHICAGO.—The city of Chicago, which is more of a commercial than a manufacturing city, now produces nearly fourteen millions of dollars' worth of manufactured articles yearly. The capital amounts to over seven millions of dollars, and the labor required gives constant employment to over ten thousand persons, out of a population of one hundred thousand.

THE CASE OF THE DROWNED GIRL.—The cross-examination in New York of Miss Sallie Stafford of Vermont, on her complaint of B. M. Barton of Philadelphia, for ravishment while she was under the influence of drugged wine, has abruptly terminated. Mr. Brady's interrogatories overwhelmed her with contradictions, confusion and excitement, and she has gone home.

A GOOD EXAMPLE.—At Stewart's dry goods establishment in New York, Spanish coins are taken at their full valuation, but are not given out at all. All fractional prices have been discarded,—the price of everything being given in plain, intelligible dollars and cents.

LOOK OUT.—Bills are in circulation—1 altered to 10—on the Wamesit Bank, Lowell, and Francestown Bank, Francestown, N. H.

THE THREE POWERS.—The press—the pulpit—and petticoats, the three ruling powers of the day. The first spreads knowledge, the second morals, and the last spreads—considerably.

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all other compounds for the hair, on the head of the aged, to grow forth with the vigor and luxuriance so often blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently grandmas and grandpas make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before sold as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all hope, nor is it dangerous in any case whatever.* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. nu17 TuTuSa 6m

HEALTH AND STRENGTH.

DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug8 6m

WHIG MASS CONVENTION.—The Manchester American says, "eleven men, precisely met at a bed-room in the Eagle Hotel at Concord, yesterday, the 5th, and made some "Whig nominations." Gen. W. P. Riddle presided over this immense assemblage, and they nominated Prof. C. B. Haddock for Governor, Frank W. Hale for Congress in the first District, Isaac Riddle for the 2d, and C. W. Bronson for the 3rd."

The Mirror calls it the Whig and Fillmore American Convention.

THE CASE OF WM. S. TUCKERMAN.—In the Municipal Court, Boston, on Saturday, a motion was made that the bail of the defendant (who was present in Court, and who stands convicted on one of the indictments for embezzlement, pending against him,) be reduced, but the Court overruled the motion, and directed that the amount of bail, $15,500, continue the same until the decision of the Supreme Judicial Court, upon the exceptions filed and allowed in the case.

☞ The Eastern Railroad Company, in their suit against Levi Benedict et al., in the Supreme Court of Massachusetts, have recovered a verdict of $8,814.16.

BROOKS' SIZE.—The undertaker for P. S. Brooks was unable to furnish a coffin large and long enough—the most ample metallic coffin in his establishment being only six feet four inches in length, whereas he required one no less than six feet six. He says Mr. Brooks was the largest framed man who ever died in Washington.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.

H. HUTCHINS, Sir—DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and its most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

"Old Folks Concerts" seem springing up again in New England. Well, if people like to hear their ancestors burlesqued and ridiculed, we know not that we can prevent it, but we object decidedly to including in the programme of these concerts, Mozart's *Requiem Mass*, performed by "one piano, one melodeon, six violins, two bases, one bassoon, one ophicleide, one flute and one clarinet," (hand-organ and dulcimer not mentioned,) as was done recently in Portsmouth, N. H., according to the Chronicle of that place.—*New York Musical Review.*

We most decidedly object to this view of the case. We don't know what our friends of the Review have seen objectionable, at Old Folks Concerts out their way; but those given in this city, and especially the one here referred to, have been among the most unexceptionable entertainments ever given anywhere. We *don't* "like to see our ancestors burlesqued and ridiculed," and this has never been done here; in fact, "our ancestors" were present and took part in the concerts.—Three generations of singers, have been regular members of the Old Folks Choir. We send the Review a copy of the "Song of the Old Folks," first brought out at one of the Concerts here, and would ask if anybody may not sing that, without ridiculing anybody. The Review should have done us the fairness to state that this last was a "Union" Concert, and not announced as an' Old Folks' entertainment. It took place on Sunday evening, was attended by a large and appreciative audience, among whom were most of our clergymen; and was one of the most seriously interesting, and devotion-inspiring entertainments we ever attended.

For the Chronicle.

City Building.—*Messrs. Editors:*—Is it not time that the much-*needed* and long-talked of new City Hall should be put in the way of erection? It is a thing desired by a very large proportion of the citizens of the town. As the United States have determined not to purchase the Market lot, we need not wait for that reason. But take down the Brick Market building (an unprofitable one for the city,) and put up a handsome and commodious City Building, capable of accommodating the City Officers, a Market, and a City Hall large enough to seat twenty-five hundred persons.

The first floor would accommodate the City Clerk, Aldermen, and market—the Aldermen and City Clerk should occupy the end next the street, of course.

The second floor will accommodate the Common Council and City Hall.

The third floor may be fitted up into club rooms or anything else that may be thought proper.

Then we shall have an elegant and useful public building, in place of the present unsightly and comparatively useless one; and at the same time save the city the rent of several hundred dollars for city rooms, yearly. The entrance to the market should of course be on the side of the building next to the Piscataqua Bank. All of the brick and stone of the old market can be used in the new building, without much waste.

There is no town so poorly provided with a suitable place for all to meet, in a mass meeting, as Portsmouth. We have no place that will accommodate more than half that would turn out at a mass meeting, or to a lyceum; so that we are obliged to have two lyceums to accommodate all, and the division makes them both feeble—whereas, if all could be accommodated in one room, we could afford to have the best speakers to be had, and the expenses to each hearer would be very small; and then we shall have a place for levees, fairs, &c., P.N

☞ It will be seen that there is to be a social dance at Congress Hall, to-morrow evening—the music by five pieces, composing the Quardrille Band of J. T. Chase. The tickets are low enough for anybody to afford.

☞ It should be remembered that the Benefit Concert, to make up in some measure the severe losses recently sustained by Mr. Pearson, through fire—is to take place on Thursday evening next, and not on Wednesday as first announced.

The change was made at the suggestion of several friends of Mr. P., who wish to to attend Dr. Burroughs's Biblical Lecture on Wednesday evening, and who also wish to enjoy the Concert.

☞ It will be seen that we advertise, this morning, a Fair to be given at Jefferson Hall next week, by the ladies of the Catholic Church, in aid of that Society.

☞ Despatches from Albany, N. Y., state that the greatest flood ever known there, took place on Sunday night—destroying property valued at $2,000,000. The city is partially flooded.

CONGRESS.

Saturday, Feb. 7.

Mr. Bigler presented ninteen memorials from merchants of Philadelphia, praying for the adoption of measures for increasing the trade between the United States and Africa.

Mr. Seward presented three memorials from the same city, also on that subject.

The memorials were referred to the Committee on Commerce.

Mr. Toombs, of Georgia, presented a memorial from Gen. Shields, and other citizens of Minnesota, setting forth that although that territory contains about 200,000 inhabitants, yet it has received no grants of lands, in conformity with the policy of the government to grant lands, upon certain conditions, to new states, for railroad purposes.

Mr. Toombs said this petition presented a curious state of things. He had given every attention to it, and thought it well worthy of the consideration of Congress. The inhabitants of Minnesota have been made the sport of outside speculators.—Their just rights ought to be respected, and their request was so reasonable that grants of land should be made to the Legislature, subject to its own future disposition, instead of designating particular companies. He introduced a bill making grants in accordance with the prayer of the petitioners, which was referred to the Committee on Public Lands.

Several private bills were then passed. Adjourned.

House.—The House passed the bill establishing the Delaware, Osage and Western Land Districts in Kansas. On motion of Mr. Orr, a resolve was passed giving the widow of Preston S. Brooks whatever sum was due him at the time of his death. The bill reported from the Committee on Public Lands, authorizing the Deleware and Ottowatamie Indians in Kansas to sell their right of way for railroads, was tabled. The House passed the bill to establish the office of Surveyor General in Minnesota.

The bills for completing the capitols of Nebraska and New Mexico passed.

A bill appropriating $30,000 for roads in Nebraska was also passed.

The House then perfected the bill appropriating $300,000 for the construction of a wagon road from Fort Kearney in Nebraska, via the South Pass of the Rocky Mountains, to the eastern boundary of California, near Honeylake, the said road to connect with and form an extension of the road already authorized from Fort Ridgely to the aforesaid South Pass.

The sum of $200,000 was also appropriated for the construction of a wagon road from El Paso to Fort Yuma, at the mouth of the Gila River, and $50,000 for the construction of a wagon road from fort Independence, New Mexico, to the Colorado river.

Pending the question of the passage of the bill, the House adjourned.

Bold Burglary.—Three young men were arraigned before the Police Court in Dover, on Thursday morning last, for forcibly entering the dwelling-house of Rev. Arthur Caverno, situated on the road leading from the bridge at the end of Fourth street in that city, to Tolland, while the occupants of the dwelling were absent at the City Hall at the Old Folks' Concert.—They effected an entrance into the house by taking a pane of glass and raising a window, and after rummaging the rooms pretty extensively, decamped, carrying with them a valuable gold watch and chain, gold locket, rings, &c., portmonaie, a pair of the Elder's boots, and $5,50 in cash—amounting in all to $150. The Elder immediately notified the City marshal, and before one o'clock on the same night the young Jack Shepherds were all taken into custody, with the articles stolen about their persons. Their names are Edward Durgin, George Walker, and George Hoitt, all young men not twenty years of age.—When before the Police Court they plead *guilty* to the charge, and Durgin and Walker were committed in default of bail for $500 each; Deacon John Hoitt, the father of young Hoitt, being bail for him in the sum of $200. They will be tried at the March term of the Supreme Court. Too much praise cannot be given to our indefatigable City Marshal Smith and his associates, for the promptness of the arrest of these dangerous young men. We learn that a large supply of burglar's tools were found in young Hoit's trunk, and are now in the charge of the Marshall. *Dover Gazette.*

Boiler Explosion.—*Oswego, Feb. 7.*—The Boiler in the sash, blind and door factory of John Harcha, near the depot, exploded this afternoon with a tremendous report, demolishing the building and scalding one person and injuring several others slightly.

Washington Medallion Pen.
MANUFACTURED by the ONLY Steel Pen Manufactory in America.
The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines all the principles calculated to produce an action AS SOFT AS THE QUILL, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And AMERICA is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $500,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

Singer's Sewing Machines.
THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.
MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Our machines are made to catch the eye; not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.
☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.
N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1836.)

No. 75 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research and Examinations made into Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, on remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unexcelled by any agency in the United States, offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, and the office, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other agency of a kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in recommending to inventors, who cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure to them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner of Patents.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has extensively engaged in the transaction of business with this Office as Solicitor. He is thoroughly acquainted with the law, and the rules of practice at the Office. I regard him as one of the most competent and faithful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at lowest Cash prices. Their Stock of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne, Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarragon, or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles, they can supply them put up and prepared for family use, and are warranted to be strictly pure, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our Spanish Coffee, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARRAGON, or *Prepared Dandelion Root.*—This article is prepared and put up in our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "Chinaman grinding coffee," may be relied upon as the GENUINE ARTICLE. The superior quality of this is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same article which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and recommended as a healthy beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious and easy digestible food, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Coffees have our trade mark, "Chinaman grinding coffee."

☞ To those and Dealers in Tea, a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be offered by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices, as compared with those of any other house.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and verify the drawings connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected so if they themselves were present at the drawing. Another fact which the managers call attention to, is that each person have a legal right to send orders for tickets to Maryland, at lottery office legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled tickets of packages will take place after the communication reaches hand. The prices of tickets vary from $1 to $20. Tickets are, however, sent unless the money for them is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan) and Tenary combinations, the prize in amount from $25 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into the market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Revolving Fronts, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the low cell prices.

Our Stock of Stoves comprises the largest assortment, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the state, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DOUBLE SWELL.

Secured to us by Letters Patent 22d May, 1855—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is softened and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Volunta ry testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were welcome even for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived safely, and a most charming instrument it is. It has been played on by Messrs. Dodd, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful sounding reed instruments they have ever touched. Very truly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily building, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

FROM PUNCH.

PUNCH'S POT-POURRI POUR RIRE.—No woman is a beauty to her *femme-de-chambre*. A Lawyer's carriage is only a legal conveyance—and it is the client, as often as it stops at his door, who pays for the drawing up of it. Most Golden Calves, when thrown into the crucible of Time, turn out no better than Pigs of Lead! Life is a Romance, of which a Coquette never tires of turning over a new leaf. Mock no man for his snub nose, for you never can tell what may turn up. A character, like a kettle, once mended, always wants mending. Be kind even in your reproofs, and reserve them till the morning. No one can sleep well, who goes to bed with a flea in his ear. The man who is fond of staking his reputation on the least trifle, generally retires from the contest before he is called upon to deposit the stake. Life is full of contradictions—but woman takes very good care that we shall never hear the last of it. It is wrong to judge men by trifles. The man, who yesterday, kept the dinner waiting half-an-hour, supports his mother-in-law.

THINGS THAT IT'S BETTER TO DO.—It's better to brew beer than mischief—to be smitten with a young lady than with the rheumatism—to fall into a fortune than into the sea—to be pitied with a mother-in-law than the small-pox—to cut a tooth than a friend—to stand a dinner than an insult—to shoot partridges than the moon—to have the drawing of an artist instead of a blister, and to nurse the baby at any time in preference to your anger!

A MAN OF SOME CONSEQUENCE.—Elder Sister.—"Why, George! Not dressed! Pray are you not going with the other children?"

George, (fourteen years of age.)—"H'm—I should rather fancy not.—You don't catch me going out at an evening just to furnish people's rooms. Where I go I *dine*."

HOW HISTORY IS WRITTEN.—We all know that history is but another form of romance, especially in the hands of a Frenchman. For instance, the "History of the Empire," by Thiers, is only his story (and we need not say what kind of a story that is) of the different wars that took place with the English on the Peninsula, and elsewhere.

EMILY.—"Madame Bonton says 'the circumference of the Crinoline should be thirty-six feet!'"

CAROLINE.—"Dear me—I'm only thirty-two—I must inflate a little." (Caroline applys a tube to her lips.)

A temperance man, who has been trying in vain to collect his last year's bills, thinks intemperance the source of his trouble, because if money would stop getting *tight*, he could obtain a settlement.—Like Cato, he reasons well.—*Charlestown Adv.*

Last September, a little son of the Rev. Mr. Salter, of Dover, N. H., while at play in a garden where a deer was accustomed to browze, suddenly became frightened by seeing the animal running towards him, and in his haste to escape by climbing an embankment, swallowed a pebble about the size of a cherry, which he happened to be holding in his mouth. All attempts to remove the stone having failed, and his life being despaired of, he was carried to Charlestown, Mass., where an examination was made by Dr. Bigelow of Boston. It was decided necessary to make an incision in the boy's throat, in order to remove the stone. On Thursday, chloroform having been administered, the operation was performed by Dr. B., assisted by five surgeons, and was entirely successful. The stone was thrown out through the opening in the throat. The boy is now doing well, and will soon recover. The operation is considered by all as being rather remarkable.—*Adv.*

TOMB OF QUEEN CAROLINE AND GEORGE II. Queen Caroline was buried in Westminster Abbey; and George II, on his deathbed, twenty-three years afterwards, directed that his remains should be placed close by her,—a side of each of the coffins to be removed, in order that the cerements might be in actual contact. This story has been doubted: but a few years since, it becoming the duty of one of the Chapter (the Rev. H. H. Milman) to superintend some operations within that long-sealed vault, the royal coffins were found on the same raised slab of granite, exactly in the condition described; the sides that were abstracted still leaning against the wall behind.—*Curiosities of History.*

FEARFULLY BEAUTIFUL.—M. de Morny, the reputed brother of the Emperor Napoleon, who was married in St. Petersburg last month to the Princess Sophie Troubetzkoi, is about 53 years old. His bride is 18 or 19, and is described as "fearfully beautiful." She was brought up at the Institution of the Imperial Maids of Honor, and the Empress Dowager wished to give her to the reigning Empress as one of her ladies; but the Empress Marie said she was "far too beautiful." The new Countess de Morney is evidently likely to make a sensation in Paris.

KOSSUTH AT THE GRAVE OF BURNS.—In company with his aid de camp, Kossuth proceeded to St, Michael's Churchyard, where, amid the crowded obelisks and urns," rises the sculptured shrine of Robert Burns. M. Kossuth entered the mausoleum with reverential step, and as if absorbed by the intensity of his thoughts. He gazed long in pensive sadness at the figures of the plowman poet and of Coila, and then earnestly conversed with his Hungarian companion, in their own Magyar tongue.—*Dumfries Standard.*

A rich merchant was once asked why he did not enjoy life more.

"Enjoy life?" he said, "I do enjoy life. My friend Stone is happy at the table, my friend Jones is happy when driving his span, but I am happy when I am accumulating money."

RAILROAD ACCIDENT.—*Albany Feb. 7.*—An emigrant up train over the Hudson River Railroad ran off the track early this morning, between Poughkeepsie and Rhinbeck. Several persons where hurt, and a man and woman passenger were fatally injured. One woman had her thigh broken,

Arnold's Vital Fluid
PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.
ARNOLD'S VITAL FLUID
Renders the system, strong and healthy, by freeing the blood and stomach from poisonable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*
ARNOLD'S VITAL FLUID
Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *vitalizes* by strengthening the blood to bright and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.
ARNOLD'S VITAL FLUID
Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life-giving functions.
This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.
Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES*
AND VITAL FLUID
are enabled to cure them so that they *stay cured.*
VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

WEDNESDAY, FEBRUARY 11, 1857.

POSTAGE.

The Post Master General, Mr. Campbell, has written a letter to the Committee on the Post Office and Post Roads of the House of Representatives, explaining the views of the Department on points of public interest, connected with the postal system.

This letter is in seven sections. 1. He prefers the present rate of 3 cts. for a letter, and thinks 2 cts. rather too cheap.—He recommends doubling newspaper postage,—[can't do that,] and establishing one cent for three ounces of transient printed matter, prepaid in all cases.

2. He disapproves of delivering letters at houses in cities without extra postage.

3. "Money orders for sums not exceeding twenty-five dollars, to be drawn by the principal post offices on each other." This is a matter to which I have, on every occasion of making my annual report, devoted considerable attention; but owing to the difficulties of putting such a system into successful operation, and to the fact that it *failed* when *tried in this country*, several years ago, I have hitherto hesitated to recommend it. I am, however, of opinion that some plan for the convenient and safe remittance of small sums should be adopted. In the beginning, the plan might comprehend only the offices subject to presidential appointment—about 340 in number—and so soon as it could be made to work well, it might be extended so as to embrace at least one office in each county throughout the States and Territories.

Will somebody please to tell when and where it was tried in this country? The English do it, and it works well. Amos Kendall recommended it in this country when he was P. M. G. But we never before heard that it had ever been tried. We approve of the plan.

4. On ocean postage, he recommends reducing and equalizing rates as far as may be.

5. He says;

I recommend the immediate abolishment of the franking privilege; or, if this is not deemed advisable, that a law be passed authorizing the department to charge the ordinary rates of postage on letters and all printed matter, which now pass through the mails, except exchanges between publishers.

6. He opposes the abolition of compulsory prepayment, and double postage on all ry matter not prepaid, and gives the following good reasons, for his opposition:

This, in my judgment, would be a retrograde step, and I should exceedingly regret to see it adopted. As stated in my last annual report, the operation of the prepayment act of 1855 has proved, generally, highly satisfactory; and, as the number of our post offices, increases, it will be found more and more useful, if not, in fact, the only means by which the revenues of the department can be protected. There are, besides, other minor advantages attending it, which come home to the daily experience of almost every citizen, in being now shielded from the *imposition of unpaid postage charges*, which, however trifling in amount, were always annoying. So far as printed matter is concerned, the principle of optional payment does not need to be further tested to demonstrate the wisdom of the act just passed, requiring all such matter to be prepaid.

This is all right. None but mean men wish to send mean letters, and make other and better men pay for them.

7. He disapproves of the plan to return all dead letters, and whenever possible, without opening. He says it is uncalled for, and useless. So it is.

The P. M. G.'s remarks are generally sensible—but several items in the new Post Office bill are silly enough, especially the one which forbids the printing of a card on the envelope of a circular.

THE INDIGENT OF MASSACHUSETTS.—The whole number of persons relieved or supported during the past year, was 21,102. The number of paupers who were probably made so in themselves or others, was 12,168. The average cost of supporting the paupers was $1,44. The estimate value of labor performed by the paupers was $20,899. The cost of maintaining the poor of the State last year, including the interest on the alms house, was $484,869,93. About $250,000 of this sum may be safely attributed to intemperance—a strong pecuniary argument for a stringent liquor law, or for a peculiarly efficacious temperance gospel, or some remedy for so great an evil.

☞ Mrs. Coughlin, an Irishwoman, of Manchester, who was supposed to be killed by another Irishwoman is said by Dr. Simpson to have died of disease of the heart. The coroner's jury say—"that the deceased came to her death by a cause to them unknown."

☞ Mr. John Hastings, of Bath, recently shot a bear in one of his apple trees. Two others have since been seen in the neighborhood.

ICE AND FLOOD ITEMS.—In Albany, N. Y., on Sunday night, at 3 o'clock, a fire alarm was sounded from different parts of the city, adding to the terrors of the scene. Warren & Sons' buildings, Broadway; Gibson & Dalton's planing mills, and Barrett's warehouse on the pier, being all in flames at the same time.

The height of the water rendered it impossible for the engines to reach the scene of the conflagration, but the firemen put off in boats, with buckets, and confined the flames to the buildings where they originated.

About this time, the wind changed, and the weather became piercing cold.

The propeller Western World, lying in front of Barrett's store, caught fire and was scuttled and sunk to save cargo. She had 4000 bushels of corn on board, the property of Crittenden & Co.

Rumors prevail of several lives being lost, and they are probably correct, as part of Greenbush is submerged, but at present we can only learn reliably of two men, being intoxicated and lying on a pier.

Twelve canal boats, three barges, and steamtugs R. I. Grant and H. M. Dowd, were sunk.

Mr. Silliman, a lumber dealer, had a narrow escape with his life. He was in his office, when a rapid rush of water over the district, took place, and he was surrounded by 8 feet of water before he knew of his danger. He cut his way through the roof of the building, and was rescued by a boat.

Ice on the pier, 20 feet high, on some of the railroads 15 feet.

Teams are employed in dragging out accessible dead cattle. Huge masses of lumber, offices, houses, etc., are pouring down the stream, with frightful rapidity.

Near Troy, the buildings from up the river came down with considerable force and lodged against the Troy and Saratoga bridge.

The Rensselaer and Saratoga freight depot, on Green Island, caught fire from the slacking of lime, and was burned.

The railroad trains from all points are stopped, and business is entirely suspended.

Deerfield river, Mass., broke up, and dammed up at the bend in the river at Deerfield meadows. The water and ice set back, undermining and completely destroying Stebbin's grist mill at Deerfield. From 600 to 800 bushels of corn and meal were destroyed. Two families were saved, with the utmost difficulty. The mill is a total loss.

☞ J. B. Smith, the colored caterer of Boston, was once a slave. A Quaker family showed him great kindness after his escape, teaching him to read and write. Since then the family had become poor, while Smith has been favored by fortune. Happening to meet, a few days since, a lady belonging to the family, he made her a handsome present, accompanied with the assurance that so long as he had means she should never want. A little daughter, who was in company with the lady, received a ten dollar gold piece, from the grateful man.

JUSTICE OF THE PEACE.—In the Massachusetts Legislature, a resolve has been introduced, declaring it expedient to amend the Constitution of that State, so as to establish two classes of Justices of the Peace. It is proposed to name one class the "Trial Justices;" these being limited in number, the resolve provides that these shall be elected by the legal voters of the several towns and cities, and they are to have the same jurisdiction, powers and duties, as are now exercised by justices of the peace.

The other class are to be appointed by the Governor, and their jurisdiction is not to extend to the hearing or trial of any cases, or the issuing of warrants in criminal cases.

LOWELL POLICE.—In the Police Court, Friday afternoon, John Ward of North Chelmsford, charged with being a common seller of liquor, was ordered in $200 to the Court of Common Pleas. Thirzah Converse of Tyngsboro', charged with larceny of $140 in gold from Solomon Warden, was ordered in $300 to the same court "Nelly" King was ordered in $200 in the same court to answer to a charge of being a common seller of liquors. John Goulding was convicted on three counts for liquor-selling. He was sentenced on all to $80 and costs, and 140 days in the House of Correction.

☞ In New York at the present time, Madame de Wilhorst is lying seriously ill with inflammation of the brain and eyes. She appeared in opera only two nights at the Academy of Music, and the aggregate receipts were $3,400. Strakosch agreed to pay her one thousand dollars for the season of twelve nights.

CASE OF TOOTHACHE IN A HORSE.—In Ireland, recently, a horse had been condemned as glandered, and ordered to be destroyed. The animal was wasted in condition, and had a profuse discharge from one nostril, similar to that of glanders. The animal occasionally could scarcely chew his food. This induced an examination of the horse's mouth, with a view of ascertaining the state of his teeth. Seeing one of the upper back teeth discolored, a doctor determined on extracting it, fancying it possible that it was affected with caries, and that an abscess had formed at its root, and burst into the nose. On drawing the tooth, which was accomplished by a leviathan instrument exactly resembling the key tooth extractor for the human subject, the surmises were found to be correct; there was not alone decided caries of the tooth, but also a large chronic abscess at the extremity of its socket, the contents of which had forced a passage for itself through the bones into the passage of the nose, profusely furnishing the nostrils with a most offensive discharge, which had been mistaken for that of glanders, and well nigh was the cause of sealing the animal's fate. Since the extraction of the tooth the discharge has ceased, and the horse now masticates his food properly, and has evidently improved in health, strength, condition, and spirits, being now able to do ordinary work. Thus, dental surgery is occasionally as requisite for the horse as for his master—man.

A FAST TOWN.—The letter from Quindaro, Kansas Territory, dated Jan. 15, states that this new town is destined to become the Free State town of the Missouri River. They first broke ground here for grading the city on *New Year's day*, and *only fourteen days after they commenced*, a religious society was formed! S. C. Pomery, S. N. Simson and S. C. Smith were elected Trustees, and an appropriation of five thousand dollars was at once made by the proprietors of the town, to aid in building a church edifice for the "First Religious Society of Quindaro." The letter adds;—

"We hope the right minister will come to us in early spring-time. We will pay a salary of one thousand dollars, without the aid of the Home Missionary Society.—And if some one of the good Congregational ministers of New England, whom we know and love, would come, we will pay fifteen hundred dollars a year."

ILLEGAL.—The Attorney General of New York, in a letter to the Sugar Makers' Association, admits that the teaching of trades in the State Prison is illegal.

☞ A man is on exhibition at Manchester, N. H., who is six feet three inches in height, and weighs only eighty-eight and a half pounds. When he was eighteen years old he weighed 180.

A ROMAN VESSEL.—The Roman bark Consigliere, Jeling, arrived at Boston on Saturday, from Palermo, with a cargo of oranges, lemons, nuts, &c., consigned to Wheeling & Cobb. This is the first Roman vessel that ever visited that port.

"The humble, meek, merciful, just, pious and devout souls are everywhere of one religion; and when our death has taken off the mask, they will know one another, though the divers livery they wear make them strangers here."—*Pike.*

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, gentlemanly young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—(Lasalle Journal.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure in hot if it will not cure, unless the patient is poor and has taken and before commencing its use.* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 1sTuThSh 6m

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more universally patronized than any other ever established in this country. It is the same Richardson's Bitters which has rescued so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

Mercantile Library Association Lectures

THE next lecture will be delivered on THURSDAY evening, Feb 26, By REV. HORATIO STEBBINS, of Portland.

The Albion:

A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.

The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent Journal. Its pages are largely occupied with the cream of English Periodical literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a fireside or intelligent reader. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.

PREMIUM ENGRAVINGS.

Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of

FLORENCE NIGHTINGALE.

This careful prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesforde, who is "Mary Queen of Scots" has been so generally popular.

A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains (wice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass.,
Manufacturer of Hair Dye.

H. HUTCHINS, Esq.; DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

A SUGGESTION.—*Messrs. Editors*:—Since it is evident that we are not to have that Concert from Thalberg, for which a few of us were willing to pay a dollar a ticket; it has occurred to me that perhaps we subscribers to that concert cannot do better with the sums that were to have been thus appropriated, than to pass the same in to swell the receipts at the Benefit Concert to be given for Mr. Pearson on Thursday evening. I shall do thus with my subscription; and have no doubt that, considering both the entertainment itself, and its object, I shall enjoy this concert more than I should Thalberg's. Yours suggestively,

☞ The lecture before the Mechanics' Lyceum, at the Temple on Tuesday evening, was by Rev. Dr. J. P. Thompson of New York. Subject, Algernon Sydney.—The lecture was Historical and Political,—doing justice to the religious and patriotic character of Sydney,—and exhibiting the orator's research and eloquence in a most favorable light. The lecture was well received by a fine auditory.

NATIVES OF NEW HAMPSHIRE IN THE CABINET.—Only four or five natives of this state have been cabinet officers. The first was Henry Dearborn, a native of New Hampton. He was secretary of war under Jefferson's administration, and served all through both terms of ten years. He lived in that part of Massachusetts which was then the District of Maine. The next was Levi Woodbury, a native of Francestown.—He was secretary of the navy about three years, then of the treasury about three, during Jackson's administration; and also four years secretary of the treasury during Van Buren's administration. Lewis Cass, a native of Exeter, was secretary of State six years in Jackson's administration. Daniel Webster, a native of Salisbury, was secretary of state about two years under Harrison's and Tyler's administrations; and then he was the secretary of state again about two years under Fillmore's administration. In this office, he died.—Besides the above, Nathan Clifford of Maine was a member of Polk's Cabinet for a time, being attorney general. We think he was a native of New Hampshire, but we do not know what town.—*N. H. Patriot.*

NEW YORK, Feb. 9.—The following additional testimony has been elicited at the Burdell murder inquisition: Miss Ellen Cunningham being examined, stated that on the night of Oct. 28th, Dr. Burdell left the house with her sister and mother. Hon. Levi S. Chatfield testified that he had been employed by Mr. Thayer, Mrs. Cunningham's attorney, to prepare against Dr. Burdell, for breach of promise of marriage and slander; that he had drawn up the order for discontinuance about the 22d of October last, and that about three weeks or a month after that, Mr. Thayer called on him, and stated that Mrs. Cunningham had been in his office the day previously, and told him that she did not know but that she would have to revive those suits. Mr. Thayer was then sworn as a witness and confirmed Mr. Chatfield's statement. Mr. S. C. Herring testified to supplying a new key for Dr. Burdell's safe, and also that a key found in Mrs. Cunningham's possession was the original and missing key.

WASHINGTON, Feb. 7.—[Correspondence of the New York Evening Post.] There was a flutter at the White House when District Attorney McKeon telegraphed that Fabon's counsel had produced a letter franked by the President, and implicating that functionary in the Central American speculations of General Walkers. Instructions were at once sent from Attorney General Cushing's office to Mr. McKeon, by order of the President, authorizing his assent to the production in court of all letters or documents implicating any functionary of government in the business.

THE BURDELL MURDER.—*New York, 10th.* Before the adjournment of the Burdell inquest yesterday, a telegraphic despatch was received, announcing that a stray and unclaimed trunk, answering to the description of Eckel's, was received at Philadelphia from New York the day after the murder.

A letter was also received from a Mr. Spicer, offering his testimony as a witness in reference to some matters in which Dr. Burdell had figured conspicuously, in connection with a married lady, and had, in consequence, incurred the most bitter feelings of the latter's husband.

☞ In reply to friends who have urged him to prosecute his accusers, Rev. I. S. Kalloch of Boston published a card in the Telegraph of Saturday evening. He says:

It has been painful to me to resist the wishes of those friends who have urged me to take the initiative in a legal action. But I think time will reveal the prudence of my course. I came home accused of heinous crime. I came, not to assail my accusers, but to defend myself. I have expected, (if my enemies were in earnest,) that a complaint would be made to the Grand Jury, which is in my opinion the appropriate mode of ascertaining the truth. In a word, I choose at present to stand, where I have been placed, on the defensive.

LOUISVILLE, Feb. 9.—Smith's block, on Main street, near the Galt House, was burnt this morning. There were six buildings. The aggregate loss is $185,000, which is fully insured. Two of the buildings, belonging to Marten Heiss, were uninsured.

CONGRESS.

MONDAY, Feb. 9.

SENATE.—Mr. Bright presented the credentials of Graham N. Fitch, setting forth that he had been elected Senator by the Legislature of Indiana, and moved that the oath of office be administered.

Mr. Trumbull, of Illinois, said he had placed in his hands, by a special messenger from that state, the process of the State Senate, and also a protest signed by thirty four members of the House of Representatives of Indiana, to the same effect.

The matter was debated at length, when the Senate, by a vote of 33 to 12, refused to refer the credentials and protest to the Judiciary Committee. Mr. Fitch took the oath. Adjourned.

Thus the Senate have disregarded or contradicted their own precedent, made only a few days ago, in the case of Senator Harlan, from Iowa.

HOUSE.—The House passed, by 119 to 48, Mr. Chapman's bill for a wagon road out to the Pacific. It appropriates $300,000 for the construction of a wagon road from Fort Kearney, in Nebraska, via the South Pass of the Rocky mountains, to the eastern boundary line of California, via Honey Lake; the said road to connect with and form an extension of the road already authorized from Fort Ridgely to the aforesaid pass.

The question pending was stated to be a motion of Mr. Barber, to suspend the rules to enable him to introduce the resolution from the Judiciary Committee, that John C. Watrous, United States District Judge for the District of Texas, be impeached of high crimes and misdemeanors.

Mr. Evans said Mr. Watrous had been Judge ever since the admission of Texas, and that immediately after his appointment, suspicions regarding his integrity took place in the public mind. No one in Texas, except a few persons who are engaged in litigation, pretends to defend him. It was due to the purity of the country, and the purity of the courts, and to the administration of justice, that Judge Watrous should be put on trial, in order that he may show whether the charges result from persecution, prejudice, or a combination of circumstances against him. It was mockery for a District Judge in whom the public have no confidence, to be continued in office against the remonstrance of the Legislature of Texas, the bar and the people.

The rules were suspended by a vote of 186 against 32, and the resolution reported.

The further consideration of the subject was then postponed to Saturday week.

Mr. Campbell, of Ohio, offered a resolution that the daily hour of meeting here after be 11, instead of 12 o'clock. Passed. Adjourned.

ASSAULT ON AN EDITOR.—*Middletown, Ct., Jan.*, 9.—Walter Carter, Editor of the Middlesex County Argus, was severely beaten here, this morning, by Captain James De Kay, in consequence of an article in his paper, reflecting severely upon Rev. E. Harwood, Mrs. Harwood, and her sister, Miss De Kay. Mr. Carter is bleeding freely at the lungs, and his recovery is regarded as being doubtful.

NEW YORK, Feb. 10.—Advices from Kansas of Jan. 31, state that the Joint Committee of both Houses have made a report, and recommended the passage of a bill which provides for taking the census, and the initiatory steps for a Constitutional Convention. The census is to be completed, and the returns made before the tenth of April. No one who was not an inhabitant on the first of April is to be allowed to go on the list of voters; being there before or at that time is essential, and alone essential. No guaranty of citizenship, or evidence of its being before that time is required. It specifies that no one shall be recorded as a voter who is not a citizen of the United States.

NEW YORK, Feb. 10.—At one o'clock this morning, fire broke out in the five-story buildings corner of Mercer and Bleecker streets, occupied by Mr. Bosch, as a cabinet warehouse. The building was entirely destroyed, with much of its contents. Loss between $60,000 and $80,000. Mr. Bosch and his wife occupied the upper portion of the house, and perished in the flames.—The other portion of the family escaped.

THE STAR, the new London paper, has reached a daily sale of 27,000 copies, while on extraordinary occasions, as during the Palmer trial, or the day after the Spurgeon catastrophe, it rises to 40,000 to 50,000.—It employs an editor at $50 a week, two sub-editors at $25 a foreign sub-editor at $35, and four reporters at $20. These salaries are less than are paid by the larger and dearer papers of London.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

Sole Agents for the United States and Canada, I. C. BALLWIN & CO., Rochester, N.Y. TUPPLE & MOORE, Auburn, N. Y., General Agents.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strongly durable and completely constructed, and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire manufactory of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette." a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.

PATENTED Nov. 21, 1854, and Reissued Nov. 12, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1855. By the combination of those several Inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Assoc., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

The Nashville Gazette tells the following story of the recent negro excitement in that vicinity.

A few weeks ago, during the existence of the patrol regulations, an old negro man was found secreted in a piece of woods, a few miles from the town, evidently laboring under great fear and trepidation. On being asked why he was there, he said he he was afraid to stay at the house where he belonged, and which was close by.

"What are you afraid of?" was asked.

"Why," he said, "*Old Mistress* had gone to bed with a pistol on one side of her, and a great big knife on the other, and he was afraid she'd rise!"

FROZE TO DEATH.—On Monday morning, Feb. 24, an intemperate man, named Church, belonging to East Douglas, was found, frozen to death, on the road between "Brass Ball" Tavern, in East Thompson and East Douglas. It is supposed he has been to Brass Ball the Sunday evening previous, got intoxicated, and started for home, but was overtaken by the grim King of Terrors, as a penalty for his bad habits. Another man, in company with him, has his feet frozen, and is not expected to survive. Church left a wife and four children.—*Worcester Spy.*

American and Foreign Patents.

R. H. EDDY, solicitor of Patents
(Late Agent of U. S. Patent Office, Washington, and Office of Eddy & Co.)

No. 76 State st, opp. Kilby st, Boston

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Reissues, Extensions, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into Patents in foreign works, to determine the validity or utility of Patents or Inventions,—and legal opinions rendered in all matters touching the same. Copies of the claims of any Patent issued, by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have secured patents for securing patents, or ascertaining the patentability of inventions, unsurpassed, if not immeasurably superior to, any which are offered them elsewhere. The testimonials given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS MOST EVIDENT ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for proficiency in business so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a rare collection of models, drawings, and specifications relative to patents. These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Great Britain, enable him to answer question, to other superior facilities for obtaining patents.

A necessity of a journey to Washington to procure a patent, and the usual great loss there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity and success. Mr Eddy was one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in asserting, inventors could not confer a favor on any person more able and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1854.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business in the Patent Office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding coffee)
141 Washington St., Boston.

SUPPLY the best, finest and purest articles, at lower Cash prices. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarracacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and supplying several articles in their line, and having them put up in their own name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our selling, we annex the following select prices, viz:

6 lb. Souchong Tea, 1.50 | 1 lb. Java Coffee, 1.00
6 lb. Oolong " 1.75 | 1 " Java " 25
6 lb. Y. Hyson " 2.25 | good " 1.00

☞ The Spices are yet unsurpassed; each article, except the Tarracacum, is warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of connoisseurs to our Spanish Coffee, as an article, which is highly esteemed and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process of roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put upon packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 25 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be used by the coffee or not, as best suits the taste, and will found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Biliousness, &c.

Be careful to observe that all our Coffees are our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is to be allowed them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices as compared with those of any other house.

LOTTERIES.

The well known Maryland Consolidated Lotteries, of which R. FRANZ & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to represent the interest of the drawers, and everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected in the business transacted present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are prohibited by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its introduction into the market, has proved itself to be superior to all other cooking stoves ever made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have large stocks of the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

ONE STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance and price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished, and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by claiming priority to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new, celebrated, Musical Instrument, during which time we have finished and sold nearly SEVEN THOUSAND. We have testimonials to the excellence of our instruments, from the most distinguished Professors of Music in almost every part of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there have give one testimonial as follows:

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it has become. It has been tried by Hallace, Dost, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned Reed Instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are entitled to favor with Orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years' experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper course. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored to the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to suffer, and the want of such a remedy has been the cause of so many consumptives among young females headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and where ever that is the case, the Pills will invariably remedy all these evils. In cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "WHITES." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

POST OFFICE REFORM.

Our Postal Institution has been so much improved, and the rates of postage reduced so low, that many may believe that it has arrived at the *ne plus ultra* of perfection.—The public may be satisfied with the present establishment, but that is not a sound argument against improvement. We advocate a system which would double, if not quadruple, the number of letters, pamphlets, &c., mailed. Our present system is like a net work spread over the wide domain of the Union. It is the instrument of diffusing knowledge—promoting commerce and all our industrial pursuits. We have become indeed a great nation—having a population of about twenty-six millions. No other nation has ever advanced in so rapid a career.

In 1790 the receipts were $37,935—the expenses $32,140, and the number of miles of post roads 1,875. In 1853 there were 22,320 post offices—the receipts were $5,994,229—the expenses $8,111,307, and the number of miles of post roads, 217,743.

By the reform we advocate, our postal institution would yield a large net revenue to the public treasury. Let us not, in our wisdom, shut our eyes against the lights of the most civilized nations of Europe; while at the same time we guard against their errors.

The population of Great Britain is thirty millions, and the number of letters mailed in that kingdom is four hundred and eleven millions annually; while in the United States the number is about one hundred millions. While the mass of the English population is almost as ignorant as the white mass in our Southern States, the question arises, why this vast difference in the number of mailed letters? The answer is, because the English have brought, in the course of centuries, their postal institution to a higher state of perfection.—We may have prejudices against the political institutions of the English; still, *licet doceri ab hoste*. If their postal system works well there, yielding a large net revenue, quadrupling the number of letters, since the improvement,—why should not a similar system work well in the United States? "Their post is so cheap, so convenient, and so expeditious, that they write three letters where we do one." And the transmission of money is there perfectly safe—for they have post office "money orders," drafts from one post office to another. They have letter-carriers (known by their dress) under the post office department, in the cities and towns, who deliver the letters to the doors of the persons to whom they are directed. Practically this is attended with no increased expense.

For various other improvements, we refer the reader to the 3d volume of the New York Quarterly, containing an able essay on the subject, and cogent reasons for a reform in our post office system. The writer advocates, 1st, a universal delivery in all our large cities and towns, by mail-carriers, in the regular and constant employ of the post office department; 2d, a method of remitting money by mail, through post office money orders; and 3d, a universal postal rate of two cents a letter, and double that sum when not prepaid.

It is evident that there would be a vast saving of time and trouble in not often going to the post office, should letter-carriers from the post office deliver letters at the door. Those who have a large correspondence, as in England, may have a letter box inside their own door. In large cities, there should be sub-post offices, under the control of the letter-carriers, who should there stamp the date of the receipt of the letters. This may sometimes be a matter of great importance. Letters may be delivered at the sub-office or to the carriers, for transmission. "Dead Letters," those not called for, should not be sent to Washington, but after a fixed time, returned to the writers.

When we consider how much depends upon the National Post Office,—that the annual value of the agricultural and manufacturing productions of the country exceed thirty hundred millions, and that the mail is often the most convenient mode (but not so safe as it should be) for the transmission of money, suggestions for improvement may well deserve the public consideration. Post office drafts, under legal provisions, would certainly afford greater facilities for the transmission of money. And we think that the letter-delivery would be attended with great beneficial results.

PROGRESS.

NO VISIBLE MEANS OF SUPPORT.—In all large cities there are hundreds of persons who have no trade or profession known to the world, by which they can possibly derive an income to support themselves. It is a mystery how they live, but they do live and pay their bills. Some, it is true, are supposed to be "British spies," and others are supported by "British gold." "No visible means of support," makes a vagabond in the eyes of the law; but there will be no more vagabonds if they will all adopt the calling of a Frenchman who was recently arraigned for being one.

"You are a loafer, sir," said the Judge, "a man without calling."

"I beg your pardon your honor, I have a vocation."

"What is it?"

"I smoke glass for eclipses; but just now it is our dull season."

BROKE JAIL.—Two young men broke from the jail in Exeter, last Friday night. Their names are reported as Lamas and Goodwin, committed for stealing. We understand that Goodwin has been since taken, and again lodged in jail. They are supposed to have had help from outside.—*News Letter.*

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. *It takes a scientific extract, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give vitality.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*; *invigoration* by strengthening the blood to brighten and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the mort direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

Morning Chronicle.

THURSDAY, FEBRUARY 12, 1857.

THE SLAVERY AGITATION can't die. It is no matter what Gen. Pierce said about it in his inaugural, or what Mr. Buchanan may say from the steps of the Capitol, on the 4th proximo; what compromises Congress may hatch up, or what resolves political caucuses may pass—they will not all; (says the Newburyport Herald,) have the weight of one feather to quiet the waters. They may increase the storm—they can't still it. The reason is most obvious; slavery establishes a system of labor and social life that is at war with the genius of our other institutions—at war with the moral sentiment of mankind—at war with the interest of the masses of our population—at war with the popular religion of the country, and with the teachings of all the schools and newspapers of the republic, or with an overwhelming majority of them. As a political question, it will have its place in politics, and nobody can banish it; as a moral question, it will be in all the churches, and it cannot be otherwise; and as affecting population, industry, and wealth, it will be considered by all men of perception so long as it lasts. It is the duty of all, however, to keep themselves within not only the letter of the law and constitution, but in accordance with its spirit; not treading upon the rights of others or interfering with their matters further than it is clearly our duty. More than that; we should be governed by even the moral law which teaches forbearance, kindness, charity and persuasion; that we may not rudely trample on opinions or prejudices more than property; that we may consider the difficulties that surround such a question, and avoid hasty and reckless action that would jeopardise the interests of the nation and race. It is only in this way most certainly that emancipation can be hastened; and it is only in this way that slaveholders may hope to command respect; for every violent utterance or act but increases hostility to an institution, that three-fourths of the people heartily detest.

OLD AGE AND RUM.—An old woman aged 72 years, named Shary, was found crazy drunk on Monday in Hanover street, Boston. She had with her a little child who was much frightened. A large crowd surrounded the woman, who was arrested and was brought into the Police Station. The child was sent home.

On Monday morning, at half past 10 o'clock, the body of Mrs. Rose Cook, No. 52 Village street, was found dead.

A Coroner's inquest was held. No evidence was elicited showing that the diseased came to her death by violence. She was shown to be a woman of very intemperate habits, and that she was in the habit of frequently beating her youngest daughter. On the night previous to her death, she was in a beastly state of intoxication, and it seems that the daughter gave her two or three glasses of gin in order to produce stupefaction, before she dared to stay in the room alone with her.

The daughter Catherine, who lived with her, said that she went to bed about 10 o'clock, and that a little before daylight she got up and gave her mother some water; after that she again fell asleep, and waking about 7 o'clock, found her dead, with blood upon her person, which gave rise to the suspicion of foul play. The probability is, that she came to her death through the effects of intemperance.

A boy about sixteen years old, named Frank McElran, living in the same house, going down stairs on Saturday evening, found Mrs. Cook leaning against the bannister, drunk; she asked him to show her to her room; he did so; she then requested to be put to bed; he was seen by the two daughters, who were looking in at the window; hence the daughters circulated the report that they had found him in bed with the mother, in consequence of which he was arrested the next afternoon.

The deceased was about forty years of age. McElran and Catherine were discharged.

The positive testimony of these two girls, may be taken as a fair parallel of the testimony of two men in the great Kalloch Case.

☞ Hon. Albion K. Parris died in the city of Portland on Monday night, aged 71. He had been Governor of the State of Maine, Mayor of the City of Portland, and had held other public trusts. He was highly respected as a citizen and a christian.

SUSPECTED POISONING IN HINGHAM, MASS.—Mr. Hosea J. Gardner, Postmaster of Hingham, died on Sunday. He had suffered many years from a disease of the leg. On the 27th of December last, he fell on a stone step and bruised his hip. The injury was so severe as to confine him to his bed. The family physician could discover no signs of internal injury, nor was there any fracture. During his confinement he was attended by his wife and mother, the former of whom is now supposed to have caused or at least accelerated his death by poison. On Wednesday last he was ordered by his physician to take a dose of salts. On Thursday night, being in great pain, the physician was hastily summoned, and found that the salts had not operated, or but very slightly, although the wife had affirmed the contrary. A quantity of dark fluid which he had thrown up previously to the doctor's arrival, and wished to have preserved for inspection, the wife persisted in throwing away, contrary to the solicitations of the family. There are various assertions concerning the affair, such as that Mr. Gardner had stated to his mother his belief that he had been poisoned by his wife, &c., but none are entitled to credit, until a legal examination has been held.—*Atlas.*

Dr. C. T. Jackson of Boston, has detected arsenic in the contents of the stomach. Mrs. Gardner has been arrested, and in her interruptions of witnesses at the Inquest on Tuesday, she shows her own guilt. The apothecary Jas. L. Hunt, who sold the arsenic, the boy Miller, who bought it for Mrs. G., and the lie she sent back to the apothecary, all point to her as the murderer.

STREET IN BALTIMORE CAVED IN.—On the north-eastern side of the Washington Monument, Baltimore, a few days ago, a singular giving way of the earth occurred near the centre of the street. The solid pavement, earth and stones, all sunk down together, forming a dangerous opening, some ten or fifteen feet deep. At first it was thought that the foundation of the Monument would be endangered, but it was soon ascertained that no damage would ensue.

PUMPKIN HOODS.—The Cambridge Chronicle states that pumpkin hoods have appeared in the streets of that city, and proposes "three times three" for the ladies who have had the courage as well as the good sense to wear them.

Pumpkin hoods are good in the coldest weather. So also were the old red cloaks with hoods or heads, which could be drawn over the caput, or thrown back on the shoulders, at the pleasure of the wearer.

These last mentioned articles, cloaks or riding hoods, having been out of fashion about 50 years, ought to come back again, next winter. They need not be red, nor is it indispensable that they should be of such heavy broadcloth as our grandmothers wore. But a cloak with a hood, ought to form a part of every good woman's wardrobe, in this climate.

NEW BOOK.—Mr. T. B. Peterson, of Philadelphia, has just published a new book, entitled, Love after Marriage; and thirteen other choice Novelettes of the Heart; by Mrs. Caroline Lee Hentz. Complete in one large duodecimo volume, bound in cloth. Price $1.25 in cloth; or in 2 vols., paper, $1.00.

The Saturday Courier says:—The sound, healthy tone of all Mrs. Hentz's stories makes them safe as well as delightful reading, and we can safely and warmly recommend this volume to all who delight in agreeable fictions. Mr. Peterson has also published it in a beautifully printed volume.

Copies of the above work will be sent to any person, *free of postage*, on their remitting the price to the publisher, in a letter.

☞ We learn there is to be an Old Folks Concert in Exeter, on Saturday evening, Feb. 14th, at 7 o'clock—under the direction of our old friend Joseph S. Robinson, Esq. Besides a good selection of old tunes, a glee or two will be introduced; and the Exeter Cornet Band is to perform some of their pieces. Mr. R. is always ready to do his part (which is no small one) for the cause of music; and we doubt not will get up a creditable entertainment. We wish him a full house.

SPANISH QUARTERS.—We understand, says the Boston Ledger, that a gentleman who takes a great deal of silver money has been offered one dollar and one cent for four respectable Spanish quarters, up to the amount of $800. Those who have Spanish quarters in their possession need make no sacrifice in passing them, as they can easily dispose of them at par.

CONGRESS.

TUESDAY, Feb. 10.

SENATE.—Mr. Pierce gave notice of his intention to introduce a bill providing for the time and manner of electing U. S. Senators by the legislature of the several states.

Mr. Rusk moved the reference of the credentials of Mr. Fitch, the proceedings of the Senate, and the protest of the House of Representatives of Indiana relative thereto, to the committee on Judiciary.—Debate ensued—no question taken.

After debate the credentials and protests were referred to the Committee on the Judiciary.

The bill appropriating $50,000 for a survey of the Ohio River and its principal tributaries, was advocated by Messrs. Pugh and Crittenden, and opposed by Messrs. Jones of Tenn., Green and Butler.

Pending the subject, the Senate adjourned.

HOUSE.—The House resumed the consideration of the bill establishing the Collection Districts of the United States, codifying and amending the Revenue laws, etc.; and after a struggle it was tabled by 98 against 85.

The Senate's Sub-Marine Telegraph bill was taken up.

Mr. Washburn of Illinois moved to lay the matter on the table.

Mr. Jones of Tennessee moved to commit the bill to the committee of the Whole on the State of the Union. Disagreed to by 83 against 101.

The question was then taken on committing the bill to the Post Office Committee, and decided in the affirmative, by 99 against 87.

The House then went into Committee on the Tariff bill, and debated—day and evening.

☞ On Wednesday, Feb. 11, at noon, both Houses of Congress attended to the duty of counting the electoral votes for President and Vice-President.

PROSPERITY.—The Franklin Mills Hosiery Corporation, at Franklin, N. H., has, during the last year, made a net profit of $8,384.45, or a little more than 8 3-10 per cent. on the whole capital stock, which is $100,000. The stockholders are confident that it will pay ultimately 20 per cent.—*Patriot.*

LOVE'S APPROACH.

If Love should dare to creep
Our hedge of roses through,
Disturbing hearts asleep,
With airy fancies new,
What shall we do?

We will not show amaze,
Nor, like the vanquished sigh,
But on the intruder gaze,
With mild and steady eye,
And bid him try.

Then if before our feet,
Rare treasure he display,
Pure gold and garlands sweet,
And robes of rich array,
What shall we say?

"Since these, thy gifts are true,
Thou canst not mean us wrong,
And we, if well thou woo,
May give the song for song,
Some day ere long."

EXTENSIVE DENTAL ESTABLISHMENT.—Few of our daily readers have any idea of the extent of this business, which of late years has assumed so much importance. Being among those who have little occasion for the services of a dentist, we had no conception of the number of patients daily treated, until a few days since, when we paid a visit to the rooms of Drs. Cumming and Flagg, 25 Tremont street, and we were well paid for the time spent there. Many interesting facts were communicated to us, and many of the finest specimens of art shown us, which we verily believe challenge comparison in this or any other country. The increased demand for dental science has engaged the attention and study of some of the most eminent scientific men in this country; and these achievements have been fully adequate to the wants of the community. The present treatment, compared with that of twenty years ago, abundantly shows that the improvements in this department of science have been fully equal to the progress in other branches of skill.

Drs. Cummings & Flagg were among the first to make a speciality of Dentistry, and they have, for many years, devoted their entire attention and constant study to place themselves at the head of their profession. Their business has increased from small beginnings, and by years of patient industry, until now they have the most extensive establishment in this country. Every attention is paid to the comfort and convenience of patients. Five operating rooms are in daily use, by which liberal arrangements persons are always treated as privately as at home, and are spared the unpleasantness of undergoing operations in the presence of strangers.

By these means they have met with the most complete success. Their beautiful work has too frequently been the subject of premiums and diplomas from Fairs and Institutes in this and other cities, to need commendations from us. They exhibit specimens at their rooms, of the various styles and most approved methods, which are triumphs of art, and need only to be seen to be appreciated. The gentlemanly proprietors of this complete Dental Establishment will always be pleased to give their advice and the result of their long experience, in cases requiring the opinion of practical scientific dentists.—*Boston Journal.*

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. J. Sansard, Boston, Mass, Manufacturer of Wigs, &c.

H. HUTCHINS, Esq: DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

For the Chronicle.

CITY HALL.

That our City Collector may have sufficient business on hand the coming season, I would suggest, in addition to the proposition of F. N. in the Chronicle, pertaining to the new Market and Lyceum Hall, which he so ably advocates, that we should build one large store for Dry Goods and Groceries. An immense revenue to our city coffers might be obtained from such an arrangement. Add to the same concern a Flour and Corn department; and by the way a Liquor establishment might be added with great profit, as the demand for that article is much on the increase at present. The articles above enumerated could be purchased at a saving to our citizens of at least from 6 to 12 per cent. A great saving in our yearly accounts would be seen.

Such an arrangement will of course meet the opposition of interested parties. But that could be compromised by giving clerkships to some of them; and let the others go West, or follow some other employment.

The above may not meet the views of many at first sight, but opposition is always manifest against great reforms. As it regards a Lyceum Hall, in which F. N. is much interested, we find on enquiry that our City Government receives only $6 per evening for licenses for travelling exhibitions. But by owning the hall, the City might more than double the amount, besides crushing down all opposition. There are some other subjects I may hereafter propose for City speculations, but will omit for the present. Our City might have been largely interested in rail road speculation, had it not been for some old fogies who opposed the plan, a few years since. QUERY.

Appendix.—Neither of the Lyceums are full this winter:—and a *second* one has *never* been needed here because the *first* was too full. Besides, it is probable that the rivalry between two, has sometimes made both of them larger than either would have been alone. As to the profits of a hall or building to be let for public assemblies, the question may be easily settled by referring to the history of the old Assembly Room, Franklin Hall, Congress Hall, the Cameneum, and the Temple.

THE GREATEST OF ALL IS CHARITY.—We will venture to use this sometimes obnoxious word "charity," in preference to aid, assistance, or any other, because it is more variously expressive, and answers our meaning in this instance better. Let us see:—A young man comes to live in a community, and so conducts himself in an honorable profession, as to win the confidence and esteem of all, and the patronage of many. A few years of industry and care, gather about him many valuable and treasured articles—conducing to the comfort and enjoyment of life. He is ever ready to respond to a call for aid "in his line,"—and well minds his own business, letting other people's alone.

In an unexpected hour, the fire is upon him; and everything is burnt up—the only article saved, being himself. No blame can be attached to him for the fire; and although insurance might have protected him somewhat from loss—still, as he was *not* insured, the public, especially his friends, have much sympathy with him.

Several young ladies and gentlemen kindly volunteer their aid in giving that public and those friends an opportunity to *show* their sympathy; and—in another column we publish the programme for the Concert this evening: for of course every reader will understand the case we have been referring to. Among other good things in the programme, is the beautiful and popular duet, "Hear me, Norma;" a comic duet, by a couple who will *make* it comic enough; and a splendid duet, "Love's Approach," as sung by Parodi and Madame Strakosch (the words of which we print this morning) to hear which last alone, will be a real treat.

The entertainment itself is richly deserving a full house; and in its object, doubly so. If only those should attend who have in some way, directly or indirectly, been favored by the beneficiary of the occasion, the Temple wouldn't hold the half of them.

☞ We learn that the Rockingham Bank corporation have purchased the store now occupied by Mr. Benj. Carter, jr., No. 1 Exchange Buildings; and will transfer their quarters to that location during the coming spring. The site is an excellent one; and of course the building will be altered and improved for the purpose.

When the new Post Office Building shall be built, opposite us; and a new City Building erected, in place of the abominable old Brick Market; and the new Bank bulding is refitted; and the store occupied by H. H. Ham and the Chronicle Office, has a new front and is otherwise improved,—old Pleasant street will "look up" as it never did before. With a Bank on each side of us, to furnish the funds; a Custom House in front to guard us; a watch-maker's establishment under us, to keep us up to time; and the city fathers so near, to give counsel and advice—we should think the Chronicle *might* "stand,"—we had almost said "stand the fire,"—but we don't want to do *that* again, so we'll do the best we can to stand without it.

GAS LIGHT CO.—The Portsmouth Gas Company, at their meeting Tuesday, declared an annual dividend of six per cent. from the earnings of the past year. The Company is free from debt, and have a surplus of one per cent, after paying this dividend; they also divided six per cent. on the previous year. The report made at the meeting gave a favorable impression of the judicious management of the directors.

The Dividend is payable on the 10th of April.

The following officers were elected for the current year.

James W. Emery,
John Knowlton,
Micajah C. Burleigh,
Benjamin Cheever,
Thomas L. Tullock, } *Directors.*
David Kimball, *Treasurer.*

FREE LIST.—In common with every other newspaper, we have on both our Daily and Weekly lists, a considerable number of subscribers whose names have been placed there at various times, in consideration of some service which was performed, promised, or expected. We deem it advisable to revise our free list occasionally; and we may in our clipping, part company with some with whom we should like to continue, could we afford it better than they.

On our Weekly list, there are several "Agents" who have sent us no subscribers or money—though they are receiving our paper free for such service. We furnish six copies for five dollars—and for an agent to procure five subscribers is not too much for us to ask.

ASSEMBLY AT CONGRESS HALL.—The next of the series of Old Folks Dances will take place on Friday evening, the 13th inst., at the above named hall, under the direction of Mr. Lamprey.

OFFICIAL.

DEPARTMENT OF STATE.
Washington, January 27th, 1857.

Information has been received at this Department from George Hutton, the United States Vice Consul at Paris, of the death of Mr. Charles Morey of Portsmouth, New Hampshire. Further information can be furnished by addressing a communication to this Department.

WASHINGTON, Jan. 10.—*U. S. Supreme Court.*—No. 254. N. Clark *vs.* B. C. Clarke et. al.; on appeal from the N. S. Circuit Court of New Hampshire. On motion of council for the appellees, the case was docketed and dismissed with costs.

No. 255. In the matter of Ferdinand Clark, a bankrupt on the appeal from the Circuit Court of New Hampshire. On the motion of the counsel for the assignee, the appeal was docketed and dismissed with costs.

Doubtless important to the parties, and intelligible to the lawyers. But to the general reader it conveys no meaning whatever.

THE BURDELL MURDER.—*New York, Feb.* 10.—In the Burdell inquest this morning, the proceedings were not very important. Dr. Burdell's ledger was produced, which contained a charge, entered on the 28th of October, in his own handwriting, showing that he was actually in the city on the day of the alleged marriage. This fact is confirmed by a Director of the Artizans' Bank, who states that Burdell attended a meeting of the Board on that day. In the afternoon a Mr. Farrell testified that on the night of the murder, he was passing by Burdell's house about half past 10, and saw a man pass in; immediately after heard a cry of murder, and a fall. He stopped to listen, when a man in his shirt sleeves opened Burdell's front door, and ordered him away. Farrell was subsequently carried into another room, where, from among a number of persons, he pointed out Eckel as the man. The latter appeared dumb-founded, but uttered no word.

BALTIMORE, Feb. 10.—By the arrival of the bark Blue Wing, we have Rio Janeiro advices to the 24th of December. The stock of flour then on hand was 53,000 brls., and it was impossible to force sales at any reasonable reduction. Moderate sales of coffee were making at previous quotations, the market continuing to gain strength, but without any actual advance in rates.

The "fuel famine" in Cincinnati is at an end. The Council Committee have given notice that they will receive no more coal, except such as is already contracted for. They have an abundance of fuel on hand, awaiting distribution.

The vote of New England, at the Presidental election, was, in the aggregate 486,022, while that of New York was 595,960, and of Pennsylvania 460,276. This shows the population of New England to be not much more than that of New York. Yet while New England has 54 electoral votes, New York has but 35 and Pennsylvania 27. New England, in fact, occupies the same position as the South toward the rapidly-growing States of the centre and west. The master growth of the country seems to be neither in New England nor the South. A very palpable reason for this lies at the surface. New England has long been drained of her native population to people the Middle States and the West, while she receives no foreign emigration to compensate for the loss. Thus, the great State of Maine, with wonderful facilities for commerce, inexhaustible forests of timber, and a fertile soil, makes but slow progress, while States and territories away off in the northwest, difficult of access, increase surpassingly.—*Phil. N. Amer.*

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters appertaining to the Copyright of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications, and decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and European Patents, enable, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. I have every reason to believe, that in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, diligence, and fidelity than Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot confer a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration of their claims.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

"PATENT OFFICE, Jan. 1, 1857.

Among the many persons with whom I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents."

TREMONT MILLS.

Tens, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee.)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at lowest Cash prices. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Cassias, Cloves, Cream Tartar, Tapioca, &c, Prepared Dandelion Root, &c, &c.

Having every facility for manufacturing and supplying the several articles named, the public may rely upon having their pure and genuine article, and best any name and label, "TREMONT MILLS, E. E. DYER & CO."

To give customers some idea of our sales, we extract the following sales of prices, viz:

6 lb. Souchong Tea,	1.50	1 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.80
5 lb. Y. Hyson "	2.00	5 lb. Rio "	1.00

☞ The Spices are put up in tasteful packages, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our Spanish Coffee, as an article which is highly nutritious, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process is roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is recommended by Family Grocers generally in city and country, and bearing our trade mark, "Chemical grinding coffee," may be relied upon as the genuine article. Dandelion Root is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and hold in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being usually equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Biliary affections, &c.

☞ Be careful to observe that all our Coffees have our trade mark, "Chemical grinding coffee."

☞ To prevent imposition, we put up our goods ready made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our goods and our prices as compared with those of any other house.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and are conducted under the direction of one who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of persons who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that persons have a legal right to send Orders for tickets to Maryland, as lotteries are legalized by special law in that State. A lottery is drawn every day of the month. If no particular plan is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No Prizes are paid out of Maryland, but money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after the drawing.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than it have a large invoice of all the different sizes, for wood, or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Pillar, Box, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Open Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stove Pipe, Elbows, Stove. Also, Shop and Box Stoves, Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the largest assortment, of the best patterns, ever offered in this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DOUBLE SWELL.**

Secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, 1855.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to some manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of the new celebrated Musical Instrument, during which time we have finished and sold nearly SEVENTEEN THOUSAND. We quote testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately added one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. Mr Bristow has been playing it to a large Dock, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched.—Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are in doubt, that if they will call and see, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45

A DISCREET CLERGYMAN.—A Boston correspondent of the Salem Gazette relates the following anecdote;

"At the house of an eminent, though not aged D. D., in Boston, there was visiting a lady of brilliancy and accomplishment. A carriage drive before dinner was proposed to the clergyman, his wife, and the lady guest. The wife of the clergyman was prevented from being one of the party, and a chaise ride for the clergyman and the strange lady was concluded on. Whereupon, by direction of the clergyman, two chaises drove up at the appointed hour, into the hinder one of which the clergyman seated the lady, and handed her the reins, and then took his seat in the forward one, and thus in grave procession the two chaises proceeded, each with its single occupant, through the streets of this and a neighboring city, till they reached the open country, and after a short and very refreshing drive, returned to the clergyman's house in the same demure and unimpeachable manner. Suffice it, that such a careful minister, in a long pastorate, does not incur reproach of a certain kind."

BARTER TRADE.—One of our enterprising Claim Bank financiers opened negotiations, Thursday forenoon, in the market, with a countryman, whose wits had been sharpened by long residence in the vicinity of "Poplin Lighthouse," for his charcoal, offering him one bushel of clams for four of coal, and to take the whole load, amounting to forty bushels. The coal merchant, thinking he could readily enough dispose of one bushel of clams, and expecting the money for the balance of his stock, joyfully "dumped" his load as directed, thankful for the good fortune in getting so soon away from the storm. But judge of his surprise when, after the coal was snugly stowed away, our financier coolly proceeded to measure up for him *ten* bushels of clams! Loud talk ensued, with angry words and threatening, but the coal was finally re-loaded, to be distributed about town, and the bivalves were left to waste their fragrance in the custody of their original proprietor.—*Newburyport Herald.*

During the late cold weather, persons crossed the Catawba river, South Carolina, on ice, astonishing the oldest inhabitants. A gentleman crossed Albemarle Sound, from Plymouth to Edenton, N. C., on the ice, a distance of twenty-four miles. Wild geese and ducks at the South suffered severely, and many of them were so badly frozen, that they were easily approached and killed with poles. At Petersburg, Va., eighty rats were found frozen to death in the basement wall of an old building.—The Etowah river, in Cass county, Ga., was frozen over on Saturday week, and men crossed on the ice, which was five inches thick. Miss Carter crossed the Chattahoochee river on the ice, a thing never seen or heard of by the oldest white inhabitant. Horses and carriages crossed the Potomac on Thursday; ice five inches thick.

ABOLISHING INTEMPERANCE BY LAGER-BIER.—A distinguished public man in New York said to us the other day: "That lager-bier is going to be a great thing for Temperance. Open plenty of lager-bier shops, and your work is done." What was said in reply to this view of the question we will not here record. The demoralizing and dementing effects of this liquor, now used by our fashionable drinkers, and just introduced into the hotels, will appear, from an article by Dr. Dixon of the Scalpel. We will say here, that this proposition to eradicate the evils of drinking by multiplying lager-bier shops, reminds us of what is told of a man who was at the expense of keeping a great dog, for which he no use, and which his wife was constantly urging him to sell. One day he exclaimed with a congratulatory smile, (somewhat such as was displayed by our friend above) "Well, wife, I have at last rid you of a nuisance. I have disposed of Jowler."—"Good!" exclaimed the wife, "that will be a great expense saved. What price did you get for him?", "Fifty dollars, my dear—that is, I swapped him, and took in exchange *two puppy dogs*, at twenty-five dollars a piece."—*Albany Prohibitionist.*

FATAL BARBARITY TO A CHILD.—Anna Hilton, a girl nine years old, was adopted from the Five Point House of Industry by Mrs. Sinson Decker, at Long Neck, Staten Island. On Wednesdy last the child died, and a coroner's jury found that she "came to her death by being beaten in a brutal manner, from exposure, and from a want of proper nourishment, at the hands of Mrs. Matilda Ann Decker." Mrs. D. is now in Richmond Co. Jail. The testimony shows that the child was made to do the family washing in an open yard, in the severest weather; that she had nothing on her feet, and but scanty clothing on her body; that her feet were frozen, and she put them in the oven of the stove, where they were burned to a blister; that she could not walk, but was made to do housework still, creeping about on her hands and knees until her knees were dreadfully lacerated; that she was habitually beaten with a broomstick and treated with the utmost cruelty in every way—in fact, deliberately starved and pounded to death. Of course there is great excitement in the neighborhood. The Directors of the Mission have taken the business in hand, and the whole matter will be sifted thoroughly.—*New York Tribune.*

SUDDEN DEATH.—Mrs. Walker, wife of Capt. W. T. Walker, whose decease is recorted in to-day's paper, died very suddenly in this city on Saturday. She had been sick for sometime past, and was on her return from Oswego, New York, where she had been for the benefit of her health.—She arrived at Providence on her return home, on Friday evening, and spent the night there. On Saturday morning she took the cars for this city; arrived here, and died in a carriage before reaching her home in Hillman street. She was accompanied on her journey home by a female friend, to whom she made the remark before the cars arrived at the depot in this city, that she thought she was dying.—*New Bedford Standard.*

CASE AND OPINION.—Some time since a young gentleman about town went to consult a wealthy lawyer, about carrying off an heiress.

"You cannot do it without danger," said the lawyer: "but let her mount a horse and hold the bridle and whip, do you then get up behind her, and you are run away with by her, in which case you are safe."

Next day the lawyer found his daughter had run away in the aforesaid manner with his cunning client!

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure almost that mere medicine cannot cure. Hence its power of *strengthening and vitalizing the* blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID
Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID
Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID
Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

THE HINGHAM MURDER.

From the Traveller it appears that Mr. Gardner was in his religious sentiments a Universalist, while his wife was a zealous member of the Baptist church. On the occasion of the funeral, she was unwilling that the friends of her husband should call upon a Universalist clergyman to conduct the services, but at length yielded so far as to admit ministers of both persuasions. The friends of the deceased not being satisfied with the appearance of things, and having their suspicions aroused by daily increasing evidence of foul play, caused the body to be disinterred, and the organs of the viscera submitted to the examination of medical gentlemen from Boston.

Mrs. G. was arrested on Tuesday.

The warrant was read to her by Justice Lewis, in a voice tremulous with emotion. She sat unmoved throughout, and in responding to the usual interrogatory, replied with some emphasis—"Not guilty—not guilty. I am perfectly innocent before my Maker, and what such a story could be made of, I can't imagine. It is true, I mixed gin and sugar and gave him, but I never sent for any poison, and never had any in my house in my life."

Dr. Stevenson gave the following testimony:

"On the 23d of January, (as he thought) he went to Mr. Gardner's office; Mr. G. wanted to see me privately; told me he was afraid of his life; fearful to go to sleep nights for fear his wife would take his life; stating her language and conduct, he said she told him he was a stinking mass of corruption, and that nothing would take the stink out of him but a *ground sweet;* he said she had threatened to poison him, and that she had the same antipathy against a daughter of his; stated that he didn't know of any object but to get clear of him, for she had accused him of being impotent, (which was a fact) and that she wanted to get clear of him for the sake of more free intercourse with a man with whom she had been very intimate; he observed that she had used some violence towards his children, without cause. I have never had any trouble of any kind with either Mrs. or Mrs. Gardner; had known them for many years; never saw any indication whatever of insanity in Mr. or Mrs. Gardner, and was in the habit of meeting them almost every day."

During the Doctor's testimony, Mrs. G. interrupted and said:

"What ever led you to think I ever intended to poison him?" but without waiting for a reply, she added—"That is not true. Before my God it is not true. Well, I do think the language I have heard him use proved him an insane man. On Thursday I felt afraid he would really make way with himself. Dr. Stevenson has told many things that are not true. Dr. Stevenson was a great enemy to me, and I always supposed he was. Mr. Gardner kept the post office open a good deal on Sunday, and I spoke to him about it; told him it was not right, and asked him what the people would think of it; he replied, 'D——n you, I'll knock you down if you give me any more of your d——n sauce;' he said, 'D——n you, it is none of your d——n business.' He appeared strange after and before he was hurt, and perhaps I could tell you many things which would appear as if he was insane. He said one morning, 'I am going to turn this house inside out.'"

Jas. L. Hunt, druggist, testified that about the 22d he sold some arsenic to a boy, who said he wanted it for Mrs. Gardner; he labelled it with an engraved death's head and the word "poison," and told him to be careful with it. The boy soon came back and said it was not for Mrs. Gardner, but for a Paddy woman; the boy has since told him that it was Mrs. Gardner who sent him, and she sent him back with the explanation.

"Here the witness was interrupted by the defendant, who said: 'O, that—I know all about it. I *did* send for it, but it was for a woman that lives at the Cove; and suppose I did get arsenic, it does not follow that I got it to poison Mr. Gardner with. As to prove anything you can't.—You might as well try to prove that he did t himself, as to try to prove that I did it. Why I got this boy to go, 'twas because my boy was away. She wished me to get it, and I got the Miller boy to go. She lived at the Cove, and so wanted me to go.'"

Charles Augustus Dodge, the boy, confirmed the testimony of Mr. Hunt. Reuben Reed testified that Mr. Gardner had told him he was afraid of his life.

We have rarely seen a clearer case of guilt. The great difficulty at the trial will be to find twelve jurors who have not made up their minds.

As to the result of the examination, Mrs. Gardner was committed to jail, to be tried for murder, on the second Monday in May.

The Coroner's Jury, after a few moments deliberation, returned the following as their verdict:

"That said Rosa J. Gardner died in his own dwelling on the first of February instant, by a deadly poison called white arsenic, administered by his wife, Abigail Gardner, between the 27th and 31st days of January now last past."

The reporter of the Boston Advertiser says;—"The result of the investigation into this case is that which has generally been expected by the people of Hingham. Its justice is not questioned by any one.—The brute-like actions and conversation of the woman who committed this dreadful crime, testified to upon the trial, reveal a nature, the only impulses of which are those of the animal, and not of the human being. There is no difficulty in understanding the process by which she brought herself to the commission of the deed. Her intimate acquaintance with another man, had turned every spark of affection which she ever had for her husband, into the most bitter hate, and in order to be able better gratify her illicit desires in respect to this other man, she took the life of her husband. The evidence of her guilt seems too conclusive to be overcome, and it is more than probable that she will suffer the just penalty for her high crime."

REV. MR. WALLACE.—We learn from the Manchester American, that the Rev. C. W. Wallace, pastor of the Hanover street church, was recently greeted by a surprise party of his people, in token of their regard for him; he was presented, in behalf of the gentlemen, with a photographic likeness of the six deacons of the church, with their pastor in the centre. In behalf of the ladies, Mrs. Wallace was presented with a splendid tea service of plate.—Mr. Wallace had been connected with this church *seventeen* years, which was the first church formed in Manchester. There has been no death or removals among the deacons, nor any other change except the addition of two to their number. Mrs. Wallace is the only minister's wife surviving, who was there at the commencement of the church. During this time every adjacent town has buried their minister's wife. With respect to harmony and attachment between minister and people, it has been a seventeen year *of plenty.*

LECTURES ON CRIME.—Last Sabbath, Rev. Charles Spear, well known as the prisoner's friend, delivered two lectures on the subject of crime, in Lowell, Mass. Mr. Spear gave many interesting facts. 1. That 30,000 drunkards die annually in this country. 2. That there were confined at the present time in this country about 30,000 prisoners. That in England there were about the same number. In France about 20,000 convicts in their various places of confinement. 3. Twenty thousand prisoners were discharged annually in the United States. 4. Of grogshops, there were about 3000 in Boston; 10,000 in New York, and about 8000 in Philadelphia, and he believed 400 in Lowell.

To prevent crime, Mr. Spear recommended—1. To make home more attractive, to keep our young men away from places of intemperance. 2. In our prisons to have a classification. 3. To take more interest in the discharged convict.

A GREAT PRODUCTION! an article signed "Stockholder," published in many Portsmouth and Concord papers favoring the lease-scheme of the two railroads. Mr. Bag-o'-Wind must have collapsed a good deal before he finished the production. How much a *line* did the railroads pay?—*Manchester Mirror.*

The union of railroads is a vexed question for the Union Democrat to handle. Its opinions are right, but some of its party stand guilty on the record, the same as some of the Republicans. Show us any party that is not corrupt in nearly all the leaders and nearly all its newspapers, on the monopoly question, and we would favor it.—*Mirror.*

The *Manchester* papers will "collapse" if something dont turn up to relieve their minds of the tremendous pressure caused by the union of "the two railroads." We don't think there'll be "much of a shower," however; after all; if the builders and owners of a railroad or two *do* choose to try to make their stock pay. We shall see. Manchester has not generally been regarded as the whole State, down this way.

AFFLICTION WITH FESTIVITY.—We learn from the Nashua Telegraph that a large party went up from Nashua to South Merrimack, last Thursday, to hold a complimentary Levee at the house of Rev. Daniel Sawyer, the Congregational minister of the latter place. The occasion was one of mutual gratification. A sad event occurred on the same day, mingling affliction with its joys; it was the death of a daughter of Mr. Sawyer, who was his only child, and a young lady of promise. Truly the house of "feasting" and of "mourning" were in this case combined.

Correspondence of the Chronicle & Phenix.

A TEMPERANCE MEETING.

WESTVIEW Feb. 9, 1857.

Uncle Toby:—Last Wednesday, I had the pleasure of attending a Temperance Meeting, at Marlboro, N. H. It was the first temperance meeting of the season, for you must know a deadness seems to be resting on the temperance cause here.—And, indeed, I do not wonder, for how discouraging it is, when a large party ranges itself as a party against the execution of law, and against the temperance cause. It is, indeed, disastrous, but temperance men must remember that God reigns, and that the temperance cause is His cause.

But about that temperance meeting, for I have digressed. It was the meeting of the Cheshire County Washington Total Abstinence Society. I think the attendance was better than last year, and we had a very interesting meeting. The clergy were well represented, for there were ten ministers there. We had some able speaking, and each seemed to wish to encourage each in the good cause. The opinion seemed to be that our Temperance law was an excellent one, and that more energy and hearty co-operation with each other in the execution of it, would change the face of things.

The necessity of using moral suasion more than it had been used of late, was dwelt upon. A new class of young people had grown up, who had never had the pledge presented them. It was agreed that the pledge should be circulated, and that the signing it would be a great safeguard, especially to the young. Teach them eternal hatred to the intoxicating cup, as Hannibal was taught to hate the Romans from his infancy. When children were old enough to drink, they were old enough to sign the pledge, after being made to understand the import of it.

One gentleman, the Rev. Mr. Law, Universalist, took ground against the law.—He said, put the temperance cause back where it was before laws were passed, and votes cast against intemperance, and he would bring about a greater reform, with moral suasion, than anything else had done. Or, he said, go back to the law as it stood some years ago, and execute it, and there would be a better state of society than now. Reply was made, that his idea of going back to the old law was suicidal, as he had just been advocating no law. He was referred to God's laws, which were good laws, and were all broken daily and hourly. The breaking of a law was no proof that there should be no law. He was asked by a brother Universalist present, Rev. Mr. Perkins, I think, if he would say as had been said, that if Moses had not gone up into a mountain, and invented the ten commandments, the world would have been a great deal more moral and peaceful, and happy, than it now is. Rev. Mr. Law was told that if he lived in this county, and fought intemperance as long as others who were present, he would find that there were those on whom moral suasion would not have the least effect, even when it came from the drunkards wife, when, with streaming eyes, she would beg the rumseller to sell her husband no more liquor.

Mr. Law was told that his arguments were very much like those of *Rex?* Mr. Lovejoy in his political lectures in this State. Finding the sentiment of the meeting wholly against him Mr. Law concluded not to urge his sentiments further, at least he did not. Whether he was at all convinced, or not, is another question.

In the reports from the different towns represented in this meeting, there were some encouraging things. And the sentiment seemed to be, that there was no reason for discouragement, though the ruling of judges, and the obstacles thrown in the way of the execution of the law, were disheartening. It was stated that there was a rousing up all over the State, in the friends of the cause, and there was being an organization formed, whose object would be greater efficiency in executing the law. Meetings and discussions were recommended to be kept up the greater part of the year, for the formation of a healthy public sentiment, and the pledge to be circulated, and all names obtained to it, that could be. It was thought that in the end, it would prove better that the execution of the law had been so long delayed, as rumsellers could not say that they had not had time to quit their infamous traffic.

There, Uncle Toby, I believe I have given you the "gist" of the matter, and if my article is not so long as to have wearied you and your readers, I shall be thankful. I, for one, am very sorry that the winter has so nearly gone, and so little been done in holding temperance meetings, discussions, &c. Public sentiment is to be held responsible for the non-execution of the Maine law, and those who would prefer that that law should be broken by their own children, rather than not have it broken at all, (for it is feared that there are such,) may live to have a terrible retribution come upon them for the stand they have taken. God grant that their eyes may be opened before their children become hopeless drunkards, sacrificed on the altar of party to the demon Intemperance, by their own parents, to satisfy party hatred and party strife.

An Official Report of the meeting at Marlboro, and the Resolutions passed, will also be sent for insertion in your excellent paper. ELSIE.

HE HAS NO WIFE.

He has no wife—he's quite alone,
Unsought, unhappy, and unknown;
His days pass by, nor pleasure give,
He breathes, methinks, but does not live.

He has no wife—he does not know
The joys, from wedded life that flow;
His absence there is none to mourn,
No eye looks bright at his return.

He has no wife—his joys are few,
Though he is rich and healthy too,
How selfish he who will not share
His wealth with woman, chaste and fair.

He has no wife—no partner's smile,
Or lisping tongues his hours beguile;
His heart no kind attachment knows,
Regardless of both friends and foes.

He has no wife—and is it meet,
That man should live to drink and eat?
For this did the Almighty hand
Form man the ruler of the land?

He has no wife—well, be it so—
His days are numbered here below;
He soon must go whence none return,
And then—his dog and cat will mourn.

ACCIDENT AT A LAUNCH.—A ship of 1000 tons, owned by Mr. Edmund Kimball, which was attempted to be launched from the stocks at Marblehead, on Tuesday last, broke down, throwing out her ways and settling heavily upon a ledge of rocks. The ship sustained considerable injury.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it well testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye impart to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.

H. HUTCHINS, Esq; DEAR SIR:—Having tried your HAIR Dye, which you gave me for trial, I have found it to be superior to any other HAIR Dye I ever tried, both in its simplicity and most natural color. The application requires no trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

LOCAL.

PARSON WALTON'S CHURCH.—It is known that the Sunday School Room of the Stone Church, was formerly the Meeting House in which the late Rev. Joseph Walton preached. The building having become time worn and obsolete, was sold, last Saturday, with the fixtures, for $134; and a larger and better house is to be erected in its place. The old house has a history worth recording and remembering,—and some of its occupants were men of upright honesty, more honorable than the house. Some suitable notice of both the house and the people will be taken hereafter.

CITY COUNCIL.—In Board of Aldermen, Thursday evening, Feb. 12.—The Freewill Baptist Society asked the use of Jefferson Hall, for a Fair, on the evening of Wednesday, the 25th instant; which was granted.

John Christie and others also asked for the use of the Hall, on the evening preceding election—which was granted, with the provision that it may have been previously engaged to other parties.

Daniel Spinney and others presented a petition for a Fire Bell to be placed on the Pound; which was laid on the table.

☞ Mr. Pearson's Benefit Concert, on Thursday evening, was well attended; and everything passed off pleasantly and creditably to all. We shall have something to say of the performances to-morrow.

☞ The morning train out of this city, on the Eastern Railroad, on Thursday morning, was detained an hour or two by the breaking of the flange of a car wheel, and the consequent staving up of a few rails. The accident happened a mile or two this side Greenland Depot, and the train was backed slowly to this city, and another car substituted. The detention caused other trains to be somewhat behind time.

OUR TREAT.—We don't mean that we "treated" anybody, but the delicious refreshments Capt. Clark furnished the Chroniclers on Thursday afternoon. And a good time we all had of it, too—"discussing" (though there was but one opinion concerning them) prime new dates and figs, sour lemons and sweet oranges, sound nuts of various kinds, excellent apples and confectionary of all sorts, including some (which made) yet more "sound" than the nuts, and other (cough candy) to *prevent* "sound."

Capt. Clark, as everybody knows, keeps directly beneath the Chronicle office; and has just received a fresh assortment of fruit, confectionary, cakes, &c. Being a strict and consistent temperance man, he has never dealt in any objectionable articles, (save cigars, which "*are* objectionable to some folks)"—and perhaps there may be those in the community who would prefer to patronize such a saloon, did they bear this in mind.

☞ There were some errors in our notice of the Portsmouth Gas Light Co.—for which the officers of that Co. are not responsible. We therefore republish the notice, with the needful corrections.

GAS LIGHT CO.—The Directors of the Portsmouth Gas Company have declared an annual dividend of six per cent. from the earnings of the past year.

The Dividend is payable on the 10th of April.

At the Annual Meeting of the Co. on Tuesday, the Directors reported that the interest on the debt (created by extensions) is paid up, that the Company is free from floating debts and bills, and have a surplus of one per cent, after paying this dividend. The report that was made at the meeting gave a favorable impression of the judicious management of the directors.

The following officers were elected for the current year.

James W. Emery,
John Knowlton,
Micajah C. Burleigh, } *Directors.*
Benjamin Cheever,
Thomas L. Tullock.
David Kimball, *Treasurer.*

DROWNED.—A man named Charles Besto, of Taunton Mass., was drowned on Saturday night last, under the following circumstances: He went out upon the mill dam near his house, to do some job of work, when his foot slipped and he was precipitated over the dam. His foot caught in some part of the dam as he fell, and his body was found Sunday morning suspended over the dam with the water falling over it.

☞ Accounts of damage by flood and ice, continue to come from Albany, Greenbush, and Hudson, N. Y., and Havre De Grace, Md.

CONGRESS.

WEDNESDAY, Feb. 11.

In convention of the two branches the votes of the several States for President and Vice President were counted, and the President of the Senate formally declared that James Buchanan was elected President, and John C. Breckinridge Vice President. The vote of Wisconsin was included in the count, but as the electoral vote of that State was not cast until the day after the day prescribed by the Constitution, an animated discussion arose upon the propriety of counting that vote. It being ruled that the subject could not be discussed in convention, the convention dissolved.

The discussion was continued in both branches until the adjournment, without coming to any final action.

In the House, Mr. Barbour moved a reconsideration of the vote refering the Submarine Telegraph bill to the Post Office Committee. Motion entered for consideration to-morrow

Mr. Washburn reported that Mr. Whitfield is not entitled to a seat as a delegate from Kansas.

MYSTERIOUS DEATH OF A WOMAN.—On the 19th of January last, some watchmen who were passing through Williams Court, Boston, found extended on the snow a woman named Ellen Desmond, who had apparently been seriously injured. She stated, that in passing through the court, she had been suddenly drawn into a doorway by some men standing therein, and carried up to the third story of the house, where to free herself she suddenly leaped out of the window. She was carried to the Massachusetts General Hospital, where it was found that her back was broken. She lingered until Feb. 11, when she died.—Another statement is that the woman was intoxicated, and jumped out of the window from fright at the sudden putting out of the lights in the room.—*Boston Trans.*

DEATH OF A WOMAN FROM CRUELTY AND NEGLECT.—Some excitement has been caused in Cohasset the present week, from the fact that the wife of Rufus Adams, an intemperate man living near the harbor in that town, died on Saturday last, in consequence of neglect, cruelty and exposure during childbirth. She had been obliged, at a critical time, to walk barefooted through the snow, some distance, to a neighbor's to obtain assistance, her drunken husband being unable or unwilling to go for her. It is also stated that he had driven her out of the house on one of the cold nights just previously. No arrest has yet been made, but it is probable the circumstances will be investigated.—*Boston Trans.*

THE WRONG HORSE.—A few days ago, some thief broke into the stable of the Bedford Springs Hotel, and stole the celebrated horse Dick Turpin, belonging to Dr. W. R. Hayden, of Boston, The thief mounted Dick, and rode about a mile, when the horse thinking the thief had rode for enough, landed him gently on the roadside and returned home.

THE HOG CHOLERA is increasing in the West. It has appeared in Madison, Ind., in the distilleries at Milton, and at Carrollton, Ky., where large numbers have died. Two hundred have died at Milton. The hogs often die in half an hour after they are attacked. The Vernon (Ind.) Courier remarks that hundreds have recently died of it in that county, and that sulphur in slop has been found beneficial.

GEN. KNOX'S MARRIAGE. — Somebody writing to the Progressive Age, incidents in the life of Gen. Knox, relates the following:

The General's marriage was somewhat of a romantic affair, and is said to have happened somewhat in this wise: As Miss Lucy Fluker was walking out one day, she saw young Knox, (who was a book-binder in Boston at the time,) and as she fancied his personal appearance, she was "smitten" with him. She could not suppress her feelings, and so gave vent to them by writing him a note as soon as she reached her home, requesting him to call and see her. Throwing aside her feminine reserve, she at once proposed that he should marry her. The proffer was at once accepted, and the poor bookbinder became the husband of the rich heiress.

The Rev. W. H. Channing, Minister o- Renshaw street Unitarian Chapel, Liverl pool, Eng., has received an influential cal to become the minister of a new independent church at Washington, so that his pre-eminent ability and zeal may again have scope in his native land, in the life and death struggle between slavery and freedom. Having accepted this offer, his resignation was laid before the congregation on Sunday last, at the annual meeting after morning service. His term will expire in August next, and he purposes being with his friends at Washington in October. —*European Times.*

WASHINGTON, Feb. 11.—The Secretary of State has recommended to Congress the appropriation of $8000 for the suppression of the slave trade, on the principle asserted in the act of 1819, and has favorably endorsed the application of the American Colonization Society for $30,000 for a similar object.

FOUND DEAD.—Richard Godfrey was found dead in Taunton Mass., near the Green, on Monday morning last. He was an intemperate man.

Portsmouth, Dec. 1856.

The Albion:

A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.

The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.

PREMIUM ENGRAVINGS.

Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a splendid portrait of

FLORENCE NIGHTINGALE.

This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesforde, whose "Mary Queen of Scots" has been so generally popular.

A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

Washington Medallion Pen.

MANUFACTURED by the ONLY Steel Pen Manufactory in America.

The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines ALL the principles calculated to produce an action AS SOFT AS THE QUILL, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And AMERICA is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $500,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

THE RELIGION OF PAYING DEBTS.—Men may sophisticate as they please; they can never make it right; and all the bankrupt laws in the universe cannot make it right, for them not to pay their debts. There is sin in this neglect, as clear and deserving of church discipline, as in stealing or false swearing. He who violates his promise to pay, or withholds the payment of a debt, when it is in his power to meet his engagement, ought to be made to feel that in the sight of an honest man, he is a swindler. Religion may be a very comfortable cloak under which to hide, but if religion does not make a man "deal justly," it is not worth having.

COL. DE WITT.—A Washington correspondent of the Worcester Spy says:

Allow me one word of explanation in regard to Col. De Witt's conduct. At the time Mr. Savage made his speech. Mr. De Witt was at Brown's Hotel, engaged as a member of the Committee, and did not know that Mr. Savage had said anything offensive until after his return from the Congressional Burying Ground.

"Religion is the tie that connects man with his Creator, holds him to his throne. If that tie is sundered or broken, he floats away, a worthless atom in the universe, its proper attractions all gone, its destiny thwarted, and its whole future nothing but darkness, desolation and death."—*Daniel Webster.*

AYER'S Cathartic Pills,
(SUGAR COATED)
SEE MARK TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF
Headache, Sick Headache, Foul Stomach.

DR. J. C. AYER. Sir: I have been frequently cured of the worst headache my body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse so nicely. My family will only use others as they do me, the fact is worth knowing.
Yours with great respect, ED. W. PEERLE,
Clerk of Court, Chester.

Bilious Disorders and Liver Complaints.
ATTACHMENT OF THE TREASURY,
WASHINGTON, D. C., Feb. 1, 1854.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their action is laxative enough on the liver in quick and decided, though compound, by they are an admirable remedy for the purpose of that organ. I have seldom found a case of bilious disease or obstinate that did not speedily yield to them.
Fraternally yours, ALONZO HALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.
POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 18, 1853.

DR. AYER: Your Cathartic Pills have cured my wife of Dysentery. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be discharged of great worms, and your Pills then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and cur two children of bloody dysentery. One of our neighbors had tried and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured. I tell every thing. Such a medicine as yours, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, *Merchant.*

Indigestion and Impurity of the Blood.
From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills in my family, with surprising success in my family and among those I am called to visit in Sickness. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever seen, and I can confidently recommend them to any friends.
Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.
From a Prominent Druggist of Cincinnati, Oct. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of virulent sores upon her hands and feet that had proved incurable for two years, and which had made her so badly afflicted with blotches and pimples on her skin and in her hair. After our clerk was cured of the skin disease by Pills, and they have cured her of ASH RHEUM.

Rheumatism, Neuralgia, and Gout.
From the Rev. Dr. Hooker, of the Methodist Episc. Church.
PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my joints, and I was crippled with neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Charleston, I tried your invaluable Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SEVERE CHILLINGS, RAPID FEVER, LA., 5 Dec., 1855.

DR. AYER: I have been completely cured by your Compound Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SNIDER.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a popular pill, from the dreadful salivation and prostration frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Few, few are the families in any civilized country on this side of the ocean, without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and fearfuls grim disease of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the most pleasant and agreeable remedy that has ever relieved the infants and young persons. Parents should have it in store against the insidious enemy that creeps upon them unprepared. We have abundant proofs to believe the Cherry Pectoral cures more than half of the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, one night's cough settled, may be the seed sown that will make a sacker that, fastened on the vitals, sets your life away. All know the dreadful futility of many cough medicines, and they know too the virtues of the contrary, we need not dwell upon them. We simply assure them it is still made, that it can do, We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which the skill of man can bestow.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tyler & Co. are the managers, are chartered by the state of Maryland, and it constitutes a portion of the revenue, which is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and provides that if parties who reside at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. The particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. Tickets are sent, however, or sold on the spot for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

of these instruments have been produced and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL.

This improvement is not and subdivided—secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the accompaniments are soft and subdued—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by licensing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly ONE HUNDRED THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. The tones of the Flute, Oboe, Clarinet, Dulcet, Hautboy, Wm Mason, and a host of others, are all pronounced, in one of the most beautiful toned reed instruments that I have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience

THIS compination of ingredients in these Pills, is the result of a long practice in this country; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are recommended to be used in those cases to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and sickly countenance changed to a healthy one No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the whites or leucorrhœa, comm

ANNUAL MEETING.

The Fourteenth Annual Meeting of the Washington Total Abstinence Society of Cheshire County, was holden at A. Maynard's Hall, in Granniteville, Marlboro, on Wednesday, Feb. 4th, 1857.

The meeting was called to order by the Rev. G. Robbins, President of the Society.

The proceedings of the last annual meeting were called for and read.

On motion, Edwin P. Tenney, of Winchester; James Wakefield of Marlboro; and Isaac Rand of Keene, were appointed a Committee by the Chair to nominate a board of officers for the year ensuing.

Moved that a Committee of five be appointed by the Chair to prepare business for the meeting. The Chair announced as said Committee, S. Woodward, Keene;—I. W. Buffum, Winchester; T. S. Norton; Sullivan; Rev. Mr. Eastman, Winchester, and Rev. Mr. Laws, Marlboro.

Reports from the different towns in regard to the state and condition of the temperance cause, were called for. The following towns responded to the call; vis., Keene, Marlboro, Harrisville, Nelson, Dublin, Winchester, Swanzey, and Sullivan.

The Committee to nominate a board of officers made the following report, which was accepted and adopted, and the persons therein named were accordingly elected; viz.:

Rev. Gilbert Robbins, Keene, President.

VICE PRESIDENTS.

S. W. Buffum, Winchester,
C. F. Brooks, Westmoreland,
Joseph Cummings, Marlboro,
Rev. D. G. Mason, Keene,
Barton Skinner, Chesterfield.
Noah R. Cooke, Keene, Secretary.

EXECUTIVE COMMITTEE.

S. Woodward, Keene,
Milan Harris, Harrisville,
Edwin P. Tenney, Winchester,
Amasa May, Gilsum,
A. Maynard, Marlboro.

The Committee to prepare business for the meeting, reported the following resolutions:

Resolved, That the enemies of this law grossly misstate the facts, in ascribing the increase of intemperance to its influence, inasmuch as the non-enforcement of a law is no evidence against its necessity or its righteousness.

Resolved, That we recommend that temperance organizations be instituted in every town in the County, where such organizations do not exist.

Resolved, That, in our opinion, the friends of temperance have only to persevere in well-doing, to see the cause universally triumph.

Moved that the meeting adjourn to a quarter past one o'clock P. M.

AFTERNOON SESSION.

Met according to adjournment.

The first resolution was taken up, discussed and adopted unanimously. During the debate on the first resolution, the following resolution was offered by Rev. Mr. Law, and with its amendments, adopted:

Resolved, That we consider moral suasion to be the great lever by which the dissipated are to be raised from degradation, and the great power upon which we must rely to sustain the law, and to carry forward the great and glorious cause of temperance to its full and final triumph.

The remaining resolutions were then taken up separately, in course, and adopted unanimously.

The following resolution, offered by N. K. Cooke, Esq., was adopted unanimously, with a heartfelt desire that the Chronicle & Phenix might have an extensive circulation through the State.

Resolved, That a temperance newspaper is one of the most important instruments for the promotion of the temperance cause; and all persons who feel anxious for the success of this glorious reform ought to be consistent, and prove their sincerity by subscribing liberally for the Chronicle & Phenix, the only temperance organ in the State, published at Portsmouth; a paper every way worthy of liberal support from the temperance community.

The resolutions were ably discussed by many gentlemen present, and debated with a great degree of interest, and unanimity and good feeling.

Voted, that the thanks of this Society be given to A. Manard Esq., for his good accommodations to the friends of Temperance this day.

G. ROBBINS, *President*,
N. K. Cook, *Secretary*.
Graniteville, Marlboro, Feb. 4, 1857.

ADVERTISING.—The persons who really understand the principle of advertising are few. Most people fancy that it is only necessary to advertise occasionally, forgetting that, in general competion, they will soon be forgotten for some new advertiser. Those who would advertise to the best advantage, should remember that they must not only select the most proper channel, must not only set forth their wares or wants in the most explicit terms, but must keep doing this, day by day and week by week, or else they will fall short of their object, *just so far forth* as they neglect to advertise regularly. A daily paper has new readers every day, and the greater its circulation the greater the number of these. If advertising is of any benefit, it is as useful in hard times as in prosperous ones, nay! more so, for it is at such periods that the dealer must make up by extra exertions in the decline of his trade. It is a "penny wise and pound foolish" economy to stint your advertising in any way. Yet an advertisement should be as laconic as possible, consistent with a full statement of what the advertiser wishes to say, useless words not only increasing the price, but consuming a reader's time needlessly, an article of which business men especially have none to spare.—*Philadelphia Ledger.*

SPEAK NO ILL.

Nay, speak no ill—a kindly word
Can never leave a sting behind;
And oh! to breathe each tale we've heard,
Is far below a noble mind.
Full oft a better seed is sown,
By choosing thus the kinder plan;
For if but little good be known,
Still let us speak the best we can.

Give me the heart that fain would hide—
Would fain another's faults efface;
How can it pleasure human pride,
To prove humanity but base?
No; let us reach a higher mood,
A nobler estimate of man;
Be earnest in the search for good,
And speak of all the best we can.

Then speak no ill—but lenient be
To others' failings, as your own!
If you're the first a fault to see,
Be not the first to make it known.
For life is but a passing day,
No lip may tell how brief its span,
Then oh! the little time we stay,
Let's speak of all the best we can!

Morning Chronicle.

SATURDAY, FEBRUARY 14, 1857.

☞ The Chief of Police in Boston has lately presented an annual report, which contains some startling facts and some important suggestions.

The Boston Courier abridges the report, and says, "He (the Chief of Police) recommends the enactment of laws which shall enable him to regulate evils which it is impossible to remove; and as what he says on this point is well-timed and true, we quote the passage entire :—"

In a community where the means to purchase intoxicating drinks are easily obtained, and the article so abundant and accessible at all times, and by all classes, as it is now under the present inoperative liquor law,—there being 1,927 places where intoxicating liquors are sold in the city,—it cannot be a matter of surprise, even to the strongest advocates of temperance, and the most zealous defenders of the law, that the most ignorant and those most destitute of the ordinary physical comforts of life, and those under the least moral restraint, should become the victims of intemperance and consequent misery and vice. If we add to the 1927 places where intoxicating drink is sold openly, 235 houses of ill fame where intoxicating liquor is sold, and the number of dwelling houses among the lower classes where it is sold and dealt out, we shall have a total of some 2000 places in our city where intoxicating drinks can be obtained. Should the Legislature in its wisdom enact a law, the practical operation of which would tend to diminish this great evil, by keeping the traffic in intoxicating liquors within prescribed limits, such a law, it is believed would meet the approbation of public opinion, and its benefits would be realized by thousands who are a prey to the vice of intemperance;—and if the evil cannot be wholly remedied, it might, like many other evils, be diminished and controlled.

Verily the patriot and the christian, the philanthropist and the politician, must look this dismal picture full in the face.—The picture is not drawn, please to observe, by any fanatic or dreamer, but by Mr. Coburn, Chief of Police of Boston, a matter of fact man.

He tells of the 3000 groggeries of Boston and the *consequent* misery and vice. He does not look round for other causes;—he need not:—there they stand. Only about 2000 of them are *mere* drunkeries: 235 are known houses of *ill fame*;—drunkeries and stews combined—and the remaining 700 or so, houses of the *lower classes*, as he calls them—and how *good* is their *fame*?

But what is his remedy? Does he call *for moral means*, as we should? Not he! He calls for a *new law*—a better law—a more practical or practicable law!

We are not about now, to give over again our views of a license law—but just to say, on that head,—that the license laws of forty years ago in Massachusetts, did not, that we could see, restrain or diminish intemperance in Boston. They merely made liquor selling legally respectable—and the unlicensed sale was as common among the Yankees then as among the Irish now—and drinking was almost universal there, among all classes.

The Massachusetts liquor law, he says, is inoperative in Boston. Why? We answer, because the public opinion of that city, in its upper ten thousand, and in its lower fifty thousand, is in favor of wine bibbing and tippling, rather than total abstinence. The money and influence of the Boston trade paralyzed the law *there*, as we warned the friends of temperance it might do, before it passed.

The enforcement of the law in other parts of that State,—and the legal and moral movements in other New England States, have *driven in* the outposts, the foragers, of the rum army, and the main body, in that city, is now inconveniently large. Hence, the above official groans.—We wish them a good deliverance. But while they keep the cause, the effects will follow.

DOVER.—The Enquirer of Thursday says:

Our usually quiet town has latterly given indications that the liquor traffic is reviving in secret places. It came to a head Saturday night, in a general fight. The police were promptly on hand at the place of rendezvous outside the village, and made several arrests. The appearance of the solicitor on Monday, was the occasion of a general shaking among a class of offenders, and a number of liquor cases go up to the next term. It is also intimated that the business in Dover had better be confined to that place, as a jugful of the critter generally makes a disturbance.

☞ The Central Ohio Railroad last year paid over $2000 for stolen articles; and now seventeen of its employees have been arrested for alleged robbery.

☞ The furnaces of the Bay State Glass Works in East Cambridge, were burnt out on Thursday night. Loss $40,000; insured $10,000.

☞ The Boston Pilot, speaking of the death of Hon. P. S. Brooks, and of some *comments* thereon, says:

It is lamentable to observe the extent to which party feeling extinguishes the common charities in life in a nation so favored by Providence as the United States are. In this connection, we *cannot withhold* a remark in relation to the condition of Mr. Sumner, whose course, as a senator, we have frequently condemned, as it was our right to do, believing it to have been wrong to a great degree. But the *attempts* which have been made in several papers opposed to him to create the impression that he was not seriously injured by the assault, but is only *shamming* feebleness, display as *bad* a spirit as the attempt to make out the death of Col. Brooks to be a divine judgment on the assault. He exhibits *unmistakable marks of impaired bodily strength*, although his mind is as active as ever, and still busied with the perverse notions of philantrophy which betrayed him into the attack on South Carolina and Senator Butler, that provoked the assault from which he is suffering.

We ask attention to the above from a Roman Catholic paper, as a true answer and just rebuke to some mean innuendos and meaner sneers.

The regular militia of the several states of the union now number about *three million* men. If these could be turned into real fighting soldiers, in case of an emergency, we could furnish an army at short notice that could contest the field with the world; but many of them are play-day soldiers. The Five Points in New York, North street in Boston, and such places, could however, fill all the vacancies in the ranks to keep the number good; and for real fight they would be better men at the same time.—*Newburyport Herald.*

For soldiers of oppression and aggression, they would be more efficient, no doubt—on Bonaparte's theory, "the worse the man, the better the soldier." But to defend liberty and right,—we suppose that good men are better than wretches from the Five Points.

☞ Rev. Mr. Kalloch's case was brought before the Grand Jury of Middlesex on Thursday, and the examination of the witnesses was finished. The witnesses examined were Mr. Bayley and Mr. Griffin, both proprietors of the Lechmere House; Mr. Giddings, the farcitakor on the East Cambridge Omnibus line, Mrs Griffin, wife of the proprietor of the hotel, and Rev. Mr. Holland, the Unitarian clergyman of East Cambridge. It is perfectly well understood that a bill has been found against Mr. K. The Grand Jury will report by Monday, and the case may come to trial immediately, or may not under a week. Richard H. Dana, Esq., and Henry H. Paine, Esq., have been retained by Mr. Kalloch as his counsel.

FROM EUROPE—4 DAYS LATER.

PORTLAND, Feb. 13.—The steam propeller, Anglo Saxon, from Liverpool, 28th ult, arrived below this port this morning.

Great Britian.—There was a rumor that on the fall of Bushire the Persians made submission to the British, but the London journals have no confirmation of the report and mostly doubt it.

Per Africa (arrived at New York) was mentioned that the ship Confederation, from Philadelphia, went ashore near the entrance to the Mersey. She afterwards floated off, but again drove ashore. A life boat took off all hands except captain, mate, steward and boy, who determined to remain. On Friday evening tugs were sent out, but could not find the wreck, owing to the darkness. It was then blowing a severe gale. In the morning it was found that she had broken up, and but little doubt exists that those on board were lost. During the night a light was seen hoisted in the rigging from shore, and it gradually submerged. Portions of the cargo were afterwards found washed ashore along the coast.

France.—The Moniteur publishes a statement of the customs revenue for the past year, showing sixteen millions francs deficit from the previous year.

Cardinal Mortlot, Archbishop of Tours, is appointed Achbishop of Paris. A medical commission will examine into the alleged insanity of Verges.

Lord Cowley invested thirty-two French officers with the Orders of the Bath at Paris, on the 17th. A grand banquet followed.

Spain.—The Cortes is convoked for the 1st of May. Gen. Oribe was arrested at Madrid on the 18th. The Queen had had the measles, but is recovering.

FROM CALIFORNIA.

NEW ORLEANS, Feb. 12.—The steamship Black Warrior, from Havana, is coming up the river. She brings California dates to the 20th ult., received at Havana, by the mail steamer Aspinwall. David C. Broderick has been elected U. S. Senator from California for the long term, and Dr. Gwynne, for the short term. Both gentlemen were on their way to New York by the George Law. A severe earthquake had been felt in the Southern part of California. Trade in San Francisco was dull. The mining accounts were generally favorable. We have nothing new of a definite nature from Nicaragua.

ENBEZZLEMENT.—*Lancaster, Pa., Feb. 12.*—B. C. Backman, late President of the Lancaster Bank, was arrested this afternoon on the charge of embezzling the funds of the bank, and held to bail in the sum of $12,000.

CONGRESS.

THURSDAY, Feb. 12.

In the Senate a resolution was adopted to instruct the Committee on the Post Office to inquire into the causes of the frequent failures of the mails between New York and Washington, and to suggest a remedy for the evil. The President of the Senate was authorized to appoint a committee of three to make arrangements for the reception and inauguration of the President elect. A joint resolution declaring that the vote of Wisconsin ought not to have been admitted into the count of Electoral votes, was laid on the table after a brief debate. The House resolution for the appointment of a committee to inform Messrs. Buchanan and Breckinridge of their election, was concurred in.

The House adopted a resolution for the appointment, in conjunction with the Senate, of a committee to inform Messrs. Buchanan and Breckinridge of their election.

The motion to lay on the table the resolution declaring Mr. Whitfield of Kansas not entitled to a seat, was rejected.

A resolution was adopted to close the debate on the Tariff bill on Monday next.

The House then went into Committee of the whole on the subject.

Mr. De Witt spoke approvingly of the report of the Secretary of the Treasury, who had proposed a reduction in the revenue, by an enlargement of the free list with such articles as are used by manufacturers in the country. The legislation heretofore on wool has had the effect to triple the importation of woollen goods, and to stop 344 setts of machinery and 1800 looms. If any member of Congress would call upon him at Willard's Hotel, and show him that he wears an American broadcloth coat, he would tender to him the best hospitality the establishment affords. (Laughter.) He spoke from an experience of forty years in working mills, inside and out, and maintained that if our mills should be set in motion, the demand for wool will increase its price, while the manufactured articles will be cheapened.

Mr. Eustis said that the gentleman had spoken as if government would not want the surplus money in the treasury, and as if the government had fulfilled all the objects for which it was instituted, but this was not so. The French spoliation and other claims remain unsettled, rivers require improvement, and the navy enlargement. In the course of his remarks he said Louisiana asks no favors, but *demands*, while other interests are protected, that sugar shall not be neglected.

Mr. Covode, speaking from an experience of thirty years, argued that the difficulties of manufacturers are not to be overcome by taking the duty off foreign wool, but, on the contrary, they would be increased, as the effect would be to lessen the production at home. He spoke of the iron interests of Pennsylvania, and advocated a protective policy generally.

The Committee rose.

Mr. Colfax presented the resolutions of the Legislature of Indiana, asking that sugar be admitted free. Adjourned.

WASHINGTON, Feb. 12.—In the event of the failure of Congress to pass a bill to reduce the revenue, Mr. Campbell of Ohio, will press as a financial measure, now under consideration in the committee on Ways and Means, the depositing of the surplus revenue, reserving $2,000,000 with the several States, in propotion to the federal ratio of representation, or about $75,000 for each member, the States to pledge their faith for the safe keeping of the money, and refund it when required for the purpose of the general government.

It proposes to pay one-half of the surplus on the 1st of July, and the remainder on the 1st of October.

Upward of 60 passengers arrived this morning, the first who have crossed the Susquehanna since Sunday for Washington.

Much indignation is expected by members of Congress and others, in consequence of thirty-eight failures of the mails between New York and Washington, since the commencement of the session. The Post Office Department is much blamed for its want of enterprise.

Mr. Jones of Tennessee, and Mr. Florence of the House, with Mr. Weller, of the Senate, compose the joint committee to wait on Messrs. Buchacan and Breckinridge, and inform them of their election as President and Vice-President of the United States.

Senators Pearce, Bigler and Foote have been intruted by the Senate with the duty of making arrangements for the inauguration.

NEW YORK, Feb. 12.—A boot and shoe house, engaged in the California trade, suspended to-day—liabilities $320,000.

☞ Four millions of dollars have been spent in the search for the unfortunate navigator, Sir John Franklin.

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

AT HOME.

BY BAYARD TAYLOR.

The rain is sobbing on the world,
The house is dark and the hearth is cold;
And stretching drear and ashy gray,
Beyond the cedars, lies the bay.

My neighbor at his window stands,
His youngest baby in his hands;
The other seeks his tender kiss,
And one sweet woman crowns his bliss.

I look upon the rainy wild;
I have no wife—I have no child;
There is no fire upon my hearth,
And none to love me on the earth.

☞ Godey's Magazine for March, '57, contains "The Mitherless Bairn," another of Mr. Godey's beautiful improvements in steel, a most beautiful and life-like engraving. Also a superb Fashion Plate, of four female figures—and for coloring and design are as far superior to ordinary plates, as the work of a finished artist over those of a sign painter. The literature too—Miss Townsend, Mrs. Neal, Mrs. Victoria Fuller, and Mrs. Hale, such writers are rarely found together in one periodical.

NEWARK, Feb. 12.—The loss by the burning of Quimby's carriage factory last night was $50,000; one half insured. Several small buildings were also burnt.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing remedy for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all hope, and death before commencing its use!* It is call ed "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. 3m97 TuTuTh 6m

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and humors. Remedies powerful to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element* by which *pure blood* is created. It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to bright air and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impedimenets to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMOR that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alley. *Humors* originating in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID*

are enabled to cure them so that they *stay cured*.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye in parts to the hair the most natural color of any Dye discovered; and instead of injuring, it gives the beauty and elasticity of youth. This Dye having the largest sale of any Dye in the market and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass. Manufacturer of Wigs, &c.

H. Hutchins, Esq: DEAR SIR:—Having tried your dear Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye ever tried, both in its simplicity and most natural color. The application requires less trouble, may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

THE BENEFIT CONCERT.—The subscriber wishes to acknowledge the assistance rendered in so successfully carrying through the Concert for the benefit of Mr. Pearson, on Thursday evening.

First, to the singers, who so kindly volunteered their aid—and to other singers, who were equally willing, but whose services were not needed; especially to the Misses Ham, who first proposed the concert, and who rendered valuable assistance throughout.

To all the printers in the city, for gratuitous advertising, &c.

To Mr. Preston, and others, for their aid in disposing of tickets, and assistance in other ways; to Mr. Newman, for posting bills without charge; to the proprietors of the Temple, for liberal accommodations; to Mr. Frank W. Miller, for the free use of his beautiful Æolian Piano; to the door-keepers and ticket seller at the Temple, for their free services; and also to the public, for the generous manner in which the call for aid was responded to.

The total receipts were	$78,43
Expenses for Temple, moving and tuning piano, &c., only	$15,50
Leaving	$62.93

as the net proceeds of the entertainment.

WINGATE N. ILSLEY.

Portsmouth, Feb. 13, 1857.

A CARD.

The subscriber, while returning sincere thanks to his friends, and his fellow citizens generally, for the very liberal manner in which they have contributed to make up, in no small degree, his recent heavy loss by fire; would acknowledge especial obligation to Mr. W. N. Ilsley, and other gentlemen, and the ladies, who planned and so successfully and pleasantly carried through the Concert on Thursday evening.

The liberal sum of $62,93, the net proceeds of that entertainment, was received rom Mr. Ilsley, to-day; and especially acceptable as this sum is, just at this time, the aid is ten times the more valued, as the evidence of friendly feeling on the part of many.

Many other substantial tokens of regard, which are not to be publicly named, are hereby most gratefully acknowledged.

A. PEARSON.

Portsmouth, Feb. 13, 1857.

☞ Mr. Pearson's Benefit Concert, on Thursday evening, was an entertainment of a high order of excellence, especially for a concert gotten up at a week's notice, and by amateur singers only. Professional singers rarely do better; often not nearly so well.

We publish the pecuniary success of the affair, this morning, as derived from Mr. Ilsley. The thing was devised and carried through in the best shape; and the result proves the general popularity of Mr. Pearson, and those connected with the concert.

The programme was exceedingly fine, and well performed throughout. The choruses, glees, and quartets were all given with accuracy, spirit and good effect—the two choruses with obligato accompaniments being particularly fine. Mr. Jackson sang the Dying Boy, and other pieces, finely, rendering the words with the most agreeable distinctness. Mr. Ilsley and Miss Laighton performed the comic duet, Mr. and Mrs. Snibbs, to the delight of the audience,—who *would* have it repeated.—The duett, "Hear me, Norma," was well sung—though one of the young ladies who intended to have took part in it, was prevented by a cold, from singing this and other pieces.

Miss Lizzie Ham was the English Ballad, "Home," most beautifully; — and her "Alpine Shepherd Boy's Lament," was one of the most delicious pieces of vocalism we ever heard. The making of the echo, as she made it, is rarely done by the singer, but usually by a flute or other instrument or voice, behind the scene. The duet, "Love's Approach," by Misses Lizzie and Hattie Ham, would be attempted by but very few save the best professional singers; but they went through it with accuracy and brilliant execution. Miss Lizzie Ham and Mr. Pearson sang the duet, "Meet me by moonlight, alone," finely;—and were well received by the audience.

Mr. Pearson accompanied on the piano, with his usual skill and good taste; in which he was assisted by a pupil of his, Miss Mary Miller, and by Miss Hattie Ham.

As a whole, the Concert must be marked down as one of the best of the sort which has been given here for years, and as an entire success.

GRANITE STATE CLUB.—Edward L. Hill, Esq., will read selections from Shakspeare, before this Club, on Monday evening next. Feb. 16. at Washington Hall.

☞ On Thursday evening, the money drawer of Parry & Plumer's Bakery was rifled of its change, between $5 and $10, by some boys, who probably secreted themselves in a closet for the purpose: but the boys were seen leaving, and five boys were arrested and put in the lock up, charged with the larceny. Being brought before Justice Odell on Friday, three of the boys were discharged,—and John H. Stringer, and Nelson Barney were sentenced to 20 days imprisonment for the theft.

☞ With feelings of sadness we record the death of Nathan Merrill, Esq., who died at Charlestown, Mass., on Thursday, the 12th inst., quite suddenly. He was injured by a fall on the ice, a few days ago; but his death is not supposed to be caused by the fall, but by some complaint of the lungs or chest. Mr. Merrill was a teacher of one of our town schools twenty-five years ago;—and has latterly been connected with a flourishing Female Seminary in Charlestown.

CITY MISSION.—The subscriber has received, in aid of the City Mission, additional to what has been already acknowledged, $10 on the 3d inst., $1 on the 5th, and $5 through the post office on the 7th. He also received in the early part of the winter, eight orders, each for a quarter cord of sawed wood, to be distributed gratuitously, which has greatly aided him in his efforts among the poor.

N. MEDBERY.

Portsmouth, Feb. 13th, 1857.

"OLD FOLKS" EXCURSION.—The Old Folks Choir, of Portsmouth, with assistance of others in the neighboring towns, and in Newburyport, will give a concert in City Hall, Newburyport, some evening next week. Free tickets *over* will be furnished to all by the manager, Frank W. Miller.

A special train of cars will return to Portsmouth after the concert—at nine o'clock, stopping at way stations; all others than the members of the Choir, to pay fare in this train back. The Choir will have all their expenses paid.

Full particulars will probably be given on Tuesday.

☞ To-day is St. Valentine's Day,—though there is so little excitement about this matter, now-a-days, that one would hardly know it, without looking at the almanac. Well, if the custom of sending "Valentines" includes the necessity of getting up so many miserable caricatures and abortive attempts at wit, the sooner it passes wholly out of mind, the better.

Those wishing anything respectable in this line, will find the best places to buy advertised in our columns this morning.

NEWARK, N. J., Feb. 11.—Messrs. Quimby & Co.'s extensive Coach Factory, in Broad street, near the first Presbyterian Church, took fire about 8 o'clock this evening, and is now in ruins. Very little of the stock is saved. The front building, containing the office, &c., is not yet touched. The fire is now spreading among some frame buildings, towards Fair street, and it is impossible to state what the losses may be, or where the flames will stop.

BUFFALO, Feb. 11.—This afternoon the boiler connected with the machinery for driving the pumps of F. D. Barlow's section of the Canal enlargement, near Black Rock dam, exploded, demolishing the building in which it was enclosed, and instantly killing John Stoughton, the engineer; John Rider, fireman; and five laborers, who were at work on the canal near by. Several others were also seriously injured.

PHILADELPHIA, Feb. 11.—Thalberg's last concert to the school children of this city took place at noon to-day. It was a very pleasing and brilliant affair. Over 3000 children were present.

DEATH OF A SAILOR FROM FROST BITES AND LOCKJAW.—Edward Green, one of the crew of ship Champion, died in the United States Marine Hospital, in Chelsea, yesterday morning, of lockjaw. This terrible disease was occasioned by the severity of the inflamation occasioned by his frost-bitten hands and feet.

The Albion:
A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.
The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The Albion, furnishes, it is believed, a valuable weekly budget of information and entertainment.
PREMIUM ENGRAVINGS.
Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of
FLORENCE NIGHTINGALE.
This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wallstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesforde, whose "Mary Queen of Scots" has been so generally popular.
A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

Washington Medallion Pen.
MANUFACTURED by the only Steel Pen Manufactory in America.
The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines all the principles calculated to produce an action as soft as the quill, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And AMERICA is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $500,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

During the long session of the present Congress, while a member was "going it on the loud," at railroad speed, Mr. ——, of the "Old Dominion" desired to "inject" a word or two, by way of interrogatory. This courtesy the member declined—but soon afterward had to beckon a page to bring him a glass of water. Seizing the moment when he applied it to his lips, the Virginian remarked, "As my friend has now arrived at a *water station*, I will take occasion to propound my question." This was one way to get a word in edgewise.—*Knickerbocker.*

IN HOUSE OF REPRESENTATIVES, July 11, 1856.

Ordered, That the Bill to establish a Board of Education, State Normal Schools, and for other purposes, be postponed to the next session of the Legislature, and that it be published in the papers of the State publishing the Laws thereof.

State of New Hampshire.

In the year of our Lord eighteen hundred and fifty-six.

AN ACT for the establishment of a Board of Education, State Normal Schools, and for other purposes.

Be it enacted by the Senate and House of Representatives in General Court convened:—

SECTION 1. His Excellency the Governor, with the advice and consent of the Council, is hereby authorized to appoint eight persons, who, together with the Governor, ex-officio, shall constitute and be denominated the Board of Education; and the persons so appointed shall hold their offices for the term of three years, provided the first named in said Board shall go out of office at the end of one year, the person next named at the end of two years, and so of the remaining one; the vacancies each year, in the order in which they are named, till the whole board shall be changed; and the Governor, with advice and consent of the Council as aforesaid, shall fill all vacancies in said Board, which may occur from death, resignation, or otherwise; and the members of the Board of Education shall receive no compensation for services rendered, but shall be reimbursed their necessary expenses, which shall be allowed by them in the discharge of their official duties.

SEC. 2. The Board of Education shall meet annually on the first Tuesday of August, in Concord, and shall appoint a Secretary of said Board, who shall hold his office one year. Said Board may hold such other meetings as shall be deemed necessary in the discharge of their official duties. Said Board shall also establish and maintain a State Normal School, in such central town as shall furnish, without expense to the State, the most commodious buildings for its accommodation.—Said Board shall also appoint eight or more Teachers Institutes, in such towns as shall in their judgment best promote the interest of education in the State.

SEC. 3. The Superintending School Committee in each town shall immediately after the close of the winter schools, and on or before the first day of April in each year, transmit to the Secretary of State, to be by him delivered to the Secretary of the Board of Education, a copy of the report presented by them to the town at its annual meeting, and also at the same time shall forward to the Secretary of State, for the same purpose, according to the form, the answers to all such questions relating to the appropriation of money raised in the town, the studies pursued in the schools, the books used, the methods of instruction and discipline, and the condition of the school houses, and such other subjects relating to the schools as shall from time to time be proposed by the Board of Education.

SEC. 4. No town from which such returns shall not have been received by the Secretary of State, on or before the first day of April, shall be entitled to receive its proportion of the Literary Fund; and such proportion of the fund shall be distributed among the towns entitled to receive the same, unless before the third Tuesday of June following it shall be made to appear to the Governor and Council that it shall neglect to make return was occasioned by some mistake or accident, provided the Secretary of State shall have notified the Selectmen of such town by the first day of April, and shall return the same to be paid by the Treasurer, and unless the said return shall be thereupon made to the Secretary of State by the twentieth of the same month.

SEC. 5. The Superintending School Committee of any town, neglecting to make a return of the schools of said town to the Secretary of State, agreeably to the provisions of the chapter, shall forfeit and pay to the town for the amount of the literary fund forfeited through his negligence.

SEC. 6. The Normal School year shall be divided into three terms of twelve weeks each, and said school shall be regulated and governed by such rules and bylaws as the Board of Education shall direct. The object of said school is to qualify teachers for the duties on for the common schools of the State. Pupils belonging to the State shall not be charged for tuition, but shall agree to such conditions as the Board may adopt, as regards their subsequent stay in the town and length of time in the State. The teachers for the Normal School shall be appointed by the Board of Education, and shall consist of three persons—a male Principal, and a female Assistant and Teacher, at an expense for salaries of not more than twenty-six hundred dollars per year, and incidental expenses not exceeding one hundred dollars annually, provided the Board of Education have power to increase the number of teachers, and add the amount of increased expense for salaries to the amount aforesaid, at any time when the state of the school shall require such an arrangement, and said Board have also power to vary the terms and diminish the number of weeks, and add the same number of weeks to the Teachers' institutes, if the cause of education seems to demand such an arrangement.

SEC. 7. The Teachers' Institute shall be under the charge of the Secretary of the Board of Education, and shall be added to their instruction by the teachers of the Normal School; the teachers to receive no additional compensation for such services, only such sums as they may expend in the travel and extraordinary expenses; Provided, the Board of Education have power, whenever the cause of education seems to demand such an arrangement, to dispense with the Institutes and add the number of weeks assigned for the Institutes to the Normal School year.

SEC. 8. The Secretary of the Board of Education, shall, in addition to his duties, visit the schools, collect information of the actual condition and efficiency of the common schools, and other means of popular education, and 4. from as widely as possible throughout every place in the United States of the most approved and successful methods of arranging the studies and conducting the education of the young, to the end that all children in the State, who desired opportunities for such education, may have the benefit of the Normal School year.

SEC. 9. The Secretary of the Board of Education, shall, in addition as aforesaid, visit the Normal School. He shall visit as often as his other duties will permit, different parts of the State for the purpose of teaching and giving the public sentiment in relation to the practical interests of education, by lectures and such other means as may most efficiently secure the desired result. The salary of the Secretary shall be twelve hundred dollars per annum. All necessary travelling expenses incurred by the Secretary in the performance of his official duties, and all postages and other necessary expenses incurred by the Secretary of State, being approved by the Board, shall be paid out of any money in the treasury not otherwise appropriated.

SEC. 9. The Board of Education, through the Secretary, shall, annually, on or before the second Wednesday of June, make to the General Court a report upon the common schools of the State, comprising the substance of the returns from the several towns, and such information and suggestions as may seem useful to said Board, and the Secretary of said Board shall procure at the expense of the State, the printing of six hundred copies of such report and lay the same before the General Court, to be disposed of at their direction, and shall procure annually the printing of an additional copy of said report for the use of each district in the State.

SEC. 10. The Selectmen of each town in the State shall, annually, pay over to the State Treasurer on or before the first day of December, the same by law required to be appropriated for the support of Teachers' Institutes to be drawn from the State Treasury by warrant of the Governor, to defray the expenses incurred by the Board of Education, in accordance with the provisions of this act.

SEC. 11. All salaries and expenses provided for by this act, shall be paid in quarterly instalments, the first payment to be made on January 1st, 1857, and the Governor is authorized to draw said sums from the treasury by warrant; provided that the amount thus drawn from the treasury in any year shall not exceed the sum now raised by law for Teachers' Institutes.

SEC. 12. The act entitled an act establishing the office of commissioner of common schools in each county organizing a board of education, and for other purposes, passed July 12, 1850, and chapter 1192 of the Pamphlet Laws of this State, passed June session, 1851, and chapter 1251 of the Pamphlet Laws of this State passed June session, 1852, and chapter 1405 of the Pamphlet Laws of this State passed fall session of 1852, and all other acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

SEC. 13. This act shall take effect from its passage.

LOTTERIES.

The well known Maryland Consolidated Lotteries, of which B. Faxon & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to supervise and certify that everything transacted with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected as if they were present in person. Attention is called to another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special act in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The cost of a whole ticket only $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are on the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 23d May, 1855—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Heretofore this effect could not be had, but by the use of two Melodeons, or by using the Swell attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers in the new Melodeon; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Volunteering testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have sold our Melodeons, and our testimonials were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Hodges, Lafarge, Bristow, Hoss & others, and they all pronounce it one of the most beautiful toned reed Instruments they have ever touched. Very resp'lly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon, with particular reference to choose, we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which female health is liable, and bring back into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that may arise from, and the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysteria, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy,

"MY EXPERIENCE."

I had gone to her house for the purpose,
And fully had made up my mind
To pop the momentous question,
And know if my suit she declined.

My heart was all in a flutter—
I never felt worse in my life;
And I trembled before the fair creature,
I wanted so much for a wife.

But placing great faith in the adage,
That "faint heart fair lady ne'er won,"
I rallied my fast failing courage,
And "popped," and the thing was soon done.

I regretted, the moment I asked her—
When she answered, I got quite enraged;
For, believe me, the frail fickle creature
Said—"I am already engaged."

GAS AT GLOUCESTER.—The Gloucester Telegraph says, "fifty shares of the Gloucester Gas Company were sold at auction on Saturday for $2,25 a $2,50 per share. The par value is $50. The bad management of this company at its start, destroyed all confidence in its operations, and created a prejudice against it in the community, and but few customers were obtained; consequently its receipts have never come up to its expenditures. And it would appear from the manner in which its present customers are frequently obliged to be without light, that the prejudice will never be removed. There is still mismanagement somewhere, and the friends of the company are deprived of their influence to induce others to take the light, by the frequency of its failure. The ice could not have been the lack of gas on Saturday night last."

OLD AGE FOR CUTTING TEETH.—In the Memphis appeal, of Jan. 24th, Mr. John H. Fuller, under date at Bolivar, 21st inst. says:—

"I saw in one of the Memphis papers, some time ago, a notice of a man near Middleton, sixty or seventy years old, cutting a full set of teeth. I can beat that story. I have a negro woman who says she is 100 years old, but supposed to be about 93, who never had a tooth in her head until within the last six months. Since the first of last August, she has cut as pretty a set of teeth as I ever saw in any person's mouth; and moreover she can pick one hundred pounds of cotton per day, to the week round."

SAM AND SAMBO.—In the Legislature of Ohio, it is proposed to disfranchise white men born in foreign countries, and enfranchise negroes.—*Portsmouth, (Va.) Transcript.*

MISTAKEN.—The Manchester Mirror, alluding to the action of the Governor and Council, approving the lease of the Manchester & Lawrence to the Concord Railroad, has the following:

The hearing closed on Wednesday night, winding up with a speech from John H. George, who came down on Manchester, "like a thousand of brick," pouring out fury and wrath, and giving vent to the long pent up feelings of the whole city of Concord.

To this, the Independent Democrat replies as follows.

That George "came down on Manchester," is probably true; George cannot help being a blackguard, any more than he can help his existence. But it is not true that he "gave vent to the long pent up feelings of the whole city of Concord," or any considerable portion of it. Outside of the immediate managers of the railroads, there are not ten men in Concord, who cared the amount of one of Jeremiah's figs whether the union of the roads was approved or disapproved. And as to their being any "pent up" or other ill feeling among our citizens towards Manchester, it is the merest chimera. There is no such feeling existing. On the contrary, we are proud of the growth, enterprise and public spirit of our sister city. In nearly all the elements of material prosperity, she is ahead of us. With her unequalled water power, and her other advantages, she will probably always be ahead. And we trust the day is far distant, when this fact shall excite any feeling either in Manchester or Concord, other than that of the most friendly regard for each other's prosperity, and a desire to rival each the other in all the elements that constitute a free, happy and intelligent people.

"We understand," says a Manchester paper, "that Rev. Mr. Bartlett, of the Franklin Street Church, has received a second call from the Pilgrim Church of Chicago, and will probably accept." His first call was referred to a mutual council, which decided that he ought not to remove.—*Cong. Jour.*

The moral condition of Liverpool is rather startling. The beer shops average one to every 160 inhabitants; the arrests for crime during the year are in the ratio of one to every fifteen; the known prostitutes are as one in every 182 of the whole population, and that without any deduction for infants and children!

HOT SHOT.—Prentice, of the Louisville Journal, is the author of the following:—"We see that the sprightly, though naughty authoress, who calls herself George Sand, has expressed herself very strongly in favor of being burned after her death. If there is any truth in the Scriptures, we guess she will have her wish."

The reason why Madame Rachel's hotel in Paris was not sold, when advertised at auction, is said to be that the staircase was built long before the ladies' crinolines had attained to their present dimensions, and not a single lady—or married either—that came to look at the house, could get up stairs.

The amount of church and corporate property which the present government of Mexico had sold, up to last dates was $18-808,322.

EMANCIPATION IN MISSOURI. — On this subject, recently, discussion has broken out in a new quarter, and most unexpectedly to the country. While a little handful of men in Missouri, have acted with perfect madness in the Kansas business, by which means they have injured the trade of the State and lessened the value of real estate, turning the tide of immigration from their unoccupied lands, there has been growing up another party seeking emancipation in Missouri itself, and utterly opposed to slavery extension elsewhere. Its members are not confined to any political faction, but are seen with Bentonites, Democrats and Know Nothings. When F. P. Blair, Jr., was elected to Congress from St. Louis, it was a significant fact;—and hard upon that, Mr. Benton quoted the words of Henry Clay against slavery extension, and adopted them as his own. But later than that, and more marvellous, is the recent election of Mr. Palm, an avowed emancipationist, to be a director in the State Bank, and the facts that the discussion of that election developed.

The St. Louis Intelligencer calls Mr. Palm, "an avowed German abolitionist—one of the earliest and most earnest advocates of the abolition of slavery in Missouri, anywhere to be found." The Democrat and Leader newspapers admit the fact; so that all parties are satisfied and acknowledge that the Missouri Legislature have elected a "freesoiler" to a most responsible office. When the question of the election of a Director came up, Mr. Raine asked "if Mr. Palm did not write a letter to the New York Journal of Commerce, and if he did not declare in that letter that he was in favor of the emancipation of the negroes in the State of Missouri?" To this Mr. Zeigler responded boldly:—"He did so, and so have many good anti-Benton men declared. I conceive there is a great deal of difference between Emancipation and Free-Soilism." Here is the position, then, of the Democratic party in Missouri.

The St. Louis Democrat and the Leader both agree that such is the Democracy in Missouri. The latter paper, viewed as the organ, says, "we decidedly differ from Mr. Palm, but it is a point on which a difference of opinion is allowable in the Democratic party. Have we not always maintained that the Democratic party is not a pro-slavery party?"

The Democrat does not differ from him, but defends his opinions and advocates emancipation, saying:

The position of this journal—a position which is applauded by its readers—warrant us in declaring that emancipation is an open question in our party; and not only an open one, but a popular and progressive one.

Viewing the question as a subject of State policy, we will venture to say it is the grandest ever propounded to the people. If it were affirmed in a constitutional convention, and thoroughly carried out without any violation of vested rights, Missouri in a few years subsequent to its consummation, would be the foremost State on the American continent. Population would flow in from all sides were the barrier of negro slavery once removed, and in the place of 80,000 slaves, we should have 800,000 white men, which, in addition to the population we should have at that time, would give us at once an aggregate of two millions.

Is Missouri ambitious of political power?—a power which is slipping away from the South. The mode of acquiring it is found. We are not rash enough to attempt a description of our condition, if the element of free labor were introduced. The earth would give up its hidden treasures at his bidding, as the sea will give up its dead; and the soil would bloom more luxuriantly than if it drank the dews of the Hebrew nightly; ten thousand keels would vex our rivers, towns along their banks would grow into cities, and St. Louis would become the greatest commercial, manufacturing and literary metropolis in the world. Let it be remembered that we have every inanimate element of wealth and power within our limits, and that we require only labor—free labor—for we need not say that servile labor is inadequate.

There need be no pernicious agitation, and even if it should, it is the penalty which we cannot avoid paying at some time; and it is easier to pay it now than in the future. Who that watches passing events and indications, is not sensible of the fact that great internal convulsions await the slave States? Better to grapple with the danger in time, if danger there be, and avert it, than wait until it becomes formidable. One thing is certain, or history is no guide: that is, *that slavery cannot be perpetuated anywhere.*

☞ An intemperate man, about 30 years of age, named Marvin Backus, was found dead in a wagon shop in South Lee, Monday afternoon. He leaves a wife and a large family of children.

☞ The carpenter's shop of Joseph Lane, in Bradford, N. H., with its contents, was burned on the 2d inst.

ANECDOTE OF PARSON MILTON.—"Brother Dana, I'd like one of your deacons," exclaimed the eccentric old divine, Parson Milton, to a neighboring preacher. "I'll give you both of mine for either of yours, and throw in my head singer, Sammy Dole, besides; for two crookeder sticks than these deacons of mine never grew on Zion's hill."

We find the above item, going round the papers—but we do not believe Mr. Milton said such a thing to Doctor Dana.—The two ministers were not very intimate,—Dr. Dana was a man of too much dignity to invite such a remark,—and Mr. Milton, though eccentric in some respects, was certainly not a fool, as he must have been to make such a speech.

BURSTING OF A WHALING GUN.—A letter from Nicholas Pike, American consul at Oporto, dated Dec. 20, 1856, received by the owners of the brig Wm. F. Safford, of Sag Harbor, Conn., states that Capt. Thos. W. Royce, master of the Wm. F. Safford, had his hand so badly injured by the bursting of one of his whaling guns, that amputation was necessary. The operation was performed by the mate. The accident occurred about one hundred miles from Oporto, and Capt. R. was 17 days on board his vessel before he could make that port.—The surgeons of Oporto considered it necessary to make a second amputation, which was done on the 19th. Capt. Royce is doing well, and intended to join his vessel in the course of two months.

DR. JOHN PUNCHARD died in Salem, Ms., on Friday, aged ninety-three years and ten months. A writer in the Advertiser says he was a soldier in the Revolution, and probably the last survivor of the regiment stationed at West Point, on the east side of the river, at the time of Arnold's escape. For three-quarters of a century he was a member of the Tabernacle Church in Salem. For more than half a century he was one of its deacons. When he had been its clerk for forty years he was requested, by a vote of the church, to write its history. He complied; but would not allow the work to be published till after his death. It will form a valuable contribution to the ecclesiastical history of New England. In the benevolent enterprises of the day, no one was more interested. He was for thirty years, more or less, Treasurer of the Massachusetts Missionary Society, which as early as 1799 he assisted in forming. Mr. Punchard was the father of the late senior editor of the Traveller.

FROZEN TO DEATH.—A Mrs. Cunningham was found dead on Wednesday afternoon, in the woods near her house in Needham, Mass., near Newton Lower Falls, having been frozen. The body appeared as though there had been an effort of the woman to drag herself along for some distance on the ground. The woman had been an intemperate person, and had been missing for about twenty-four hours. She leaves seven children. The youngest was only two years old. Her husband was killed about a year ago in the paper mill at Lower Falls.

The Portland Journal says, it will be remembered that several years since a temperance lecturer was assaulted in Hallowell, by three young rowdies: We learn that two of the fellows are in a drunkard's grave, and the third on the very verge.

☞ The new Odd Fellows' Hall, at Dubuque, Iowa, fell in on Saturday, Feb. 7, in consequence of the accumulation of ice and snow upon the top of it. S. C. Foss, formerly of this city, and his wife, who were in the building, were instantly killed. Loss $40,000.

FAST.—This is a day of fast horses as well as fast people. A horse in these days is considered no horse at all unless he can go a mile inside of three minutes. A Vermont paper says a Black Hawk mare, five years old, belonging to K. K. Howard of Salisbury, was recently driven from Salisbury to Franden and back, a distance of fourteen miles, in fifty-seven minutes.

Mrs. Olive Pollard died on Wednesday morning at the house of Mr. John Stark, Manchester, N. H. She was 97 years old, drew a revolutionary pension, and was probably the oldest person in Manchester.

☞ An aged lady, named Kelley, residing in Bradford, Vt., recently fell down stairs; injuring her so severely that she died in a few days. She was ninety-three years of age.

☞ On Monday last, a boy named James Kellahan, *aged ten years*, residing with his parents, in New York, died from from congestion of the brain, caused by drinking ardent spirits. The father keeps a liquor store!

The Legislature of North Carolina adjourned last Saturday. The literary community of that State will doubtless be much gratified at its careful catering for their tastes. It has passed a law that every lecturer must "settle with the Sheriff" to the amount of $10, before he can "speak in public on the stage." Here is what Democracy has done for literature.—A tax is laid—

"On stage and theatrical companies, rope-dancers, slight of hand performers, tumblers, &c., $40 for each county. On exhibitors of natural curiosities, not already mentioned, $20 for each county. On singers, dancers, lecturers, &c., for reward, $10 for each county."

A Wilmington paper says:

"Here we have them: Circus and menageries, theatres, rope-dancers, jugglers, tumblers, monkeys, baboons, ourang-outangs, nigger minstrels, double-shuffle cutters, and—*lecturers*, like the "four and twenty fiddlers, all in a row," the lecturers at the foot, and with the minstrels and double shuffle cutters, let off with a tax of only $10! Great are these Democratic descendants of Maecenas!"

If Wm. G. Simms should go on a lecturing tour in North Carolina, we fear that his receipt would not meet his expenses.

TEMPERANCE MEETINGS. — On Sunday evening last, a temperance meeting was held in Huntington Hall in Lowell, which was addressed by Hon. Messrs. Taylor and White of the Massachusetts Senate, and Mr. Thompson of the State Temperance Committee.

We learn that the City Government of Lowell will enforce the law in that city.—It will be remembered that when the prohibitive law was enforced in Lowell some years ago, there were some 227 grog shops broken up.—*Boston Tel.*

REMARKABLE ESCAPE. — The Northfield Messenger says that a few weeks ago a boy named Denny crossed the railroad track near that village, on a young horse; and for the purpose of accustoming the animal to the sight of the cars, he faced about and waited for a train to pass. As it came by, the horse was frightened, sprang forward, was struck by a car and knocked down the bank. The boy was thrown into the air and came down safely, alighting upon a platform car. Jumping up, he demanded of the conductor to "put him ashore, as he had not asked for a ride, and should not pay his passage."

We see paragraphs in the papers headed "Further from China." It strikes us that we cannot get much further from China than the antipodes, at which point we are supposed to be located, from the fact that an individual was once digging a well, and struck, as he thought, a flat stone, but bearing voices, he listened, and heard a woman telling her daughter in the tea chest vernacular, to take in the clothes, as she heard it thunder!—*Sat. Eve. Gaz.*

HAMMOND HARDY, colored; of Gardner, Mass., aged 21, was found on Sunday morning of last week, badly frozen, near the house of Robert Powers, a noted runaway, where he had been the previous evening, drinking freely. He died in a few moments after being removed.—*Worcester Transcript.*

MORE GARROTING.—The last case of garroting that we have heard of is this: As a gentleman was about leaving a house in the fashionable quarter of the city, where he had been spending the evening, a pair of white arms were thrown about his neck, and his lips were stifled. The suddenness of the attack deprived him of all power of resistance. As usual, "no policeman was to be seen."—*N. Y. Mirror.*

WILLIAMS COLLEGE.—Prof. Chadbourne, of Williams College, has chartered a schooner for an exploring and scientific excursion to the Florida coast, undertaken by the Lyceum of Natural History connected with that institution. It is announced as about to sail next week.

☞ The Trenton (N. J.) True American states that a boy about 12 years old, was struck with a stone on Sunday last, by another boy, and died the same afternoon from the effects of the injury.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a sure falling cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will soon cure, unless the patient is past all hope and beyond pronouncing its use!* It is call ed "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apoth caries. ow7 Fe7 4m

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, of the place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—Danville Journal.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and increase the vital power or cure humors that mere medicine cannot cure. "Science is power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*, it eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give vitality.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*, it *exhilarates* by strengthening the blood to bright and better action—giving its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.

H. Hutchins, Esq; DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application relieves me from trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

NOT FROZEN UP.

A writer in the Boston Traveller, dating Washington, Feb. 9, says:

The bill to establish a navy yard at Newport has undergone another modification. It now authorizes the President to transfer at his discretion the yard at Portsmouth, or Kittery, in Maine, or the yard at Charlestown, to Newport. The idea of disturbing the Charlestown yard is nearly abandoned, since it has become known that Mr. Burlingame obtained from the Boston Chamber of commerce and the Board of Trade an expression against such change. It now remains to decide whether the Kittery or Portsmouth yard shall be removed. It is thought that the choice *will fall upon the Kittery* yard, for in the language of Senator Butler, the yard is located so near the North Pole that it is *froze up nine months in the year*, and is so cold the remaining three that *no work can be done.*

Senator Butler is a distinguished blunderer; and has rarely blundered worse than in the above statement. The Piscataqua Harbor was never yet frozen up, in the common acceptation of that term. The ice was pressed together this winter, and lodged over a single tide, on our coldest day—but the next tide swept it out to sea, as it always did, and always must.

We are somewhat nearer the North Pole than Charleston, S. C., is,—but more ship building is done here every three months, than was ever done at Charleston in 30 years.

The Honorable Mr. Butler seems to think that the *Kittery* Yard is a great deal older than *Portsmouth*—being so much nearer the North Pole! This will be the reason for abandoning that yard! He don't seem to know that they are one and the same.

LEGISLATIVE.—*St. Louis, Feb.* 12.—The Senate of Missouri, on Tuesday, passed by 25 to 4, a resolution declaring the emancipation of slaves in the State not only impracticable, but any movement towards it impolitic, unwise and unjust, and that it should be discontenanced by the people.

The House, passed the Senate resolution against emancipation, by a vote of 107 to 9.

The Kansas correspondent of the Democrat reports that a rencontre had taken place at Tecumseh, between Judge Elmore, the correspondent of the National Era, and Mr. Kaizir. Both parties were wounded, but neither dangerously.

A REMARKABLE INDUSTRIAL FEAT.—The Traveller gives the following creditable incident, which is illustrative both of the intutive enterprise of the genuine Yankee, and the persevering pluck of "Young America":

A gentleman in Boston had a pile of lumber which he was anxious to ship, but on the day before the shipment the great snow came on, and the lumber was covered with snow. A gang of laborers could not be had, and what to do he didn't know.—He was accosted by a young man to know the time, when he asked him why he did not carry a watch. The young man said he could not afford it. The merchant told him he would give him his watch (worth $200) if he would dig the boards out by breakfast time next morning.—The young man attempted the task, and accomplished it, working by moonlight all night, and the next day's sun shone upon the scene of his labors, displaying a vast pile of boards, over two hundred feet in length, fifty feet in width, and six in height. Having accomplished his task, he shouldered his shovel, and marched home to breakfast, after which he repaired to the counting room of the astonished merchant for the prize he had so fairly earned. The latter promptly paid the forfeit. The young man is a Bostonian, about 21 years of age, and unused to laborious employment.

ORIGINALITY. — The London Literary Journal, in defending Alexander Smith from the charge of copying many of his most poetic similies from other writers, makes the following comments on originality:—

That all poetic minds should regard the face of Nature in a very similar way, is only natural; and unless a man can exclude from his mind not only all that he has ever read, but all that he has ever heard, it is impossible to avoid treading very close in the track of some great predecessor.

When the road is covered with footmarks, it is impossible for a mighty walker to find a path for himself alone. Great poems become digested, as it were, and are incorporated into the language; their phrases become the current coin of talk, and it is impossible to avoid recurring to them. In this sense Shakespeare drew from Chaucer, Pope from Shakespeare, Shelley from Pope, and Smith again from Shelley.

☞ William C. Redfield, senior proprietor of the Swiftsure Transportation Line, of New York, died on Thursday.

☞ Providence harbor has been close again, and the propellers which went below on Tuesday to tow up vessels are probably frozen in.

☞ Late accounts from the Isthmus, state that San Juan del Sud was in the hands of the allies, having slipped out of Gen. Walker's fingers.

CONGRESS.

FRIDAY, Feb. 13.

SENATE.—Mr. Bell, of Tennessee, gave notice of his intention to introduce a bill providing for the fair distribution of the proceeds of the sales of public lands, among all the States, according to their respective population.

On motion of Mr. Weller, a resolution was adopted, requesting the Secretary of War to communicate copies of all reports which may have been made to that Department, by the officers who were sent to the seat of war in Europe, in 1855-56.

The Senate then proceeded to the consideration of private bills, and after transacting some unimportant business, Adjourned.

HOUSE.—The House passed several private bills, including one giving a pension to a colored man who acted as a spy in the war of 1812.

Among many reports of a private character, was one presented by Mr. Chaffee, from the Committee on Patents, extending Hayward's India Rubber Patent for seven years. He moved the previous question on its passage, but other business interposed to prevent a vote.

Messrs. Paine and Eddie made an adverse report, in which they assume that Hayward was not the original inventor; that the rest of all persons manufacturing by the process described since the operation of the patent to Goodyear in 1843, are not protected in the bill, and that Hayward has amassed a large amount of wealth by his association with a combination.—The committee was equally divided, Mr. Smith of Tennessee not signing either report. Adjourned.

FOUR DAYS LATER FROM EUROPE.

HALIFAX, Feb. 14.—The Europa, from Liverpool 31st ult., arrived here this morning.

There is no new feature in the political news.

It is believed that Persia has submitted to British demands.

The British steamers have evacuated the Black Sea, and the Russians have evacuated Serpents Isle.

We have details of the capture of Bushiro. The place was defended by Arabs, and not Persians; they lost three chiefs and a large number of men. The British loss is reported at 35.

Bushire is proclaimed British territory and a free port. The city is now quiet, but there are reports of abominable conduct on the part of the British, after the capitulation of the town.

Details of the Chinese war confirm telegraphic accounts. The Factories were burnt down. Nearly all the Hongs were destroyed, the only houses untouched when the steamer left being the British Consul's and a few others.

Admiral Seymour had withdrawn his men into the Garden, the only refuge left foreigners.

CALIFORNIA.—The San Francisco Herald of the 5th ult., hinted that before six years elapse, the Senate of the United States will be called upon to admit a slave State on the Pacific Coast, north of 36 deg. and 30 min., and called upon the Democratic members of the Legislature of California, to elect no man who is not in favor of the project.

In the telegraphic summary of California news despatched from New Orleans, which appeared in yesterday's papers, it was announced that Dr. Gwin and D. C. Broderick have been chosen Senators. It is well known that a conspiracy exists among certain prominent politicians, to effect such a purpose as is indicated by the San Francisco Herald. Dr. Gwin, who was a citizen of Mississippi, and had been prominent there as a politician, duellist and U. S. Marshal, removed to California with this end in view, as well as with ambitious designs of political advancement. He is a dangerous man, and there are many of his party associates at Washington whom his return to that capital will not please.—*Boston Atlas.*

ROBBERY OF A BOSTON LADY.—*New York Feb.* 13.—Thursday evening, shortly before 6 o'clock, Mrs. Bates, a Boarder at the New York Hotel, Broadway, was sitting alone in her room, when a fellow stalked in, and commenced breaking open her trunk with a chisel. Mrs. B. asked him what he was about. At this he seized the lady by the throat with one hand and placed the other firmly over her mouth, to prevent her screaming. Being so much alarmed for her own personal safety, Mrs. B. was unable to give any alarm. Taken advantage of her situation, the thief released his grasp, and hastening down stairs, made his escape. Mrs Bates is from Boston, and has been at the New York Hotel for three or four weeks, intending to pass the winter.

The Albion:
A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.
The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.
PREMIUM ENGRAVINGS.
Subscribers, on payment of the annual subscription, (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of
FLORENCE NIGHTINGALE.
This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Holl, Jun., is executed from an original drawing, made purposely for the Albion, by J. B. Wandesforde, who chose "Mary Queen of Scots" has been so generally popular.
A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

Washington Medallion Pen.
MANUFACTURED by the only Steel Pen Manufactory in America.
The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines all the principles calculated to produce an action as soft as the quill, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And America is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $500,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

IN HOUSE OF REPRESENTATIVES, July 11, 1856.

Ordered, That the Bill to establish a Board of Education, State Normal School, and for other purposes, be postponed to the next session of the Legislature, and that it be published in the papers of the state publishing the Laws thereof.

State of New Hampshire.

In the year of our Lord eighteen hundred and fifty-six.

AN ACT for the establishment of a Board of Education, State Normal School, and for other purposes.

Be it enacted by the Senate and House of Representatives in General Court assembled:—

Section 1. His Excellency the Governor, with the advice and consent of the Council, is hereby authorized to appoint eight persons, who, together with the Governor, ex-officio, shall constitute and be denominated the Board of Education; and the persons so appointed shall hold their offices for a term of eight years; provided the first named in said Board shall go out of office at the end of one year, the second one at the end of two years, and so on, in the order in which they are named, till the whole board shall be changed; and the Governor, with advice and consent of the Council, thereafter, shall fill all vacancies in said Board, which may occur from death, resignation, or otherwise; and the members of the Board of Education shall receive no compensation for services rendered, but shall be reimbursed, in such manner as the Board shall respectively by them in the discharge of their official duties.

Sec. 2. The Board of Education shall meet annually on the first Tuesday of June, and organize by choosing an appointee a Secretary of said Board, who shall hold his office one year. Said Secretary holds, other meetings as shall be deemed necessary, in the discharge of their duties, shall be called by the Secretary, and said Board shall cause a State Normal School, in such central town as shall furnish, without expense, to the State, the most commodious buildings for its accommodation.—Said Board shall also have the supervision of the Teachers' Institutes, in such towns as shall in their judgment best promote the interest of education in the State.

Sec. 3. The Superintending School Committee in each town shall, immediately after the close of the winter schools, and on or before the first day of April in each year, transmit to the Secretary of State, to be by him delivered to the Secretary of the Board of Education, a copy of the report presented by them to the town at its annual meeting, and also at the same time shall forward to the Secretary of State, for the same purpose, such blanks, with the proper heads of answers to all such questions relating to the appropriation of money raised in the town, the studies pursued in the schools, the number of scholars, the qualifications and discipline adopted, the condition of the school houses, and such other subjects relating to the schools as shall from time to time be proposed by the Board of Education.

Sec. 4. No town from which such returns shall not have been received by the Secretary of State, on or before the first day of April, shall be entitled to receive its portion of the School Fund; and the share of such portion of the fund shall be distributed among the towns entitled to receive the same, only before the third Tuesday of June, and shall be made to appear to the Governor and Council that the neglect to make return was occasioned by some mistake or accident, provided the Secretary of State shall have notified the Selectmen of such town, on or before the first May, that said return has not been received by him, and unless the said return shall be thereupon made to the Secretary of State by the twentieth of the same month.

Sec. 5. The Superintending School Committee of any town, neglecting to make a return of the schools of said town to the Secretary of State, agreeably to the provisions of this chapter, shall be responsible to said town for the amount of the library fund withheld through his neglect.

Sec. 6. The Normal School year shall be divided into three terms of twelve weeks each, and such school shall be regulated and governed by such rules and bylaws as the Board of Education shall direct. The price of said Normal School shall be a sufficient number of teachers for the common schools of the State. Pupils belonging to the State shall not be charged for tuition, but shall agree to such conditions as shall be made by said rule, as regards their obligation to teach for a given length of time in the State. The teachers for the Normal School shall be appointed by the Board of Education, and shall consist of one principal teacher, a Principal, male Assistant and female Assistant, at an expense for salaries of not more than twenty-six hundred dollars per year, and incidental expenses not exceeding three hundred dollars per annum; provided, that the Board of Education have power to increase the number of teachers, and add the amount of increased expense for salaries and incidentals, to the above sum, when the number of pupils may require such an arrangement, and said Board have also power to vary the terms and limit the number of weeks, and add the number of weeks to any term, if in their judgment the interests of education seem to demand such an arrangement.

Sec. 7. The Teachers' Institutes shall be under the charge of the Secretary of the Board of Education, and he shall be aided in their instruction by the teachers of the Normal School; the teachers to receive no additional compensation for such services; and the Board of Education may expend for travel and extra incidental expenses; Provided, the Board of Education have power, whenever the cause of education seems to demand such an arrangement, to dispense with the Institute, and add the number of weeks assigned for the Institute to the Normal School year.

Sec. 8. The Secretary of the Board of Education, shall, in his duties, be the agent, therefore appointed, collect information of the actual condition and efficiency of the common schools, and other means of popular education, and diffuse such information as shall tend to put every part of the State informed of the most approved and successful methods of arranging the studies and conducting the education of the young, to the end that all children may be benefited by the common schools for instruction, may have the best education which those schools can be made to impart.—He shall visit as often as the other duties will permit, different parts of the State, and shall, by lectures, and by giving the public, questions in relation to the practical interests of education, by lectures and such other means as may seem to him most advisable, and most effective. The salary of the Secretary shall be twelve hundred dollars per annum. All necessary travelling expenses incurred by the Secretary in the performance of his official duties, and all other necessary expenses arising in his office, after being approved by the Board, shall be paid out of any money in the treasury not otherwise appropriated.

Sec. 9. The Board of Education shall direct their Secretary, shall, annually, on or before the second Wednesday of June, make to the General Court a report upon the condition of the State, containing the substance of the returns from the several towns, and such information and suggestions as may seem useful to said Board, and the Secretary of said Board shall present to the Legislature, at its next session, a copy of six hundred copies of the report and by them before the General Court, to be disposed of at their discretion, and shall procure annually the printing of an additional copy of said report for the use of each district in the State.

Sec. 10. The Selectmen of each town in the State shall, annually, pay over to the State Treasurer, on or before the first day of December, the same by law required to be appropriated for the support of Teachers' Institutes to be drawn from the State Treasury by warrant of the Governor, in the same manner as other things by the Board of Education, in accordance with the provisions of this act.

Sec. 11. All salaries and expenses provided for by this act, shall be paid in quarterly instalments, the first payment to be made on January 1st, 1857, and the Governor is authorized to draw said sums from the treasury by warrant; provided that the amount so drawn from the treasury in any year shall not exceed the sum now raised by law for Teachers' Institutes.

Sec. 12. The act entitled "an act establishing the office of commissioner of common schools in any county, regarding a board of education, and for other purposes, passed July 12, 1850, and chapter 1192 of the Pamphlet Laws of this State, passed June session, 1854, and chapter 1317 of the same Pamphlet Laws of the State passed June session, 1852, and chapter 1826 of the Pamphlet Laws of the State passed fall session of 1852, and all other acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

Sec. 13. This act shall take effect from its passage.

A true copy, attest,

JOHN H. GOODALE,
Clerk of the House.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Tyson & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to the superintendence of the drawings, and all business connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they were present to attend to their business. In order that which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland Lotteries, and prizes are legalized by laws of the Maryland state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the best drawing to be had at the time the money is received on hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the triangle system of the Havana ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft. Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is decidedly the best.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given so general satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Stoves, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this swell, Piano passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this valuable improvement *free of charge.*

Extract from the Commercial Advertiser, July 21, '55

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to put their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new melodeon! Musical instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have sold but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.—Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dodt, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is the only participant in the trade we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as fine and finished as that now in use in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IMPORTANT DISCOVERY,

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of medicines in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring matters to the proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, when the blood becomes thick and the pale and deathly countenance changed for a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of the menses, are much sooner in the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous debility, with weak stections in the back and limbs, lowness of spirits, hysterics, &c. they are

FIRESIDE SAINTS.

ST. PHŒBE.—St. Phœbe was married early to a willful, but withal a good-hearted husband. He was a merchant, and would come home sullen and sour from Change. Whereupon, after much pondering, St. Phœbe in her patience set to work, and, praying the while, made of dyed lamb's wool a door-mat. And it chanced from that time, that never did the husband touch that mat, that it didn't clean his temper with his shoes, and he sat down by his Phœbe as mild as the lamb whose wool he had trod upon. Thus gentleness may make miraculous door-mats.

ST. SALLY.—St. Sally, from her childhood, was known for her innermost love of truth. It was said of her that her heart was in a crystal shrine, and all the world might see it. Now once, when other women denied, or strove to hide their age, St. Sally said, "I am five-and-thirty!"—Whereupon, next birthday, St. Sally's husband, at a feast of all their friends, gave her a necklace of six-and-thirty opal beads; and on every birthday added a bead till the beads amounted to fourscore and one. And the beads seemed to act as a charm; for St. Sally, wearing the sum of her age about her neck, age never appeared in her face. Such, in the olden time, was the reward of simplicity and truth.

ST. LILY.—St. Lily was the wife of a poor man, who tried to support his family, and the children were many, by writing books. But in those days it was not as easy for a man to find a publisher as to say his Paternoster. Many were the books that were written by the husband of St. Lily, but to every book St. Lily gave at least two babes. However, blithe as the cricket was the spirit that ruled about the hearth of St. Lily. And how she helped her helpmate! She smiled sunbeams into his inkbottle, and turned his goose pen into the quill of a dove. She made the paper he wrote on as white as her name, and as fragrant as her soul. And when folks wondered how St. Lily managed so lightly with fortune's troubles, she always answered that she never heeded them, for that troubles were like babies, and only grew the bigger by nursing them.

LIVERMORE OF NEW HAMPSHIRE AND JOHN RANDOLPH.—Livermore had one day made a most subversive onset upon one of Johnny's favorite pieces of invective irony and playful slang, which he always delighted to deal out for the amusement of the house, and which consumed more time and afforded less light than ought to have been expected from a gentleman of such distinguished learning and ability as are, and always were by common consent accorded to the hero of Roanoke. Johnny turned upon his evil genius, for such he had come to regard him, with more than his ordinary measure of gall and bitterness; among other things, calling him frequently the member from Vermont, a state, at that time, of somewhat dubious estimate, in the companionship of the original thirteen. Livermore, not a whit abashed, rose on the instant, and did battle so effectually as utterly to demolish all Johnny's glittering soap-bubbles, all the time referring to the worthy member from Rhode Island. He said he objected to that gentleman even, privileged as he undoubtedly was, riding rough-shod over the heads of his associates of the house with the same imperturbable coolness with which he swung along the streets in his *coach and six*.

Johnny rose and indignantly disclaimed assuming any such baronial airs as had been attributed to him by the honorable member from *New Hampshire;* and at the top of his shrieking voice declared he never drove more than *two*, on any occasion. Says Livermore: "I repeat, a coach and six—two horses, two niggers, and two dogs."

This sudden *expose* of the usual retinue of the worthy member from Roanoke, brought down the house in such hearty roars of laughter, that he did not deem it prudent to enter into any more extended explanations on that occasion: and he seldom afterwards invited the strictures of Mr. L., whom he ever after denominated his excellent friend from New Hampshire.

SATAN IN THE CHOIR.

Under this head, a writer in the New York Evangelist, says:

Singers are a sensitive class, easily offended, and hard to be won back to duty.

Another writer in the Congregational Journal, says:

I do not believe it. On the other hand, as a society, I believe them remarkable for meekness, forbearance, forgiveness of injuries, and perseverance in the path of duty under great discouragements.

For whom do they spend their time, strength and money? Not for themselves, but for the benefit of those who, when they have done their best, are much inclined to censure and reproach.

I do not believe there can be found, the world over, *any society*, who meet together so frequently and so freely for any business as do singers, who, amongst themselves, quarrel so little. And if "Mr. B-flat or Miss C sharp take offence and leave the seats, a kind word from some judicious friend, might heal the breach and restore harmony; but instead, those who know nothing about the trials of singers, and have not common sense enough to reason discreetly, take the liberty to censure and blame.

It was said of Dr. Watts that he was a gift to the churches; so is a good singer, in any church or society where they serve, an unspeakable gift from heaven to that church, and as such should be respected and beloved.

AN INSANE FEMALE FOUND IN THE SNOW. A female, apparently fifty years of age, was last Thursday found sitting in the snow at Waterford, with a shawl about her feet. She was taken in, and is now being cared for by some humane persons in that village. At times she was quite rational, but it is only for a few moments, when the malady returns. She then places her hands upon her head as if she was laboring under much pain. Her maiden name is Catherine Bailey; and she is now the wife of a Mr. Wood. When on the way from Pittsburg, Pa., to Middletown, Conn., whither they were going to visit some friends, her husband was taken sick upon the cars, when between Philadelphia and New York, and they were obliged to stop, and he died within four hours after leaving the cars, of hemorrhage of the lungs. After his burial, at the earnest solicitation of the landlady where she was stopping, her trunks, containing clothing, some silver spoons which she intended as presents to her friends, and her deceased husband's watch, were placed in the hands of a stranger.

When they reached Greenbush, this man gave her to understand that he wanted to do some business, but that he would return to her. She next remembers of being in Troy, where she parted with her velvet bonnet for a straw one, and her cloak for a shawl and fifty cents; but she does not recollect what became of the money. She next turns up in Waterford, but how she got there no one can tell. The most prominent mark upon her person is a scar about the centre of her forehead, which she says she received in youth. She appears to be very respectable and quite ladylike in her manners and conversation.—*Albany Jour.*

Morning Chronicle.

TUESDAY, FEBRUARY 17, 1857.

☞ In the Massachusetts Legislature, on Thursday, in the House, there was a lengthy discussion upon the competency of witnesses, upon an amendment offered by Mr. Spooner;

"No person shall be deemed an incompetent witness in consequence of his opinions on the subject of religion, but evidence may be given of his opinions as a test of credibility; and any person who *shall be found not to believe in the existence of a Supreme Being*, shall be permitted to testify on his solemn affirmation, subject to the pains and penalties of perjury."

After discussion by Mr. Spooner in favor, and Mr. Couch of North Bridgewater, in opposition, the House refused to lay the amendment on the table by five majority, and then adjourned.

The merits of the whole case are in a nutshell. We would strike out all the words in *italics*, and thus leave oath and affirmation equal,—letting every witness or other person take his choice between the two forms.

EARTHQUKE IN PENNSYLVANIA.—The Mt. Holly Mirror says:

"Quite a severe shock was felt in Mount Holly on Tuesday night about half past 11 o'clock. Numerous persons describe it as sounding like something heavy falling upon the roofs of their houses, followed by a loud rumbling noise, like thunder. It was heard in various parts of the town, and created quite a sensation."

The Trenton State Gazette says:

"The persons who heard it are discreet, calm, reliable persons, not likely to be deceived by a counterfeit earthquake. They are not nervous, though some of them are Quakers, and they are to be depended on as reporters of earthquakes, and all other disorders, terrestrial or human, that may come under their notice. This convulsion, which shook North America, occurred just after a sudden reactionary movement of the weather, from sixty or seventy degrees down to five or ten. We understand that a similar phenomenon has been observed in this city."

THE FLORIDA WAR.—The Seminoles who were confined within a small space by Gen. Harney, have escaped and scattered to the northward, and the efforts of the troops are still futile. The Tribune says of the conduct of this war:—

It is a curious fact connected with this expensive and interminable war, that the General commanding the Army of the United States—Gen. Scott—had not been consulted or advised with in any way concerning it. Secretary Davis takes it all upon himself. We firmly believe that the veteran General, in the exercise of his military skill, his humanity and his honesty, would accomplish more in six months than the Secretary would do in a life-time, and without the expenditure of a tithe of the money and lives which the war is now likely to cost the nation.

It is of no use to dispute about the *conduct* of the war. We should never have had it, nor the sorry territory for which is waged, but for slavery.

ABIGAIL GARDNER.—The Boston Courier has the following item of Mrs. Gardner, the woman who is charged with administering poison to her husband, because, in her opinion "he was a good for-nothing thing." It is related of her, that on her way to Plymouth jail, she stopped a baker's cart, took from it a quantity of ginger-bread, and told the baker to call at the post-office in Hingham and get his pay from her daughter, who is the post-mistress. In jail, the prisoner manifests indifference as to the circumstances which brought her there; but report has it that she is "extremely desirous of making a good personal appearance, wishes to display her rings, pins, and other jewelry, so that 'she may look well, when her friends call in to see her.'"

FATAL DUEL.—A duel took place at Matairie Ridge, near New Orleans, on the 18th ult., between Parkenham Le Blanc, Deputy Sheriff of New Orleans, and Geo. W. White, book-keeper in a hardware establishment. Le Blanc spat in White's face in return for an alleged insult, and White challenged him to fight with double barrelled guns at fifteen paces. At the given signal Mr. White fired, and his antagonist was shot through the heart; but his finger was on the trigger, and in falling he discharged the piece, though without doing any execution. Le Blanc was a noted small sword duellist, and has fought thirty duels during his life.

☞ Some villains in Boston, on Thursday, poured spirits of turpentine upon a dog, and then set it on fire. The poor animal ran into a stable on Plymouth street, which was in consequence burnt to the ground.—Such business is not a capital offence, but the fellows deserve to die of hydrophobia, when they die.

SINGULAR MURDER IN DETROIT. — The Detroit Free Press says that some days since a pedlar named Samuel Kiter, aged nineteen, entered the house of a man named Bickly, in Brownstown, whose family consists of three ladies and a little son.—The pedlar was shortly after missed by his friends. He was traced to Bickly's house. He had never been seen to leave that house afterwards.

The three ladies in Bickly's family, Mrs. Mary Bickly, Miss Nora Bickly and Mrs. Mary Sheehan, were arrested on the charge of murder, and lodged in jail at Detroit.

The murdered man's brother testified that he had visited the prisoners' house and made a search. Saw fresh blood on the floor and wall; found bones and a piece of cloth in a barrel of ashes; he thought the cloth belonged to his brother's vest; saw blood on the barn and on the snow.

A neighbor, named Mrs. Hannah Clark, had talked with the accused relative to the blood; told them murders were always found out; on one particular night the witness smelled the burning of woollen very strongly, and also the burning of fresh meat; she thought the neighbors were cooking meat for the bee.

A man named Peabody saw blood and "smelt something burning."

Captain Alvord saw blood; dug into it with a knife, and found human hairs, some of them six or seven inches long, of a dark brown color; found another spot forty or fifty rods off, in the road; dug into that and found some more hairs, a dozen or fifteen in all. Went back to the house, saw the blood before described, and some more on a flour barrel; saw a piece of bed-ticking about as large as the top of the table, (about 24 by 36 inhes,) with several spots of blood upon it, two or three inches in diameter. It was taken out of the bed.

The Free Press says the counsel were about summing up the case on Saturday, when a little Dutchman, (the pedlar,) who had stood with his hands in his pockets, a quiet spectator of the scene, stepped forth and protested against any such liberties being taken with his affairs, declaring that he had neither been slaughtered nor burnt up, and as to being dissolved into the small show of sheep bones and horse hair which the table before him afforded, he felt indignant at the idea. The Free Press says:

Of course we shall not attempt to describe the delight of the spectators, the consternation of the learned counsel, or the amazement of the judge, at the summary winding up of the beautiful case which had been made out; but we will confidently assert that the scene was rich.

A FAIR HIT.—It will be remembered that W. Gilmore Simms, L. L. D., of South Carolina, came North on a lecturing tour, but at New York he took offense at the empty benches and "deserted halls," and went home in a huff. He left behind him many engagements to lecture before Lyceums, &c., and among others one in Hartford. Mr. Simms' place was supplied by Mr. Phillio, who "touched up" the peevish Southerner in the following lines:

Ah luckless me! A task that Hercules
Ne'er dared attempt, I must perform to please.
The labor's mine to plug the hollow pole,
And fill at least a part of Simms's Hole.

SUFFERING OF MORMON EMIGRANTS.—We have dreadful accounts of the sufferings among the Mormon emigrants by the handcart train which is now in the mountains. The train contained 350 souls; one seventh are already dead, and they are dying at the rate of 15 per day. There are some 600 more behind, of which we have heard nothing. We hope that they stopped at Laramie. It is impossible for them to get through this fall. The Mormons estimate that there are not less than 1,500 of their brethren yet to come in, and the snow is reported to be no less than a foot deep on the mountains.

SOCIETY IN UTAH.—The Deseret correspondent of the New York Tribune, says that Brigham Young, the Mormon Gov'r, walking down the street a few days ago, met a little boy returning from the mountain side with a few cows he had been herding. Struck with something in his appearance, the prophet stopped and called out, "Here, Sonny! tell me, now, whose son you are?" The little curly-headed urchin answered, "Ma tells me I'm brother Young's son, but you ought to know who I am." The seer knew not his own child!

☞ John King, Esq., an aged and respected citizen of Leicester, met with a serious accident a week ago. He was rolling a log from his sled, when it fell upon his right leg, breaking it badly just below the knee. He is nearly ninety years old, and will not probably recover.

GREAT EXCITEMENT existed on Sunday evening in the neighborhood of State street, Newburyport, from the report that a man had been violently assaulted and stabbed—that murder had been intended, if not committed. Upon calling upon Mr. Dickens' office, we learned from Mr. Woodman G. Davis, who had been announced to deliver a temperance lecture in Market Hall, that on his way to fulfil that appointment, he was attacked in Unicorn street, by two men, one of whom he describes as wearing a Kossuth hat, talma, &c.—one with a loaded cane, by which he was struck upon the head, and knocked down; and the other with a knife, with which his coat sleeve was cut through, and his coat and vest cut under the arm, though in neither case did the steel reach flesh or draw blood. The blow upon the head produced considerable swelling, and when help reached him he is said to have been nearly senseless.

The meeting at the hall dispered very quick upon the announcement of the affair, for which there appears to have been no adequate cause, as we do not learn that Mr. Mr. Davis had given offence to any one. There must have been some mistake about the matter, for there could not have been a person in town opposed to his preaching temperance forever; and if they had been opposed to it, they would not have injured him on that account.

So says the Newburyport Herald of Monday—but we do not feel quite sure that some malicious miscreant might not have tried to stop his preaching in that way.

A "LAND SHARK" IN A TIGHT PLACE.—Owen O'Neil was brought before the Boston Police Court Tuesday afternoon, charged with robbing three sailors named Martin Johnson, John Thomas and Henry Townsend, of a large amount of money, while they were stopping at his boarding house in North street. O'Neil disappeared immediately after the robbery, and his whereabouts were not discovered until quite recently; when it was ascertained that he was in Concord, N. H., and on Thursday he was there arrested by an officer of the Boston Police.

SERMONS AGAINST DUELLING.—The pious and benevolent clergy of our city very generally launched from their pulpits, yesterday, able discourses against duelling. *The word in season* was strongly and eloquently enforced, and a noble effort made to do both God and man service, by denouncing that relic of feudal barbarism, and opprobrium of modern civilization, seemingly so interwoven with the social framework, as to be ineradicable. He would, indeed, be a benefactor of his kind, who should devise a substitute for private combat, so generally satisfactory and acceptable, as to be engrafted in the code of honor. Religion would smile her approval, and humanity shed grateful tears, at a consummation so devoutly to be wished.—*Charleston Courier, Jan. 26.*

We have no call for the *code*, this way,—no need of the *substitute*,—and duels in New England have never been common or popular.

☞ The (old original) New York Spirit of the Times, came out in a new and elegant dress throughout. The occasion was the commencement of its twenty-seventh volume. John Richards, publisher; Edward E. Jones, editor in chief.—The Spirit has always been conducted with spirit, and usually in an unexceptionable manner—the most objectionable piece we ever saw in its columns, being from the pen of a lady! The Spirit of the Times is probably the most complete record of sporting affairs in this country.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article never before used as a medicine, was a never failing cure for coughs of every description, and an excellent blood purifier. He its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all hope, and before commencing its use!* It is call at "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au17 TuThAh 6m

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, of the very great credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

Young's Patent School Slate.

THIS Frame is of one piece of solid oak, or other hard wood, bent under an immense pressure after being made supple by steaming, and is therefore the strongest, neatest and most durable of any frame ever made.

The Slate is from the celebrated Lehigh Quarries, and is the softest and purest Slate in the United States, or probably in the world.

The peculiar and admirable design of the frame makes it almost indestructible, and, at double the cost of the ordinary frame, would still be far the cheapest. For sale by

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having not one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.

H. HUTCHINS, Esq; DEAR SIR:—Having tried your HAIR DYE, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

HISTORICAL LECTURE.—Farewell Services were held, last Sunday evening, in the Sunday School Room of the South Parish, preparatory to the removal or demolition of the building, and to the erection of a new one on the same spot.

The exercises were—Opening Prayer and Reading the Scriptures, by Rev. Dr. Lamson of the Baptist church—Original Ode, by a former teacher.

Within this ancient house of prayer,
Where cherished mem'ries love to cling,
One more thank-offering would we bear,
Another hymn of praise would sing.

Here holy men of God have led
Sinners to taste a Saviour's love,
And hungry spirits have been fed
With sacred manna from above.

'Tis here the gifted and the great,
The gentle and the good have come;
Their talents all to consecrate,
And guide the youthful spirit *home*.

The *sainted dead*—a long array—
As *Teachers* and as *Taught* here met;
Each walked in wisdom's narrow way,
Till God's own seal was on them set.

And thus may those, whose blest employ
Is still to labor in this field,
Sow precious seed, and reap with joy
Th' undying harvest it will yield.

Soon may a second house appear,
More glorious than the first ere stood,
And coming generations *here*
Be trained for Christ, and God, and good.

Then followed a Historical and Biographical Sermon, by Rev. Dr. Peabody—giving a sketch of the House and its uses—and sketches of the men, who, as preachers and teachers, had occupied the building. The services were closed by singing the following Original Ode, written for the occasion by Albert Laighton.

The everlasting mountains stand,
Upheld by power divine;
And guided by th' Eternal hand,
The rolling planets shine.

Forever in majestic rhyme,
The waves of ocean flow;
And, changeless, like the pulse of Time,
The Ages come and go:

But, Lord, our being is a span;
A breath that floats away—
And proudest structures reared by man,
Soon moulder to decay.

Yet, as within these crumbling walls
A parting hymn we raise,
How like a benediction falls
The thought of vanished days.

O, as we mark the falling sands,
No tears should dim our eyes:
We have a house not made with hands,
Eternal in the skies.

BEAUTIFUL BLUNDERS.—We accused Senator Butler of Being a blunderer, and so he is. He blundered about the Navy Yards—and in showing up his errors, we made some, typographically and otherwise, not much better than his.

The types made us to say,—

The Honorable Mr. Butler seems to think that the *Kittery* Yard is a great deal *older* than *Portsmouth*—being so much nearer the North Pole.

We wrote *colder*—but the compositor left out the C. We have no doubt now that the bill in Congress, and Senator Butler, also, meant to speak of the Navy Yard in Portsmouth, Virginia, and to contrast that with the Navy Yard at Kittery, Maine, in Portsmouth or Piscataqua Harbor. But the comparison is unfortunate. For, while the people here, near the North Pole, walked across to the Navy Yard one day, and the next day the channel was open—the Harbor at the Southern Portsmouth was frozen over hard and fast for a much longer time.

☞ Elder H. L. Hastings, of Rochester, N. Y., will preach at the Advent Chapel this evening and to-morrow evening, at half-past 7 o'clock. He is said to be a very interesting speaker.

Friends interested are invited to come and hear. Per Order.

☞ It will be seen that the Old Folks Choir of this city, will give their Concert at Newburyport, on Friday evening of this week, the 20th inst. A large number of others, besides the Choir, will improve this occasion to visit Newburyport. See advertisement.

☞ The Newburyport Herald, says, at the Isles of Shoals, it has been colder this winter than ever known before, and the weather acted disastrously upon the small fishes that seek the shallow waters. Cunners and the like have been washed upon the shore dead, in cartloads.

Mr. Garland, keeper of a porter house in Brooklyn, N. Y, left his son, aged 11, to wait upon customers. When he returned he found the lad carried into the back room, dead.

The story of the lad's step-mother is, that she whipped the boy for refusing to go of an errand, that she went and did the errand herself, and when she returned found him dead. She states that there were three bottles that contained gin on the shelves, and that he had drank them empty. The neighbors have suspicions of the woman.

CONGRESS.

SATURDAY, Feb. 14.

SENATE.—On motion of Mr. Weller, the Senate considered the House bill for the construction of a wagon road from Fort Kearney, via the South Pass of the Rocky Mountains and the Great Salt Lake Valley, to the eastern portion of California, and it was passed.

On motion of Mr. Toombs, the Senate took up the Minnesota Land Bill, introduced by him in compliance with a memorial from Gen. Shields and others.

Mr. Briggs of North Carolina, as a representative of one of the old States, entered his protest against this method of disposing of the public domain.

Mr. Foote, of Vermont, thought it was too late in the day, after numerous grants of this kind, to raise such an objection.

Mr. Stuart of Michigan explained that the quantity of land granted by the bill was 1,300,000 acres, much less than some of the states have received.

The bill passed by the following vote:

YEAS.—Messrs. Allen, Bell, of Tennessee, Benjamin, Brown, Cass, Crittenden, Dodge, Douglas, Durfee, Fish, Foote, Foster, Geyer, Green, Iverson, James, Johnson, Jones of Tennessee, Mallory, Nourse, Pearce, Rusk, Sebastian, Seward, Stuart, Toombs, Trumbull, Wade, Weller, Wilson, Yulee—32.

NEAS.—Messrs. Biggs, Bigler, Brodhead, Clag, Evans, Hunter, Mason, Pugh, Reid, Slidell—10.

Mr. Seward moved to take up the bill reported by him, from the Committee on Commerce, to amend the Tariff Act of 1846.

Mr. Hunter was not prepared to consider the bill.

Mr. Toombs said this was a measure which ought to be passed without delay.

Mr. Hunter was disposed to take it up on Monday. Adjourned.

HOUSE.—The Speaker laid before the House a communication from the Secretary of War, recommending the appropriation of $10,000 for instituting a series of researches for promoting the manufacture of nitre.

The consideration of private bills was resumed, after which the House went into Committee of the Whole on the Tariff Bill.

Mr. Smith of Virginia opposed a protective policy, argued against the taking of the duty off wool.

Mr. Garnett insisted that if any change be made in the tariff, it should be favorable to free trade, and not for protection, as the bill provides.

Mr. Washburn of Illinois made a speech favorable to the land interests.

Mr. Horton of Ohio supported the bill as reported by a majority of the Committee on Ways and Means. The Senate then adjourned.

THE BURDELL MURDER.—*New York: Feb. 15.*—The coroner's investigation of the Burdell murder ended last night. The jury, after five hours deliberation, rendered a verdict against Mrs. Cunningham and John J. Eckel, as principals, and young Snodgrass as accessory, in the murder of Dr. Burdell. Augusta and Helen Cunningham are detained as witnesses. After the coroner yesterday had rendered his charge to the jury, another witness was examined, who partially corroborated Farrell's testimony. This witness testified that on the night of the murder he saw a man sitting on Burdell's door step, evidently doing something with a shoe which he had in his hand.

☞ A singular effect of the cold weather is recorded by the Nantucket Mirror. It says that when the ice broke up last week, the whole Eastern shore of Long Pond, from Jeremy's Cove to the bridge at the Narrows, was found filled with eels to the depth of two or three inches, so thick that a spear thrust in at random, by way of experiment, took out ten. Where such an enormous body of eels came from, is a mystery.

☞ The Manchester American and the Manchester Democrat are to be united under the management of Mr. Goodale of the Democrat and Mr. S. D. Farnsworth of Lowell.

FIRE IN BEVERLY.—We learn from the Salem Register that the two story brick building of the Beverly Rubber Factory estate, in Beverly, used for the manufacture of enamelled oil cloths, with the principal portion of the goods and machinery therein, was destroyed by fire Sunday morning between one and two o'clock. No fire was used in the building, it being heated entirely by steam, and it is conjectured that the fire resulted from spontaneous combustion.

The Albion:
A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.
The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.
PREMIUM ENGRAVINGS.
Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of
FLORENCE NIGHTINGALE.
This carefully prepared print, which embodies a view of Constantinople and the Barrack Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesford, who is "Mary Queen of Scots" has been so generally popular.
A copy of this splendid engraving may be seen at the Bookstore of J. P. SHORES, Jr., who will receive subscriptions for the "Albion."

Washington Medallion Pen.
MANUFACTURED by the ONLY Steel Pen Manufactory in America.
The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines all the principles calculated to produce an action as SOFT AS THE QUILL, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And America is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $600,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

Progression.
I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called
Photographs,
as well as those on GLASS, known as
Ambrotypes,
and finished in the highest artistic styles.
Possessing one of the Lacoon cases (CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work at such prices as cannot fail to be satisfactory.
A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of Life. This process also I have obtained, so that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ASK FOR THEM

PLEASE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach,

PITTSBURGH, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headaches any body can have by a dose or two of your Pills. It seems as if your Pills know just what they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEBRUE,
Clerk of Shooter Clerson.

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., Feb., 1856.

SIR: I have used your Pills in my general and hospital practice, and have found them a valuable cathartic. I prefer to use them in all cases where a cathartic is required, because they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently I prefer them in bilious derangements, whether of the liver or alimentary organs. Indeed, I have seldom found a case of bilious disorder otherwise than that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT OTTER, HARTLAND, LIV. CO., MICH., Nov. 16, 1854.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and poorly for a long time, and could not get off to be doctored at great expense, but got so better, that she then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. She afterwards commenced taking them for a dreadful bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around her paid from fifty to one hundred dollars doctor bills, and had much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

SETH PORTEFIN, Postmaster.

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I can called to visit in Boston. To regulate the organs of digestion and purify the blood they are the best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1854.

DEAR SIR: I take great pleasure in informing you of my success with your Pills, and feel them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN W. MERCHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Farmer-king Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a humor which we had tried long and hard to cure, but incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. Your pills have cured her, and she now uses your Pills, and they keep her free. ABM MONDLOGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Episcopal Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your child has brought me, if I did not write and say one word to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, and I became a cripple. I tried every thing that appeared to have any effect in my case, but in vain. By persevering in the use of Ayer's Pills I was cured, and am now well.

BENJ. HAWKES, Rector Epiphany Ch., S. Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatism, that most painful disease that has afflicted me for years. VINCENT SKIDDLE.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge they are one each and remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness and Blindness, which have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the ignorance with which they are frequently follow its handmen use. These contain no mercury, or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION.

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it universally known. Yet, few are the families in any civilized country on this continent without some personal experience of its effects; and lower yet the communities any where which have not among them some living trophy of its victory over the subtle and deceptive disease of the throat and lungs. It has it is the most powerful antidote yet known to man for the fatal, dadals and dangerous diseases of the throat and lungs. It is the pleasantest and safest and most remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that may steal upon them unprepared. We may with strong grounds to believe the CHERRY PECTORAL saves more lives by the consumptives it prevents than those it cures. Keep it by you, and carry one with you wherever you go, and you need not fear colds while they are curable by simple means, nor that seed of human death that fastened on the vitals, ends your life away. All know the dreadful fatality of lung disorders, and we know that it is in our power to lessen the number of victims. Let no one, therefore, neglect to secure the best remedy before than to secure them it is still inside the best it can be. We spare no cost, no care, no toil to produce it the most perfect power, and we spare not the means to put it in the hand agent which our skill can furnish for their use.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fenner & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of persons who reside at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the week, and as soon as the numbers are named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are sold for less than one dollar, and if one or the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and ternary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove will many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of store for use aboard vessels, which we offer at the low est prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these Instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDER SWELL.

Secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Moses Prince & Co could raise a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, for which time we have finished and sold nearly NINEEEN THOUSAND. Volunta ry testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately united one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there fore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has charmed my wife, Madame Jacob, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful sounding reed instruments they have touched. Very resp'lly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are dissatisfied to wait a few days for orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities of the humors, thereby to cure or to cure humors that mere medicine cannot cure. Heneeds power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which the vital blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to bright or and better spirits—doing its work gently, yet at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the same. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impurities, and by its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. Which should it be to cure, but that it by their chemical action in neutralizing those poisons.

ARNOLD'S GLOBULES AND VITAL FLUID

are enabled to cure them so that they *stay cured.*

Vital Fluid 50 cents per bottle; Globules 25 cents per box.

A MYSTERIOUS PERSONAGE.—Into a certain well known restaurant in Park row, New York, every day, at 2 1-2 P. M., walks an elderly gentleman, who proceeds straight to private box No. 7, which at this time of day is always reserved for him. There he draws down the curtain and busies himself reading one of the morning papers until his dinner, which is invariably composed of the same dishes, is prepared for him.—His gold headed cane, with black silk cord and tassel, his ruffled shirt, his queue, and his white neck-cloth, and none than all, his precise and lofty, polite demeanor, declare him a gentleman of the old school. When his dinner is ready, it is set before him and two small bottles of claret wine are uncorked, and with two wine-glasses are placed on the table. The old gentleman then systematically proceeds to finish both his dinner and his wine, and his manner of disposing of the latter is what causes him to be regarded with unusual curiosity by the frequenters of the house. He fills two glasses, drinks the contents of one himself and spills the other on the floor, and thus continues until both bottles are emptied. What invisible friend he imagines to be present with himself to enjoy the feast; what unknown deity he propitiates by this profuse libation no one can tell.—Certain it is that for more than three years he has persisted in this curious custom, and during that time has not spoken to any one connected with the establishment one single word. His first order was written on a slip of paper, with instruction to duplicate it every day until the order was countermanded. Who the individual is who perseveres in these strange whims, the proprietor of the restaurant does not know, and he has too much good sense and too much respect for his pocket to interfere with the peculiarities of his mysterious customer.

The Rev. Isaac S. Kalloch, of the the Tremont Temple Baptist Society, was arrested at his residence in Boston on Saturday, and conveyed to the East Cambridge Court House to answer to an indictment found against him by the grand inquest of Middlesex county. Messrs. Richard H. Dana, Jr., and W. H. Paine appeared as counsel of Mr. Kalloch. He was arraigned, but waived the reading of the indictment and plead not guilty. This is the Lechmere House two-whiskey-slings five dollar-black-mail-and-crevice-peeping-at-the-woman-in-black affair, and the charge against the reverend gentleman is that he committed adultery with a woman unknown. The defendant readily gave bonds in $2000 for his appearance for trial, which he is most desirous should take place at the earliest moment possible. He is confident of a verdict that will carry him high and dry above all stain: such is the wish of every friend of virtue.—*Courier.*

A license law has passed the Iowa Legislature, which repeals the prohibitory law in all counties where the people so vote.

DEA. JOSIAH STEVENS, aged 78 years, brother of Paran Stevens, of the Revere House, Boston, was frozen to death, last Tuesday night, in Claremont. He had been insane of late, and was in the habit of getting up and going out in his night-clothes and wandering about. That night the doors were fastened to prevent his getting out, but he raised a window on the lower story and got out. The keeper of the house dressed him as soon as he could and tried to find him. He supposed he would go upon the street and took that course, and aroused the neighborhood. Stevens was found about two hours afterwards, in the snow, in an open field, about one hundred rods from the house, dead, with nothing but a shirt on.—He is represented as being an honest and good man.—*Manchester Mirror.*

Washington Medallion Pen.

MANUFACTURED by the ONLY Steel Pen Manufactory in America.

The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines ALL the principles calculated to produce an action AS SOFT AS THE QUILL, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Therein consists its chief excellence. And AMERICA is asked to use it, in preference to Pens of *English or French* manufacture. England has drawn from us $500,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

WEDNESDAY, FEBRUARY 27, 1857.

New Hampshire State Election.—The annual State election in New Hampshire takes place early in March, and both the Republican and Democratic parties are preparing for an animated contest. The present incumbent of the Gubernatorial chair, Mr. Metcalf, declines a re-election. The Republicans, who in New Hampshire have nearly absorbed the American party, have nominated William Hale, of Hinsdale, until within a few years a member of the Democratic party. The nomination of Mr. Hale is very injudicious, and general grumbling is the result; and from all we can learn there are two chances to one that John S. Wells, the Democratic candidate, will be elected. The Republicans of New Hampshire have become imperious by success, and have scouted the idea of presenting a man acceptable to the Americans and old line Whigs, without whom they are sure of defeat.—*Charlestown (Mass.) Advertiser.*

We may be allowed to say that our good neighbor in Charlestown, though an excellent joker, is not much of a prophet, and is not remarkably successful in stating the facts in the case. Hon. Mr. Wells, we doubt not, would be very thankful for the *two chances* to be Governor, if he could get them. And the Fillmore Americans and Whigs, who assembled nine or eleven men in Mass Convention at Concord, must have made a dreadful grumbling, if the noise has reached Charlestown. Perhaps the grumbles increase as they travel, in the same manner as lies and snowballs accumulate. The animation of the contest must be outside of the State, or in some dark lantern concerns within. Not a particle of it has been seen here as yet, though there will doubtless be something of it on election day. The party papers have never been flatter since the era of good feelings in the days of President Monroe. We do not profess an accurate knowledge of Mr. Haile (not Hale) as to his former party relations. But the leading papers which oppose him, denounce him as a know nothing abolitionist and democratic free soiler.

☞ *It* seems that Mr. Davis, who was waylaid and assaulted on Sunday evening in Newburyport, on his way to address a temperance meeting, was more hurt than was at first supposed. The Herald says:—

We understand that Mr. Davis, who was waylaid on Sunday evening, suffered much through the night, and it was found that he was considerably injured by a blow upon the back of the head, which occasioned much pain. Cannot the Police track the villains who committed the crime? Some Irish women were close at hand when the attack was made, and say that three men assaulted him at once; and three men were seen immediately after running up by the foot of Green street.

The same paper says:

In the Court of Common Pleas, sitting in Salem, on Monday, Judge Bishop sentenced a liquor dealer of that city to the House of Correction for more than three months. He has also been convicted on another count which was carried to the Supreme Court on exceptions. The recent convictions have somewhat alarmed the liquor dealers in Essex county.

This does not look as if the law, in that region, was to remain a dead letter.

☞ On Thursday afternoon, Geo. H. Johnson, aged 24 years, lumber dealer on Medford street, Charlestown, Mass., met with a severe if not fatal accident, by walking through a scuttle in the second story of the store of T. F. Wells & Co., India street, Boston, and falling a distance of twenty-five feet and striking upon his head. He went up stairs to see a person, in the middle of the afternoon, and walked through the scuttle as above, quite unobserved by any one about the premises, and laid where he fell, till the time of closing.

House of Reformation.—We give, today, the official statement of the expense, actual and estimated, of the House of Reformation. It will be seen that the money has been economically expended. The Commissioners are Hon. Fredk. Smyth, late Mayor of Manchester, Hon. Matthew Harvey, U. S. District Judge and ex-Governor, and Hosea Eaton, Esq. The institution is in no sense a party matter, but is likely to be an honor and benefit to the State—the gift of public and private munificence combined.

☞ Mr. David Jones of Manchester, N. H., who was seriously injured on the 3d inst., at the Somerville Station, being run over by the cars of the Boston and Lowell Railroad, died Monday morning.

The Automatic Oven.—The patentee of this important invention has contracted with a company of gentlemen in Boston to erect one of the ovens there. There is much interest manifested respecting the success of the enterprise.

HOUSE OF REFORMATION.

STATEMENT OF COMMISSIONERS OF HOUSE OF REFORMATION.

The Legislature of New Hampshire in 1855 appropriated $15,000 for the purchase of 100 acres of land and towards the erection of a House of Reformation.

The Commissioners paid $10,000 for 100 acres land, and expended the balance of the appropriation for foundations and building, previous to an Act of the Legislature relating to the subject last year.

The Legislature of 1856 appropriated $15,000 towards the building and for the purchasing 10 acres more land for $1,000; and also authorized the Commissioners to expend upon the building $25,000.

The Commissioners purchased the 10 acres additional land as authorized, and expended upon the building since the passage of the Act, $22,848, making the whole amount expended upon the foundation and buildings to this time $27,848.

Competent men have this day estimated the amount necessary to complete the building as contemplated by the Act of 1856, at $5,200, which will make the cost of the building when so completed, $33,048, and the whole cost of 110 acres land and buildings $44,048. The building has been built of rough bricks in the most economical manner.

It will be seen by the following table, which the Commissioners have obtained from reliable sources as they believe, that the building will cost less than any Institution of the kind, completed, in any State in the Union, and that the land, considering the quantity and quality, has cost proportionally less than that purchased for like institutions in other States.

We are informed from an unquestionable source that $15,000 at least, and probably more, will be ready to be paid from the estate of the late Hon. James McK. Wilkins, to the Trustees of this institution for its support, as soon as it goes into operation.

February 13, 1857.

An Old School Landlady.—Mrs. Samuel Wyatt, the former landlady of the Marlboro' Hotel in Boston, and well known in Dover and Portsmouth, has written quite a readable volume, entitled, "The Autobiography of a Landlady of the Old School, with Personal Sketches of Eminent Characters, Places and Miscellaneous Items." Apart from an interesting sketch of her own history, the lady gives valuable bits of information in regard to the celebrated men and women with whom her life has brought her in communication. A portrait is prefixed to the volume, and in a letter to the Dover, N. H., Inquirer, Deacon John Gulliver gives the authoress the credit of transforming the Marlboro' Hotel into a temperance house. He writes:

"A temperance house has been established on the ruins of one of the worst groggeries in the city, which has been proclaiming every day with trumpet tongue the unspeakable benefits which flow from entire abstinence from intoxicating drinks, from the proper observance of the Sabbath, and the hallowed influence produced by regular family worship. Some of the good accomplished by you, you are permitted to witness here; but the whole amount of good which has been and will be effected, will remain a secret until the resurrection of the just."

The Rev. Hubbard Winslow also gives the volume his unqualified commendation.

Age of Horses.—Porter's Spirit says a horse died last week in Massachusetts, who is said to have been forty-three years and eight months old. There is a horse now living in this city, "who" is said by the family owning him, to be about that age. By the way, how much horses are, in the matter of years, like mankind, especially womankind—all very young till they turn a certain "corner," and then everybody (including themselves, in the case of the humans) makes them out as old as possible.

BURDELL, ECKEL, AND SNODGRASS.

Burleigh, the New York Correspondent of the Boston Journal, writes thus:

No one doubts that the dreadful end of Dr. Burdell, was the terrible fruit of his mode of life. He knew whom he had in his house when he called Mrs. Cunningham into it. He knew her position and character—the character of her company, and the relations of Snodgrass and Eckel to the family. No man was in that house who did not know all about it. Crime and sin began the connection, and crime and sin led to the awful *finale*. Mrs. Cunningham was a determined woman. She was jealous of Burdell. He was a penurious man, and she wanted more money than he was willing to give her. He attempted to shuffle her off. She meant to have pay for the past.

The mode of life in New York is destructive to domestic life if not to domestic purity. Could the curtain be lifted from the whole face of New York society, and the facts connected therewith made to blaze out with the splendor of the sun, man would flee from the face of man, and call upon the "rocks and mountains to hide" them from the face of man. Such revelations would be made as would convulse and change this hollow world. Once in a while the curtain is lift d, as in the case of Huntington, or Burdell, and the surface of society is agitated and alarmed.—But such events are, in the silence and secrecy of a crowded city, daily transpiring, and men are too merry and too busy to note the occurrences. The multiplied cases of divorce in New York and the cause—the evidence in such cases are forbidden to be published—the great number of families who have no home but in the attractions and dangers of a hotel life—the mode of life adopted and allowed for the men of business here, away from their homes—the great number of private rooms used by men of families in New York, while their families are away "up town" or "out of town"—the fact that such a man as Robert Schuyler could pass for twenty-five years as a bachelor—have a splendid suit of rooms at the Astor, and yet have a family no further up town than Bleeker street, and here raise up and educate a family of daughters, and the whole matter be kept a profound secret till his oldest daughter was asked in marriage by a clergyman, and then have the revelation at last from himself! All this teaches what New York life may be and what it is.

The case of young Snodgrass is a case equally in point. He is the son of a Presbyterian clergyman, His father was settled in the 15th street Presbyterian church—a church built and sustained by the munificence of the "Lenox Family." He has the first rank in the old school Presbyterian body. Dr. Spring, Dr. Botts, Dr. Alexander, have no higher rank than he. George remained in New York when his father left it. Mrs. Cunningham was a member of his father's congregation. She was one of those old energetic women who will get influence in any place where they may be. Her daughters were young, and were in Sunday School with young Snodgrass. The intimacy continued. Snodgrass stood fair in society. He was a smart fellow, and with his mates was a leader. His tastes were low. He could play on a variety of instruments. He performed on the banjo and negro minstrelsy. His likeness found in his trunk represents him with a jaunty cap on the side of his head, his hair curled, and his banjo under his arm. He complains that the printing of his portrait from this picture was by force and fraud. He says that Mead & Brothers proposed to pay him $50 for his portrait, and that he refused to sit; that thereupon the police officers having him in charge held him down—took his keys away from him by force, and stole his likeness and had the same put in print.

But Snodgrass had another side. He was entry clerk in a large hardware house on Broadway. So far as it appears, he has done his duty well in that capacity. He was the son of a respectable and honored clergyman, and was made welcome to the homes of the families who once composed his father's parish. His local standing was good, for none knew of the position he maintained with the Cunningham family till the murder of Dr. Burdell. He was an attendant of Rev. Dr. Botts's church in University place. As the son of a former pastor and intimate clerical friend, he was an occupant of the pew with the family of his pastor, and the companion of his children. He was also a member of the Bible class in the same church.

As might be expected, the circumstances attending his case cause profound excitement and alarm. None too much so, none more than there is occasion for. The lives the young men lead in New York—their secret chambers—their extravagance and conduct mostly unknown to those who hope to lean on them for support in old age—is quite enough to create general alarm.

You will have heard before this of the fact that one of your citizens came from Boston to New York, and "fell among thieves." So bold an act of robbery in the populous New York Hotel, and the garrotting a lady in her own chamber, has created general consternation. No one feels safe. Old gentlemen dare not leave their houses at night. Chamber doors are kept locked. Pass keys are laid aside and the outside doors are bolted day and night—and ladies have their premises searched, beds examined and closets punched with canes and pokers before they retire.

New York, Jan. 16.—Coroner Connery had a private examination of Eckel, Mrs. Cunningham and Snodgrass, this morning. They all protested their innocence, the latter adding that if any one knows anything about the murder, it is Miss Augusta C., or her mother. The case was presented to the grand jury to-day.

A Singular Case.—Tarlton B. Butler, a timber cutter of Scriven County, Ga., went to Savannah since Christmas to sell timber; was taken sick, and, it was thought, died. There being a boat about to leave, his remains were deposited in a coffin and sent home. On opening the coffin after its arrival, he was discovered to smile. Medical assistance was immediately called, and it is said that he is fast recovering. He was in the coffin nearly two days and nights.

Congregational Ministers in N. H.—A writer, J. W., in the Congregational Journal, says:—

We have two counties in which there is but one settled minister of the Congregational denomination in each; another in which there is but four, and another of 27 towns in which there are but eight. We have but about 100 settled ministers in the State, and these are in a little over 80 towns. Some 40 towns more have a stated supply of preaching, and some others have a partial supply. More than 80 towns have no preaching by Congregational ministers, and it is believed that not half of these have stated preaching by ministers of any other denomination.—Out of the 186 Congregational churches in the State, here is reason to believe that more than 80 of them are unable to support a minister.

A remedy for this state of destitution is sought in an increase of ministers. But is it not important to inquire whether they can be supported?

"J. W." thinks that both ministerial labor and the funds of the N. H. M. S. might be greatly economized by classing the feeble churches where it can be conveniently done, so as to place two or more of them under the pastoral charge of one minister.

☞ The Holyoke Mirror speaks of a man who grumbled at buying school books for his children, and straightway treated a crowd of his associates to more than a dollar's worth of liquor.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure that it will not cure, unless the patient is past all human aid before commencing its use!* It is call ed "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. ow27 TuTh& 6m

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to offer in behalf of the afflicted. His medicine is universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the numerous testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield a much larger sum to holders of Warrants, than it sold here. Warrants will be taken to Minnesota and sold for cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

THE Frame is of one piece of solid oak, or other hard wood, bent under an immense pressure after being made supple by steaming, and is therefore the strongest, neatest and most durable of any frame ever made.

The slate is from the celebrated Lehigh Quarries, and is the softest and purest Slate in the United States, or probably in the world.

The peculiar and admirable design of the frame makes it almost indestructible; and, at double the cost of the ordinary frame, would still be far the cheapest. For sale by

LOCAL.

☞ On Tuesday, a young woman, whose name is of no consequence, was brought before Justice Odell of the Police Court, charged with being drunk in the street, to which charge she plead guilty,—and the Court sentenced her to one day's imprisonment in the House of Correction, and to pay the costs.

The woman's own account of herself is, that by birth she is English; that her parents live here, and that she has not visited them till now, for eight years, having been employed as a domestic elsewhere; that on her visit to her parents, her father received her kindly, and brought in some gin for a family treat; that she drank two glasses of the liquor, which crazed her so that she knew not what she did. The story seems quite probable, as she was at large, brandishing a pair of tongs, and showing fight to the outsiders generally, when the police picked her up. She says besides, that she was not in the habit of drinking, which seems not quite so probable. But however this may be, one of the minor beauties of gin drinking is here displayed in the open drunkenness of an otherwise useful woman.

"MAN PROPOSES, BUT,"—We regret being obliged to announce still another change of time for the Excursion and Concert at Newburyport, by the Old Folks Choir of this city. But owing to the previous engagement of a very efficient and desirable portion of the Orchestra, for Mr. Mr. Lamprey's Assembly, on Friday evening, it has been deemed advisable to put off the Excursion for a little time. The hall at Newburyport being engaged for the next two weeks, by Bidwell and Marston's Dramatic Company—it is necessary to postpone the Concert till after that time. The excursion may take place during the second week in March, say about the 12th—of which due notice will be given.

A Rehearsal of the Old Folks was called for Thursday evening, in the Temple Vestry; but as the Perham Troupe is to sing in the Temple on that evening, it may not be advisable to attempt to "sing them down,"—and there will be no rehearsal till further notice.

☞ The last of the present series of the "Old Folks" Assemblies comes off at Congress Hall, on Friday evening of this week; and one of the best times of the season is expected. Like the Old Folks Choirs, however,— all who join in these social and pleasant dances, are not in the sere and yellow leaf of life—but only ripe for enjoyment. The affair is in charge of Mr. Lamprey, of course, as usual; and if fine music, a good list of dances, and a full set of dancers can make an evening pass pleasantly, it will be done this time.

FRIENDS OF BUCHANAN, ATTEND.—Those who are desirous of celebrating the 4th of March next, by a Social Gathering, are requested to meet at the Piscataqua House this (Wednesday) evening, at half past 7 o'clock. *Per Order.*

Jan. 18, 1857.

☞ Perham's Ethiopian Troupe are to give one of their Concerts at the Temple, on Thursday evening next—when those who couldn't get in to hear their last entertainment, can try again. Tickets only a quarter—which is too cheap, considering that charity and benefit concerts, fairs, &c., charge only fifteen cents.

FAIR.—All interested should bear in mind that the Fair to aid the Catholic Church in this city, commences this (Wednesday) evening at 7 o'clock, at Jefferson Hall. For a promise of a chance to have a good time, see their advertisement.

☞ For an opportunity to buy Dry Goods cheap, see the advertisement of Mr. WM. J. Laighton,—who we learn is to close business and resign his store on the first of March.

Mr. Albert Laighton is also selling off his stock at the lowest rates, for this week, preparatory to a change in business.

We learn that Mr. Frank Allen, formerly of this city, is to take one of the above stores, on the first of the coming month.

COURT AT CAMBRIDGE, MASS.—The trials before the Middlesex Court of Common Pleas at Cambridge commenced Monday. The following cases were disposed of:

Wm. P. Cook, for violation of the liquor law fined $10, sentenced 20 days in the House of Correction, and ordered to recognize in $1000 not to violate the law for a year. Patrick Garvey was convicted of the same offence on six counts, and sentenced to nine months in the House of Correction and fined $150. Andrew Nevins, for the same offence, was sent to the House of Correction for twenty days and fined $10.

CONGRESS.

MONDAY, Feb. 16.

SENATE.—Mr. Weller presented the credentials of Mr. Gwinn, Senator elect from California, who was qualified and took his seat.

Mr. Wilson introduced a bill to reimburse to Massachusetts $227,000, expended in the war of 1812. Referred.

Mr. Fessenden presented the credentials of Mr. Hamlin, Senator elect from Maine, from the 4th of March next.

On motion of Mr. Fish, a resolution was adopted, calling on the Postmaster General to inform the Senate whether any, and if so, what legislation is required to insure the transmission through the post office and delivery to the persons to whom directed, of public documents franked by members of Congress. Adjourned.

HOUSE.—Mr. Washburn, from the Committee on Commerce, reported about fifty Senate bills, making appropriations for rivers and harbors Referred to the Committee of the Whole.

A motion that the Committee of the Whole be discharged from the further consideration of the Chaffee patent extension bill was negatived—62 against 115.

There was an earnest preliminary contest between the friends and the foes of the bill authorizing the settlement of the claims of a company of South Carolina militia, for services during the war of 1812. Three hours were thus spent. The subject was passed over till Monday next.

The House then went into Committee on the Tariff bill.

Mr. Wakeman of New York invoked members to harmonious action, with a view to reduce the revenue and prevent financial convulsions. He maintained that the bill should be framed, looking to all, and not to particular interests, and intimated that he should support the bill of a majority of the Committee of Ways and Means, and moved an amendment reducing the duty on sugar, salt and lead, and admitting Manilla hemp free. Adjourned.

FAYETTEVILLE, N. C., Jan. 13.—Messrs. Rankin and Mc L an, merchants of Greensborough, have failed. Liabilities nearly $200,000; assets $80,000. Their failure has created universal distrust in the community, and caused about 50 other assignments by persons who found themselves hopelessly involved.

CHICAGO, JAN. 16.—A collision occurred on the Rock Island Railroad on the night of Friday, by which three lives were lost, and several cars smashed. The killed were the engineer, fireman and a brakeman. The engineer was named E. H. Sewall, a native of New Hampshire.

CINCINNATI, Feb. 16.—The case of James Simmons, found guilty of murder in the first degree ten years ago, on account of poisoning his father's family, two of whom died has been disposed of by the Supreme Court, and he is ordered to be hung on the 14th of April next.

THE FLOOD IN CANADA.—The river Thames broke up on Sunday, 8th inst.—Clark's Bridge, at London, was carried away. The bridge across the Kettle Creek at Port Stanley is gone. All the warehouses were flooded. Most of the dams and bridges on the stream are gone. Kilworth Bridge was carried away, and a man drowned.

Singer's Sewing Machines.
THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire ascendancy of our machines is one great reason for their unparalleled popularity.
MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.
☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.
N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Hutchins' Hair Dye.
The very best now in use, as the many thousands that have tried it will testify.
THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much of the oil, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.
Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.
H. HUTCHINS, Esq; DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and more natural color. The application requires less trouble; I may add, no trouble at all. Therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

Progression.
I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called
Photographs,
as well as those on GLASS, known as
Ambrotypes,
and finished in the highest artistic styles.
Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work at such prices as cannot fail to be satisfactory.
A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of Life. This process also I have obtained, so that any one possessing a small picture of a loved friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

The Albion:
A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.
The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.
PREMIUM ENGRAVINGS.
Subscribers, on payment of the annual subscription, (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of
FLORENCE NIGHTINGALE.
This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesforde, whose "Mary Queen of Scots" has been so generally popular.
A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

AYER'S Cathartic Pills, (SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., Mar 1, 1854.

DR. J. C. AYER. SIR: I have been repeatedly cured of the worst headache by your Cathartic Pills, and have by me a few of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 2 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice since you made them public. I prefer them to any they are the best cathartic we employ. Their rage falling action on the liver is quick and decided, consequent upon which follows a healthy action of the digestive and all organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician to the Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 14, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She has been sick and bedridden most of the time. Without AYER's she could not really yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician to the Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 14, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She has been sick and bedridden most of the time. Without AYER's she could not really yield to them. Without AYER's she could not really yield to them. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They also cured her aunt of her two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, which effectually cured him. Our family have used your Pills for three years, and have not had occasion to use doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be worked home.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. They regulate the system, purify and invigorate the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARREN WYMAN CO., N. Y., Feb. 22, 1856.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the humours of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of eleven months upon her back, given up by all the best incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and to her husband and myself your Pills have caused a healthy glow. Your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me if I did not acquaint you of it. My gout is still settled in my limbs and brought on surrounding neuralgic pains, which relief in chronic rheumatism. Notwithstanding I have taken a world of physicians, the disease grew worse and worse, until, by the use of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely cured.

SENATE CHAMBER, BATON ROUGE, LA., 3 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years, and was fast growing upon me.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammations, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy, is still a dangerous agent in the hands of the unskilled, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of our American States, its wonderful cures of pulmonary complaints have made it almost familiar as a household word. In the families in any civilized country on this continent without some personal experience of its effects, and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the fatal diseases of the breathing organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the croup, and every family who have it in store need be apprehensive of no danger from croup unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptive it prevents than any other medicine. Keep it by you, and cover your children while they are curable, for neither them nor us can we tell when death will claim the incurable marker that, fastened on the victim, sets your life away. All know the dreadful fatality of pulmonary complaints, and we have no the virtues of this remedy, we need not be more than to assure them it is still made the best it can be. We spare no cost, no care, no skill to produce it the purest possible, and we can afford to offer those who rely on it the best agent which our skill can furnish for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Fanen & Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is managed in a strictly honorable manner, and that the interests of all parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the week. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets range from $1 to $20. No tickets are sent out unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and forty-four combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 70 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years continues to procure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, made from Models or Sketches, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unexpressed by, if not unsurpassed by any agency to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, if there were no other offer of the kind, that his charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, which are not to be found elsewhere in this country, even in any other office, and beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents, more numerous than those acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. Our official intercourse has been of the fair, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the subscribers may rely upon *having them pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

6 lb. Souchong Tea, 1.50 | 6 lb Mocha Coffee, 1.00
6 lb. Young Hyson " 1.50 | 6 lb Java " 1.00
6 lb Y. Hyson " 2.25 | 8 lb. good " 1.00

☞ The Spices are put up in 1 and 2 lb. tin cans, especially for family use, and we pledge ourselves to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and others to our Spanish *Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1 lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills from the root, and goes having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade-mark, "Chinaman grinding coffee," may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and it is in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as the taste, or the state of the system may require, and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children, and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our name and trade-mark on every *coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do credit. We would, therefore, we would confidently invite an examination of the *quality* of our stock and our prices as compared with those of any other house.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is softened and subdued. Heretofore all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '56

"Messrs Prince & Co. continue to enjoy a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Volunteering testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think we can fill orders promptly. We there make the last testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been placed in Mr. Wallace, Duet, Hodges, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful sound reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are desirous to have the latest improvement, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and disease, and by its power to cure humors that mere medicine *cannot* cure—it is the power of *strengthening and vitalizing the blood.* It furnishes to a certain extent, the elements *which pure blood is composed.* It eradicates and cleanses away who ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give strength.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *invigorates* by strengthening the blood, which is the foundation of all strength. It works in a certain way, by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes impurities in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from the impurities which impair fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood,

Which mere medicine cannot eradicate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES*

AND VITAL FLUID

are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

THE EXCITEMENT OF WINE.—We have heard that in conversation Col. Brooks more than once deplored his conduct on that occasion as the blot and misfortune of his life,—that he declared his only purpose at the outset was to inflict the disgrace of a blow and not any severe personal injury,—that he was excited with wine, of which he had been drinking freely, and that the first blow struck roused all the demon within him, and left him no longer in possession of his judgment or self-control.—*N. Y. Times.*

The excitement of wine! what has it done and what is it doing for the character and destiny of our nation! Next to the power of *two thousand millions of dollars* invested in human flesh and bones, the power of the wine excitement is the most formidable opponent of our national honor, peace and prosperity. What havoc it makes of dignities! It turns reason into madness, civilization into barbarism, and humanity into brutality. It sits a grim tyrant over justice, righteousness and equality in our halls of legislation, laughing to scorn the pleadings of patriotism and religion, and threatening the felon's doom upon all who refuse to sanction its oppressive and cruel work. No wonder we have such disgraceful scenes enacted in the high Court of the Nation. The excitement of wine has been their leading actor. And yet who is alarmed? who feels himself degraded as a citizen of this Christian, enlightened republic, by the mischiefs of our *honorables* committed under the potent influence of the excitement of wine? What citizen having more patriotism than zeal for party, will withhold his suffrage from a man who loves "the excitement of wine" more than the welfare of his country? No man, however talented, is fit to be entrusted with the responsible office of a legislator, or executor of the laws, who loves "the excitement of wine," and until all such men are repudiated by the public voice, we have no security against any outrage upon our rights and good name, as a people, whatever we may imagine.—*Cong. Jour.*

RAILROAD ACCIDENT ON THE MANCHESTER AND LAWRENCE ROAD.—On Friday evening, as the last passenger train up from Boston, on the the Manchester & Lawrence road, reached the bridge across Cohos Brook, about three and a half miles from Manchester, the axle-tree of the forward passenger car broke while the train was at its usual speed, and great was the confusion that followed, and frightful the wreck to behold. The engine kept the track and its speed, though the express and baggage car got off, but the truck frames of both passenger cars were torn to atoms, except the hind ones, and the huge timbers laid over the bridge, and the iron rails were pulled clear across the bridge, a distance of 130 feet, and several rods beyond. One iron rail was bent to a circle, and half of one side of the bridge, where the fenders were up at the side, was ripped out. The pulling of such timbers, so much iron, and two cars flat down, was too much, and a rod after passing the bridge, fortunately, the connection between the freight and passenger cars broke, leaving the wreck behind. There were about sixty passengers in both cars, and in the rear car hardly a seat was left standing, and what is stranger than all, not a single passenger was materially injured, though one or two want heels over head and got a little scratched. The rattling and ripping out under their feet is described as fearful. This morning the track was relaid, so that the cars passed as usual. The bridge was high in air above the brook, and gave a fearful sight for an accident.—*Manchester Mirror of Saturday.*

JOSEPH WHEAT.

AN OLD STAGE-DRIVER.—Rev. Dr. Bouton's history of Concord says, "Of Joseph Wheat, who will be recollected as almost or quite the first stage-driver in Concord, N. H., and whose *nose*, especially will be remembered *long*, I have two or three anecdotes, some of them not quite fit for publication.

On their complaining at Amherst—through which town his stage then passed—that he did not give notice of his approach by the usual method of blowing a tin horn, he replied through the Amherst Cabinet, that he was aware of the deficiency, and taat he was really too poor to supply himself with the horn; but that in future, "whenever they should see the *nose*, they might expect to see the stage in about ten minutes."

"As illustrative of the great and commendable change of the public taste since the 'podauger and dramdrinking times,' I have in mind, as impressing itself on my youthful recollection, the conclusion of one of Wheat's public advertisements, on establishing what he called a new line of stages;

"Come, my old friends, and take a seat
In this new line, with Joseph Wheat;
And when to your journey's end you've come,
Your friend well treat with good old rum."

"Respecting the adventures of Wheat's nose, it is related that on one occasion, driving the stage from Concord to Hanover, he met the President of the College, John Wheelock, riding in a carriage; and as he passed, took hold of his nose, and pulling it on one side said, "Mr. President, I think you will be able to pass now." Mr. Wheat removed to Charlestown, Mass., where he lived many years."

THURSDAY, FEBRUARY 19, 1857.

ELECTION WON'T GO BY DEFAULT.

So says the Concord Democratic Standard,—and then offers the following remarks:

We had occasion to allude, in our issue week before last, to the recommendation, by the State Committee, of Mr. Wells, our candidate for Governor, for a seat in the Cabinet. We disapproved of the act, because it was a substantial proclamation to the enemy, that the election was to go by default. We had no objection to the recommendation of Mr. Wells for the high honor intended, if he had not been our candidate for Governor. But standing in that relation to the Democratic Party of the State, if the recommendation was *seriously*, or *honestly* made, it could not fail to have an unfavorable effect upon the impending canvass. If the Committee had really *desired Mr. Wells' success*, either as a candidate for the Cabinet, or for Governor, they would have conveyed their wishes *privately* to Mr. Buchanan, and, if necessary, they would have been joined in that act by many others.

But, the *faux pas* is in a measure remedied. We understand* that the Cabinet appointment for New-England will be bestowed on either Mr. Clifford, of Maine, or Gov. Toucey, of Connecticut. Not that Mr. Wells is not considered deserving of the distinguished honor by Mr. Buchanan; but the fact that New-Hampshire has had the President for the last four years, is considered distinction enough for this State for the present.

Therefore, notwithstanding the action of the State Committe, the Democracy will not be without a candidate to vote for at the approaching election.

*If Mr. Burke speaks here *by authority*, —then this is a very important announcement. Mr. Wells of course will take notice, and govern himself accordingly.

☞ The Portsmouth, Virginia, Transcript, copies some extracts from Henry C. Wright's speech at a disunion convention, —and then says:

This is only a fair specimen of the absurd logic, base immorality, and national degradation, which was evinced by every prominent member of that delectable and august assemblage of men in whose veins course the half-tory, half-devil blood of those proscriptive old hypocrites, "the puritans."

The historical knowledge, which can make half-tories out of the Puritans, is just about equal to the christian charity which represents them as half-devil. We copy the sentence as a literary curiosity.

The Treasury department advertises for proposals and specifications for building a steam revenue cutter of 600 tons, with double engines and side-wheels, and to carry ten guns. It must be of the fastest sailing qualities and rigged as a sail vessel, and be of sufficient strength not only for navigation, but also as a tug vessel in emergencies. Congress at the present session appropriated $120,000 for the construction of such a vessel, with the express understanding that it shall be used for the relief of vessels in distress.

☞ J. H. Davis, a native of New Bedford, who emigrated to California, a few years ago, and was an active member of the Vigilance Committee last year, committed suicide in San Francisco on the 16th of January last. Loss of property and friends is assigned as a probable cause of the fatal act.

Correspondence of the Chronicle.

LOCALS IN EXETER.

Exeter, N. H., Feb. 17, 1857.

Dear Chronicle:—For the last two or three weeks, our town has been decidedly dull. While New York has been standing all aghast at the terrible tragedy lately enacted there; while Boston has been thawing out her harbor; and while you at Portsmouth have been enjoying such admirable concerts, we have been buried in comparative oblivion. No murders have been committed, except in the case of twelve unfortunate porkers—the largest weighing upwards of five hundred pounds, all of which were slaughtered by one man in less than an hour's time, which fact was duly recorded in the News Letter of Monday. No accidents have taken place, save that a poor fellow was deliberately shot, on the 14th inst., by a well known youngster, armed with bow and arrows. However, matters have not been entirely *in statu quo*.

Prof. Bronson finished, on Sunday evening of last week, the course of six lectures he had proposed to deliver. His lectures were of a moral character, and no doubt proved very attractive to many; but as his remarks were by no means confined to a few subjects, they could not be very full on any particular. Judging from his hand bills and lectures compared, he seems us to be fully entitled to the title "Professor," at least in one sense of the word.

The Concert given by Mr. Joseph S. Robinson, on Saturday evening last, was just what it pretended to be, a display of native talent, and it was fully appreciated by a large and attentive audience. The frequent exhibition of home material in the musical line, will tend effectually towards removing the absurd idea, that none but foreigners are capable of giving good concerts.

Fountain Engine Company, No. One, will give a Fireman's Ball, at the New Town Hall, on Friday evening next. They will have a good time, of course, as Fountain's boys have learned from experience how to carry out such affairs.

The members of Rockingham Chapter, No. 1, Order of United Americans, will also give a Levee and Ball at the same place, on Monday evening, Feb. 23, in honor of the one hundred and twenty-fifth anniversary of the Birth day of Washington. The proceeds, after defraying expenses, will be given to the Exeter Cornet Band.

A few doses of "ethereal mildness" were thankfully received here during the present week. Judging from the effects which they have on the snow and ice in this vicinity, we are reasonably led to expect that your harbor *may possibly* become navigable—and the workmen at the Navy Yard be able to work, a while, at least, without being frozen to death— Senator Butler to the contrary notwithstanding.

Yours, r. c.

Dr. Dewey has written a letter to the New York Post, in reply to the attack made upon him in the Charleston Courier, for having expressed in the kindest and most moderate tone, his opposition to the extension of slavery.

Poor Dr. Dewey! Having abased himself in the dust before the Moloch of Slavery, and eaten a peck of dirt at his footstool—he is now spurned because he cannot eat a bushel of the same article without choking a little. He objects in the most gentle and moderate tone—but Moloch only despises him the more, and throws at him a mixture of dough and dirt.

☞ The Manchester American has been reduced to its original size, by the new proprietors; and is again a penny paper, instead of a two-center. The Manchester Mirror was the first Daily in New Hampshire, being a year or so older than the Chronicle; and the American was the third —"we three" comprise the entire Daily press of the State. We *think* it will be some time before we make ours a penny paper again—we had rather make it still larger and mark the price up a little. The three Portland Dailies are each $5 a year, and two cents per copy. Newspapers are too plenty and too cheap.

An appalling disaster occurred on the Chicago and Rock Island road, during the late heavy rains. A freight train, consisting of engine, tender, and seven cars loaded with horses, was thrown into the Du Page river, near Joliet, the swollen torrent having not only submerged the bridge but actually swept it away. The whole train disappeared beneath the surface of the stream, carrying three men to a watery grave and drowning its entire freight of animals.

Rev. Dr. Bushnell of Hartford came back from California in last week's steamer, and is much improved in health.

Emigrating.—since the break down in ship building in Newburyport last season, quite a number of persons, some with families, have left the city, mostly for the West. We should think the population was two hundred less to-day than the last year at this date. Those leaving are some of the best men we have—young mechanics. The fact is stated by the correspondent of the Boston Journal, that yet another party, to consist of forty or fifty persons, is preparing to leave Newburyport in the spring. It is time for owners of real estate to think if they cannot do something to aid mechanical business here.—*Herald.*

We should think so, too, if the above is true. But the fault is not all with the capitalists. This mistake the idea that "going out West" is surely entering the promised land, has cost New England too much, already. Nobody has ever shown, nobody can show, that energy, thrift, ability, are not as well—aye, better paid, (all things considered,) in the East to-day, than in the West. The same amount of labor, economy, and deprivation in New Hampshire, will insure a reward as great as in any other country under the sun—but people are not willing to balance the two evenly and fairly. Too many expect to live and thrive as well on loafing at home, as those would on the severest toil on some "claim." We would rather crawl in New England, than fly in California—rather die in the land of the Puritans, than live long on the shores of the Pacific. Better "stay where you are." r.

DOCTOR KANE.

Dr. Kane is reported by telegraph to be dying at Havana,—and he is probably dead. The Boston Courier says of him:

Elisha Kent Kane, son of Judge Kane of Philadelphia, was born Feb. 13, 1822. At the age of 21 he took his medical degree, and entering the United States service as assistant surgeon, accompanied the first American embassy to China. His position afforded him opportunity for adventurous travel, which he was not slow to use, and leaving the American legation, he visited various portions of China, and the Indian Archipelago. Later he ascended the Nile as far as the boundaries of Nubia, and spent a season in Egypt; from Egypt to Greece, which he traversed on foot, and so back to the United States, where he arrived in 1846. He was immediately ordered to the Coast of Africa, and in 1847 tried to reach the slave markets of Whydah. The African fever attacked him, and he was sent home, wasted and worn, to die. His word was not so to be ended; his constitution triumphed, and he served as a volunteer in the Mexican war. During this war, in saving the lives of some prisoners whom he had taken from the band that had aided in their capture, he received bad wounds, which a strong constitution and kind nursing alone prevented from providg fatal. In 1850 he sailed as surgeon to the first Grinnell expedition in search of Sir John Franklin. From that time till this sad despatch his history is known to the world, and there is not a more daring, chivalrous, noble record in the whole catalogue of scientific explorers.

In Boston, the Telegraph, started to defend the Prohibitory law, has lately merged with the Chronicle, which was established by the liquor dealers.—*Prohibitionist.*

It is more strictly correct to say, that the Telegraph company have bought the Chronicle.

☞ Ichabod Griggs, a sober, industrious man, in easy circumstances, recently hung himself near Danville, Va. No cause is known for the rash act, except that he was to have been married the next day. The license was found in his pocket.

☞ DeNay plead guilty on Friday last to the charge of assaulting Carter, the editor of the Middletown Argus, and was held to bail in the sum of $12,000. He was also held to bail in the sum of $15-000 in a private suit instituted by Mr. Carter.

THE GREAT DISCOVERY.

Many years ago, Doctor Durleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an effectual blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure for Consumption unless the patient is past all hope when aid before commencing its use!* It is called the "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. ow7 TuTsh 6m

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American people to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently their young wives make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give information, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield a much larger sum to holders of Warrants than it sold here. Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

Also, for sale 440 acres of fine Timber Land.

HAVRE DE GRACE, Feb. 17.—The ferry steamboat has crossed the Susquehanah three times since last evening. No further detention is anticipated. Passengers and freight are being transferred to day as usual. The ice is moving out slowly.

ST. LOUIS, Feb. 17.—The Kansas correspondent of the Republican says that a bill authorizing the Courts to admit bail in certain cases, vetoed by Gov. Geary has been passed over his head, with but one dissenting vote in the House. The Commissioners apointed to investigate the charges against Surveyor General Calhoun, have reported in his favor. Gen Clark, charged with killing Mr. Barbour, has given himself up, and entered a recognition to appear before the Court in the spring.

THE OCEAN TELEGRAPH.—It is stated the managers of this enterprise entertain no doubts in regard to its success, except under the single head of laying down the wire. The cable once laid and in operation, no question is admitted about its paying good dividends. The doubt and risk is about placing the cable safely at the bottom of the sea. It will cost about a million and a quarter of dollars on board the ships. When the cable goes overboard, this sum of money must be put at risk.—No reasonable insurance can be effected on it, owing to the untried and peculiar nature of the enterprise. The British offices have been unfortunate in underwriting some of their smaller operations of the same character, and are disinclined to this at any price. The best rate they have suggested is 50 per cent. The Company, of course prefer insuring themselves to paying so heavy a premium.

It has been ascertained that the outside limit at which telegraph signals could be transmitted from Ireland to Newfoundland (allowing the necessary time between each signal for the conducting wire to become demagnetized) would be eight in one minute, 480 in one hour, or 11,520 telegraphic signals in one day of 24 hours. Therefore allowing the minimum of telegraphic signals for each letter at four (which is, practically, the average of the Morse and all other systems heretofore in use, and adapted to long circuits) it would appear that the utmost capacity of a single wire across the Atlantic, by any telegraph system heretofore in use, would be limited to 120 letters per hour, or 2,880 letters per day of 24 hours. The average number of letters to a word in the English language is five; hence the capacity of one wire may be put down at 576 words per day. Fee one dollar per word.

☞ News from Nicaragua, favorable to Walker,—has been received by steamer Texas, at New Orleans. The steamer Tennessee, from New York, with recruits and amunition for Walker, had arrived at Greytown, as had also Col. Titus with his recruits from Kansas. Walker's forces, it was said, had defeated the allies, in some late skirmishes. Walker's whole force is rated at 1300 men, of whom 100 are fit for duty and in good health and spirits, having three months' supply of provisions and ammuniton. [We suppose 100 here means 1000. The account is from Walker's position, Feb. 3,—and is given by his agents.]

☞ The recent obstruction of travel by the freshet on the Hudson River gives occasion to many papers to urge more vehemently the construction of a bridge at Albany.

☞ The bodies of Mr. and Mrs. Rotch, who were lost in the flames at the recent fire on Mercer street in New York, were recovered on Saturday afternoon, and a verdict rendered of "death by fire."

☞ A bill is now pending in the U. S. House of Representatives, having passed the Senate, which provides for the construction of ten steam sloops-of-war.

☞ The Grand Jury, in New-York city, have commenced on the Burdell murder case. Some new witnesses now appear, who did not disclose to the coroner.

CONGRESS.

TUESDAY, Feb. 17.

SENATE.—Mr. Seward's bill to perfect the home valuation principle of the Tariff act of 1846, was laid on the table at his own instance, in order to avoid embarrassment to its consideration, in consequence of Mr. Adams's amendment, to exempt railroad iron from duty. It is Mr. Seward's intention to call it up at a future day.

The Senate passed the bill in addition to the act to more effectually provide for the punishment of certain crimes against the United States; also, the bill to amend the act providing for the better organization of the Treasury, and for the collection, transfer, safe keeping and disbursement of the public revenue; also, the bill confirming to the several States the swamp and overflowed lands therein.

Mr. Seward introduced a bill to further amend the act for the better security of the lives of passengers on roads, and vessels propelled in whole or in part by steam.

Mr. Bell, of Tennessee, introduced a bill to secure to all the States some greater measure of justice and equality in the distribution of the public lands and their proceeds.

The Senate proceeded to the consideration of the bill to increase the pay of officers of the army. Passed, after debate, without amendment.

On motion of Mr. Toombs, a resolution was adopted, calling on the Committee of Commerce to inquire into the expediency of exploring the river Niger, in Africa.

On motion of Mr. Brodhead, a resolution was adopted, directing the Committee on Commerce to inquire into the expediency of authorizing the Secretaries of War and the Navy, under direction of the President, to employ such officers as they think proper to make exploration and verification of general surveys already made, for a ship canal near the Isthmus of Darien, to connect the water of the Pacific and Atlantic by the Atrato and Trundo rivers.

Mr. Johnson, from the Committee on Printing, reported in favor of printing 27,000 extra copies of the mechanical part of the Report of the Commissioner of Patents. Agreed to.

Adjourned.

HOUSE.—Mr. Wakeman called up Mr. Barbour's motion to reconsider the vote by which the Senate's Submarine Telegraph Bill was referred to the Committee on Post Offices.*

Mr. Jones, of Tenn., moved to lay that motion on the table—negatived by 77 to 114.

The question on reconsidering was carried.

Mr. Jones, of Tenn., moved to lay the bill on the table—negatived by 77 to 121.

He then ineffectually moved to refer the bill to the Committee of the Whole on the State of the Union, the vote being 74 to 112.

He then moved that the further consideration of the bill be postponed to the 3d of March—negatived by 74 against 114.

Mr. Wakeman moved to recommit the bill to the Committee of the Whole on the State of the Union, where such amendments as are proper could be made. Agreed to.

Another despatch states that the bill was finally recommitted to the Committee of Ways and Means, by a vote of 112 to 74, thus indicating the probable success of the bill, after it shall have been slightly amended as proposed by its friends.

The House passed, by a vote of 99 against 79 a bill for the relief of the people of Kansas, repealing all the rules and regulations purporting to have been adopted at the Shawnee Mission, by a body of men claiming to be the Legislature, and declaring all the acts and proceedings of that assembly void; likewise providing for a new election of members to the Legislature, and pains and penalties for illegal voting and unlawful interference with the rights of voters.

A separate vote was taken on the preamble of the bill, declaring unjust and unwarranted the test oaths prescribed for voting or holding office in Kansas, and that the House Committee of Investigation report that the Legislature was not elected by legal voters, but was forced upon them by non-residents, in violation of the organic act of the Territory, and having thus usurped legislative power, it enacted cruel and oppressive laws. Adopted 95 against 68.

The following are the names of all the members from the non-slaveholding States who joined the Southerners in voting against the bill in the House, declaring the Legislature of Kansas spurious, its laws invalid, and providing for a new election: Messrs. Allen, Broom, Cadwallader, English, Florence, Fuller of Me., Hall, Harris of Ill., Kelley, Weller of Ind., Morrison, Parker, Rock, and Whitney.

WASHINGTON, Feb. 17.—The Senate Committee on Territories have agreed to report, without amendment, the House bills authorizing the people of Minnesota and Oregon to form State Constitutions, and will try to put them on their passage to-morrow.

Judge Harrison's case comes up in Executive session to-morrow, and a spicy debate is anticipated. It is extremely doubtful whether he can be confirmed, as the friends of Lecompte insist that he has not been fairly dealt with.

Mr. Sartiges has recently represented to this government that a large amount of property belonging to French subjects was destroyed by the bombardment of Greytown, by Capt. Hollins. The French government requires that this government shall make up the losses. The Secretary of State, it is understood, is now engaged upon his reply to the French government. What course will be pursued is not known, but, if the demand is acceded to, the English government will also make a demand.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.

H. HUTCHINS, Esq; DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

The Albion:

A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics, and General Literature.

The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and with the best criticisms issued by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.

PREMIUM ENGRAVINGS.

Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of

FLORENCE NIGHTINGALE.

This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made expressly for the Albion, by J. B. Wandesforde, whose "Mary Queen of Scots" has been so generally popular.

A copy of this splendid engraving may be seen at the Bookstore of J. F. SHORES, Jr., who will receive subscriptions for the "Albion."

Headache, Sick Headache, Foul Stomach,

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache and costiveness by your Pills, and have kept them in my family for years. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the world is much benefited.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my family and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their rapid falling action on the liver is quick and decided, consequently the cure is adinirable from the first dose, and goes on regular. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, WM. HALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT OSPREY, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine They have cured my family more good than I can tell you. She had been sick and pining away for months, and got off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms from her poor body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and was cured by two doses of your Pills, while others around us paid from five to twenty dollars for other bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be in great demand.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, WYOMING CO., N. Y., OCT. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of life.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the purgen of all that is great in medicine. They have cured my daughter of a loathsome sore upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair, which your Pills have cured by purging out the foul humors. Her father has long suffered with a humor in his blood, which your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I feel it my bounden duty to add my testimony to the relief your Pills have brought me. For I did not expect to get rid of my old settled pain in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding large quantities of the best medicine I grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effect was magical. In a few days, by persevering in the use of them I am now entirely well.

SENATOR CRAWFORD, RATON HOUSE, LA., 8 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout — a painful disease, that I had suffered for years. VINCENT SCIBELLI.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which alkolizes the system so much as to shatter health, leaving in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of dangerous pulmonary complaints have made it already known. Few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities in which some of the most distinguished cures living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. Which is in the most powerful antidote for the deadly Consumption, and the dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in their dwellings against sudden attacks upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumption it prevents than cures. Keep it by you, reader, and cure your colds while they are curable, nor wait lest them until no human skill can master the incurable cankers that, fastened on the vitals, sate your life away. All know the dreadful healing of lung disease, and as they know too the virtues of this remedy, we need not dwelle to assure them it is still made the best it can be. We spare no pains, and use the best medical skill the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their ease.

American and Foreign Patents.

H. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

STILL an active practice of upwards of twenty-four continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any other Agency offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, or THE PATENT OFFICE than the subscriber, and as SUPERIOR TO THE REST OF THEIR OF ADVANTAGES AND ABILITY, he would and that he has abundant reason to believe, and can prove, that no other office of the kind MAKES this charge for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and other decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States, and Great Britain, enable him, in any question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. I have seen few, if any persons filling that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 11, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. THOS. EWBANK,

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at lowest prices. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Cinnamon, Cinnamon b, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c. &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1,00	5 lb. Java,	1,00
5 lb. Young Hyson	1,75	5 lb. Mocha Coffee,	1,00
5 lb. " Hyson	2,25	8 lb good "	1,00

The Spices are put up in 1 oz. 3 oz. 4 oz. &c. according to the number of ounces they contain, so as to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared and put up in neat boxes, with our name and trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TAKE NO HUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as a genuine Article. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and high estimation in which they are held. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our name, "E. E. DYER & CO." on them.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the retail price.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do a credit business. Our friends and the public confidently invite an examination of the quality of our stock and our prices as compared with those of any other house.

Extract from the Commercial Advertiser, July 27, '55.

"Mr Prince, we believe, is one of those rare fortune by disposing of rights to other manufacturers to use their new improvement, but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can supply the demand for the future give one testimonial we have received.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by readily passing through it, where required to all the causes of impurities and humors. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It removes by its wonderful power *all which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give vigor.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It enlarges the capacities of the lungs, by purity and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It acts upon the cause, by removing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that have resisted all preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLORIOUS*

ARNOLD'S VITAL FLUID

are enabled to cure them so that they *stay cured.*

The Enslavement of Kansas.

We commend to the attention of all those who believe that the slavocracy have given up the attempt to make Kansas a slave state, the following statement, by a correspondent of the Missouri Democrat, of a cunningly devised scheme for that purpose introduced into the bogus legislature of the territory.

An immediate census of Kansas is to be taken, to be completed before the tenth of April. No previous residence or evidence of citizenship is to be required, except that the voters thus listed shall be citizens of the United States, and shall be inhabitants of the Territory on the first day of April, 1857. No emigrant coming to the Territory after that date, shall be allowed to have his name on the lists thus taken. The census shall be taken by the Sheriffs or Judges, or their deputies of the respective counties. All the officers to take the census, or manage the election are appointees of the Territorial Legislature. There is no penalty attached to taking a false census.—There is no requirement about visiting the houses of settlers. The only rule is that they shall be inhabited on the first of April. As the elections are to be held under Territorial laws, it is probable that no one will be listed or entitled to vote who has not a receipt for the payment of Territorial taxes.

The person taking the census makes the returns by the 10th of April. The Judge of Probate shall copy a list of the voters' names thus taken, and post one up in every precinct in the county. No penalty is affixed to the non-performance of that duty. The County Court shall remain in session from the 10th of April to the first of May. This court alone is entitled to make erasures or add new names. They shall do so at their discretion; their only rule being those who have inhabited the Territory on the first of April. Their decisions are final; no appeal can be made from them. When they have completed what changes they deem it proper to make before this first of May, the list stands as it must be reported.

A copy of that list, thus perfected, is to be sent to the Secretary of the Territory. The Governor shall then make an apportionment from it, giving each of the districts created by this bill, as nearly as possible, equal representation, according to the returns from each of them. There are to be sixty delegates.—This is the only authority left to Gov. Geary in the matter. Even there his duty is clearly defined; there is no discretion vested in him; no evidence of fraud entitles him to interfere.

There are nineteen districts. All of the counties bordering on Missouri are made full districts. Shawnee, Richardson and Davis counties, all thinly settled by Free State men, are made only one district. Shawnee county, where Topeka is located, has from two to three times the number of voters that are in the counties of Johnson, Lyon, Anderson, and Marshall, all put together, and the latter counties are all made full districts by this bill.—Johnson county is the Shawnee reservation. There are not thirty legal voters in it, but it is likely that there will be quite a rush of Missourians from the border counties to it when the census is taken, so as to secure claims, and to be listed as voters. Very few of such will ever settle permanently in the Territory. This distribution of districts is a clear indication of the intended fraud.

The election for delegates is to be held on the 3d Monday in June. It is to be governed by the Territorial election laws. The county judges are to determine how many precincts there shall be, and at what point of each voting shall be held. They appoint three judges for each precinct to conduct the election. The judges of election shall make and certify to the county court the election returns. This court shall send one copy of such returns to the office of the Secretary of the Territory, and file another in their own. The person having the largest number of votes on these returns is declared elected by the provisions of this bill, and the Governor shall issue him a certificate.

Cases of contested elections are to be decided by a convention called by the same authority which institutes the election.

The convention shall frame a constitution for the State of Kansas, and shall submit the same for the approval of Congress. No provision is made for submitting it to the people. The convention is to assemble at the Capitol of the Territory on the first Monday in September."

The same correspondent states that the joint committee of both houses, to which this pabllc swindle was referred, reported it back without amendment and recommended its passage. If it passes, as it undoubtedly will, the Free State settlers will be again thrown upon their own resources. The bill opens the way for a fresh border invasion, and justifies it with new pretexts of law. And when its work is consummated, instead of submitting its work to the judgment of the people, this proslavery convention hurries its fraudulent Constitution to Washington for the ratification of a proslavery Congress.

KANSAS.—Gen. Cass of Michigan, in a letter to Gov. Geary concerning the Hickory Point prisoners, advises that the chain and ball part of their punishment should be omitted, but that they should be compelled to serve out their time. The unfortunate men are still hoping for pardon through executive influence.

There was a little excitement at Lawrence on the 24th ult., occasioned by the ladies of the place making an onslaught upon the groceries of the place, destroying everything they found in the shape of intoxicating liquors.

The bogus legislature has passed, over the veto of Gov. Geary, the bill to admit persons charged with murder to bail, and giving judges and justices unlimited discretion to admit or refuse bail in other cases. Other bills are in process of enactment extending the jurisdiction of justices of the peace, who are the creatures of the legislature, and giving jurisdiction in civil and criminal cases also to the probate judges, appointed by the same legislature. This confusion of powers is defended by the sham legislature on the ground that they cannot rely for justice on the courts established by the federal government since the persecution of their favorite Judge Lecompte.

The legislature has passed a bill commissioning Shannard as Sheriff of Douglas county. The Governor had refused to commission him, on the ground of intemperance and brutality of character.

[By Telegraph to Boston Chronicle.]

Grow's Kansas Bill Passed.

WASHINGTON, Feb. 17.—Grow's bill wiping out the bogus laws and legislature of Kansas, and empowering Gov. Geary to create another legislative assembly by a new election, in which there shall be security at the polls for actual settlers, &c., was passed in the House to-day by a vote of ninety-nine to seventy-nine.

The Democrats voted in a body against it. These are the men (the Northern portion of them at least) who fought through the recent Presidential campaign on the platform of "Buchanan and Free Kansas." To-day they vote to enslave Kansas.

The Buchanan Democrats in the Senate will be driven to kill this bill, under the whip and spur of Toombs, Douglas & Co.

Morning Chronicle.

FRIDAY, FEBRUARY 20, 1857.

SUPREME JUDICIAL COURT.—The February term of this court for Merrimack county, Judge Perley presiding, closed its session on Friday. The grand jury returned 24 bills of indictment: 1 for adultery, 1 for altering railroad switch, 2 for stealing from the person, 1 for defect in highway, 2 for assault and battery, 3 against selectmen, 1 for larceny, and 12 for violation of the liquor law.

Laura A. Bunker plead guilty to the indictment for adultery with one Geo. Wise, and was sentenced to pay a fine of $1 and costs, and to confinement in jail for three months.

Ira G. Hackett pleaded guilty to 2 liquor indictments, and was fined $50 and costs on each.

State v. Nathaniel Weeks—liquor—verdict guilty; fined $50 and costs. Sullivan Att'y General for State.

State v. Reuben Fitz—liquor—verdict guilty; fined $50 and costs. Sullivan for State.

State v. Betsey Haines—liquor—verdict guilty. Questions of law transferred. Sullivan for State; George & Foster for respondent.

State v. Jonathan Fellows—liquor—verdict guilty. Question of law transferred.

State v. Geo. Clark—for altering switch on the Concord Railroad—verdict guilty; sentence 3 days solitary and seven years hard labor in the State Prison.

State v. James O'Neil—for stealing 2 coats—verdict guilty of stealing property of the value of $18; sentence 6 months in jail, and costs, and to pay the owner of the coats $36.

Bridget O'Brien v. Dennis Clifford—breach of promise of marriage—verdict for the plaintiff for $68.

There were four or five liquor cases in which the verdict was not guilty.

The above account is abridged from the N. H. Patriot,—and does not look as if any criminal law of our State was a dead letter.

WASHINGTON'S BIRTH-DAY is now legally one of the holidays in Massachusetts, and will be observed as such. Preparations are making in various quarters, says the Newburyport Herald, to celebrate on Monday, as the 22nd this year comes on Sunday. In the Legislature, Washington's Farewell address will be read before the three branches of the State government, and in the presence of State officials who are invited to be present. In Boston, Edward Everett repeats his eulogy on the "Father of his Country," and other demonstrations will be made. In Charlestown salutes will be fired, bells rung, and the firemen celebrate. In Roxbury, the Mayor has issued his proclamation for the observance of the occasion; and everywhere in the State will be the firing of guns, the ringing of bells, the suspension of newspaper publication, schools, and ordinary business, with rejoicings and hilarity appropriate to the day.

CATHOLIC SEMINARY IN MANCHESTER.—Directly south of the Catholic Church in Manchester N. H., a Catholic School House has been erected, the past season, consisting of a two story brick building and basement, 32 by 53 feet, with two wings of the same height 20 by 58 feet, with minor projections. The building is constructed on the plan of a boarding institution, having a refectory, dormitories, &c. The three dark cells or vaults which have given rise to the report that the establishment, when organized, would be a nunnery, the American says, are manifestly intended, two of them for a cellar, and the other for a depository of coal.

RAILROAD FAT LITY.—A terrible accident occurred last Friday on the Delaware and Lackawana Railroad, near Abington, Pa., resulting in the immediate death of the engineer and a fireman, and serious injury to many of the passengers. The father of the fireman, whose name was Arnold, was instantly killed upon a locomotive three years ago, at Susquehanna, upon the New York and Erie Railroad; and the son, a young man about twenty years of age, had returned the day before from the funeral of his brother. Friday night the news was communicated to the mother that another son was no more.

A GOOD EXAMPLE.—The Newburyport Herald states that "Agile" Fire Company No. 6, of that city, at their last meeting voted that no spirituous liquors should hereafter be allowed in their house or at meetings of theirs, and that the company should not accept of any when offered at fires.

OLD FOLKS CONCERTS,

IN COSTUME.

The Boston Journal, last week, contained a well-timed article, censuring the "old clothes" concerts which have been somewhat popular in that and other cities. It says, however much we would advocate amusement for the mind rather than study, as a relaxation—and let us not be misunderstood in this application, concert entertainments are intended and employed as means of amusement—we are afraid that this Old Folks' caricature is being "run into the ground." We will speak more plainly, and say it is a degradation of talent to employ it so much in purposes of this character. Why cannot the same energy be placed in a position to forward the cause of art? Is it necessary to appeal to the more depraved musical sense, in order that success may accrue, or does it resolve itself into the simple reason that it pays?

To this, a correspondent, evidently himself one of the old folks, and a lover of the ancient music, agrees:

Your remarks on this subject I regard as just and timely. The danger may be small that these burlesques will become an "institution;" but it is very certain that they are catering for a taste that is anything but refined and elevated. Those elements which make them popular are tending to extremes: the actors are over-acting; and the final result will be the disgust of all but the vulgar.

Having in my childhood heard those old tunes *decently* sung in the worship of God, I love now to hear them repeated.—But, when I analyze my feelings, I find that the pleasure which I derive from them is the product, not so much of the music itself, as of the associations which the tunes awaken. I am taken back many years, and touchingly reminded of persons and scenes which memory has faithfully treasured.

But I have a strong repugnance to all attempts, by costume, intonations, or any other imitative arts, to raise a laugh at the expense of pious ancestors. They were as honest in their devotions, and as pure in their lives, as any of their successors.

Are we dealing fairly with their memories when we encourage a trained company to make sport for us by caricaturing, not their foibles, but their Christian simplicity? My most sacred affections are wounded, not by what I *hear*, but by what I *see* in these mock performances. I feel that those whom I ought to revere are treated with a levity which must sink them in the esteem of the present generation. To *sing* occasionally, the ancient tunes, for the edification of the more aged, may be commendable; but to *exhibit* them for mere amusement, is anything but manly or honorable. If we must have mimicry for the entertainment of the mirth-loving, let it not meddle with the consecrated remembrances of filial hearts.

If the devotional singing of our predecessors may be t us rendered ludicrous for public amusement, why not also their preaching and praying; we may yet have a reproduction of Cotton Mather, and Roger Williams and Mather Byles.

The Cooperstown Journal, which opposes the prohibition of the liquor traffic, comments as follows on a sample of its legitimate effects:—

"The Poughkeepsie papers notice the death of John Gemmil, of that city, in the County House, he having been picked up in the street a few nights before, intoxicated and badly frozen. It made us feel sick at heart to read this paragraph. When we left Poughkeepsie, a few years ago, John Gemmil was a merchant tailor doing a handsome business. He was a young, intelligent, enterprising, and fine appearing man, industrious and respected. Alas how dreadful the effects of *rum*!"

☞ The Washington National Pen, advertised by Mr. J. H. Foster, is the best steel pen we have ever used. We have had a couple in hard use for two or three weeks, and don't see but they are as good as new—whereas, we have rarely before found a steel pen that would stand our hard service for more than as many days. They do not quickly corrode, and the ink flows freely from them, which is not the case with steel pens generally, which have been used much and not carefully cleaned. We go in for the American Pens.

LARGE FAILURE IN BOSTON.—The announcement on Change that Col. Enoch Train, the large and enterprising ship owner, had suspended payment, had occasioned much comment. The fact is regarded as a public calamity. It is reported that a large part of his indebtedness is abroad, where great losses have been sustained.

The Concord Statesman announces that the Rev. Newton E. Marble, rector of the Episcopal Church in that city, has been invited with some probability of acceptance, to take charge of the Episcopal Church in Newtown, Conn.

MELANCHOLY SUICIDE. — A young lad named Mark Cox, son of Warren Cox of this city, destroyed himself on Tuesday last, by swallowing a dose of strychnine. He took the poison about 9 1-2 A. M., and after lingering in great agony for some hours, died at 2 1-2 P. M. He was in his sixteenth year.—*Kennebec Journal.*

RELIEF TO THE HEIRS OF THE MURDERED WARDENS.—In the Massachusetts House of Representatives, the Committee on Prisons, of the Legislature, have reported a resolve, that there be allowed and paid out of the treasury to the widow of Solon H. Tenney, late Warden of the State Prison, the sum of $1500, and to the mother of Solon H. Tenney the sum of $1000, and also to the widow of Galen C. Walker, late Deputy Warden, the sum of $2,500.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered such a simple article for use in his practice, that he called it a *medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. by its use in his private practice, he established the reputation of being the ablest physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a copy of the secret recipe, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure but it will cure, unless the patient is past all medicine and before commencing its use!* It is called the "*Doctor Burleigh Smart's Cough Medicine*," and is sold for sale by all apothecaries.

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the heads of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and unfrequently aged old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until late ly, when it was attributed to the use of this invaluable Hair Restorative.—[Lesslie Journal.

The Washington Medallion Pen is manufactured with the greatest possible care, and in its conformation it combines all the principles calculated to produce an easy as sore as the quill, so that the Farmer and Mechanic can use it, as freely as the Professor of Writing. Thereis consists its chief excellence. And Anyone is asked to use it in reference to Pens of *English or French* manufacture. England has drawn from us $600,000 annually for Steel Pens. With the consumption of the 27,000,000 of Pens in this country, the American Steel Pen Manufacturing Company will stop that "flow." For sale by

ELEGANT HOUSEHOLD EDITION OF THE

Waverly Novels.

TICKNOR & FIELDS of Boston are now publishing a beautiful Household Edition of the Waverly Novels, to be completed in 48 volumes of portable size, in 12mo. form, with illustrations. The price will be 75 cts. per volume.—Specimen of type and engravings may be seen at the bookstore of J. F. SHORES, Jr., No. 1 Congress Block, who will receive subscriptions for the same. f16

For the West.

BENJAMIN NORTON

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield a much larger sum to holders of Warrants, than it sold here. Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

Also, for sale 440 acres of fine Timber Land.

80 acres in section 19,	Township 102,		
80	do.	18,	do. 102,
80	do.	18,	do. 103,
80	do.	2,	do. 105,
80	do.	2,	do. 104,
40	do.	11,	do. 104.

Also 20 Lots in the town of Stockton, 8 miles from Winona, Title indisputable,—having a warrantee deed from the Judge of Probate for Winona County. A Plan of the town can be seen on application to the subscriber.

I intend to leave Winona, Minnesota, by the 1st of April; and all business entrusted to my care will be promptly attended to. Money will be taken, and invested in Land, or put to interest—as may be desired, as money lets in Winona for from 3 to 6 per cent per month, on the best of security. Residence 14 AUSTIN STREET,

LOCAL.

"HIMSELF AGAIN."—We were glad to see, a few days ago, that Mr. Thomas S. Nowell, whose shoe manufactory was burnt out a month or two since, has got his building repaired and improved. He is now ready to supply orders for the best quality of goods in his line, (see his advertisement on the first page,) to almost any amount. He is an enterprising and industrious young man, and so of course thriving and prosperous; and we are glad he has succeeded so well. We wish there were a hundred such establishments in Portsmouth—as there might well be; which would do away with the necessity for so many of our young people to go "out West"—if, indeed, there is any real need of that now.

JUST IN SEASON.—We refer readers to the card of Mr. Porter, in another column of our paper to-day. The winter now passing away has been so severe that many who had intended to furnish their rooms in the spring, will be compelled to make the old furniture answer another season. An excellent compromise between pride and economy may be effected by sending the old furniture to Porter's, instead of to the auction store, and it will soon be returned as handsome as new, and at a trifling cost. Porter is a good workman, and will give satisfaction to all who may become his patrons,—so says the Ballot; and we cordially agree to it all. Let Porter slap his brush around among your household furniture, a few hours, and you would think you were "out a visiting."

DIED, in Chicago, Illinois, on the 12th of February, Mr. Robert B. Gray, formerly of this city, aged 24 years. He was a carpenter, and at work on the new City Hospital at Chicago,—from which he fell, on the 28th of January, and received injuries which resulted in his death, as above stated. He was a brother of the late Wm. Gray, of this city; son of Mr. James Gray, of Nova Scotia; and was much beloved and respected by his friends and acquaintances. His remains were brought to Portsmouth for interment.

OUR DOG STORY.—Br. Beard, of the Nashua Telegraph, has become celebrated for telling wonderful dog stories. His last we had marked for copying into our columns, but it disappeared with sundry other things, at the time of "our fire;" so we will tell the substance of it as we recollect it,—without, however, attempting Beard's style. It was the relation of circumstances which happened several years ago, when one of the Nashua clergymen was younger than now. A little dog came in, unseen by any one save the minister, and seated himself on the top of a back pew, in so ludicrous a manner that the preacher could not keep his countenance. He was was forced to look up at the singers; and by way of excusing his apparent want of dignity and decorum, he made some indirect remarks about the dog—which were "taken home" in the singing seats, whose occupants knew nothing of the canine intruder. The Telegraph hints that perhaps some of those "in the seats" have not forgiven the minister, to this day.

Well, now we have got a dog story, which we think will be hard to beat, if not to believe. Mr. Henry S. Akerman, of this city, has a small black spaniel, who will eat metallic substances like an ostrich, and seems to prefer that sort of nourishment. At home, if a lady chances to lay a dress within his reach, he will gnaw off all the hooks and eyes, or buttons, and eat them; and pick up and swallow, all the pins, tacks, small nails, and the like, which he finds laying round—and he always seems to be hunting after such things, too. It takes him sometime to swallow a pin, as he bends it into a sort of coil first; and he frequently tries to eat needles in the same way,—but never swallows them, because he can't bend them up. At a shoemaker's shop where his master is employed, he finds rich picking, in the tacks, brads and small nails laying round, and which he picks out of old boot and shoe heels. If an old pair pair of pants, or other garment, is laid down, the dog makes a feast on the buttons thereon. Shingle nails he is especially fond of, and he bolts these without attempting to bend them. Sometimes he tries to swallow a shoe-knife or some such article, but he has never succeeded as yet—probably when he does, it will be his last meal.

This dog has eaten such substances for years, without apparent detriment to his health—though of course they do not digest in the least degree, and he requires *other* food.

☞ It will be seen by their advertisement, that the celebrated glass-blowers, the Woodruffes, are to give their wonderful, interesting and amusing exhibitions at the Temple, for a few days, commencing this afternoon.

CONGRESS.

WEDNESDAY, Feb. 18.

SENATE.—Mr. Seward reported a bill providing for the exploration of the River Niger.

The bill to prevent the counterfeiting of United States coin was passed. Also, a bill supplementary to the act of March, 1851, to ascertain and settle private land claims in California.

The Senate passed the bills dividing Missouri and Texas each into judicial districts.

Mr. Gwin of California gave notice of his intention to introduce bills authorizing the construction of Northern, Southern and Central Pacific Railroads, and securing the pre-emption of California lands.

Mr. Bell of New Hampshire presented a petition from the Boston, Concord and Montreal Railroad Company, praying for a grant of lands to enable them to pay the debts contracted in constructing the road. Adjourned.

HOUSE.—Mr. Campbell, of Ohio, reported back from the Committee on Ways and Means the Senate's Submarine telegraph bill, with the following amendments, viz: —That citizens of the United States shall have the right to the use of the line for all time, instead of fifty years; recognizing the equality of their rights to its use, and of all lines which at any time may connect with its terminus at Newfoundland, and that it shall be in the power of Congress after ten years to terminate the contract at a year's notice.

An ineffectual effort was made to table the bill, which, however, was passed, amended as above, by a vote of 112 against 81.

The amendments require the concurrence of the Senate.

The House went into Committee on the Tariff Bill.

Mr. Campbell of Ohio, presented a bill and explained that it was the bill reported by a majority of the Committee of Ways and Means, last session, and modified by adding various articles to the free list, and leaving the item of wool with a proviso that all wool of the value of 16 cents or less, and 50 cents and more per pound at the port of importation, shall be duty free, and levying the immediate kinds with the present duty of 30 per cent. Lead, hemp, iron and sugar remain as they are. This bill would reduce the revenue $6,000,000 directly, and probably $4,000,000 to $6,000,000 indirectly, by the facilities it would give the manufacturing interests of the country. This, after a debate, and the offering of other propositions, was agreed to as a substitute for Mr. Wilson's bill, which contemplated a reduction on all the present schedules. The former is still open to amendment.

The Committee rose.

The House concurred in the Senate's amendment to the coinage bill, making it lawful for two years to pay out at the mint the new cents, authorized to be coined for the fractional parts of the Spanish and Mexican dollar. Adjourned.

DREAMINGS.

BY W. B. F. JACKSON.

In a dimly lighted chamber,
Lighted by a single lamp,
Throwing wild and shiv'ring glances
From the ceiling low and damp;
Where, if o'er a silver moonbeam
Entered through the casement wide,
Tremblingly it fled, the shadows
Gath'ring closely at its side;
Where the night wind, straying ever,
Moaned in every hidden nook—
Now like surging of the river,
Now like the murmur of the brook,
Sat the student, idly dreaming,
Dreaming o'er his open book.
When the sorrow-laden Twilight,
Panting on the breast of Eve,
Crimsoned all the air with blushes,
He had cast him down to weave
In the golden woof of fancy,
Visions beautiful and bright,
Such as through the mists of Dream-land
Burst upon the ravished sight.
Visions sad, and visions tearful,
Through the dimness hurry fast,
Drawn by magic wand of Memory
From the chambers of the Past—
While the Future, glad and joyous,
Gleams with forms too bright to last.
One from out the thronging numbers
Gazes sadly on him now,
As the ghastly lamp flare flickers
O'er his pale and thoughtful brow;
Dressed in robes of snowy whiteness,
Such as deck the angels bright,
Round her head a glist'ning chaplet,
Wove from rays of Heavenly light,
Stands she gazing down upon him,
While the love-light in her eye
Sheds a holy radiance o'er him,
And the night-wind, floating by,
Bears upon its perfumed pinions,
Faintly heard, the ocean's sigh.
Now his curling lip, half parted,
Softly whispers, "Mother dear,"
And from out his eyes' dark fringes
Gently steals stern sorrow's tear.
Now her angel form hath vanished,
And another form is there,
With the stars that light the Dream-land
Shining in her wavy hair;
Fairer than the fairest flowers
That in Eden's bowers grew—
Brighter than the star of evening,
While her eye of azure hue
Lies beneath its silken curtain
Like the violet bathed in dew.
'Tis a sister, loved and cherished
In life's dawn, when hearts beat high,
Ere the clouds of sorrow gather,
And the tear-drop dims the eye!
Now she bends a moment o'er him,
And her glances, rife with love,
O'er a rainbow-bridge of beauty
Bear his thoughts to Heaven above.
Like the other she hath vanished;
And within that chamber small
Hymns are sung by angel choirs,
While the darkness, as a pall,
Drops upon the dim-lit chamber,
Covering visions, dreamer—all.

Hutchins' Hair Dye.
The very best now in use, as the many thousands that have tried it will testify.
THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.
Certificate from Mr. J. A. Sassard, Boston, Mass., Manufacturer of Wigs, &c.
H. HUTCHINS, Esq: DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and to sire to promote the universal use of your Dye.

The Albion:
A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics and General Literature.
The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.
PREMIUM ENGRAVINGS.
Subscribers, on payment of the annual subscription, six dollars, are entitled to one of the engravings issued annually and expressly for their use. For the year 1857 the publishers have the pleasure of announcing a portrait of
FLORENCE NIGHTINGALE.
This carefully prepared print, which embodies a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made expressly for the Albion, by J. B. Wandesforde, who chose "Mary Queen of Scots" has been so generally popular.
A copy of this splendid engraving may be seen at the Bookstore of J. E. SHORES, Jr., who will receive subscriptions for the "Albion."

PAYER'S Cathartic Pills,

(SUGAR COATED,)

SEE NAME ON

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and Judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your pills. It seems to regulate the stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and can honestly say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently by their agency we can control bilious derangements of the organs. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours,
ALDEN N. MCKAY, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been bedridden for years with dysentery. Would off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your pills. Many others around us have used them for various complaints, and found five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be spread here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among my people. I consider them the regulator of the digestive organs of dyspepsia and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with scrofula and pimples on her face which kept her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORRISON.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your pills has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgia, which I supposed was rheumatic gout. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects show, but sure. By persevering in the use of them I am now entirely well.

SIMON CRAMER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been severely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country, but have had some personal experience of its effects, and know yet the consolation and relief it brings where such have not among them some living trophy of its victory over the dreadful and apparently hopeless disease of the throat and lungs. While it is the most powerful antidote yet known to man for the fearful diable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the healthy colds to which they are exposed, and which, on the slightest grounds, threaten croup or consumption. Many abundant grounds yet believe the CHERRY PECTORAL saves more lives by the only consumptions it prevents than those it cures. Keep it by you, and cure your noble children from the dreadful fate that so many of your friends have to mourn. Let no human skill can master the incurable cankker that fastened on the vitals, onto your life away. All know the dreadful fatality of these diseases, and yet they know not that there is a sure remedy. We need not detain you then to assure them it is still made the best it can be expelling large quantities of worms from their bodies. We spare no cost, no care, no toil to produce it the most perfect possible, and then we offer it to the public as the best article which our skill can furnish for their use. It is the best article which our skill can furnish for their use.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which E. Fairchild & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all prizes have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. Tickets are sold for every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prices vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 75 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This office is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immensely superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE TEST OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind can be more successful in professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of useful information, and rare decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in Eng. Eng. and United States, Europe, and elsewhere, present question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 11, 1853.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the Patent Office, and he is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Saleratus, Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine,* as they are put up under their own name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we append the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb Oolong "	1.75	5 lb Java "	90
5 lb E. Hyson "	1.85	5 lb Rio "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and will be found upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the purest and best article. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. The being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, and is a most agreeable, nutritious, and healthy beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our name on the package, viz: "E. E. DYER & CO."

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CALL PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on a different system, and we confidently invite an examination of the *quality* of our stock and our prices as compared with those of any other house.

Prince & Co.'s Improved Melodeons,

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this improvement hereafter, if desired.

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of the now celebrated Melodeon, instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have sold but little, and our endeavors were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there fore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.—Dear Sirs: Your favorite Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dodworth, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeonists have any particular interest in those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating the seeds of disease, and action, the causes of impurities and *humors.* Hence its power to cure humors that mere medicine *cannot* cure, thence its power of *strengthening and vitalizing* the blood, thereby to cure *nervous* and *chronic* and *which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. If nerves and vivifies the system, by furnishing the materials which give vigor.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It exercises a powerful strengthening influence upon the liver and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever it is used.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It neutralizes the poisons which lead to blood from impediments to its proper fulfilment of its life-giving functions.

This is done by neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Neutralizing from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their direct action in neutralizing those poisons that *ARNOLD'S GLOBULES*

AND VITAL FLUID

are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

BEARDS, SMOOTH FACES, &c.—The Boston Congregationalist has for some weeks been publishing a series of very racy editorial articles, entitled "Street Thoughts." The one in last week's paper is on beards, moustaches, &c. The writer, in passing from State to Dover street, met 543 men, and undertook the task of ascertaining how many wore full beards, how many wore the moustache, &c. We quote from the article:

We met 543 men. Of these—*one* had a smooth shaven countenance throughout, stove-pipe hat, gold spectacles, white cravat, jet black drapery, and was, in short, a thorough going specimen of the D. D., got up on the most correct and elaborate principles, without regard to expense.—*Thirteen* were young men whose stay at Jericho had, as yet, been unproductive of appreciable results. *Four* were men of the old school, smooth-shaven, with the exception of slight tufted promontories jutting downward from either ear, as if designed for a compromise measure between the good old doctrine and modern radicalism. *Twenty-seven* had what used to be called whiskers—looking very much like straps to hold the hair on. *Thirty* wore the regular shed roof French moustache—smooth-shaven beside; looking as if by far the most convenient method of feeding would be to hang them up by the heels, and slide necessary victuals down the inverted sugar-scoop thus presented, into the orifice of the mouth.

Forty-three wore the moustache with a fancy tuft upon the chin, but with smooth cheeks; looking as if a semicolon was the best extant representation of their idea of facial adornment. Eighty-seven had the upper lip shorn, and the beard clipped close, and shaven down an inch or so from the crown of the under lip, in crescent form; as if they had tied up their jaws in a halter muffler, in consequence of the toothache. Eighty-nine had full beards—moustache included, more or less flowing; and looked—like sensible men, as God meant to have them. The remaining two hundred and forty-nine wore the full beard, without the moustache, and looked—like sensible men, who had not quite moral courage enough to do a just and natural and healthy thing, for fear of the reproach of dandyism, or of censure from those whose "weak consciences" are apt to be offended by any attempt to obey God which leads people across lots without regard to the conventional fences which men have builded.

MORMONISM.—The Mormons carry the doctrine of progressive and human perfectability further than other transcendentalists. It is our *neutral* opinion, without touching on politics or religion, that Mormonism is a nuisance that will yet have to be abated at the point of the bayonet, and *pickled in Salt Lake* to keep it from corrupting the moral atmosphere.—*Philadelphia Sun.*

WEST AMESBURY.—The Newburyport Herald contains a favorable notice of West Amesbury, and of the carriage building there carried on; and says they have a lyceum, plenty of schools, and a variety of stores, but are exempt from that curse of curses, "a grog shop."

We hear it said that not a drop of spirituous liquors can there be obtained, unless for medicine, and possibly not for that. Moreover there is no demand for it. A short time since, a man settled there, who sold a little from his house, but the selectmen promptly called and notified him that he must stop, or the law would be applied upon every sale; and their orders were obeyed.

REV. RUFUS W. CLARK.—The editor of the Christian Freeman (Universalist) speaks thus of Mr. Clark:

We are not in the habit of recording the calls and removals of clergymen of other denominations; but seeing mention made in the city papers of the call of Rev. Rufus W. Clark, of the Maverick Church, (Trinitarian,) of East Boston, to a society in Brooklyn, N. Y., we mention it to put in our protest. Mr. Clark is our next-door neighbor, fraternal in his disposition and habits, is an able preacher and lecturer, firm, active and fearless in support of the great moral enterprises of the age, the Christian warrior against intemperance and slavery; and his moral influence is valuable in our community. We do not attach any great value to some parts of his *theology*; but his soul is greater than his creed; and for the sake of the moral influence of his life and labors here, we protest against his removal.

CAMBRIDGE, MASS.—The following cases were tried at the Common Pleas Court at Cambridge, before Sanger, Judge:

Wm. Seymour and John Clark, for burglary—verdict guilty; Clark was sentenced to ten years and Seymour to ten years and three months in the State Prison. Patrick McCullough, for violation of liquor law, plead guilty—three months in House of Correction.

NEW YORK PROHIBITORY LIQUOR LAW. A select committee has reported to the New York Senate a new prohibitory liquor law, which it is thought may pass. It is quite rigorous in its provisions. The first section makes it a misdemeanor for any person to sell intoxicating liquor as a beverage, and punishes such offence by fine and imprisonment; the second makes it an offence, punishable by fine, to be intoxicated in any public place.

In the Wesleyan Chapel, Woodside, Dudley, England, local preacher, knowing that some of the congregation were abstainers, took occasion to pray for the "poor deluded Teetotalers."

It has been found that scarce one in fifty children in the ragged schools in England, but are there through the intemperate habits of their parents. Such, everywhere, is the connection between rum and rags.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

To the Editor of the Portsmouth Journal:

It is the wish of the Selectmen of Gosport to have published the following copy of a letter of acknowledgement, so that it may be as extensively circulated as the generosity in this instance is generally known. THE SELECTMEN.

TO REV. DANIEL AUSTIN,—*Dear Sir:*

In behalf of the permanent residents of this place we have to return you our sincere thanks for the generous, much needed, and highly appreciated gift of a beautiful and well-filled Medicine Chest.

Until the arrival among us of the present missionary, in case of needed medical assistance, we were compelled to go a distance of eight miles by water and two by land to get to a physician, and returning with him performed a journey of twenty miles before the required aid could be afforded.—Then, of course, he is taken back, making thirty-two miles of sailing and four of land travel as a consequent upon the attendance of a physician. The delay thus occasioned is always distressing and often ruinous. But the mere distance, in itself, is nothing compared with the excessive toil of performing it, especially in dark and stormy nights, or the imminent danger of the undertaking at such times, or the anxiety and suffering in consequence of the utter impossibility, from opposing wind and wave, of accomplishing it at all. All this, to say nothing of the heavy charges—from $4 to $20 a visit—by the attending physician, made our circumstances, in this particular, very distressing.

But now this is changed; and the bettering of our situation is a matter of rejoicing to ourselves and also excites no other feeling toward yourself, a sense of heartfelt gratitude as the generous contributor toward this gratifying improvement.

You will therefore be pleased to accept our warmest thanks for your very acceptable present, and for the generous provision made for its replenishment forever.

WM. H. CASWELL, J. M. CASWELL, IRA G. RENDALL, } Selectmen.

Gosport, (Isles of Shoals) N. H., Jan. 15th, 1857.

SPANISH COINS—*Beware of imposition.*—Some are in the habit of not allowing for Spanish Quarters above 20 cents. We do not bear them any of these traders pass them for that sum. A cashier of one of our Banks informs us that he receives Spanish Quarters by way of change at 25 cents.—He has recently laid aside some *smooth quarters* which he thought ought to be out of circulation, and sold them for silver in Boston at a loss of only three per cent.—realizing over 24 cents for every quarter. There is no prospect that Government will pretend to depreciate their standing for two years to come: and with the above evidence of the intrinsic value of the coin, we may safely conclude that though crushed to earth, it has like Truth that inherent principle which will make it "rise again."—*Journal.*

ONE ENEMY AFTER ANOTHER.—The past week has been as much above the medium heat of the season, as the last week in January was below it. On Wednesday last at noon the mercury stood at 65 in the shade—88 in the sun—the streets were nearly clear of snow and ice—and men were abroad without their outside garments.

Last year, the warmest point in February was 44 degrees.

NOMINATION OF MAYOR.—At the next Republican meeting, to be held at Rechab Hall on Wednesday evening next, the nomination of the candidate for Mayor, to be supported at the next election by the Republican party, will be made.—Meeting at 7½ o'clock. A good attendance is requested.

REMARKABLE ESCAPE.—The Northfield, (Vt.) Messenger says that a few weeks ago a boy named Denny, crossed the railroad track near that village on a young horse, and, for the purpose of accustoming the animal to the sight of the cars, he faced about and waited for a train to pass. As it came by, the horse was frightened, sprang forward, and was struck by a car and knocked down the bank. The boy was thrown into the air and came down safely, alighting upon a platform car. Jumping up, he demanded of the conductor to put him "ashore, as he had not asked for a ride and should not pay his passage."

RAILROAD ACCIDENT ON THE LAWRENCE RAILROAD.—Last Friday evening a startling accident occurred at the Cohoes brook bridge, near Harvey's mills, on the Lawrence road. When the engine of the last up-train was just entering upon the bridge, the forward axle of the rear car (there being two cars on the train) broke and the forward end of the car dropped upon the track. The sudden shock snapped the link between the baggage car and the forward passenger car, and drew the baggage car off the track, but the two cars rushed across the bridge, which is about one hundred feet in length, tearing up the track, splintering the railing in all directions. The twelve inch timbers on which the rails across the bridge were laid, were torn up, and pushed across the bridge and strewn about on all sides. In the rear car all the seats were torn up, and the passengers thrown about pell-mell. The forward car did not suffer so much, but was driven entirely across the bridge. What is the most remarkable of all is, that not a drop of blood was drawn, and no one was hurt except a slight bruise. The embankment just below the bridge is about thirty feet high on each side, and had the axle broke above the result must have been fearful. A gentleman who was on board and who describes the scene as the scene, says it was the most remarkable in the whole annals of railroad accidents.—*Manchester American.*

Morning Chronicle.

SATURDAY, FEBRUARY 21, 1857.

CORRUPTION IN CONGRESS.—The House Committee on the Corruption Cases, say in their report, from the testimony taken, it appears that the general charges of corrupt combinations in Congress, originate from men who expect to make money by creating a belief that such combinations exist. If they can cause it to be generally believed, that it is necessary to use large sums of money to carry measures through Congress, it follows that somebody must be employed to apply it, and that the man who knows most about corrupt combinations, would be the one naturally sought for and employed as broker to buy up the votes of members who had entered into such combinations. The broker in Congressional corruption would receive money to buy up the combinations, and whether he puts the money in his own pocket, or pays it to somebody else, can never be known to the parties who furnish the money. They are all engaged in a criminal transaction, in which the broker has the decided advantage of his employers, who must be satisfied without an account, or with any account of his agency, that he may choose to render: and the probability is, that, in addition to his own stipulated compensation, he will pocket the whole corruption fund.

They proceed to attribute much of this evil to the avidity with which newspaper correspondents catch up every flying report, and send it to their respective journals to appear in print.

EXTRAORDINARY SCOUNDREL ARRESTED.—The Milwaukie Sentinel gives an account of the curious proceedings of Charles F. Hamilton, the St. Louis Detective, alias C. Wood, manager of the Apollo Minstrels, alias Captain Charles Shores, of the Kickapoo Rangers in Kansas, alias agent of the Philadelphia Kansas Relief Committee, alias &c., &c., who was lately arrested in that city after cutting up various "shines." It seems that he has been playing the confidence game in all the principal cities East and West, during the past year. At one time he personates a "detective officer," at another time the manager of the "Apollo Minstrels," then "Captain Charles Shores, of the Rickapoo Rangers of Kansas," and again the "accredited agent of the Philadelphia Kansas Relief Committee," in all of these having an eye to the main chance, never making the acquaintance of any one he did not at least try to victimize, by either borrowing or begging money from them on some pretence.

He was supplied with letters of introduction from distinguished persons, which were found upon him when arrested, one which was to the President elect, James Buchanan, who, by Hamilton's book, had paid him $10 for the relief of Kansas. The following is an exact copy of the letter:

"LANCASTER, Dec. 24, 1856.

Hon. James Buchanan.—My Dear Sir:—The bearer, Captain Shore, of Kansas, is desirous of making your acquaintance. I have therefore acceded to his request by giving him a line of introduction.

Respectfully yours, &c.
GEO. SANDERSON."

He has levied heavy contributions in almost every town in Pennsylvania and Ohio, also on several persons in Chicago, among whom was the Mayor, who let him have $50. He has lots of contribution papers, on some of which as high as $1000 have been paid; in Cincinnati, Columbus and Zanesville, Ohio and Norristown, Pittsburg, Reading, Philadelphia, Lancaster and Wheatland, &c., Pennsylvania, the people paid liberally, while the subscription papers read, "that the money thus subscribed is to be distributed among the sufferers in Kansas, regardless of their nation or creed."

His trunk was filled with pictures, and cards of notorious lewd women, towels and clothing, &c., stolen from different hotels. And, as if to meet all emergencies, he had a china image of a manacled negro slave, in order more effectually to touch the hearts of his anti-slavery victims.

This man was once a member of the St. Louis Police, but was long since discharged from service, and has forged the names of the Mayor and Chief of Police of St. Louis, to carry on his swindling acts.

THE OLD FOLKS of Manchester, to the number of seventy-five, went down to Lawrence on Monday evening to give a concert. Although but one day's notice was given, they had a good house and gave a satisfactory concert. They came home in an extra train, having first partaken of a good supper. The trip seems to have been a very agreeable one to all parties,—says the Mirror.

CONGRESS.

THURSDAY, Feb. 19.

SENATE.—The Senate took up the House bill for the relief of the people of Kansas, repealing the laws, and providing for a new election.

Mr. Adams of Miss., in order to avoid discussion, moved that the bill lay on the table. Negatived by a vote of 17 against 24.

Mr. Geyer said he had voted against laying the bill on the table, because he wanted it examined by the Judiciary Committee. He had personal information that all the obnoxious laws had been repealed by the local authorities of Kansas.

Mr. Weller renewed the motion to lay the bill on the table, as likely to create discussion, and prevent action on important matters of legislation. Agreed to.

[Will not somebody be good enough to say, that the majority of the Senate, earnestly desire to have Kansas free?—or to have the bogus laws repealed? They lay this bill on the table—on purpose to let the bogus laws operate.]

The Submarine Telegraph bill with the House amendments, was then taken up, when Mr. Hunter moved to refer it to the Post Office Committee.

Mr. Thompson of Kentucky, hoped that this would be done, and that the Committee would never report the bill back. He believed that this was an expenditure of the public money without sufficient facts or data to authorize it. We know no more about the elevations or depressions of the bottom of the ocean, than about the mountains or valleys in the moon. Who can tell whether this little wire may not be broken by a whale or bitten off by a shark? He illustrated his views by various anecdotes, creating much merriment.

Mr. Rusk replied that it was no new thing for propositions of this kind to be assailed with ridicule. Some years ago when it was proposed to establish a telegraph line between Washington and Baltimore, an amendment was offered for a telegraph line to the moon! He then proceeded to demonstrate the feasibility of the present scheme, and the advantages to be derived from it.

Mr. Hunter and Mr. Butler opposed it, and Mr. Bell of Tennessee, Mr. Stewart and Mr. Seward advocated the bill.

The debate was not, however, concluded.

HOUSE.

The large papers contain two columns of debate on the report of the Corruption Investigating Committee. They report resolutions to expel Messrs. Gilbert, Edwards, and Matteson, of New York; and Mr. Welch of Connecticut. Also to expel Mr. Simonton, a reporter. The reports are ordered to be printed, and to be considered next Wednesday.

They likewise report a bill to protect the people against corrupt influence in matters of legislation.

CONTROVERSIAL CLERGYMEN.—The public, (says the Manchester American,) if they have taken pains to read the controversial epistles of some of our city clergymen cannot fail to have been reminded of that good old charitable man who always closed his pugnacious discourses with the following very benevolent declaration:—

I am a charitable man, and think every man entitled to his opinion, and I never cherish malice against my foes, not even against Mr. Mulberry, who has indirectly called me a sinner—but still, if the Lord has a thunderbolt to spare, I think it would be well bestowed on dear brother Mulberry's head."

☞ A veteran temperance man in Albany, who has practised medicine in that city for thirty years, says he never saw as much drunkenness in one day as on Christmas last. How revolting, the thought of celebrating the advent of our Saviour, by drinking one's self three-fourths mad!

☞ Some of the liquor used in New York is imported. In one week, lately, the entries from abroad amounted to $27,569 for brandy, $313 for gin, $900 for porter, $1080 for beer, and over $2000 for ale.

THE GREAT DISCOVERY.

Many years ago, Doctor Jourleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and as extensively introduced prefer. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark, of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original receipe. *There is no cure* for Consumption, unless the *patient is past all human aid before commencing its use!* It is call'd "*Doctor Jourleigh Smart's Cough Medicine*," and is for sale by all respectable dealers. eow7 Feb 14 6m

WOOD'S HAIR RESTORATIVE.

Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American people to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, gray hair to its original color, and makes it as supple a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured young gentlemen, and by what process it has never been determined, until late ly, when it was attributed to the use of this invaluable Hair Restorative.—[Lasalle Journal.

OPPOSED TO EDUCATION.—Senator S. A. Douglas, writing from Washington to the Chicago Times, fears the State of Illinois is to be "Yankeefied, or in other war's abolitionized, by means of abolition school-teachers, and abolition preachers." He urges the Democrats to "take the bull by the horns." The Chicago Democrat thinks this comes with an ill grace from one who, but a few years ago, went to Illinois, a young Vermonter, and applied to the Rev. Mr. Beecher, of Jacksonville, to assist him in getting a school to teach.

The "good time coming," so often sung by minstrels, has come at last. The ladies have gotten up a ball and are sending circulars of invitation to each other, which read—"Your company with *gentlemen* is respectfully solicited." We like that, and are in a flutter of hope, and if no lady invites us, shall be mightily chagrined.—*Charleston Ade.*

The cost of all the railroads in the United States, when those in the process of construction are completed, is estimated at $1,000,000,000.

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield much larger profits than if sold here. Those who have Warrants will be taken to Minnesota and sold for cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

Also, for sale 440 acres of fine Timber Land.

Young's Patent School Slate.

THIS Frame is of one piece of solid compact unfractured hard wood, bent under an immense pressure after being made supple by steaming, and is therefore the strongest, neatest and most durable of any frame ever made.

The Slate is from the celebrated Lehigh Quarries, and is the softest and purest Slate in the United States, or probably in the world.

The peculiar and admirable design of the frame makes it almost indestructible; and, at double the cost of the ordinary frame, would still be the cheapest. For sale by

Washington Medallion Pen.

MANUFACTURED by the only Steel Pen Manufactory in America.

The Washington Medallion Pen is manufactured with the greatest possible care, and in conformation it combines all the principles calculated to produce an action as soft as the quill to the fine Farmer and Penman, and as firm as freely as the Professor of Writing. The pen consists its chief excellence. And A notice is asked to use it, in preference to Pens of *English or Frenc* manufacture. England has drawn from us $600,000 annually for Steel Pens. With the consent of the 27,000,000 of People in this country, the American Steel Pen Manufacturing Company will stop that flow. For sale by

LOCAL.

CAPT. SUPPLY C. FOSS.—A gentleman in this city has received a letter from Dubuque, Iowa, informing him of the death of Capt. Foss and his wife, Mrs. Mary Campbell Foss. They were killed on Friday, Feb. 6, about 4 o'clock P. M., when the walls of Odd Fellows' Hall fell out with a tremendous crash, crushing the cottage where they lived, and instantly killing both of them. Their bodies were taken to a neighbor's house across the street, and examined by medical men, who pronounced that their bruises must have occasioned instant death. Capt. Foss left property there, in worth several thousand dollars, which property is legally in the hands of the gentleman who writes the letter. A will has been found, giving the whole estate to the wife. The will was made in this city in 1853. Any relations of Capt. F. or wife, can see the letter on application at this office.

Capt. Foss was a native of Portsmouth, well known and esteemed here as a mariner and shipmaster, and was also an officer in the Revenue Service. His wife was from Maine, we think from Deer Isle.

YOUNG AMERICAN'S LYCEUM.—The Lecture before this Lyceum, on Wednesday evening, was a review of the Peculiarities of Yankee Character, by Master F. G. Hackett, and it was very satisfactory in all respects, with the exception of its length. Even this fault might have been overlooked, had the hall been decently ventilated; but for a hundred persons to sit packed in a small room, sweltering with heat, and not the slightest chance for the escape of foul air, is intolerable, and would detract from the interest felt in the most finished production. H.

PORTSMOUTH & CONCORD RAILROAD.—An extra train will leave the depot in Portsmouth, on Tuesday morning next, at 6 o'clock, to accommodate those attending Court at Exeter.

Feb. 21, 1857.

☞ The Charleston Mercury complains that no Northern Democrat spoke when Mr. Brooks's death was announced in the House of Representatives. It sees in this "total abstinence" from eulogy on the part of the Democrats from the free States, new evidence that the organization to which they belong is not so "natural" in its character as it claims to be. The Mercury asks too much of its Northern friends. It would place on their back that "last feather" which is proverbial for backbreaking.

"WHEN ROGUES FALL, &c.—They abuse each other like fish women. Messrs. Messinger & Co., great sellers of London Gin; and Adolphus Wolfe, the great vender of Gin Schnapps, are applying hard names to each other's liquors, in articles paid for as advertisements. "Aromatic trash," "sword fish"—"rot gut"—are a few of the terms which are being bandied between the two combatants. For our part, we have no hesitation in saying that we regard both as right. Neither has applied any epithet to the merchandise of the other, which is too severe, or which does not fall below the quality of his own. So says the Prohibitionist.

AN INDIGNANT JUDGE.—Judge Wright, of Indiana, did an extra-judicial service to the State the other day, in a manner unknown to the statute. The proprietor of a low groggery had given liquor to a little son of the Judge and another lad, and got them both drunk. The Judge was justly indignant, and on Sunday morning armed himself with an axe, stove in the door of the groggery and smashed all the barrels and bottles, spilling a great amount of miserable liquor. The Judge then put on his Sunday clothes and went to church as coolly as if nothing had happened.

JUDGE DAVIS.—The Legislature of Maine has passed a law making an additional Judge of the Supreme Court. The vote in the House was 107 to 22. Governor Hamlin has appointed to the place Judge Woodbury Davis, removed by the address of the Democratic Legislature last year.

A HARD WINTER.—A letter from Capt. Gifford, of the South Shoal Light Vessel, reports her at her station February 1st, having had a very hard winter. Gale after gale had tossed them about, without starting them from their moorings. The boat was completely covered with ice.—Has seen bodies float by with life preservers on, and vessels in distress, but was unable to render assistance.

The published report of the results of the earthquake of Candia, showed that 10,231 houses were ruined or seriously damaged, and that 1122 persons were killed or mutilated.

NEW YORK, Feb. 20.—A letter from Palmas, Grand Canary Island, under date of Dec. 22, states that at Porto Granile the cholera had made dreadful havoc, nearly depopulating the place. It is almost entirely the men who are attacked by it, and none but women and children were to be seen at manual labor.

The proceedings before the Grand Jury in the Burdell tragedy have, it is said, developed an entirely new and startling theory of the murder. Dr. John U. Francis was examined on Wednesday. His testimony went to show that the first stabs given Dr. Burdell must have been dealt by a person thoroughly conversant with the anatomy of the human frame, and the Doctor's opinion is that the murder was the work of a man educated as a physician.—The police are on the track of another party who is suspected of being the murderer.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it will testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. Feb Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Certificate from Mr. J. A. Seward, Boston, Mass., Manufacturer of Wigs, &c.

H. HUTCHINS, Esq: DEAR SIR:—Having tried your Hair Dye, which you gave me for trial, I have found it to be superior to any other Hair Dye I ever tried, both in its simplicity and most natural color. The application requires less trouble; I may add, no trouble at all. I therefore wish to use it, recommend it to all my customers, and warrant it, in consideration of my profession, and desire to promote the universal use of your Dye.

Progression.

I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, known as

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work at such prices as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of Life. This process also I have obtained, so that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

The Albion:

A WEEKLY Newspaper, published every Saturday morning, in the city of New York, and devoted to News, Politics and General Literature. The "Albion," having been in existence more than one third of a century, is widely known throughout the British North American Provinces and the United States, as a thoroughly independent journal. Its pages are largely occupied with the cream of English Periodical Literature, and the best criticisms furnished by the press. To these are added such notices of the current events of the day, as are deemed to be of interest to a circle of intelligent readers. The whole furnishes, it is believed, a valuable weekly budget of information and entertainment.

PREMIUM ENGRAVINGS.

Subscribers, on payment of the annual subscription (six dollars), are entitled to one of the engravings issued annually and expressly for the Albion. For the year 1857 the publishers have the pleasure of announcing a portrait of

FLORENCE NIGHTINGALE.

This carefully prepared print, which is embodied a view of Constantinople and a foreground of the Hospital at Scutari, engraved entirely in line by W. Wellstood, is copied from an original drawing, made purposely for the Albion, by J. B. Wandesforde, who is "Mary Queen of Scots" has been so generally popular.

A copy of this splendid engraving may be seen at the Bookstore of T. SPORRER, Agent, who will receive subscriptions for the "Albion."

BALTIMORE HARBOR.—The Baltimore papers rejoice greatly at the opening of navigation in the Chesapeake, and the Patriot of Monday evening states that the wharves were lined with boats which have arrived within a few days, and that the prospect is that the spring business will commence earlier than for many years to come.

The new store of Messrs. Wilson, Midgly & Jennings, at the corner of Duane and Church streets, New York, was robbed by burglars on Monday evening, of over $30,000 worth of silk and other goods.—One of the burglars was subsequently captured, having with him all the stolen property in a wagon.

The Trustees of Tuft's College, at Medford, have petitioned the Massachusetts Legislature for State aid. They remind the Legislature that Amherst College has received $25,000; Williams College $53,000, and Harvard College larger sums.

There are twelve or fifteen candidates for Congress, to fill the vacancy caused by the death of Mr. Brooks of South Carolina.

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they clear out so effectually you will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEERLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., Office of Indian Affairs.

DR. J. C. AYER. Sir: I have been much troubled with the Liver Complaint, and have found your Pills to be the most efficacious of any medicine I have known, and I can confidently recommend them to my friends.

Yours, J. Y. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Pills in my family very freely, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum,

From a Prominent Young Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her head and neck that had resisted innumerable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our BLOOD was cured, she also tried your Pills, and they have cured her.

ASA MORGAN, M.D.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hendee, of the Methodist Epis. Church, St. Louis.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has afforded me, if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SYMAN CHAMBLISS, BATON ROUGE, LA., Oct. 7, 1854.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Dead Palsy,** in its Incipient stages, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although it may salivate and kill the patient, it cannot cure in a pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and there yet are communities any where which have not among them some living trophy of its victory over the subtle and dangerous disease of the throat and lungs. While it is the most powerful antidote yet known to man for the fearfully dable and dangerous disease of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the timely protection it imparts than it cures. Keep it by you, and when your child or your wife complains, see that you do not let them until no human skill can master the incurable malady that, fastened on its victim, only yours the sad way. All know the dreadful fatality of lung disorders, and so they know too the virtues of this remedy, we need not dwell on them to assure them it is still made the best of its kind we know how to make it, and will produce the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and carefully shall everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are well protected and in the hands of a responsible present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, and Lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is mentioned, orders are filled in the first class; but to take place one of the second class should be named. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money is paid or secured, with the order. Drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combinations. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Assist of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents.—Written advice with full and plain advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing broader protection, ascertaining the patentability of inventions, unsurpassed by, it not immeasurably superior to, any which can be offered them elsewhere. The testimonials herewith prove that some is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would say that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The knowledge of the subscriber of the business during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of foreign and American works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity who transacted more business at the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of procuring their application in a form to secure for them early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Having every facility for manufacturing and preparing the several articles named, they offer to purchasers having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Imperial Tea,	1.00	5 lb. Mocha Coffee,	1.00
5 lb. Gunpowder "	1.75	5 lb. Java "	[illegible]
5 lb T. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, ready for family use. Every article is warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH CONSUL.—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process of roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION ROOT.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, at 25 cents per pound. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medicinal properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, to be used with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is recommended by eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we can afford to sell cheaper than we can afford by those who do business on the credit system; and we confidently invite an examination of the quality and prices as compared with those of any other house.

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent dated May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is softly played upon a subdued Swell. Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by selling the right of this invention to manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactures.

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly SEVEN THOUSAND Volumes of testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we found not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been tried on the Piano, Flute, Clarinet, Hodges, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful Reed Instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors.* Hence its power to cure humors that more obstinately resist resistance power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to bright or and better action—doing its work by beginning at the beginning. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *invigorating* the stomach. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that more obstinately resist sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot allay nate. Numerous testimonials can be had, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES*

AND VITAL FLUID

are enabled to cure them so that they *stay cured.*

They deal summarily with remiss policemen in Savannah, Georgia. Recently one of them was charged with not being at his post, going off his "beat," and using scurrilous language. He was fined $10 for the fist, $20 for the second, and suspended for the third offence. Another was charged with going off his division without leave. He admitted he went off and took a drink or two with a few friends he met from the country, instead of going to supper, but that he attended as usual to his post. He was discharged from the service.

An admonition against hasty funerals occurred last week at Fremont, Ohio.—Daniel Stearns, who had been sick with fever, apparently died. All the arrangements were made, and the friends and the clergyman were assembled to pay the last tribute of respect to the supposed deceased, when the body appeared warm to the touch. Restoratives were administered, and in a few minutes, the man who came so near being buried alive, was sitting up. He is now in a fair way of recovery.

A London correspondent says:—"The drunkenness of London, I suspect, far transcends that of any other city—the gin shops exceed I am told, the aggregate of all other shops of every sort; and the hideous population which they nourish can only be imagined by those who have actually seen it. Women, it seems to me, are the chief victims. One sees more drunken women, especially at night, in London, than you see in all the earth besides."

Eighty-five American citizens and *proteges* have been registered at the American Consulate, as residents at Constantinople, many of whom have families, say of five persons as an aggregate, making 410 souls, composing the American colony of that city.

One of the peculiarities of Broadway is the immense number of drinking and oyster saloons in the basements. A stranger would suppose New Yorkers do nothing but drink lager beer and whiskey and eat oysters.

ACCIDENT.—A son of Stephen Luscomb, aged 14 years, was killed on Thursday, while driving a cow from Nahant to Lynn. He tied a rope around the neck of the animal, and attached it to his body; the cow was frightened, and ran, throwing him down, breaking his neck.

The St. Louis Intelligencer of Feb. 12 says that ten dollar notes on the Bank of Commerce, Boston, altered from twos, have made their appearance in that region. The adulteration is very skillfully done.—The figures in the corner, and the word *Two* on the margin, are taken out by a chemical process, and the word *Ten* printed in.

The wife of one of the Chicago railroad kings, recently gave, at the Tremont House in that city, a donation party for the poor. The charity box was at the end of the hall, amid the festivities of one of the gayest of dancing parties. It told its own story.—No one knew who gave, and who did not give. Upon opening the box, it contained $875, all given in secret!

ST. LOUIS.—A German paper in St. Louis, called the Anzeiger des West, says that the population of that city and county, by the recent census, may be estimated thus: Americans, 38,000; Germans, 50,000; —Irish, 36,000; French, 4000; English and Scotch, 5,000; Italians, Spanish and other nations, 6000; Bohemians, 5000.

THE FOURTH OF MARCH.

Blessed are those that expect nothing, for they shall not be disappointed [9 *Beatitude.*]

I saw him—he had come
From his far, distant home
In the West;
A jingling purse he showed,
And in the latest mode
He was drest.

His face was all a smile,
And he talked all the while
How he took
Such an int'rest in the late
Election in his state
For old Buck.

He'd always felt the ties
Of party—let it rise,
Let it fall.
'Twas not for the reward
That *he* had worked so hard,
Not at all.

But office he could bear
As the bravest soldier'd wear
Epaulettes,
Which fix his rank, you know—
And to the public show
What he gets.

I saw him after that,
He had a kinky hat
On his head;
His shoes were worn away,
And his pockets seemed to say
Nary red.

And loudly he declared
That for party men he cared
Not a jot;
He scorned their dirty tricks,
And as for politics,
'Twas a plot.

Folks saw the sudden change,
And thought it wondrous strange,
At the best;
Our friend did not explain,
But took an early train,
For the West.

Morning Chronicle.

MONDAY, FEBRUARY 23, 1857.

BURLESQUE OF THE FATHERS.

As one interested in music, and especially that of the "Old Folks," we have usually attended all entertainments of this sort which have been given in this vicinity. A week or two ago, in company with a friend, we took a roundabout sleigh ride, through Berwick, to attend an Old Folks Concert in the city of Dover. A thirty or forty-mile ride to attend a concert is no new thing for us; and all passed off pleasantly enough, except the concert itself.

With this we were so much displeased—pained, almost disgusted,—that we resolved not to mention it till others similar, which were announced, should take place, lest we should have the appearance of trying to injure them in the success of their plans.

The entertainment was announced as an Old Folks Concert, but was very far from coming up to our idea of this sort of thing. It was gotten up to aid a new religious society, split off from the old Congregational Society—and so of course was not participated in by the singers of the place generally. We are not specially favorable to giving concerts for charitable objects—for our part, whatever we have to bestow, we prefer giving outright; and had rather know whether an audience assembles to enjoy the music, or to be or appear benevolent. In this case, however, the pecuniary success was great—the city hall being crowded for three successive evenings, besides their having a full house in Great Falls on a succeeding evening.

With the Portsmouth Old Folks Choir, these Concerts have been occasions for devotion, for worship, for religious improvement; but by this Dover choir, "the sacred songs our fathers sung" were turned into ridicule, and the fathers themselves burlesqued, caricatured, and their sacred memories outraged.

The choir comprised about seventy-five performers, nearly all young; who were arrayed in the most *outre* dress they could pick up—from a court dress of Queen Elizabeth's time, down to that of an officer of the "string beans," or a stage-clown of the present day. A writer in the Dover Gazette truly says:

> The Dress of the parties was a unique and taking affair, running from the flashy and out-landish, through much of the antique and military, mixed with the modern. The ladies displayed much taste; some in the rich brocades of their grandmothers, and some in their tidy ever day dress;—and all in a display which presented a thermometer of the fashions as they have risen and fallen for the last two centuries.
>
> Yes, and we should like to know what all this has to do with the Continental music, with which our ancestors worshipped God? Concerning this, the Gazette continues:
>
> But the young didn't enter into the spirit of *that* concert—albeit there was no lack of enthusiasm in them,—as did the *Old*. With them, each old Harmony was a *resurrection of the past*, and *they* sang more with the soul than with the voice;—and the sunlight of other days was for a moment all around them!
>
> There were but few of the old or middle-aged there; and those few must have blushed for the company they were in, or rather for the rig that company wore.—False whiskers, powdered hair, wigs, &c.; snuff taking, laughing, singing, gestures, motions, &c., with the above named dresses,—took from us all pleasure we might otherwise have derived from the music—some of which was very fine.
>
> Thus much for the choir—now let us look for a moment at the music. First on the programme came "Hail, Columbia," by the band,—as appropriate in an Old Folks Concert as the Ode on Science would be at a funeral. Albert Laighton's Song of the Old Folks, always welcome, came next—and was tolerably performed, though without due expression. Then followed a goodly list of the old tunes, which "went" passably well; but the leader beat all in 4-4 time, (singing none in triple,) about which the veritable old folks have no idea. The best part of their orchestra was an E flat post-horn, on which a man played the air so beautifully that it rings in our ears ever sing. The concert was closed with Old Hundred, sung in about the same time as Lenox.
>
> On the whole, while we would acknowledge the utmost courtesy and kind attention on the part of Mr. Chase, the leader, and others, we regret that we must enter our protest against *such* an Old Folks Concert—this making light of sacred things; and we hope the citizens of Dover may yet have an opportunity of hearing one of the right sort.

☞ We had the pleasure of attending and participating in the Concert given in the new Elm Street Baptist Church, at Exeter, on Saturday evening, Feb. 7th, under the direction of Mr. Joseph S. Robinson. The choir consisted of about fifty performers, among whom was the venerable John G. Gardner, Esq., rolling out the glorious tones from his double-bass, as usual. Long may he swing the bow. The concert passed off well, as a whole; though we didn't deem the instrumental pieces (one of which was the Marseilles Hymn) any improvement to the programme, and should have preferred four voices to ten on the Old Mountain Free.

A friend in Augusta, Me., informs us that an Old Folks Concert in that place last week, was closed by the entire audience singing the Song of the Old Folks, slips containing the words being circulated through the house.

Rev. Mr. Kalloch.—The Boston Telegraph of Saturday evening says: The trial of Mr. Kalloch will not probably occur for two or three weeks to come. It may be deferred till another term of the Court.—We hear it stated that Mr. Kalloch could not have a fair trial at Cambridge. It is also stated that some of the jurymen board at the Lechmere House, and that the proprietors of that house have been very busy in exhibiting the premises and in retailing the details of the alleged offence.

It has been stated that the lady who accompanied Mr. Kalloch to Cambridge at the time the alleged offence was committed, has been or would be arrested. This is incorrect. The Commonwealth has made no effort to bring her to trial. We learn that she is very respectably connected, and has always sustained an excellent moral character. She has never been suspected of immoral conduct.

An Important Discovery!—Doctor Benjamin Hardridge occupies nearly a page in the N. Y. Tribune in announcing a discovery by which he claims "to liquify quartz rock, to extract the last particle of gold or other metal which that rock may contain, and to hold that rock in the form of liquid in casks and hogsheads ready to be turned back into rock again as it is needed, thus affording a new material for building, cheaper than brick, and as beautiful and durable as precious stones!" He can do this at the rate of fifteen tons a day! By way of support to this claim Prof. Girard, of the Smithsonian Institute, Prof. Adelberg, and J. E. Schwabe, of New York, Prof. Moffat, late United States Assayist, and others, accompany the announcement of the discoverer with their certificates that his claim is not unfounded, that he can accomplish the wonderful feats which he claims to perform. What next?

Senator Broderick.—A New York correspondent of the Poughkeepsie Examiner, says an ovation was celebrated by the firing of one hundred guns in the Park, by the Empire Club, and other jubilant manifestations at the hotels, in honor of David C. Broderick, a fighting man who formerly kept a rum shop in the city, but migrated to California on the discovery of the mineral richness of that auriferous region, and now returns a United States Senator. On the same evening the Common Council passed a resolution, to present him with the freedom of the Governors' room to receive his friends in. Now had this man, who left with a most unsavory reputation, returned with a character, built up after years of sobriety, for integrity and morality, and had fully reformed his former life, through which reformation his triumph was achieved, then indeed would it afford much cause for joy, not only on earth but in heaven. But such is not the fact, and the reception given him by his former disreputable associates, speaks trumpet-tongued as to his proclivities, and what may be expected from his Senatorial career. What a premium for profligacy!

Asylum for Inebriates.—A second hearing before the Legislative Committee of Massachusetts, on the subject of an asylum for inebriates was held on Thursday evening. The most noticeable part was the appearance of Rev. J. C. Lovejoy, in opposition. He contended the State was too much burdened with such institutions. His gravest objection to the plan was that it subverts entirely the criminal code of the Commonwealth. He spoke at much length. A further hearing was postponed a week.

Surgical Operation.—The operation of lithotomy was performed on Mr. Ira Hewes of Lyme, N. H., on Sunday last, by Dr. Walter Burnham of Lowell, by which he removed a stone from the bladder weighing about 2 1-2 ounces. It was two inches long and near an inch diameter. The patient had suffered from the effect of its presence in the bladder for nine years, producing at frequent intervals the most excruciating pain.

☞ The Taunton Gazette says that a contribution lately taken up at one of the churches in Bristol county, Mass., a much larger amount than usual was contributed, but unfortunately it consisted almost entirely of Spanish coins.

Then the contributors were sold;—for such coins are as good as any.

☞ The New York Coroner, who has been a laughing stock in the Burdell case, is said to have been a Washingtonian Lecturer, a Son of Temperance,—but left the Sons because the Bishop of the Roman Church ordered it—left temperance for political rum advocacy,—and was made Coroner as a reward. So it appears from the Poughkeepsie Examiner.

☞ On Thursday, the afternoon freight train from Concord, for Boston, with a passenger car attached, ran off the track, and some damage resulted. Rev. E. M. Kellogg of Nashua, was on board and badly hurt. He was left at Manchester, and cannot stand or walk, or could not on Thursday evening.

Sylvester Miller, Jr., of Palmer, Mass., has been declared guilty of eight violations of the Liquor Law, before Justice Collins of that place, and fined $330, besides costs, and ordered to be imprisoned one years, seven months and twenty days. The defendant has appealed to the Court of Common Pleas.

Garroters Sentenced.—In New York, on Saturday, Judge Russell sentenced three garroters—one to twelve years and six months in the State Prison, another to fifteen years and three months, and a third to ten years in the same institution. In passing sentence upon one of them he remarked:—

> "I do not believe that in any other city in this country, nor in any other country in the civilized world, in as public a place, and under such circumstances, such a crime could be perpetrated, and the perpetrators escape immediate arrest. But with our eleven or twelve hundred policemen, it seems there was no one near to protect the citizen and preserve the public peace.—And though four able-bodied men were present, they dared not interfere to prevent the robbery. This speaks in a language that cannot be misunderstood, of the duty of our Courts to rid the community of such desperadoes."

New Churches.—The Unitarian Society of Manchester, says the Mirror, talks of selling its Church, on Merrimack street, and building a new one. It is a rich society, and the house it now worships in is not so large and commodious, rich and attractive as it needs.

The Universalist Church, on Lowell St., cannot begin to hold the crowds that assemble there on every extra occasion. Last Sunday night, with the walking so bad as it was, many went away for want of room. There is a talk of selling that Church and building a new one. The Catholics want to buy it, and are negotiating for it. Their Church is overrun every Sabbath.

Big Snow Slide.—Castleton, Vt., is peculiar for its steep hill-sides. On Sunday, a large body of snow came down from the hill back of Merlen Clark's barn and shed, completely demolishing them, and the house and family were only saved by the obstructions of the out buildings. As it was, the doors and windows were broken, and the house filled with snow, water and ice. A child in the cradle was completely covered, but was rescued without injury; others of the family barely escaped. Mr. Clark and the eldest son were away at church at the time. Loss $300.—*Manchester American*

WOOD'S HAIR RESTORATIVE.

To the million.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; the only article that has been completely successful in cheating age of its gray locks, removing dandruff, itching, scurfs, &c. It restores the gray head to more than the original beauty; adds new lustre to locks already luxuriant; having the effect on coarse, harsh hair to render it glossy and watery; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then having this portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age, don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure but it will not cure, unless the patient is year all is when aid before commencing its use!* It is call'd "*Doctor Burleigh Smart's Cough Medicine.*" and is for sale by all apothecaries. nw7 TuThSt 6m

JOS. H. THACHER, Agent for Portsmouth.

Nathan Merrill, Esq.—This will known citizen died suddenly at his residence in Charlestown Mass., on Thursday, Feb. 12. It will be remembered that he fell on the ice on his own door step, on the 25th ult., and broke his leg, and being a heavy man, he received also a general shock to the system. Up to Thursday he was of course confined to his bed, but he appeared to be improving generally. He slept during the forenoon, and awakening he turned his head and called a member of the family, and said he felt faint, but instantly turning back his head he expired

Mr. Merrill came to this city from Portsmouth, N. H. a number of years ago, where he had been a teacher. He was also a teacher in Boston for a number of years, before commencing business in this city, and was subsequently appointed Post Master here by President Fillmore, which office he filled to the general acceptance of our citizens. At the time of his death Mr. M. was Superintendent of the Charlestown Female Seminary, and was a man greatly beloved by all, especially the pupils, who in a great measure were under his charge. He was also a very influential member of the Baptist Church. Mr. M. leaves a wife and four children, who are thrown into the deepest grief by the sudden decease of a husband and father. He was 59 years of age, and a native of South Hampton, N. H.—*Advertiser.*

Illinois Legislature.—*Chicago, Feb.* 20.—The bill for the new apportionment of Representatives to the Legislature passed on Tuesday. An exciting scene followed, in consequence of an attempt on the part of the Democrats to expunge the protest of the Republicans against the manner of the act. Gov. Bissell has *vetoed* the bill.

The Burdell Murder.—*New York, Feb.* 20.—Dr. E. U. Spicer, the former business partner of Dr. Burdell, to-day made an affidavit, in which, among other things, bearing favorably towards Mrs. Cunningham, he swears that Dr. Burdell acknowledged to him in a letter that he was married to Mrs. Cunningham. Dr. Spicer was in attendance on the jury of inquest, but the coroner refused to examine him.

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield much larger sum to holders of Warrants, than if sold here. Or Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense

...y-Second ...'s Birthday ...ired a legal hol- ...sits; and coming on ...Saturday) this year, to-day will ...observed" generally throughout that State, and business will be suspended to a great extent, including the non-issuing of one day's newspapers.

Now as we have the highest respect for Washington's memory, and the most exalted opinion of his character; we don't like to be behind our neighbors in this matter of outward observances—especially, considering the fact that we Americans, or at any rate we printers of daily papers, don't have half enough holidays. So we are going to add this to our list of four holidays in the year; and hope it will yet be deemed advisable to observe or celebrate Franklin's birthday (printers ought to, at any rate,) and half a dozen others.

So, as the keeping of a holiday precludes the doing so much work as is necessary to make out our paper, we shall publish no Chronicle to-morrow morning.

WASHINGTON. — On Sunday, Feb. 22d, (being the anniversary of Washington's Birthday,) Rev. Dr. Burroughs, rector of St. John's Church in this city, improved the occasion to offer an eloquent tribute to the memory of the "Father of Our Country,"—appositely drawing a comparison of the great virtues and dignified ability of Moses the Patriarch with those of Washington the Patriot. He closed with a very earnest and forcible appeal for the maintainance of those strong Union sentiments held and promulgated by the illustrious founder of our liberties. T.

DIED, at the Navy Yard, near this city, on Saturday evening, Feb. 21st, after a few days' sickness of apoplexy, Brevet Major Nathaniel Sheafe Waldron, U. S. Marines, aged 53 years.

SLIDE.—Saturday afternoon a quantity of snow slid from the top of the North Church, creating quite an excitement among the quadrupeds below. One horse started down Pleasant street on a gallop, ran into a post in front of Mr. Harvey's, crushed in one runner of the bunk, broke his harness, and was then stopped.

Slides from Merchant's Row, into Market Street, also caused two or three stampedes among the truck-horses on the stand. But though there was considerable cutting and shying, and consequent danger, we believe no serious injury resulted. Moral—hitch your horses: safe bind, safe find.

A dog was caught at Pawtucket, the other night, in the act of stealing hens. He had evidently been trained for the business, and pursued it with great skill, seizing the fowls by the neck, and carrying them to his employer, who waited a short distance off.

A dog was seen by one of our carriers, the other morning, to take a Daily Chronicle from the door-handle of a subscriber, and carry it off in his mouth. Whether he had been "trained" for this *literary pursuit*, we can't say.

THE CUSTOM HOUSE BUILDING.—We learn from Mr. Collector Clements that the Secretary of the Treasury has extended the time for which proposals for erecting the U. S. Building in this city can be received, from the 15th of February to the 2d day of March. Full plans and specifications for the building have also been received by the Collector and can be seen at the Custom House.—*Gazette.*

SCHOOL EXAMINATIONS.—The examination of the Boys' High School takes place next Tuesday, and the Girls' High School next Wednesday.

☞ The Exhibition of Glass Working, in the Eastern Hall of the Temple, is one of the most amusing, entertaining and instructive of all mechanisms. All should visit it. This new hall or vestry, recently enlarged and newly fitted, in the basement of the Temple, is about the best place in the city for the exhibition, too.

☞ Remember, Rev. T. Starr King, an old favorite in Portsmouth, delivers the Lecture before the Mechanics' Lyceum, to-morrow evening.

☞ The Supreme Judicial Court for Rockingham County, commences a Trial Term for Criminal cases, at Exeter, to-morrow.

A train will leave the depot in Portsmouth, on Tuesday morning next, at 6 o'clock, to accommodate those attending Court.

Fanny Kemble complains with good cause of the hotel keepers of Milwaukie. They charged her for one week's board, $90.

CONGRESS.

FRIDAY, Feb. 20.

SENATE.—Mr. Pugh introduced a bill prescribing the time and manner of electing Senators to Congress, and the form of their credentials.

Mr. Trumbull presented additional facts relation to the so called convention in Indiana, in which Messrs. Bright and Fitch were elected Senators.

The private calendar was then taken up.

The Senate passed 45 private bills, including one for paying the officers and seamen of the expedition under De Haven.

Mr. Wright presented the credentials of Mr. Thompson, re-elected Senator from New Jersey.

Mr Gwin introduced the Pacific Railroad bill. Adjourned.

HOUSE.—A motion was agreed to, giving members implicated by the Corruption Committee the privilege of filing answers, to be printed with the other papers.

The House then went into Committee on the Tariff Bill.

During the proceedings, Mr. Orr said that Congress should pass even the bill of the majority of the Committee of Ways and Means, rather than none at all, and on his motion the Committee rose, thus believing itself of the many pending amendments.

Mr. Campbell, of Ohio submitted an original bill, the same, with several slight alterations, as the last one reported from the majority of the Committee on Ways and Means, and expressed his views on the subject.

Mr. Letcher's substitute, proposing a general reduction of 20 per cent. on the present tariff, was rejected by a vote of 75 against 112.

Mr. Campbell's bill passed by a vote of 110 against 84.

The Post Office Appropriation bill then came up.

Mr. Stanton said that the Tariff Bill was passed by trickery and fraud, and outside influence and combination, and by those favoring the protection of hemp, sugar, iron, and Massachusetts woolen goods. This was done against his protest. The measure was striking a blow at wool growers.

Mr. Campbell of Ohio regretted the remarks of his colleague, and marked his insinuation as basely calumnious, both to himself and his colleagues on the Committee on Ways and Means. The principle was recommended by the Secretary of the Treasury.

Mr. Carlisle made a speech in favor of equalizing the grants of land among the several states of the Union.

Without taking the question, the House adjourned.

FROM WASHINGTON.— *Washington Feb. 20.* The Senate yesterday resumed the subject of the Central American Treaty. A motion of indefinite postponement failed by a vote of 19 to 36. Gen. Cass advocated concession to England, and a general conservative and peace policy. His speech was warmly applauded by the Republican Senators. It is understood that the Treaty is simply laid aside till after the 4th of March. An executive communication was received from the President, covering Lieutenant P. St. George Cook's account of his fight with the Bois Brule band of Sioux Indians, in which were killed 75 Indians, 43 prisoners taken, and 14 mules and ponies captured. Capt. Howes, Company G, 4th Artillery, Capt. Heath's Company E, 10th Infantry, and the 2nd Dragoons, were engaged in this fight.

WASHINGTON, Feb. 30.—Hon. J. Glancy Jones has written a letter to Mr. Buchanan, requesting him not to place him in the Cabinet. He did so in consequence of opposition in certain quarters in Pennsylvania, and to relieve the President elect from any embarrassment on the subject.

The Senate have called upon the President for all letters, if any, which may be in possession of government, from Judge Lecompte, in vindication of his judicial conduct in Kansas. This is preliminary to the consideration of the nomination of Judge Harrison in his stead, which is set down for Monday.

It is stated among the friends of Gen. Cass, that he to-day received a letter from Mr. Buchanan, formally tendering him the appointment of Secretary of State.

LABOR DIGNIFIED.—Gov. Gardner has procured a quantity of the hardest Eastern wood, a portion of which he saws daily.—This exercise is exceedingly healthful, and reminds one of a Southern student connected with the Theological Seminary in this town some years ago, who inquired of the late Prof. Stuart who he could obtain to saw his wood. The learned Professor replied that if no one else could be obtained, he would do it after preparing his own for the fire.—*Andover Advertiser.*

Hutchins' Hair Dye.
The very best now in use, as the many thousands that have tried it will testify.
THE great superiority of this Dye consists in its easy application, having only one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. Felt Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

Progression.
I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called
Photographs,
as well as those on GLASS, known as
Ambrotypes,
and finished in the highest artistic styles.
Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work at such PRICES as cannot fail to be satisfactory.
A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of Life. This process also I have obtained, so that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

DEATH FROM HYDROPHOBIA. A friend writes to us as follows: "A most distressing case of hydrophobia occured in East Fellowship township, Chester County, last week, which resulted in the death of a lad named John Good, son of Jacob Good.—The boy was in the barn with his brother, and saw a pretty little black dog pass by, which he ran out and picked up, and played with for some time, The dog, however, bit him on the finger, making a slight incision. The wound was tied up, and no serious result was apprehended, as the dog was not supposed to be mad. One morning after the occurrence the lad attempted to wash his face, and having immersed his hands in the water, was seized with convulsions of so violent a character that he died in a few hours. The lad was remarkably promising and a great favorite for his many exemplary qualities. He was about 13 years of age."—*Philadelphia Journal.*

The celebrated Lord Falkland being brought early into the House of Commons, a grave member objected to his youth, and said, "He looked as though he had not sown his wild oats." The young lord replied with great quickness, "Then I have come to the right place where there there is a goose to pick them up."

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

PLEASE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read the Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1854.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache my body can have by a dose or two of your Pills. It serves to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Billous Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regular lasting action on the liver is quick and decided, consequently by their use an invaluable remedy for derangement of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, A. H. STEVENS, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARVLAND, LIV. CO., MICH., NOV. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and yielding slowly to consumption. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (some 6 inches long) from her body. They afterwards cured her and our two children of bloody dysentery, one of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars to doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be valued here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. They regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Aug. 1, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

Yours, JOHN G. MAYNARD, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1854.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous humors that had baffled the skill of the best physicians for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After using your Pills a few weeks she was well. Your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Episcopal Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not write to you. I was so lame I could scarcely walk, and had to use crutches. Neuralgia grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now free from my lameness.

SENATE CHAMBER, BATON ROUGE, LA., 3 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and as a Preventive of Epidemic Bilious Fevers, they have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a pill, and should be avoided by all considerate people. Frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. They have at least reasonable grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, and expect them until no human skill can master the inexorable banker that fastened on the vitals, cuts your life away. All know the dreadful fatality of lung disorders, and so they know the virtues of this remedy, so need not dwelle more than to assure them it is still made the best it can be. We spare to test, no care, no toil to produce it the most perfect possible, and those who have used it say it is the best agent which our skill can furnish for their cure

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRASER & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of those who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. The lottery is drawn every day of the month. If no particular date is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets range from $1 to $20. So tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and February combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address R. FRASER & CO.,

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

[Late Agent of U. S. Patent Office, Washington, under date of 1847.]

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents, Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below show what some of my patents have accomplished for me, and that I have had reason to believe, and can prove, that at no other office do inventors get as good charges for professional services so moderate.—The immense practice of the subscriber during twenty years that he has been in business, has given a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and his extensive acquaintance with the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more ability, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have been in the habit of recommending to him, they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration of their claims.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the Patent Office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoa, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at lowest cash prices. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, they now offer to put up and sell the same in packages having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

1 lb Young Hyson	1 00	1 lb Cocoa Coffee,	1 00
1 lb Oolong	1 75	1 lb Java	1 00
1 lb Hyson	2 25	8 lb good	1 00

☞ The Spices are put up in ¼ and ½ lb. tin cans, extra fine and strong, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

☞ PASTE—We would call the attention of customers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1 lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of Dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, *"Chinaman grinding coffee,"* may be relied upon as the GENUINE ARTICLE. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medicinal properties of Dandelion are well known, and hold in high estimation by all who use it. The being a preparation of the root, with all its medicinal virtues retained, can be mixed with any kind of coffee, and the mixture is found well cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to see that the trade mark in our *Coffee* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS—Our object being to secure large sales at small profits, we offer inducements which cannot fail to attract those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices as compared with those of any other house.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued—Heretofore all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, 1855

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to retain it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this now celebrated musical instrument, during which time we have continued and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom read, for the reason that our time was fully employed. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders with a promptness there fore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon, lately received, is a most charming instrument it is It has been played on by Wallace, Dodt, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we now offer, although it may be desirable to those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " F to F	50

Arnold's Vital Fluid

PURIFIES and strengthens the blood, by eradicating the seeds of disease and pollution, the causes of impurities and humors. Hence its power to cure humors that mere medicine cannot care

Once its power of *strengthening and vitalizing* the blood. It invigorates *a organ or part of the system of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials It nerves and vivifies the system, by furnishing the blood with its vitalizing power.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It exercises by strengthening the blood, and by its power and better action doing its work by beginning at the *beginning* It is pleasant to the taste, and becomes a favorite whenever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It neutralizes the cause, by purifying the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLORIOUS*

ARNOLD'S VITAL FLUID

are enabled to cure them so that they *stay cured.*

A HEROINE AT SEA.

The following true, and well-told story is from the New York Times of Feb. 18. Every reader will peruse it with interest.

Among the passengers from California, who arrived by the steamer George Law, on Saturday, there was an invalid who had to be borne from the vessel to his hotel, on a litter. By his side, superintending every movement, was a young lady of prepossessing person, but with a countenance careworn and anxious from long watching. The invalid was Captain Joshua P. Patton, late of the ship Neptune's Car, of New York, and the lady was Mrs. Mary A. Patton, his wife, both of whom return home under circumstances of peculiar misfortune. Capt. Patton, left New York for San Francisco, about the middle of August, 1856, in the Neptune's Car, belonging to Messrs. Foster & Nickerson, of New York, carrying with him his wife, who had previously accompanied him on two voyages. Sailing about the same time for San Francisco were the ship Romance of the Seas, and the Intrepid, both fast clippers. Capt. Patton, proud of his ship, and confident of her sailing qualities, declared his intention to beat the others, if possible, in reaching their common port of destination, and made every exertion within the bounds of prudence to insure a quick passage.

They had not been long at sea, however, before Capt. P. discovered that he was not sustained by his first officer. This indifference of the mate, which by degrees grew into sullenness and neglect of his duties, devolved extra care and watchfulness upon the Captain, who by the time the ship had reached Cape Horn, was worn out with fatigues and cares. The mate was found on several occasions, asleep in his watch, with the ship under shortened sail, when the wind and weather were most favorable for making the run. A repetition of these misdemeanors finally decided Capt. Patton to put the mate off duty, which was done about the time they doubled Cape Horn. The increased difficulties which this unpleasant state of things occasioned, brought the Captain down with a fever about the time they passed the straits of La Maire. He struggled against it for a week, and was then compelled to quit the deck, not however without hope that his confinement would be but temporary. As long as he possessed sufficient strength he conferred with his wife as to the vessel's management and directed her, in case he was wholly disabled, to navigate the ship to San Francisco, giving the second mate the orders how to steer. Despite the constant nursing of his wife, the disease triumphed, and settled into a congestion of the brain, producing delirium and blindness.

True to her husband's direction the wife took up the sextant, and daily, at meridian and at night, made the necessary observations, and, unassisted, kept the run of the ship, giving her orders as to the course to be steered. At the same time she consulted all the medical authorities at hand as to the treatment of her husband's case, and applied herself in every way to restore him to health.

The mate, meantime, sought to excite a mutiny among the crew, and desired to carry the ship into Valparaiso, but in this he was foiled. Mrs. Patton assembled the sailors upon the quarter-deck and explained to them the helpless condition of her husband, at the same time appealing to them to stand by her and the second mate. To this appeal each man responded by a promise to obey her in every command. The mate lost his power over the crew from that hour, and Mrs. P., without a rival, directed every movement on board. The men manifested their sympathy by the greatest alacrity, in obeying her orders, as well as those of the second mate, who superintended the working of the ship, until she arrived at San Francisco on the 13th of November. Those who saw her enter into the harbor say no vessel ever came into that port looking better in every respect. The Romance of the Seas had arrived only eight days before.

The case of Captain Patton and his wife becoming known to the Masons, of which fraternity he is a member, temporary provision was made for them, and by their assistance they have been forwarded to their friends on board the George Law. They arrived in N. Y. totally destitute, and the situation of the devoted wife is rendered the more trying by the near approach of the period of her confinement.

The case having been brought to the attention of the Board of Underwriters, the matter was yesterday referred to a committee, who reported in favor of paying Mrs. P. $1000 as a temporary relief. Her discretion and heroism have saved a very large sum to the insurers, which would have been lost had the mate's council prevailed, and the ship been carried into Valparaiso. It is understood that some further appropriation will be made for their relief, and that the owners of the ship, and the merchants of New York, propose to take some further notice of the case.

The Captain is still very low, his eye sight lost, his recovery by no means certain. Mrs. Patton is yet but 20 years of age, and has been married about 4 years. She is a native of Boston, a pretty woman and a heroine. The parties were accompanied to New York, by Dr. Harris, of New York, who has had the treatment of Capt. P.'s case since his arrival at San Francisco.

A YANKEE TALKING LIGHTNING.—An engine on the Pittsburg, Fort Wayne and Chicago Railroad broke down last week at nine o'clock at night, nine miles distant from a station. The conductor started on foot through the snow to get another machine. A telegraph operator in one of the cars, named Stager, (of course a Yankee,) hearing the cause of the detention, got out and taking down the main wire from the pole along side the track cut it—attached small brass wires to the two ends—dotted the distress of his train to the Pittsburg and Brighton stations and putting one of the brass points to his tongue, read the answer that an engine should be immediately sent, and then talked off this pleasant news to his anxious and impatient fellow passengers.

ANOTHER ASSAULT.—We learn that as Mr. Sewell Bean, baker, in the employ of Messrs. Pearson & Hunt, was going home on Sunday evening, about nine o'clock, and had reached the corner of Federal and Middle street, Newburyport, he was suddenly approached from behind by a person who struck him a severe blow, which sent him stunned into the gutter, bruising his head and cutting his face, and so injuring him that he has not yet recovered. Are we to have the brutality of New York transferred to our quiet streets?—*Herald.*

Morning Chronicle.

WEDNESDAY, FEBRUARY 25, 1857.

☞ A Washington correspondent of the Boston Chronicle gives a careful account of the passage of Grow's Kansas Relief Bill, in the House.

Mr. Grow, who is a skilful tactician, brought the House to a direct vote on the final passage of the bill, by the application of the previous question. No sooner was this done than some of the conscience-smitten Southerners, who in their hearts despise the Bloody Border Ruffian Code, fled from their seats and dodged the vote. They dreaded the record. They did not desire, as Southerners, to vote against the interests of the South, and would not, as men, disgrace themselves and their children by voting for unconstitutional, inhuman and God defying laws. Gov. Aiken of South Carolina was among the number.

Not a single Buchanan man cast his vote here to give the settlers of Kansas their just and constitutional rights, by securing to them a fair election. Every Buchanan vote which was cast, was against the bill.

Every South American Fillmore man, with the exception of Dunn, Haven and Harrison, voted against the bill.

Some may ask "If no Democrat voted for the bill, whence the large majority for it of nineteen votes?" Look at the list of yeas and nays and it will be seen that the question is answered in the fact, stated above, that the "conscience stricken Southerners" dodged.

The Yeas were 99, generally of the Republican party,—among them, Pike, Tappan and Cragin, of New Hampshire.

The Nays were 79 only,—among them Allen, Harris, Morrison of Illinois, Broom, Cadwallader and Florence of Pennsylvania, Fuller of Maine, Hall of Iowa, Kelley and Whitney of New York, English and Miller of Indiana, and Peck of Michigan.

Absent or Dodged.—Messrs. Aiken, Barclay, Bell, Billinghurst, Bishop, Campbell of Ohio, Clarke of N. Y., Clingman, Cobb of Ga., Cullen, Davis Md., Davis of Ill., Denver, DeWitt, Edie, Edwards, Evans, Flagler, Fuller of Penn., Giddings (sick at home), Herbert, Hickman, Horton of N. Y. Jones of Penn., Kennett, Lindley, Mace, A. K. Marshall of Ky., Marshall of Ill., Matteson, Orr, Polton Phelps, Porter, Powell, Quitman, Reade, Ritchie, Rivers, Robinson, Smith of Va., Smith of Ala., Stephens of Geo., Swope, Trippe, Tyson, Wall, Walk, Watson, Wells, Wheeler, Williams, Wright of Miss.—54.

The bill will undoubtedly be killed in the Senate, where the majority will not suffer Kansas to be free, if they can help it.

FRESHET AT ALBANY.—The Albany Statesman of Thursday observes that the "oldest inhabitant' acknowledges that 'the like has never before been seen at Albany.' Since the 9th inst., a large portion of Albany has been inundated, and business in that locality entirely suspended.—The freshet of the present week, or rather the second edition of last week's flood, is adding to the destruction of property which commenced at that time. The water having reached a point higher than was ever known, excepting on the 9th instant, remains stationary. Since yesterday morning at 9 o'clock up to noon to-day, it had not receded two inches, and from 8 o'clock last evening the subsidence is not perceptible. The dam below remains a 'fixed fact.' The Hudson River Railroad is still under water between Albany and Castleton, and no work can be done on it until the water falls and the ice is cleared away. It is known that a breach has been made in the track about five miles below. The loss to the company must be very great, as it has put a stop to all their freighting business, which at this season is very heavy. It is estimated by those in the business that twenty thousand barrels of flour were damaged by water during the past week. A friend suggests that application be made to the Legislature to change the name of Albany to Watertown."

A HEROINE AT SEA.—On our first page to-day, is a true story, with this title. To this story we add the following.

The N. Y. Times says that Capt. P. and his heroic wife left for Boston, on Thursday, by the Bay State, accompanied by Captain John H. Nickerson, and Mr. John Sullivan, one of the clerks of Foster & Nickerson's house. During the effort to remove him to the boat, he suffered several convulsions, and Dr. Harris considered it doubtful if he reached his destination alive. Several friends were present to see him off. The insurance offices interested in the Neptune's Car, voted a donation of $1000 and a complimentary letter to Mrs. Patton. Mr. John G. Tappan urged making it $5000 which would have been a respectable sum for the services rendered by this heroic woman, but the serious losses the insurers have suffered of late make them poor.

Several prominent merchants have intimated to Messrs. Foster and Nickerson their intention to make some suitable testimonial to Mrs. Patton on their private account.

SUPREME JUDICIAL COURT.

EXETER, Tuesday, Feb. 24.

The February term of this Court commenced a session this morning—Hon. Samuel Bell presiding.

The Grand Jury received the charge, and went out, during the forenoon.

The Docket was called, and the civil business was postponed, while the criminal business was taken up.

Case No. 5—State vs. Heman W., John F., and John M. Stevens—was put first on trial. This is an indictment brought against the defendants for resisting an officer at Raymond.

Quite a number of liquor cases are on the docket.

☞ A woman from Lowell left a child (seven weeks old) upon the doorstep of Dr. Quimby's house in Salem on Tuesday night. She was afterwards found, and said she had passed an agonizing night—She appeared very happy to be restored to her child. The Salem Gazette says: "The woman is apparently about thirty years of age, and has had two husbands, the first of whom is dead. Her second, who is the father of this child, has left her, having, with others, advised her to dispose of the infant—in a more summary way. It was in accordance with bad advice that she adopted the present course, she being unable to support herself and child, and thinking it would fare better if taken care of by either those on whose steps the child was left, or by the authorities at the almshouse."

The Salem Register says the child has been adopted by a worthy family in that city, and the mother, after signing the necessary papers, was allowed to depart, relieved of a load of misery occasioned by her circumstances and the necessity to which they had reduced her.

An infant (doubtless the same) was left in the Depot at Manchester, on Saturday evening, wrapped in an oldish red shawl, lying on the floor of the small private room connected with the Ladies' apartments.—The runaway mother was again traced, and the City Marshal of Manchester was to go to Lowell after her.

The Manchester American thinks the foundlings in the two cases are the same; but if the Salem Register is correct, this of course cannot be.

LATER FROM NICARAGUA.

WALKER STILL IN THE FIELD.

NEW YORK, Feb. 21.

The steamer Tennessee arrived here at 7 o'clock this evening from Aspinwall, via San Juan and Key West, with 350 passengers and $36,000 in specie. She left Aspinwall on the evening of the 10th.

The Tennessee left before the Texas, already arrived at New Orleans, and before the result of Col. Lockridge's expedition was known. Col. Titus with his recruits went up the river with Lockridge, and took a position opposite the enemy, At Seripaqui, Col. Lockridge had made all his arrangements, and the attack was to be made on the day the Tennessee left.

Lockridge's force is stated to have been 550 men; that of the Costa Ricans 300.—The affairs at Rivas and at St. George between Henningsen's command and the Costa Ricans differ from the account by the Texas. In the fight near Rivas, Capt. Phinney was killed and the Americans suffered other losses, but it does not appear which party was victorious. Henningsen's attack on St. George was made with 400 men, the enemy having as it is stated, 1500. After several hours fighting, Henningsen retired with inconsiderable loss, excepting that several of his officers were mortally wounded, including Col. Jaques and Major Dusenberry.

The Costa Rican loss was supposed to be great. General Bosquet was killed. At last advices the Nicaraguans had drawn off from the allies and were in the vicinity of Granada, where they were awaiting the arrival of ammunition from Greytown.

At last accounts from Walker Feb. 3, he was at San Juan del Sud with 300 men. He had established his headquarters at Rivas, and was concentrating all his force there, amounting to 800 men.

THE WHEAT CROP.—The Washington Star is satisfied that the wheat crop for seventy miles around Washington at least, in all directions, has been much less injured by the late late severe weather than was thought a week or so ago. The entire disappearance of the snow has demonstrated this fact, to the great joy of the agricultural community. Throughout the entire Piedmont region of Virginia, particularly, the impression prevails that the winter has not damaged the crops anywhere materially.

VALUE OF SPANISH COIN.—The following is the average value of the worn Spanish coin at the U. S. mint in Philadelphia:—Quarters, 23 1-2 cents: eighths, 10 9-10 cents; sixteenths 5 1-8 cents.

CONGRESS.

SATURDAY, Feb. 4.

In the Senate, the House bill to authorize the people of Minnesota to form a Constitution and State government, preparatory to admission into the Union, was taken up. An amendment, that none but citizens of the United States be entitled to vote in reference to the formation of the Constitution, after considerable discussion, was adopted, and the bill, as amended, was passed. The bill authorizing the people of Oregon to form a State government, was then taken up. Pending action on an amendment, extending similar authority to the people of Kansas, the Senate adjourned.

In the House, the Post Office Appropriation bill was passed. The resolution reported from the Committee on Elections, declaring that Mr. Whitfield was not entitled to a seat as delegate from Kansas, was laid on the table by a vote of 96 to 85.

MONDAY, Feb. 23.

SENATE.—Mr. Cass presented the credentials of Mr. Chandler, and Mr. Hunter those of Mr. Mason, severally elected Senators from Michigan and Virginia, for six years from the 4th of March next.

The bill to amend the Tariff act of 1846, with a view to perfect the House valuation principle, was passed.

Mr. Foster presented the credentials of James Dixon, as Senator from Connecticut, for six years from the 4th of March next.

The Sub-marine Telegraph bill was taken up.

The Senate went into executive session, and subsequently adjourned.

HOUSE.—The House passed the bill to supply deficiencies in appropriations, including $250,000 for printing, and nearly $183,000 for books to new members. The latter item was carried by 3 majority, although on Saturday only 27 votes were recorded in its favor.

The House passed the bill to pay a company of South Carolina volunteers for services in the war of 1812.

The Legislative, Executive and Judicial Appropriation bill was then taken up.

Mr. Tappan of New Hampshire moved to strike out the sum of $20,000 compensation for the Kansas Legislature, saying that he did so for the reason that the House had ascertained and declared that the body was an usurpation.

Mr. Harris of Illinois said the country had, in the late election, rejected the report of the Kansas committee, and now gentlemen who sustained it want to keep up the fight for the sake of temporary political capital.

Mr. Sherman of Ohio defended the committee. There was not a single fact stated in the report but what bears the impress of truth. It had virtually received the sanction of the present Executive of Kansas, and had the effect of removing Governor Shannon, the appointment of Governor Geary, and the removal of President Pierce from office. [Laughter.]

The appropriation was stricken out—67 against 59.

Pending the consideration of the bill, the House adjourned.

WASHINGTON NEWS.—The Boston Advertiser's special dispatch from Washington, Monday evening, says:

On motion of Mr. Tappan of N. H., in the House, to-day, the appropriation of twenty thousand dollars (20,000) for the compensation and mileage of the Kansas Legislature, was struck from the General Appropriation bill.

The Senate, in executive session, discussed the appointment of Harrison *vice* Lecompte, to the Kansas judgeship. In the correspondence upon the subject, communicated by the President, it appeared that though Harrison had been appointed, Lecompte had not been removed; a proceeding which was commented upon with severity. A motion to postpone the subject till March 5, was lost by one vote.

The Coinage law was signed by the President on Saturday.

Proposals were received to day, from the owners of Tehuantepec route, to sell their interest to American citizens, which would virtually be a cession to our government.—They apprehend that Spain, supported by France and England, will direct war against Mexico, on that part of the territory, and seek this mode of procuring United States protection.

☞ Rev. Bernan Keenan, Catholic Priest at Lancaster, Pa., gave a select dinner party on the 12th inst. to the President elect, at the parsonage, at which several distinguished representatives of the Romish Hierachy were present.

STREET SMOKING.—The Congregationalist, in an article on smoking, says, "the street smoker is the *skunk* of civilization."

WOOD'S HAIR RESTORATIVE.

TO THE MILLION.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we allude to his Hair Restorative; the only article that has been completely successful in cheating age of his gray locks, removing dandruff, itching, scrofula, &c. It restores the gray head to more than the original beauty; adds new lustre to locks already luxuriant; having the effect of course, harsh hair to render it glossy and watery; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then, having this portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age, don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

ONE WEEK LATER FROM EUROPE.

NEW YORK, Feb. 22.

The royal mail steamship Asia, Capt. Lott, arrived at this port, early this morning, bringing Liverpool dates of the 7th inst., and nearly $400,000 in specie.

The Queen of England, in her speech at the opening of Parliament, says England is negotiating with the United States and Honduras respecting Central America, and she hopes all difficulties will be removed.

An interesting discussion was had on the Hudson Bay Company, on the motion to appoint a committee to inquire into the state of the possessions over which the Company possesses any right to trade. It was suggested by several speakers that the monopoly should be broken up, and the land thrown open to colonization.

Mr. Lane alluded to the tide of emigration now setting toward Minnesota, and said the only mode of averting a conflict between England and the United States, which might arise from American emigrants overstepping the borders and squatting on English territory, would be the annexation of the Hudson Bay territory with Canada. Motion agreed to.

The English and French troops are ordered to evacuate Greece, their demands having been fully complied with. A commission of the three protecting powers, Russia, England and France, has been appointed to investigate the condition of the Greek finances.

FROM EUROPE--4 DAYS LATER.

PORTLAND, Feb. 24.—Steam propeller Indian, from Liverpool at 11 A. M., Wednesday, the 11th inst., arrived here at six o'clock this morning, making the passage in 12 days and 19 hours. Her dates are four days later than those by the Asia.

Parliament has published an account of the public income and expenditures for the year ending Sept. 30, 1856. Total income from all regular sources of revenue was £71,348,000, and the total expenditures, £88,304,000, being an excess of 16,950,000 sterling of expenditures over income.

AN EXPERIMENT.—A man traveling, entered a tavern, and seeing no one present but the landlord and a negro, seated himself and entered into conversation with the negro. Shortly he asked Sambo if he was dry? Sambo said he was. Stranger told him to go to the bar and take something at his expense. The negro did go, and shortly left. Landlord says to the stranger—"Are you acquainted with that nigger?" "No, never saw him before—but why do you ask?" "I supposed so from your conversation with him, and asking him to drink," "Oh," said the stranger, "I was only experimenting. The fact is, I was myself dry, and I thought if your liquor did not kill the negro in fifteen minutes I would venture to take a drink myself."

Lucy Eastcott, who went from Springfield, Mass., has made a hit at Cork, Ireland, where Esmerelda was performed for her benefit, and between the acts, a deputation of the leading citizens went on the stage and presented to her a magnificent gold bracelet with a ruby centre, accompanied with a short and complimentary address. On her appearance in the concert which followed the opera, she wore the bracelet, which was at once recognized, from having been previously seen, and she was again and again cheered.

AYER'S Cathartic Pills,

(SUGAR COATED.)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach,

Dyspepsia, Costiveness, Piles, &c.

DR. J. C. AYER: Sir: I have been repeatedly cured of the worst headache my body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. UREBLE, (Clerk of Sumner Chosen.)

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we have. Their effects follow fast on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a disease in which they cease to obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but grew worse. Was given up to consumption, taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had a bad relax, my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured at last. Your Pills are doing wonders among us, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WAREAM, WYOMING CO., N. Y., Oct. 24, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them admirably adapted to clean out the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Prominent Merchant of St. Louis, Mo.

ST. LOUIS, MO., Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother, too, was cured of erysipelas by afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. J. V. HIMES.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Protestant Episcopal Church.

PULASKI HIGHWAY, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and produced a severe attack of neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your agent, I took your medicines. Before I had taken a third your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill,** they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful results which follow its improper exhibition. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and there yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives annually than any other medicine, it prevents them from dying in the first stage of the disease, when it is easy to cure them. Keep it by you, and cure your colds while they are curable, or neglect them until no human skill can master the inexorable seizer that, fastening on the vitals, will not let them slip away. All know the deadly fatality of lung disorders, and so they know too the virtues of this remedy, we need not dwelling upon them. We do not ask you to believe what we say, we cannot, we care, we tell to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCK & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who buy tickets at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders will be filled for the first drawing that takes place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes cash in full without any deduction. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Models made, and Patents obtained in Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any other Agency. Inventors should ponder. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as evidence that THE SUM TOTAL OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind can the charges be so moderate—that so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, on any point in question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent to secure to them the valuable equitable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. EDMUND BURKE,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists in part of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c. &c.

Having every facility for manufacturing and preparing the several articles named, the public may rest assured in having them *pure and genuine,* as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1,50	5 lb. Mocha Coffee,	1,00
5 lb. Young Hyson	1,75	5 lb. Java "	,90
5 lb. Y. Hyson "	2,25	8 lb. good "	1,00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be pure spice, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of connoisseurs to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process, roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and is put up in our own large trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee and used as a beverage, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by our eminent physicians for invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same rate as we do.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be offered by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices as compared with those of any other house.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell solo passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment free of charge.

Extract from the commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments have poured in from Professors of Music in different parts of the United States, have from time to time been received. Thus far we have sadly but little, and our advertisement for selection cannot be inserted, lest we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishment for Musical Instruments, and now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived safely and is most charming Instrument it is. It has been played on by Wallace, Dost, Hodges, Wm. Mason, and a host of others, and all have pronounced it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, yet we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument, equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors.* Hence its power to cure humors, tetter, scrofula, and other diseases of the blood. It *strengthens and vitalizes* the blood. It furnishes *to a certain extent, the element of which your blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable matter. It invigorates and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence which enables the invalid to take exercise in the *free open air.* It *exhilarates* by strengthening the blood to bright or and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the only medicine in use which can be relied on for their efficacious action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Hence* we place reliance in the skill of their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

RICH MEN IN NEW HAMPSHIRE.

A State having only moderate natural resources and no large seaport, will not produce millionaires. New Hampshire, though famous for her numerous and successful politicians and able statesmen, is not a State where very large fortunes are often made. In the days of the Revolution, John Langdon of Portsmouth was known as the richest merchant in Portsmouth, and he made a noble use of his means to aid the impoverished cause of the colonists. For thirty years after the close of the Revolution, nearly all the capitalists of the State were at Portsmouth, Exeter and the vicinity.

After the war of 1812, men of capital began to be known in other parts of the State, and in 1836 George B. Upham of Claremont, William Jones of Portsmouth, Joseph Bell of Haverhill, and Charles H. Atherton of Amherst, were spoken of as the four wealthiest men in the State. All of them have since died, and their estates have been pretty widely distributed.—Messrs. Upham and Bell left half a million each, Mr. Jones $750,000, and Mr. Atherton $170,000.

Of the rich men now in the state, Moody Kent of Concord undoubtedly stands at the head of the list. He is worth $500,000, is a bachelor of 70 years, and for several years had resided at Pembroke. W. H. H. Bailey, Joseph B. Walker, and Nathaniel G. White of Concord, are reckoned from $100,000 to $150,000. In Rockingham, William P. Jones of Portsmouth, Joshua Pierce of Greenland, and Joseph Taylor Gilman of Exeter, are among the most "solid men" in the county, ranking $120- to $250,000.

In Hillsborough county, Isaac Spaulding of Nashua, is the richest man, being estimated at $200,000. Robert Reed of Nashua, Daniel Fuller of Francestown and Robert McGaw of Merrimack are put down at $75,000 each. In Manchester, Frederick G. Stark ranks first, being worth about $100,000. Dea. Daniel Farmer and Dr. A. G. Gale come next at $70,000 each. In Sullivan county, John W. Tappan of Claremont, and in Coos county, Davie Burnside of Lancaster, are said to be worth $100,000 each and are the wealthiest men in those counties.

So far as political and social influence is to be regarded, wealth alone has less influence in this State and in New England, than in any part of the world.—*Manchester American.*

A GOOD MOVE.—Senator Brooks introduced a bill into the New York Senate, which, we trust, will be passed. It provides that from and after July 4, 1857, the books in the library of a physician, clergyman, lawyer, and author, and the books in the library of a family or student, or in possession of any professional man, and who obtains his living by writing, shall be exempt from levy on execution to any amount not exceeding $500 in value.

FATAL RAILROAD ACCIDENT.—The Boston Telegraph informs us that while the night freight train from Worcester for Boston was stopping at the Framingham Depot on Saturday morning at 5 o'clock, the boiler of the locomotive exploded, killing instantly the engineer. His name was Benjamin Wallace. The train was stopping to wood up when the accident occurred. The body of the unfortunate man was thrown back upon the cars a distance of sixty feet. The concussion broke the windows and sashes of the Framingham Depot without otherwise injuring the building. The locomotive was nearly if not quite ruined by the explosion.

The fireman, named Davis, was thrown some distance, and taken up senseless, but he was not much injured. The deceased lived in Boston, and leaves a wife and one child.

Both ends of the boiler were blown out: the cause of the explosion was probably the result of too great a pressure of steam.—The engineer was thrown over two or three cars, and the body was very much mangled. The locomotive was thrown off the track some distance, and was buried in the sand nearly up to the hubs of the wheels. A stick of wood was thrown through the window of the depot.

A. SHAM.—In Nassau, N. Y., a few days ago, a spiritual circle called up what was pretended to be the spirit of a boy named Philips, a lad of 15, who, about five years since, was found hanging by his neck in his father's barn. The spirit declared that he had been murdered by his own mother to prevent his disclosing to his father, her illicit intercourse with another man. The murder was committed by driving a nail in his head. His body was then hung up, to create the supposition that he committed suicide. The revelation caused intense excitement. A coroner was procured from Troy, with a corps of physicians, and on Monday the remains of the boy were taken up and examined. The skull was found perfectly whole and sound and no indication of violence was discovered anywhere. Of course the visions of crime vanished; but the mother, the object of these cruel suspicions and calumnies, has become seriously ill from the fearful excitement through which she passed, and may never fully recover from its effects.

HEALTH OF MR. GIDDINGS.—A letter from Washington just received states that:

Mr. Giddings writes in a letter received a day or two since, that his health is improving, but that he will not be allowed by his physician to return to Congress this session. His presence is greatly missed by visitors at the Capitol, to whom his grey head and stalwart form had been familiar for so many years.

☞ A man was picked up in a dying condition on Tuesday, upon the track of the Worcester & Nashua Railroad, near Howe's bridge, in Sterling. From papers found in his pocket, it is supposed that his name was Smith. It is supposed that his death was caused through excess of drink and exposure.

☞ Peterson's National Magazine for March, contains 43 articles and 55 embellishments.—A cheap and popular monthly magazine, $2 per annum. Chas. J. Peterson publisher, Philadelphia.

TO THE POINT.—The Illinois Legislature passed a resolution limiting debate to five minutes for each member on any one proposition.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. THURSDAY, FEBRUARY 26, 1857.

THE KANSAS BILL IN THE SENATE.—The following was the vote of the Senate, on Thursday, laying on the table the very moderate and fair bill relating to Kansas, which had previously passed the House.—There is little reason to hope for the passage of the bill, although we believe no other measure of a similar purport has secured so large a vote in the Senate:

Yeas—Messrs. Adams, Benjamin, Bigler, Brown, Butler, Cass, Clay, Crittenden, Dodge, Evans, Fitch, Fitzpatrick, Geyer, Green, Gwin, Hunter, Johnson, Jones of Iowa, Jones of Tennessee, Mallory, Mason, Pearce, Reid, Rusk, Sebastian, Slidell, Thompson of Kentucky, Toombs, Toucey, and Weller—30.

Nays—Messrs. Bell of New Hampshire, Bell of Tennessee, Brodhead, Collamer, Durkee, Fessenden, Foot, Foote, Foster, Hale, Harlan, Houston, James, Nourse, Pugh, Seward, Stuart, Trumbull, Wade, and Wilson—20.

Two Southern Senators, Bell and Houston, voted for the bill, while Bigler, Case, Dodge, Fitch, Gwin, Jones of Iowa, Toucey and Weller, voted against it.

If these last had voted for it, and according to their professions during the Presidential campaign, the bill would have passed by a vote of 28 to 22.

WASHINGTON, Feb. 24.—In a letter from Judge Lecompte, dated Jan. 9, to Attorney General Cushing, he says he has "too much self respect to respond to any intimation unfavorable to either his official or personal conduct, unless requested by the President to do so. The amazing information that he was to be removed disabused him of that full confidence upon which he relied as the last security against injustice, censure and condemnation without a hearing, which he would not ask to be redressed. Never having felt temptation to contribute to peace by pandering to popular spirit, before the appointment of Gov. Geary, he should regard his advent to the territory as a woeful curse to the land." He accuses Gov. Geary of misrepresenting facts, denies that the peace of Kansas was in the slightest degree perilled by his official acts, and brands, as grossly false, the statement that he had refused to release the free State men on bail. He avows he will conscientiously discharge his duty, uncontrolled by the President or Gov. Geary.

COURT OF COMMON PLEAS, SALEM, MASS.—John Burchstead, of Salem, in a liquor case that had been carried to the Supreme court, where the objections were overruled, has just been sentenced to pay a fine of $50 and costs, and to be imprisoned 3 months in the House of Correction. A similar sentence was passed on Lawrence Brown of Salem, on an old indictment, with $10 additional fine and 20 days additional imprisonment for a single sale of which he has been convicted.

Besides the above, the Observer says that John Rock of Salem, Joseph Watson and John Flynn, of Lawrence, and John Page of Haverhill, have been convicted as common sellers of liquor, while five others, indicted by the Grand Jury, have been acquitted.

PARTIES' TESTIMONY.—A correspondent says:

The plaintiff and defendant testify in courts of equity in all States. Why not in this State in courts of common pleas, as is done in Massachusetts and Vermont, and I think also in Maine? Both parties testify before an auditor, and why not before a jury?

In a trial for malpractice in Massachusetts, Velmuth vs. Hathaway—as we stated some time ago, the verdict was for the defendant. A periodical says of this trial:—

The beneficial effects of the new law, allowing the plaintiff and defendant to be put upon the stand, are clearly shown in this trial—the Court and the jury having been put in possession of the facts by the only parties capable of communicating them. The duration of trials is thus greatly diminished, by the omission of the testimony of numerous other and less important witnesses.

A MENTIONABLE INCIDENT.—Thirty years ago, Duncan Thomas Turbell, a merchant in Boston, failed in business, and his creditors, satisfied of his good faith, accepted what he could pay them, and gave him at once and willingly a full discharge. Time went on, and the merchant, though struggling with other misfortunes, yet left at the time of his decease, three years since, a handsome property, a life estate in which was bequeathed to his widow, and at her death it was directed to be paid over to his old creditors or their heirs, so that the deficiency in the payment of their claims, and interest on the same, should be fully settled. The executors have fulfilled their trust by paying out the funds, and have sufficient left from the estate to pay off all those old cancelled debts, and have several thousand dollars remaining.

LANCASTER, (Pa.) Feb. 24.—Mr. Buchanan will not leave here till Monday, when he will proceed to Washington via New York and Baltimore.

An "Old Folks' concert" was given in Portland, Me., on the 9th inst. The most attractive line in the advertisement of this entertainment reads thus: "It is rumored that the *ancient dress* may be introduced on this occasion." We are glad to observe that the givers of these concerts are willing to announce the *real* attraction of their performances "the ancient dress." We cannot but place these concerts in even a lower grade of musical rank than burnt cork and banjo entertainments.—*New York Musical Review, Feb. 21st.*

We agree with the Review, that the "old clothes" part of these entertainments is decidedly out of place; but we won't allow the Old Folks Concerts to be put down as the lowest grade of musical entertainments. Indeed we believe they are almost the highest and most improving; and the Continental psalmody is as much above some of the present day, as the old Handel and Haydn Collection (Lowell Mason's *first* church music book) is better than the Hallelujah (Dr. Mason's *last.*) The Review is published by two sons of Lowell Mason—and we can generally agree with its opinions in musical matters. This time, however it is off the track.

☞ A notorious swindler named Cyrus F. True was arrested at Painsville, Ohio, Saturday afternoon, for swindling the Cayuga Bank. He has been doing an extensive business at the West and Southwest by disposing of drafts purporting to have been drawn by Mr. Breck, of Rochester, on a house in New York. He was arrested by Ex-Marshal Gallagher, of Cleaveland, on account of a Cleaveland Bank, but effected a compromise, when he was liberated. He has raised in his operations all over the country from two to five hundred thousand dollars. True was arrested in Detroit about a week ago, by parties whom he swindled in Toledo, Adrian, and Detroit; but he effected a settlement with his victims and was released.

A RUN FALL.—The Boston Courier of Monday, states that on Saturday afternoon William Emry, a seaman of the ship "A. Hammond," lying at Long Wharf, in attempting to board that vessel on a plank, fell into the water, striking, as he fell, against the fender. He was rescued by the other seamen, and found to be quite seriously injured. While the hands were preparing to take him to his boarding house, No. 62 Ann street, the cry of another "man overboard" was raised, and upon examination it was discovered that William Chase, the second mate, had fallen in the same manner, striking the fender with such violence as to break his neck. He died almost instantly. Emry is an Englishman. Chase was a New York State man. Both of the seamen were intoxicated.

☞ The ancient Aztecs smoked cigarettes, and took chocolate after dinner, and the institutions of malt liquor and accommodation bills were not unknown to the early Egyptians: (by the way, the Jews were the borrowers in those days, for we must allow for reasonable changes.) Sporting public-houses have been discovered in Pompeii, with "articles" drawn upon papyrus, in the most indifferent Latin, regulating the Dacian darkey and the Herculaneum slasher. Curling-tongs were evidently used by the Assyrians. The toilet of a Roman lady was not complete without hair pins and rouge.

SUPREME JUDICIAL COURT.

EXETER, Wednesday, Feb. 25.

The Jury, in case of State vs. Stevens et als, went out at noon, and at 4 o'clock had not agreed on a verdict.

Case No. 29—State vs. Samuel Brewster, is now on trial. This is an indictment brought against Brewster, of Stratham, for stealing and destroying a note. Bell (Co. Solicitor) for State; Hatch and Marston for deft.

The Grand Jury have not yet come in.

On motion of Mr. Hackett, this morning, Greenleaf Clarke of Plaistow was admitted to practice as an attorney of this Court.

☞ Mr. Matthias Webster, of South Wolfborough, N. H. while engaged in felling trees, a few days since, came near being killed by a tree falling upon him. The snow being deep and soft and the tree striking another in its descent, thereby changing its course, Mr. W. was unable to get out of the way. One thigh was badly fractured, and the wounds about his head and upper part of his body were shocking to look upon.

WASHINGTON, Feb. 24.—Correspondence of N. Y. Herald.—It is understood that the members implicated by the Investigating Committee will each demand a separate trial before the House, which will more than consume the remainder of the session. Consequently the appropriation bills, and all other legislation will go by the board.

☞ During the year 1856 there were 57 deaths by delirium tremens in the charity hospital at New Orleans.

CONGRESS.

TUESDAY, Feb. 21.

The Senate reconsidered the vote by which it passed the bill for the admission of Minnesota as a state, and entered upon a new discussion of the merits of the citizenship qualification which was appended thereto, the abrogation of which was moved by Mr. Hale of New Hampshire; but the discussion had not closed when the body adjourned. Mr. Hale's motion for reconsideration was passed, 35 to 21.

HOUSE.—The House passed the legislative and Judicial Appropriation bill, concurring by two majority in the action of the Committee of the Whole in striking out the appropriation of $20,000 to pay expenses of the Kansas Legislature.

The House passed the Senate's joint resolutions for ascertaining and fixing the relative value of the coins of Great Britain and the United States. It provides that the Secretary of the Treasury shall appoint a suitable person to act with such a functionary as may be appointed by the British government, and with a view of effecting that object, the agent of this government is to report as soon as practicable.—The House made an amendment fixing his salary at $5000 for the full service.

Mr. Sherman of Ohio, rising to a personal explanation, said that he had noticed in an official report of the proceedings of yesterday, the words "That's a lie;" uttered in a low tone of voice, and attributed to Mr. Wright of Tennessee.

Mr. Wright replied that he meant by it no disrespect to the House. He believed, at the time, and now believed the statement by that gentleman untrue.

Mr. Sherman said the remark was made in so low a tone that it was not and could not be heard in his part of the House.—Whether this was intentional or not is for the House to judge. Before he had learned what was said the member had left the hall. From what he could learn, he believed it was the language of blackguardism, induced by excitement and intoxication.

Mr. Sherman had supposed it was only necessary to call the attention of the member, with whom his relations heretofore, though not intimate, had been kindly, to the remark which had been read to call forth from him a manly retraction, but in this he had found himself totally mistaken.

Mr. Wright replied that he could not, of course, be expected to bandy epithets with the gentleman from Ohio until he relieved himself of the imputations already cast upon him. That was all he had to say.

The House passed the bill providing for refunding the duties on goods destroyed by fire in New York.

Mr. Colfax, from the Committee on Elections, to which the House referred the petition of 2200 citizens of California, asking the expulsion from the House of Mr. Herbert, for killing the waiter Keating, reported that the petition was accompanied by no proof, and no authority was given the committee to compel the attendance of witnesses, therefore it was for the House to determine what further action should be taken.

Mr. Herbert remarked that he was credibly informed by Californians now here, that this petition was got up in the Vigilance Committee room at San Francisco. He did not believe that a man of them voted for him, and they were considered a band of outlaws. He looked on the petition as a *compliment* from that quarter.

On motion of Mr. Boyce of South Carolina the report was tabled.

Mr. Walker of Alabama had endeavored to say a few words, having acted as Mr. Herbert's counsel, but Mr. Trafton of Massachusetts had interposed an objection, which, Mr. Walker retorted, came from a political parson. Subsequently Mr. Walker said that he made that remark without remembering that Mr. Trafton was a minister, perhaps the pastor of some church, a profession which prevented him from resenting an insult. Under the circumstances he should feel ashamed of himself did he not apologize to him. If he had wounded him, he was heartily sorry for it.

The House then went into Committee of the Whole.

Mr. Washburne of Illinois indicated his desire to proceed with the consideration of the River and Harbor bills.

Mr. Letcher of Virginia. What's the use? They will only be vetoed.

Mr. Washburne. We'll pass them then over the veto.

Mr. Campbell of Ohio made ineffectual motions for the consideration of the various general appropriation bills, but the friends of internal improvement measures *voted them down.*

The struggle continued for several hours. The Committee rose, and—

Mr. Washburne of Illinois offered a resolution to discharge the Committee of the Whole on the State of the Union from the bill to continue the improvement of Cape Fear River, and that the House proceed to its consideration, during which it shall be in order to submit amendments for other similar works.

Pending the resolution the House adjourned.

BODY FOUND.—On clearing away the ruins of the Bay State Glass Works at East Cambridge, which were burnt on Thursday of last week, the body of Francis Crielly, who was killed by the falling of the brick, was found in a mangled condition. Crielly's wife, who has died since the fire, was buried last Tuesday. The boy injured at the time Crielly was killed, is still living, though with no hope of recovery.

MR. BUCHANAN'S HOUSEHOLD.—His nephew is to be his Private Secretary. His niece is to do the honors—in the absence of a wife.

MARRIED.

In Somersworth, Mr Orin W Bickford to Miss Lydia S Hamilton.—Mr Charles W Dame of Tuftonboro, to Miss Elizabeth Bickford.

In North Hampton, Mr Tappan Leavitt to Miss Lucinda Marston.

In Walpole, Mr Oliver Hall to Miss Ellen A Knowlton.

BENJAMIN NORTON

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield a much larger sum in cash than Warrants will hold here. If Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

Also, for sale 440 acres of fine Timber Land.

ANTI

A Per

For the Lancet, Le

OF ITS INTRINSIC VALUE, TH
COMMUNITY, AND NOT THE DISC
MUST BE THE JUDGE.

MANY medicines offered for sale are accompanied by doubtful certificates, (their chief virtue,) and in fact, no universal remedies, healing all maladies—a burlesque on common sense. As the discoverer of this Salt solemnly protests against having it placed in the category of frauds and impositions, he has resolved that the simple fact that the manner of its opera ion, like that in the virus in vaccination, could not be satisfactorily explained upon any known principle How, *in what way*, it acts effectually, subduing inflammatory diseases and *no others*, was at first wholly inexplicable but, on further experiment, it was proved that by its power over the veins, arteries and gland, *it equalized the fluids of the body*, the want of an equilibrium in which, is the sole *cause* of inflammation. It exerts, like the vaccine matter, an extraordinary influence over the circulation—resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat and pain disappear.—Such is its potency, that like the vaccine just mentioned, it requires what merely adheres to the point of a quill dipped into a solution of it, to affect the entire system—but must be *instantly* used to prevent Recession and excess in its full virtue. Three quills in acute, and two in chronic cases, every twenty four hours, till the heat and fever have subsided and a perfect cure effected.—When it takes the place of leeches, stimulating ointments and blisters in local inflammation, as Brain Fever, Croup, Toothache, Pleurisy, &c., its wonderful administration is two-fold. (*See directions for dis-oloving, &c.*)

☞ The peculiar excellence of this Salt is that without the useless loss of blood and strength, it effectually cures inflammatory diseases no others by producing an equilibrium of the fluids in the body and a consequent uninterrupted circulation. The following different *forms* which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as perfectly subdued by the Antiphlogistic Salt, as fire is extinguished by water:

1—Cases where the unbalanced fluid affects the HEAD AND THROAT—to wit: Brain Fever, Headache, Fits, Inflamed Eyes, Ears and Nose, Canker, Neuralgia, Catarch, Erysipelas, Bronchitis, &c.

2—Cases where the unbalanced fluids affect the CHEST AND ABDOMEN—to wit: Pleurisy, Asthma, Inflamed Lungs and Liver, Colic, Coughs, Heartburn, Dyspepsia, Gravel, Chronic Diarrhœa, &c.

3—Cases where the unbalanced fluids affect the EXTREMITIES AND SKIN—to wit: Rheumatism, Gout, Scrofula, Erysipelas, Chilblains, Salt Rheum, Fever Sores, Tetter, Tumors, Boils, Salt Rheum, and all other Cutaneous Eruptions.

This Salt greatly alleviates the inflammatory pains peculiar to married ladies, (before, and at the time of confinement,) and many Female Complaints; and is very efficacious in Fevers, Ague, Wounds, Nervous and Spinal Affections, and any other forms of (mark this) *inflammatory disease*, attended with heat or febrile symptoms.

☞ Persons who have a tendency of blood to the head and heart, or lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, or live in unhealthy climates are exposed to a peculiar *vitiation of the fluids of the body*, which one dose, with internal or external application, or both, once in *three months*, would invariably PREVENT. It is believed to afford protection from infectious diseases; and, therefore, it is recommended to travellers, sailors and soldiers.

☞ To protect the community from imposition by *counterfeits*, the proprietor will employ no AGENT, and has made such arrangements that he can send the medicine in any quantity, by MAIL or EXPRESS, to any part of the United States or foreign countries. Its prime cost to the discoverer is $1.60 per drachm—price $3 per drachm—and is put up in drachm packages for some diseases, (with directions, &c.) at $3; three drachms do. for chronic cases, $5; and five drachms do. for families, $8—a net profit of *fifty cents* on each package.

☞ While many nostrum makers victimize the good natured and pill ridden public by ordering them six to a dozen boxes or bottles to cure any malady, no matter what, the discoverer is happy in being able to state, that the severest forms of recent inflammatory disease are overcome by *one* Acute package, and the most obstinate and long standing cases by *one* Chronic package. Although thirty days have not elapsed since this new medicinal agent became partially known to the citizens of Boston and a few neighboring towns, yet such have been the results of its trial, that during the past week, nearly 400 packages were sold in this city, and orders received by mail and express for 163 packages, for Chronic, and 235 Acute packages. In one instance six persons clubbed together and wrote for six packages, (of the Chronic kind,) to be sent to Boston, and forwarded to *one address*—thereby saving expense to themselves and the proprietor.

☞ Letters from clubs or individuals with money (if over $10) should be *registered* at the post office where mailed, as it costs but five cents, and will insure their safe arrival.

⁂ The discoverer now humbly submits his Perfect Substitute for the lancet, leeches and blisters, to the tribunal of an intelligent public, reiterating that it does not what it claims and no more, no less; SCANDUS INFLAMMATORY DISEASE, (no others,) whatever be its form or locality *by restoring the lost balance between the fluids of the body.* Family packages $8, Chronic $5, Acute $3; to be had (free of expense) only by addressing him through the Post Office, Boston, Mass., or at HIS OFFICE, No. 3 WINTER STREET.

Cut out this advertisement and his communication in another column, for the perusal of your neighbors and your own *future use.*

LOCAL.

☞ Somebody who lives near the mouth of the Piscataqua, having leisure and loving fun, fitted out an image of a man, and not a very bad looking man,—and standing him upon a good sized cake of ice, sent it up stream with the flowing tide. Some humane persons from Badger's Island put off in a boat to rescue the supposed man from his peril of shipwreck against the bridge. But as they drew near, by the costume and labels they perceived it was one John C. Fremont, on his voyage of discovery up the salt stream, with his finger pointing forward and upward, scoming to say Excelsior. As he had been through greater dangers before, and come back as good as new, and even better, they concluded to let him pass on, believing that if he fell overboard he would not drown, but float away on the tide of affairs, and come up in good time, like Venus from the sea, or like Moses out of the bulrushes.

☞ At the public meeting in Rechab Hall, Wednesday evening, to nominate a Republican candidate for Mayor — Lory Odell, Esq., in the chair—Hon. C. S. Toppan was nominated. He declined, and Capt. John Chase was nominated.

It is rumored that Robert Morrison, Esq. is to be the nominee of the Democratic party.

☞ We learn that Mr. S. M. Demeritt has discontinued his private school, and is to be Associate Teacher in the Boys' High School—we presume in place of Miss Palmer. Mr. D. has long been one of our most popular instructors, and will be a valuable aid in the High School.

☞ The Boston Courier of Monday says, the lifeless body of Mr. Daniel E. Dennett, son of Mr. George Dennett, of South Boston, was found in the wash-room of the Boston Custom House, at three o'clock on Sunday morning. Mr. Dennett had been missing since three o'clock Saturday afternoon, and the search resulted in the father finding his dead son, with a pistol shot in the region of the heart. Mr. Dennett was about 21 years of age, was an assistant measurer in the Custom House, and his self-destruction is attributed to insanity. He was a young man of good character, and at the time of his death was Secretary of the Mattapan Literary Society of South Boston.

The father and son are both well remembered in this city, of which they were natives, and where they have resided till within a few years.

☞ To-day, being the last Thursday in February, is the Annual Day of Prayer for the Colleges of our land. The North Church and the Middle Street Church, will hold meetings in their respective chapels, in the afternoon; and in the evening, at 7 o'clock, united services are to be held in the Stone Church.

☞ The Bells were rung in this city, on the anniversary of Washington's Birth Day, last year, by order of the City Government, under Mayor Walker's administration.

NEW MEDICAL SALT.

[*From the Boston Post.*]

As we know but little of medical politics, our opinion may not be worth much, but we do not hesitate to say that, if the substitute for venesection and blisters announced below, (the discovery of which was stated in our paper some time since,) possesses the extraordinary powers claimed for it, the *lancet* is destined to rust in its case, and the public will exclaim, "success to the new medicine." Were it only a substitute for the painful and hateful blister, it could not fail to win its way to popular favor, and yield a rich harvest to the discoverer.

We commend the fortunate and enterprising proprietor, Dr. F. Coggswell, for his wisdom in sending forth his new discovery *without certificates*, — so common with the nostrums of the day,—and with no other backer than its real value and his own reputation. As he may be unknown to the community abroad, we take pleasure in stating that he has long occupied a prominent position in the profession, and received (about thirty years ago) his collegiate and medical education at two popular colleges in New England.

It will be seen that the doctor has recently refused a liberal proposition for an equal partnership in his discovery, from a medical gentleman who has experimentally proved its efficacy.

Publishers of newspapers and periodicals at home and abroad, will be interested in his communication and advertisement.

[COMMUNICATED FOR THE POST.]

ANTIPHLOGISTIC SALT.—*A perfect substitute for the Lancet, Leeches and Blisters! Of its intrinsic value the enlightened community, and not the discoverer, must be the judge.*

When the undersigned, after a long series of laborious and costly experiments, became fully confirmed in his conviction that the Antiphlogistic Salt, which he now has the happiness to present to the American public, was an effectual substitute for blood-letting, leeches and blisters, his mind was so agitated that he could not sleep for many nights. The cause of his agitation was the striking fact, that the manner of its operation, like that of the virus in vaccination, could not be satisfactorily explained upon any known principle. How, *in what way*, it so perfectly subdues inflammatory diseases, and *no others*, was at first wholly inexplicable—but, on further experiment, it was proved that by its power over the veins, arteries and glands, *it equalizes the fluids of the body*, the want of equilibrium in which, is the sole cause of inflammation. Such is its potency, that like the vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system—but must be *instantly* used to prevent decomposition and secure its full virtue. Three quills in acute and two in chronic diseases every twenty-four hours, till the febrile action has suspended and a perfect cure effected. When it takes the place of leeches and blisters in local affections, as brain fever, croup, pleurisy, &c., its mode of administration is two-fold.—[*See directions for dissolving, &c.*]

The discoverer has withheld it from the public until now, by the advice of a judicious physician and valued friend whom he consulted—a gentleman known and felt in the medical world—and who desired to submit it to the test of experiment. After witnessing, under his own scrutinizing eye, its signal triumphs over both acute and chronic *inflammatory* diseases (no others) in repeated and re-repeated trials, he made a liberal offer to come in as special and equal partner in the recipe for its manufacture, but the proposal was rejected. Though uncouraged by the zeal and good will of his medical brother, he does not expect its ready acceptance either with the public or the profession; for a great error, long sanctioned by high authority is but partially removed. The disuse of the lancet and blisters, is demanded both by humanity and science. Is it not a mistake, to suppose that a kettle of boiling water (the inflamed blood) will cease to boil by dipping out a *part* of it—or cask of bad cider (impure blood) be made good, by drawing off a portion of it? Is it not an error to suppose that blisters and rebelacents will remove inflammation, when they virtually superadd one inflammation to another? The late Dr. B. Waterhouse, of Harvard University, said—"I am sick of *learned quackery.*" One of the most learned physicians in New England acknowledged just before his death, that "he had been doubting for many years whether blood-letting and blisters did not *aggravate*, rather than arrest disease." Some who stand high in the old and new school, have quite lately espoused his views and now openly confess they believe the lancet, setons, leeches and stimulating ointments injure ten where they benefit one. They think there is a meaning to Deut. 13, 23,—Gen. 9, 4—and Levit. 17, 14—that, "THE BLOOD IS THE LIFE." It is not the *excess* of blood (there never is too much) that causes disease, but the want of a balance between the fluids and solids.

The special excellence of the Antiphlogistic Salt, is that without useless loss of blood and strength, it effectually subdues inflammatory diseases, (no others,) by producing an equilibrium of all the fluids and a consequent uninterrupted circulation. It exerts, like the vaccine matter, an extraordinary influence over the veins, arteries and glands, resulting in a gradual decline of inflammation, as indicated by the pulse, which soon resumes its natural state, as the heat, pain and fever disappear.

Many medicines offered for sale, are accompanied by *doubtful certificates*, (their chief virtue,) and claim to be universal remedies curing all maladies—a burlesque on common sense. As the discoverer of this Salt solemnly protests against having it placed in the category of frauds and impositions, he has resolved that it shall go forth to the world, like the pure gold dollar, with no other *passport* than its own true value. If the public find it genuine, they will receive it—if spurious, they will reject and condemn it. It does just what it claims to do—no more, no less—*equalizes the fluids*, by removing from the system all arterial, venous and glandular obstructions. Instead of being a panacea for all ills, it has control over but one ill—has but one aim—accomplishes but one thing, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. It is asked, how it does this?—Simply by restoring the lost balance between the fluids and solids.

☞ To protect the community from imposition by *counterfeits*, the proprietor will employ no agent, and has made such arrangements that he can send the medicine in any quantity by Mail or Express, to any part of this or foreign countries. Prime cost, $1 50 per drachm—price $2 per drachm.]

The discoverer now humbly submits his Antiphlogistic Salt to the tribunal of an intelligent public—leaving the result with Him who overrules all things.

BOSTON, Feb., '57. } F. COGGSWELL, M. D., Discoverer and Proprietor.

☞ The drunken murderer Herbert, another drunken fellow, Wright, and a Mr. Walker, who seems to think it brave to be a clown and a churl,—all exhibited themselves in their true characters in the House of Representatives on Tuesday.

Lawrence's Carminative,

OR

CHILD'S PAIN-KILLER.

THIS Invaluable Preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been as successful as any other in the treating of

DISEASES OF CHILDREN,

and it has been used with never failing success. The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* child's medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "Dose of Physic."

The ingredients of which the *Carminative* is compounded are known to the Medical Faculty, and it is now extensively used, and approbated by the Physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve to Pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the *Carminative* so low as to be within the reach of all.

PRICE ONLY 25 CENTS,

and parents who value rest not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

RECOMMENDATIONS.

MR. W. F. LAWRENCE,—*Dear Sir;*—Having made trial of your *Carminative*, in several severe and very critical cases of Bowel Complaints, attended with Prolapsus, with entire success, and from a knowledge of its virtues, I cheerfully recommend it for the complaints for which it is designed, as the best medicine with which I am acquainted.—A medicine of this kind has long been needed, and I doubt not will be a favorite with all mothers and the Medical Faculty as soon as known.

NAPH'L BATCHELDER, M. D.

Epping, July 23, 1853.

MR. LAWRENCE:—*Dear Sir*—I have used your "Cherry Pectoral," and "Carminative" ever since they were first introduced by you, and am now purchasing them by the gallon. They have proved themselves successful in every case of trial, and I regard them as very valuable medicines.

Yours truly, JOSEPH DALTON, M. D.

Brentwood, Aug. 10, 1853.

Mr. W. F. LAWRENCE—Dear Sir: We find your Carminative to be a very valuable medicine for the diseases incident to infancy—a disease of complaints which often baffle the skill of experienced physicians.

Preston's Pain Destroyer.

PRICE 12, 20, 37, 50 cts. and $1.00 per Bottle.

This is what it professes to be—a destroyer of all pain, proceeding from whatever cause. For *Burns, Tooth-ache, Pain in the face and jaws, Rheumatism, &c.*, it acts like a charm. A teacher in one of our public schools, says he has used it in his family for three years, and has found it the most valuable family medicine he ever tried, and would never be without it; so says every one who has purchased it. Progression.

I WOULD respectfully inform my friends and the community generally that I am now prepared to make the new and desirable likeness on paper, called

Photographs,

as well as those on GLASS, known as

Ambrotypes,

and finished in the highest artistic styles.

Possessing one of the LARGEST-SIZED CAMERAS, and larger than any in use in this vicinity, expressly adapted to the purpose, together with other facilities, I can offer to work at such PRICES as cannot fail to be satisfactory.

A highly important feature in this connection, is the invaluable process of Enlarging a small-sized picture up to Cabinet or even the size of LIFE. This process also I have obtained, so that any one possessing a small picture of a lost friend, for instance, can have a beautiful large Photograph executed from it. A. GREGORY.

Hutchins' Hair Dye.

The very best now in use, as the many thousands that have tried it well testify.

THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sell at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

BRIDGE GONE AGAIN.—The temporary bridge built by the Concord Railroad over the Nashua, in the place of the one burnt last fall, has been swept away—to the surprise of nobody, we believe, who knows any thing about bridges. Mr. Stark, the manager of the Boston and Lowell Railroads, finding that the prospect of its being replaced in any reasonable time was rather dubious, on Thursday made a proposition to the Concord road to replace it in three days for three hundred dollars. That proposition has been rejected, and when it will be done is at present quite uncertain. In the meantime, the facilities for carrying passengers across the river are not of the most perfect kind—but it is done. The freight business is all carried over the Manchester & Lawrence road.—*Nashua Telegraph.*

Never in our reportorial career have we seen so much dissipation in the city as at the present time. In our tramps along the wharf about 9 o'clock last evening, we found watchman Grifin and Board busily engaged in carrying to the lock-up beastly intoxicated persons. Within the space of one square we counted four enjoying drunken sleeps upon the sidewalk. Fearful of seeing others in an equally depraved state, we beat a retreat.—*Louisville Democrat.*

AYER'S Cathartic Pills,

(SUGAR COATED,)

SEE WHAT TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURGH, PA., Feb. 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache my body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they effectually clear. I feel they will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PEARCE, *Chief of Bureau of Statistics.*

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C. 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we possess. Their prompt laxative action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom found a case of Bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO PALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills cured my wife of Dysentery. They have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody bowels. One of our neighbors had a bad sore on his leg, which would not heal with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and got much the worse for their pains. It cured him even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 20, 1853.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative, to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Former Governor of Massachusetts.

BOSTON, MASS., Feb. 4, 1854.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for two years, and her case was so severely afflicted with blotches and pimples on her face and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, Rector of St. Thomas' Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my foot, which became so severely painful with excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, I commenced taking your Pills. Their effects were soon felt, and, by persevering in the use of them I am now entirely well.

SENATE CHAMBER, BOSTON RECEIVING, LA., 5 Dec., 1855.

DR. AYER: I have no hesitation in ascribing my cure of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SKIDMELL

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful results attending its improper exhibition by incompetent persons. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues Throughout every town, and almost every hamlet of this American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects, and there yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL cures more hard cases of consumption it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable quinkes that, fastened on the vitals, only yield to death. All know the dreadful fatality of lung disorders, and as they know to the virtues of this remedy, we need not dwell more than to assure them it is still what it has been for years, the best remedy we can make for the cure of pulmonary complaints. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to see that the laws are strictly adhered to and everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as safe as if they were in person present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as the laws are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication shall reach hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money (or like sums is received with the order. Prizes are the prices of the whole or one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or passages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign Patents to determine the validity or utility of Patents or Inventions, and to give other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immesurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE USEFUL IN AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—Having been in practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity, and succcess. I regard Mr Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring the inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them the most ample and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the Present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most faithful and useful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

SUPPLY the best, finest and choicest teas, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Cocoas, Allspice, Pepper, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Saleratus, Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the articles they deal in, the public may rely upon their *pure and genuine* as they are put up carefully, and under our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we mention the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	5 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish their superiority.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. Put up in packages with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted in our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the genuine Article. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. Its use is recommended by many, as one of all its medicinal virtues retained. can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, equal to coffee, being strong, one ounce to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee*"

☞ *To Grocers and Dealers.*—A liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to make small profits at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock and our prices as compared with those of any other house.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent Dec 2d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactory."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials in the successful use of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Bristow, Bridge, Wm. Mason, and a host of others, and they all pronounced it the most beautiful toned reed instruments they have ever touched. Very resply. JAMES F. HALL."

We are not aware that the above mentioned Melodeons are in any respect superior, but we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	120
Five octave, double reed, " F to F	150
Six octave, double reed, " F to F	200
8 stops, ½ octave pedals, 4 sets of reeds	350

PROGRESS OF FREEDOM.

The New Orleans Delta is extremely disgusted with the Emancipation movement in Missouri. It declares that since the election of Mr. Buchanan, the Republican party has lost nothing of its power or influence. On the contrary, says the Delta, the party appears to win its way into the South, with rapid, though noiseless steps, and to be domesticated in the households of Southern as well as Northern men. The advocates of Southern self-defence are becoming silent; the "Apostles of Northern Aggression" are more active than ever.

The result of the election, murmurs the Delta, "has been the rapid growth of Black Republicanism, not only in the Northern States, but in our very midst. Abolitionism has crossed our borders and is squatting in all its hideousness at our hearths. It shows its teeth viciously enough in Virginia, and has commenced to howl, with all the fury of hydrophobia, in Missouri. Its power, even as a three-headed Cerberus, is undeniable. We always contended, even during the recent canvass, that the drainage of slaves from the border States would end in the loss of these States to the Southern Confederacy—that the true Southern party was not safe in Virginia, in Kentucky, in Missouri, perhaps not even in North Carolina, unless the undeniable deficiency of slave-labor was supplied. We could perceive no check or stay to this demoralizing drain, but in the direct importation of labor, in the renewal of the African slave trade, and the popularization of slavery, which would be its consequence. Where material interests cease to exist, a faith, a creed, a peculiar set of ideas must perish; and when a State has no longer any real pecuniary gain from slavery, it is very apt to become sentimental and Free Soil. The same truth underlies white slavery and black slavery. When a British landlord is weary of his tenantry and can get on without them, he exports them, or in the more refined language of humbug, he induces them to emigrate; when a slaveholder in the border States becomes united with New England projects and enterprises, in much the same spirit he goes in for Free Soil."

A foppish fellow advised a friend not to marry a poor girl, as he would find matrimony with poverty "up hill" work.—"Good," said his friend, "I would rather go up hill than down hill any time."

EXECUTION OF VERGER, THE MURDERER OF THE ARCHBISHOP OF PARIS.—[Paris correspondence of the N. Y. Commercial.]—The execution of Verger followed soon upon the rejection of his appeal. The appeal was decided on the evening of Thursday last, and the next morning at ten minutes to eight his head fell. The public learned in the same breath the rejection of the appeal for a new trial and his execution. Verger himself did not know till twenty minutes before his execution that his appeal, upon which he had so much counted, had been rejected, or that he was going to be executed. He was awakened from a sound sleep to learn this, to him, astounding intelligence. He would not believe it at first, and then as he became more fully awakened to the truth, he first tried persuasion to obtain more time, and when he found this fail, he flew into that terrible mental exaltation which had so often characterized his conduct since his imprisonment. He declared that he would not be executed; that they might tear him to pieces, but he would not go to the scaffold.

He denounced the Church and the clergy, and the heresies of which they were the propagators. They were obliged to tear him by force from his bed and carry him to the room for the final preparation for the scaffold. There, when he felt the cold steel of the scissors trimming the hair on the back of his neck, in order to facilitate the work of the axe, he was seized with a violent trembling, and from that time he offered no more resistance. He seemed all at once to be struck with the reality of his position, and a deep prostration ensued. He was, indeed, so changed, that he was no longer recognizable by his voice or his features.

He was led to the scaffold by the executioner and the chaplain of the prison. Arrived on the last step, he knelt and prayed a moment, and then embraced the chaplain, kissed the crucifix, was pushed forward on the board which serves to carry his head under the axe, and in a twinkling his head was severed from his body. The whole execution was fearfully rapid in its march. If expedition is humanity, then the guillotine of Paris is the most humane instrument of its kind in existence. From the time he issued from the door of the prison, at the distance of a hundred feet from the guillotine, until his mutilated body left the ground in a close carriage, was but one minute.

A little romance has been added to the wonted quiet, sober, every day life of Marblehead, by an elopement during the week past. The parties are a young lady and gentleman, of the advanced age of *sixteen* years. The old standing trouble, greatly in love, the parents proved refractory, so they put their wits together, as their stock in trade, and set up for themselves.

Men are sometimes accused of pride, merely because their accusers would be proud themselves if they were in their places.

Morning Chronicle.

FRIDAY, FEBRUARY 27, 1857.

HON. JAMES PIKE.

The N. H. Patriot of the 25th February, says:

A gentleman who is supposed to know the truth of what he states, writes us that we were misinformed both as to Elder Pike's voting for Cullom for Clerk, and his allusion to us in his speeches upon that point; and that we have done him injustice in our late remarks upon the subject. He says Mr. P. did not vote for Cullom, and that in denying the charge of having voted for a slaveholder, he used no such personally offensive language as was attributed to him. Such being the facts, our remarks were of course *unjust* and *uncalled* for, and if we had been thus informed they would not have been made. We had *supposed* that Mr. P. voted for Cullom, and have been *informed* that in his *speeches* he simply denied that he voted for a slaveholder, leaving the impression that Cullom was not a slaveholder. *If that was* the character of his denial, it was entirely disingenuous, to say the least, and would go far to justify our remarks. But we have no desire to do him injustice, and should not have referred to the matter in the terms we employed, had we not believed that he had used towards us such language as was imputed to him.

We have copied the whole piece from the Patriot, marking a few words in italics, for particular notice.

We heard Hon. Mr. Pike deliver his speech in this city last spring,—and are quite sure that his language in that speech was as courteous as any, and much more courteous than most political speeches to which we have listened.

He stated, distinctly, in that speech, what the precise ground was, on which Mr. Cullom stood, and why certain members voted for him—and then stated, in the plainest terms, that he did not, himself, vote for Mr. Cullom.

We are glad to see the Patriot backing out of its ground about Mr. Pike in the above article—and would recommend a similar backing out by that paper of the ground taken in relation to Uncle Toby in an article on "*Drawing it Mild*," some weeks ago. We showed up its errors, and called for a retraction, but none came. We were not disappointed; for we did not expect that paper to correct its errors.—But we are agreeably surprised by this correction and retraction in regard to Mr. Pike. It looks as if something had happened.

TERRIBLE FAMINE IN NORWAY—HUNDREDS DYING DAILY.—The English papers say that owing to the failure of their crops, the inhabitants of Lapland and Finmark, bordering on the North Cape of Norway, are in a state of dreadful misery. Hundreds are dying daily of starvation, and the living are compelled to subsist as they best can on the bark of trees ground and cooked with oats. In order to alleviate these sufferings, charitable committees have been organized on the opposite coasts of the Gulf of Bothnia, to collect contributions in kind, such as corn, flour, vegetables, and spirits, which will be conveyed to them across the ice in sledges. As an addition to the sufferings of these poor creatures, the cold is of a severity rarely experienced even in those ice bound countries.

☞ On Tuesday morning, about 7 o'clock, a fire broke out in the barn of Mr. Chas. Bartlett, Newburyport, which destroyed that building with the dwelling-house near by, occasioning a loss of some $1500. The fire is supposed to have originated from friction matches, which were accessible to rats. There was no insurance on the property; but as it was a severe loss to Mr. Bartlett, who was sick at the time and removed on his bed—immediate measures were taken to make up the loss. The Herald understands that the old Friends meeting house was presented him, and some $200 raised to render it comfortable as a dwelling.

MORE TERRIBLE THAN DEATH.—A New York paper says that an unfortunate man in that city, who was resolved upon suicide, was deterred from his purpose by the fear that Coroner Connelly would hold an inquest over his body. This wholesome "dread of something after death," restored the man to his senses.

☞ The Broadway Tabernacle (New York) has been sold by the congregation that has so long worshipped in it. The price it brought was $125,000. Stores, of course, will soon replace this famous structure.

☞ The last Lecture before the Newburyport Lyceum, for this season, will be next week, by William Lloyd Garrison.—Subject, the "Dead Past and Living Present."

CONGRESS.

The proceedings of Wednesday, 25th Feb., are quite interesting. In the Senate, the bill to admit Minnesota as a State was passed.

The Senate, by yeas 31, against nays 24, reconsidered the vote by which the amendment was adopted restricting the right of suffrage to citizens of the United States; and then struck out the amendment by a vote of 32 against 24, and passed the bill in the precise form in which it came from the House, by yeas 31 against nays 22.

The bill only waits the President's signature.

In the House, the Corruption Case, of Wm. A. Gilbert, consumed the day,—and a portion of the Corruption Committee, including witness Sweeney, appear somewhat more corrupt than the accused.

We have room for only a few extracts.

Mr. Bennett of New York said that certain parts of the testimony of the witnesses (Sweeney and Simonton) were not published with the evidence, such omissions having been made by discretion of the committee. The suppressed testimony is deemed material to Mr. Gilbert's defence.

Mr. Davis of Maryland remarked there was *no evidence* which had not been printed.

Mr. Bennett said he could *prove* that Mr. Sweeney was induced to swear to just as much as would convict Mr. Gilbert, and nothing more. Every *honest* man would rebel against such conduct.

Mr. Orr of South Carolina, said he had sent up to the printing office for the original document. This was subsequently compared in some parts with the printed volume, by which it appeared that among others, omissions were made to the following effect:—When Sweeney was cross-examined as to Gilbert, he said—I do not wish to launch out into a sea of this kind. I shall be liable to *break down* the testimony I have already given in another part. Sweeney says—It seems to me you have already evidence *enough* to convict him (Gilbert); and again the witness said to the committee—You should not lead me so far off as to make what I have said *improbable*.

Mr. Orr now said that the *change* in every respect was made at the instance of Mr. Sweeney, who wished to present his testimony fairly and properly before the House.

Mr. Stanton of Ohio inquired whether the committee had *consented* to this mode of trial.

Mr. Ritchie said that the form of trial was not discussed in the select Committee. As to Mr. Sweeney, when the clerk read to him his testimony, he stated that such parts as he desired to omit were mere loose conversations, in which he was trying to *beg off* from giving testimony.

Mr. Bennett remarked they have a right to Mr. Simonton's testimony, which would show that Mr. Sweeney swore *to order*.

Mr. Gilbert of New York requested Mr. Cadwallader to read further on in the report, which he did, reading the words "no agreement was made with Mr. Gilbert by Sweeney, Triplett, or any other person, nor was I to have any benefit from the passage of the book resolution."

Mr. Colfax said he was but slightly acquainted with Mr. Gilbert, and did not rise as his advocate, but to point out why (although he would certainly vote to expel a member for bribery) he could not vote for his expulsion, on the evidence submitted, even if it had not been impeached. He pointed out gross *contradictions* between Mr. Triplett and Mr. Sweeney. On the first day *neither* remembered Mr. Welch, in spite of the most searching questions, while three days after, *both* implicate him at the same session of the Committee, and Mr. Triplett remembered then dozens of conversations with him, and the next day further remembered that Mr. Welch solicited more pay, if they had it to distribute. Mr. Sweeney also twice testified that he had an individual contract with Mr. Triplett, but the Committee did not ask what it was. He (Colfax) then proceeded to show various flat contradictions.

Mr. Gilbert's defense was then read:—He assumed that the committee went beyond the power conferred by the resolution under which they were appointed. He says the only two witnesses against him are Mr. Sweeney and Mr. Triplett, who stand, by their own confession, in the position of acknowledged accomplices in each other's guilt, and that they seek to connect him with themselves in their offence, thereby to escape the consequences of their own admitted acts. The shallow efforts of the committee to strengthen their statements by their corroboration of each other would excite a smile, were it not done for the grave purpose of affixing a guilty stain on a member. Five witnesses, of high personal character, great intelligence and unquestioned integrity, swear that Mr. Sweeney's character is bad for truth and veracity, and that they would not believe him on oath, and the committee themselves are constrained to confess he is vindictive when provoked, and not over scrupulous in his measures of revenge. Mr. Triplett had no more than Mr. Sweeney's word, that any member of Congress was interested in the book resolution. Mr. Gilbert then repeats he never stipulated for any quantity of land or other pecuniary consideration for his vote for that or for any other measures. He submitted his case to the House, demanding an open trial by the House, where justice will be administered according to legal evidence, and in legal form.

The House, by a vote of 73 against 120, disagreed to the resolution of Mr. Bennett, of New York, that the report be recommitted, with instructions to print the omitted parts of the testimony, and all the particulars relative to the suggestions and responses from Mr. Sweeney and Mr. Simonton.

Mr. Edwards said that Mr. Simonton's testimony against him is printed in the report, while his against Simonton is omitted. Mr. Simonton's testimony is false.

☞ A Lancaster, Penn., correspondent of the Boston Courier, says,

Mr. Buchanan has been overwhelmed with visitors since his return from Washington, and has suffered much from the epidemic which seized him while in that city. He is now recovered, and looks in better health than at any time since the election.

Mr. Breckinridge was said to have been much admired by the fairer sex during the late campaign, on account of his personal attractions, as well as his extraordinary eloquence. Mrs. Breckinridge, who accompanies her husband, bids fair to be the belle of Washington for similar reasons. They will be the handsomest couple present at the inauguration.

What! handsomer than the president?

☞ The Small Bill humbug has been revived.—A petition to suppress bills less than $5, has been presented to the legislature of Massachusetts,—and of course they have to consider the proposition. But a greater piece of nonsense on a small scale, cannot be found, than the idea that Yankees are about to do without small bills. If Massachusetts will not furnish them, New Hampshire and Rhode Island will.

DIVORCE.—There appears to be quite a mania for divorce, in Pennsylvania this winter. An application was made a few days since to the Legislature, by a man who wanted to be divorced from his wife because she was an intolerable shrew, after having endured her persecutions for thirty years.

WOOD'S HAIR RESTORATIVE.

TO THE MILLIONS.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; the only article that has been completely successful in cheating age of his gray locks, removing dandruff, itching, scrofula, &c. It restores the gray head to more than the original beauty; adds new lustre to locks already lux-uriant; having the effect on coarse, harsh hair to render it glossy and watery; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then having this position left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age, don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes or the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield much larger sum to holders of Warrants, than if sold here. Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.

LOCAL.

A SURPRISE.

My Dear Chronicle:

Will you just have the goodness to chronicle a curious affair which came off last Wednesday evening, at the dwelling of the pastor of the Middle St. Church in this city. It was in this wise. He had been absent from home since Monday morning, and had rode more than a hundred miles since noon of Wednesday, reaching his house just as evening set in. He had been at home but a few minutes, before a couple of his parishioners called. He was just giving them an account of his journey, when the door bell rang and one or two other callers entered. But these were followed by still other groups, until he was indeed taken by *surprise*. Parlor, study, dining room, kitchen, hall, stairs and chambers, were crowded; and gradually he became conscious that that was happening unto him which he had read of, as happening unto his brethren in the ministry in some other places,—in one word, that it was a surprise party.

He was permitted to welcome to his dwelling, and introduce to his family, representatives of nearly every family in his parish. There were thought to be, at least, 250 present. Several hours were passed most delightfully, in free social conversation—when the interview was closed by an address from a member of the parish to the pastor and his family, which was briefly responded to. Prayer was offered, and Old Hundred sung—and then the company gradually dispersed.

But judge of the pastor's surprise on finding the generous gift of $107 in money, besides other elegant and valuable presents. That the abundant blessings of a kind Providence, and the far richer blessing of heavenly grace may ever rest upon all the homes and individuals of his parish, is the fervent wish and earnest prayer of their grateful pastor,

WILLIAM LAMSON.

☞ The Funeral of Maj. Waldron was attended on Thursday, at the Marine Barracks on the Navy Yard. A body of Marines, about forty in number, in full uniform, preceded the hearse,—and eight marines marched as pall bearers. Eight carriages followed, with the mourners; and in this manner the solemn pageant proceeded over the bridge, and through this city at noon, to the Proprietor's Burying Ground, where the remains were deposited.

☞ We perceive by the News-Letter, that Dr. Hayes, the companion of the lamented Kane in his Arctic voyage, is expected to lecture in Exeter within a week or two. The subject of the lecture is probably some account of his experiences in the late expedition. It would be, no doubt, very gratifying to our citizens to hear this gentleman, if he would consent to appear before them.

☞ Rev. Horatio Stebbins, of Portland, delivered the lecture before the Mercantile Library Association, on Thursday evening. Subject. Popularity. The audience was good, and the lecture well received.

☞ The examination of the High School for Girls, under the tuition of Mr. Nichols, takes place to-day. The limited room obliges the Committee to limit the audience. See advertisement.

SUPREME JUDICIAL COURT.

EXETER, Thursday, Feb. 26.

In case State *v.* Stevens—the jury rendered a verdict of acquittal as regards Hiram W. Stevens. The case against John F. and John M. Stevens is continued. Wood for defts.; Bell for State.

In No. 29, State *v.* Samuel Brewster, after the evidence had been put in, the Government withdrew the prosecution.

No. 25, State *v.* Richard Bailey, was next tried. B. was indicted for selling liquor at Salem, and was found guilty. The same person was arraigned on three other indictments for the same offence: from one he was discharged—in the second the jury brought in a verdict of guilty; and the third will be tried Friday morning.

No. 4, *v.* John H. Prescott, for keeping a gaming house, is now on trial. Bell for State; Marston for respondent.

INSTALLATION AT ACWORTH.—Rev. Amos Foster, late of Ludlow, Vt., was installed pastor of the Congregational church and society in Acworth, on Wednesday the 18th inst.

EXTRAORDINARY CASE.—A young woman in Otto county, N. Y., has recently had *three hundred and eighty three* needles extracted from her flesh, which she had swallowed, as she says, unconsciously; and survived the operation.

FROM KANSAS.—*St. Louis, Feb.* 26.—Late advices from Kansas state that a serious difficulty had arisen between Gov. Geary and Judge Stannard, owing to the refusal of the Governor to re-appoint the latter as Sheriff, as desired by the Legislature. Stannard had avowed his intention to kill the Governor, and, meeting him shortly afterward in the street, spat in his face. Geary did not resent this, but his friends got up an indignation meeting, which Sheriffs Jones, Stannard, and others attempted to break up.

A conflict ensued, in which Stannard shot a Mr. Shepard, one of Geary's friends, four times, killing him, and wounding four others. Mr. Jones, the Governor's Secretary, then shot Stannard, the ball passing through his head and killing him instantly. Very great excitement existed at Lecompton, and a general fight was anticipated. Gov. Geary's residence was guarded by U. S. troops.

WASHINGTON, Feb. 25.—Gen Pomeroy arrived here last evening, having left Kansas on the 18th inst., making a remarkably quick trip.

The Missouri river is entirely clear of ice, and boats are running with a good stage of water. Freights are low, being only fifty cents per hundred from St. Louis to Kansas, formerly $1 50 to $2. This reduction is partly owing to the fact that the business season is just commencing, and partly owing to the Border Ruffian demonstrations on the river during the past year.

Free State communication is not interrupted now. Gov. Geary and the pro-slavery Legislature are at loggerheads, his Excellency being more obnoxious to them than Gov. Reeder ever was. It is believed that he will veto their call for a Constitutional Convention.

☞ Samuel DeMeritt, of Genio, Rochester, N. H., was killed on the 16th inst., by the kick of a colt, which had became baulky in the deep snow, and drew the driver forward from the sleigh, upon his heels. His father died from an injury received last summer, in consequence of the fright of a horse while cultivating corn.

☞ The Prisoner's Friend for February, 1857, is just published by Charles Spear, editor, Boston. It is handsomely printed and done up; and contains the following interesting articles:

Imprisonment of Eminent Men; Statistics of Intemperance in New York; The Murders in the Massachusetts State Prison; 'Heaping Coals of Fire on his Head'; Time between Sentence and Execution; Moral Insanity; Letters for information; Preston S. Brooks; A Man under Sentence of Death in Massachusetts.

CRIME IN ESSEX COUNTY, if we might judge from the state of the prisons, is rapidly on the increase. In the two Houses of Correction, at Ipswich and Lawrence, are two hundred prisoners—110 in the former and 90 in the latter—and the number is increasing. There were never so many prisoners in the county before at one time. Nine of those in Ipswich are confined for violating the liquor law, and that number wil be increased by three or four that are coming from Salem to-day, and another batch may be added soon, since the court is now in session and the jurors find no trouble to agree on such cases. One of these men, sentenced for three months, is one of the wealthy citizens of Essex county, worth from thirty to forty thousand dollars, and would be willing to pay a heavy per centage of his estate to be let off. His counsel plead hard and long to avoid the result, but the Judge remarked that the law could know no distinctions.—*Newburyport Herald.*

Frederick Bauer, the Catholic schoolmaster at St. Mary's Church, arrested for killing Barbara Foreman, a scholar of his, was tried at Cleveland, Ohio, on Tuesday. The Jury came in after absence of a few minutes, with the verdict of "guilty of assault and battery!"

Providence, Feb. 24.—The State Convention met in this city this morning. The attendance was thin this morning, but full in the afternoon, when Neal Dow spoke. Hon. Amos C. Barstow presided. The old officers were generally re-elected.—Resolutions were passed approving the importance and practicability of enforcing the Maine Law, the general sentiment being that the fault of the non-enforcement of the law was owing to the officers, and not to the law itself.

God asks not "to what sect did he belong?"
But, "Did he do the right or love the wrong?"

Lawrence's Carminative,
OR
CHILD'S PAIN-KILLER.
THIS Invaluable Preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been as successful as any other in the treating of
DISEASES OF CHILDREN,
and it has been used with never failing success. The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* child's medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "Dose of Physic."
The ingredients of which the *Carminative* is compounded are known to the Medical Faculty, and it is now extensively used, and approbated by the Physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve Flatulency, give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the *Carminative* so low as to be within the reach of *all*.
PRICE ONLY 25 *CENTS*,
and parents who value rest not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.
RECOMMENDATIONS.
MR. W. F. LAWRENCE.—*Dear Sir;*—Having made trial of your *Carminative*, in several severe and very critical cases of Bowel Complaints, attended with Prolapsus, with entire success, and from a knowledge of its virtues, I cheerfully recommend it for the complaints for which it is designed, as the best medicine with which I am acquainted.—A medicine of this kind has long been needed, and I doubt not will be a favorite with all mothers and the Medical Faculty as soon as known.
NATH'L BATCHELDER, M. D.
Epping, July 23, 1853.
MR. LAWRENCE:—*Dear Sir*—I have used your "Cherry Pectoral," and "Carminative" ever since they were first introduced by you, and am now purchasing them by the gallon. They have proved themselves successful in every case of trial, and I regard them as very valuable medicines.
Yours truly, JOSEPH DALTON, M. D.
Brentwood, Aug. 10, 1853.
Mr. W. F. LAWRENCE—Dear Sir; We find your Carminative to be a very valuable medicine for the diseases incident to infancy,—a class of complaints which often baffle the skill of experienced physicians.

Hutchins' Hair Dye.
The very best now in use, as the many thousands that have tried it will testify.
THE great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

We call our readers to witness, that no amount of prudence, or care, or conciliation, will save a man from abuse, or help him forward with wickedness. Garrison and Phillips have squared their guns, and throw shot and shell right into the system of slavery; and above is all that they have got. Dr. Dewey has put the mildest kind of powder into his silver gun, and made a silken wadding to cover a dough-bullet. He aimed the dangerous instrument far above their heads, and with great delicacy has pulled the trigger. The South has replied with a good *round* discharge of shot that had no sham in them; and the good man is perfectly amazed at this way of doing things! When will men learn that manliness, fearlessness, and down-right, strait-forward action, is the safest, and in the end the most sure of PEACE?—*H. W. Beecher.*

DOCTORS ENOUGH.—In Philadelphia there are no less than nine medical schools, five of them being irregular. Fifteen hundred students are claimed by the nine collectively as being the attendance this winter.

AYER'S Cathartic Pills,

(SUGAR COATED,)

SEE MORE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach, Rheumatism, Dysentery, Dyspepsia, Costiveness, Piles, Dropsy, Liver Complaint, Erysipelas, Tumors, Salt Rheum, Neuralgia, Gout, Pleurisy, Worms, Fever and Ague, and Kindred Complaints.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they clear at once. They will cure others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Court, Cincinnati, Ohio.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic employed. Their purgating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ, which I have seldom failed to cure, when I have administered them in accordance with the directions of your circular. They are also a most valuable alterative, and I have seldom failed to find them produce a speedy and permanent cure, when other alteratives failed to do so. I shall not hesitate to recommend them to my friends.

Yours, J. P. HOLLAND, M. D.

WARSAW, WYOMING CO., N. Y., OCT. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN C. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a dreadful case of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After each child was cured, she would exhaust your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PLEASANT HOME, SAVANNAH, GA., JAN. 6, 1856.

MESSRS. AYER: I should be ungrateful if I withheld your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgia, which I could not shake off for years. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effect was slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 1 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease which had defied me for years. VINCENT SIDDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its improper exhibition. These contain no mercury or mineral substance whatever

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already famous. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of the victory over disease achieved by its generous diffusion of the throat and lungs. While it is the most powerful antidote yet known to man for the fearful double and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have so much confidence in it, we believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are yet colds—and the fact then until no human skill can master the inexorable conqueror that, fastened on the vitals, ends your life away. All know the dreadful fatality of lung disorders, and we they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the purest, perfect, most efficacious medicine we can produce. It is the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which E. FRENZ & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who venture at a distance are well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all prizes, have a legal value—and orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary (one combination. Prizes vary in amount from $50 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, opp. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made in the American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any United States Patent for remitting One Dollar. Assignments recorded at Washington.

This agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not equal to any agency in the Union, which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that his charges for his office, are lower, charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and the facilities afforded him by the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at this office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most scientific and practical practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmeg, Cinnamon, Mace, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c. &c.

☞ Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them pure and genuine, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	1.00
5 lb. Y. Hyson "	2.25	5 lb. Good "	1.00

☞ The Spices are put up in 1 and 3 lb. tin canisters, prepared for family use, and warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our Spanish Coffee, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Steam Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, it can be used with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is recommended by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for dyspepsia, and other diseases of the stomach.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enough to enable them to supply their customers at the same low rates.

☞ TO CASH PURCHASERS.—Our object being to make large sales at small profits, the inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our goods, and our prices as compared with those of any other house.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these Instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Sole Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States have from time to time been received. Thus far we have said but little, and our advertisements were solely confined to the references we could uniformly the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a more perfect Instrument it is. It has been played on by Walline, Root, Hodges, Wm. Mason, and a host of others, who all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we saw daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally good. Our Instruments are all finished in Rosewood Cases, and the workmanship of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

INAUGURATION BALL.—This splendid affair, which will come off on the fourth of March, (Wednesday evening next,) is creating a great deal of excitement in our city. This will be the ball of the season, and no pains have been spared on the part of the managers to contribute to the enjoyment and comfort of all who attend. The occasion is one which all patriotic citizens delight to commemorate, being the anniversary of one of the most important events in American history, and its return is always looked forward to with interest. Bond's Boston Band have been engaged and will discourse their elegant music, and the entire affair will be a credit to the occasion and to the managers. Those desirous of purchasing tickets should apply early to the managers, as the number of tickets is necessarily limited.—*Gazette.*

NEW SHIP YARD AT THE SOUTH END.—The new ship yard of Messrs. Daniel Marcy and Wm. Petigrew, at the foot of Pickering street is progressing rapidly, and will soon be in order for active operations. We congratulate the south-enders upon this favorable acquisition to their industrial resources. Under the liberal management of its enterprising owners, this yard will do much towards building up the section of the city in which it is located.

HOME INSURANCE COMPANY OF NEW YORK.—The statement of this Co. shows an extraordinary prosperity, and far outstrips that of any Company that we know of for the same length of time. So large an amount of surplus accumulated in so short a space of time, establishes the superior judgment and practical ability of the managers. As a "Home" office in every sense of the word we confess ourselves very proud of the condition of this Company.—*Insurance Monitor, N. Y.*

John S. Harvey & Son are the Portsmouth agents for this Company.

On Thursday, Feb. 12, there was an unprecedented collection of ice upon our sea coast. We learn from an eye-witness at Hampton, that for a distance of about two and a half miles from the shore, the ice so crowded in as entirely to prevent navigation for the boats. The collection extended along the coast for many miles. During that day the wind stood from northerly to north-easterly, and the thermometer ranged from 6 deg. below to 10 deg. above zero. The firmness of the ice allowed of persons walking upon it. So suddenly did the ice close in, that a Mr. Felch of Seabrook, who had shortly before gone out fishing without anticipating trouble, was so cut off from shore as to be obliged, after unsuccessful efforts to return to land, to push seaward to save himself, and after much trouble succeeded in getting clear of the ice. He then put out for the Shoals, where he remained for the night, and returned, by way of Portsmouth, to his anxious friends next morning.

"SORROWS COME NOT SINGLY."—Three week ago last Sabbath, there was an appointment at the Baptist Church in Greenwich, for a wedding. Guests were invited, and carriages engaged for the occasion. The lady who was most interested in the anticipated union was Miss Sarah A. Brown, of our village. The gentleman was Mr. Henry Waldron, of Brooklyn, N. Y. Mr. Waldron was a dealer in laces, and had just completed a new building, the lower story of which was his store, and the upper story was occupied by him as a tenement, for sleeping apartment. On the Monday night previous to the anticipated marriage, the building took fire and was destroyed, together with the stock of goods. Mr. Waldron, in order to save his life, leaped from the second floor, to the pavement, thereby receiving alarming injuries. A letter was immediately forwarded to Miss Brown that he was badly injured, and would not only be unable to meet his matrimonial engagement, but that she must haste to Brooklyn if she wished to see Mr. Waldron alive.

Miss Brown, on arriving at Brooklyn, found Mr. Waldron better, but yet feeble from the effects of his fall. He was improving, however, and continued to do so until Sunday, the 1st inst. when they were married, in Brooklyn. On the morning after the marriage, they were getting ready to visit some friends of his a few miles down the island, when they were informed that those friends had sickness in their family, and were not prepared to receive company. Upon this intelligence the visit was given up, and Mr. Waldron was in the act of laying off his overcoat, when a blood vessel broke, and in two hours he was a corpse. Mrs. Waldron, after the solemnities of the funeral, started for her home in Greenwich. She was accompanied to the boat by a friend, and while he was in the act of procuring for her a ticket, her satchel was stolen, containing valuable property, among which was a miniature of her deceased husband. Mrs. Waldron returned home, after being absent three weeks, sad and disconsolate—robbed of her property, and a window indeed.—*Wickford, (L. I.) Pendulum.*

Never, within the history of settled Wisconsin, was the havoc so great among the deer as the present winter. The snow is so deep, with a slight crust over it—that the hunter has only to don his snow shoes, and with an axe, overtake and slaughter the helpless animal that is unable to run with any degree of speed.

AN INTERESTING TRIO.—Three fine boys, all of one birth, were on Sunday last, baptised by Rev. Mr. Barnard, at the Warren street Chapel, Boston, under the honored names of Benjamin Franklin, Charles Sumner and Henry Wilson. The interesting ceremony was performed in the presence of a large number of persons, attracted by so unusual an occurrence.

A GREAT CARE.—The income of the Marquis of Westminster is £400,000 per annum: equal to $5000 per day, or over $3 for every minute of time, night and day, through the year. Every tick of the clock throws a half dime into his purse.

Mr. Peabody has donated $300,000 for the establishment of an institution in Baltimore to embrace a free library, a musical academy and picture gallery. The donation is to be increased to $500,000.

Flocks of wild geese are seen in various quarters working their way northward.

SATURDAY, FEBRUARY 28, 1857.

HUGH MILLER'S LAST LECTURE.—A meeting of the Christian Institute was held in Edinburg a few evenings since, to hear and read a lecture on the Noahchian Deluge, written by the late Hugh Miller. The lecture was read by the honorary secretary, Mr. Dunn. It was of a most interesting character, and went to prove that, although it was said in the Sacred Scriptures that the deluge covered over the whole, he was of the opinion that it was only over the populated globe. He attempted to confute the doctrines of Dr. Kitto and others, who were of opinion that it covered the whole earth. He also showed that his opinions were supported by an eminent bishop in the days of Charles II. The lecture was listened to by a large and influential body of ladies and gentlemen, with the most profound attention.

MRS. CAPTAIN PATTEN.—The Bostonian agrees with the Providence Journal that something more than $1000 should be given to the heroic woman, whose deed is hardly parallelled in the history of woman's constancy under trial, and devotion in difficulty and danger. A girl of twenty, with a sick husband, a part of the time delirious, took command of a ship, in spite of the authority of an incompetent and mutinous first officer; resisted the proposition to put into Valparaiso, which would have been to the great loss of the owners; and brought her safely into San Francisco. All the time she retained control over the seamen, navigated the ship herself, and administered, as doctor and nurse, to her husband. Surely the underwriters, who were saved so much by her conduct, are unwisely illiberal in limiting their recompense to so small a sum. Such an example should be encouraged with some greater reward; and the commercial community, all who are interested in the safety of navigation, and all who admire true heroism, ought to unite in some substantial manifestation of the value which they set upon such conduct.

☞ The Dubuque, Iowa, paper, called "The Northwest," says:—

The fine building, the Odd Fellows Hall, the best, decidedly, north of St. Louis or west of Chicago, is in ruins as we write, and with it is prostrated the fine post office fitted up at such cost by Judge Corkery. It is indeed an awful catastrophe, carrying with it the lives of two estimable citizens of advanced ages and of wealth and worth, in the persons of Captain S. C. Foss and wife. This couple lived in respectable retirement, in a little cottage near the Post Office, and were little apprehensive that their race of life was to be thus ended, without the least warning to them. The Odd Fellows' building fell, and its fall crushed them (Mr. and Mrs. Foss) and their little cottage to the earth. They were taken from the ruins and placed in the basement of the Methodist Church, on the corner of Seventh and Locust streets.

Capt. Foss was an experienced seaman, having crossed the Atlantic eighteen times. He was a privateersman in the last war with Great Britian, and was one of the Dartmoor prisoners. Last night he lay on a cold bench alongside his wife, each unconscious of the other's presence. They presented a sad spectacle, lying together, with their eyes open, life extinct, and yet warm in the embrace of death.

BRUTALITY AT SEA.—The deposition of Thomas Campbell, a sailor, has been taken at Brooklyn, where he is lying dangerously ill from brutal and inhuman treatment on board of the Liverpool packet ship Ellen Austin, Capt. Garrick, on her outward trip in November last.—Campbell says that for a trifling offense he was called into the cabin, where he was knocked down by the captain with a heavy wire rope, the mate throwing a shawl over his head to prevent his making any outcries. Not satisfied with this brutality the captain set on him two large and ferocious dogs, who tore and mutilated his legs. Campbell was one of the number on board the Three Bells, and assisted in rescuing the soldiers from the wreck of the San Francisco, for which he received a medal from the merchants of New York.

DEATH OF REV. DR. SMITH.—The death of the eminent Rev. Eli Smith, D. D., one of the most noted missionaries of the American Board, is reported. The deceased was widely known by his Arabic translations. He has long been in Asia Minor, in the service of the Board of Missions. Dr. Smith had been married three times. His first wife was the well known Mrs. Lanman, formerly Miss Huntington, of Norwich, Ct.; his second, the daughter of Judge Chapin of Rochester, and the third, Miss Butler of Northampton, Mass., who survives him.

WASHINGTON, Feb. 26.—Rumors of a duel are current between Messrs. Sherman and Wright.

HEAVY DAMAGES.—The Cincinnati Commercial records a case which recently occurred in that city, where the defendant was ordered to pay $150 per year for fifteen years for the support of a child unlawfully left at his door. A similar case occurred about twelve years ago, and created much excitement in the aforesaid place.—The defendant had been engaged to marry the plaintiff, but bad, instead thereof, married another, when, after a time, the lady so neglected brought a suit for damages, with the celebrated Henry Loughborough as her attorney. At the trial much amusing testimony was elicited, and numerous pieces of Prentice's love poetry read, which defendant had sent to plaintiff as his own. The principal evidence in favor of the plaintiff was numerous Sunday walks, proved to have been taken by the parties together. The jury returned a verdict of $6000 damages, when the defendant, without leaving his seat, wrote a check as follows:

Bank of ——, pay Miss —— or bearer, six thousand dollars, for a Sunday Walk.
—— HAYS.

The check was paid!

The body of the late Preston S. Brooks was buried at Edgefield, S. C., on the 14th.—It was attended to the grave by an immense concourse of people, with a military *cortege*, attended by music, &c., &c. The face was exhibited to the view of the people, and was still perfectly natural and undecayed. The Edgefield Advertiser says, that "thousands came to look for a moment upon the strong man stricken down by the hand of death in the mid career of his earthly exertions. Not the least affecting part of this scene was the number of servants who came crowding in, by permission, to see the dead once more before it went down into the grave; among them, a weeping old woman, who had nursed the deceased in his childhood."

☞ The Annapolis Gazette states that the number of oysters taken from that city during this winter is immense. The boatmen have counted up their gains, and show a handsome pile. Some of them have made as much as $10 per day, and but few have made as little as $5 to $6 per day.

☞ In New York, the other night, a highwayman got hold of the wrong customer, when he stopped Chief-of-Police Matsell in the Park and inquired the hour. The Chief knocked him down and belabored him till he cried for mercy. The rogue recognized the officer and apologized for the mistake he had made.

☞ Dr. H. W. Briggs, a resident of Atlanta, Logan county, Ill., was killed by lightning a few days ago, while on a professional visit to the neighboring town of Armington, Tazewell county. Dr. Briggs was a native of Massachusetts, and had been a resident of Atlanta since the town was laid out, three years ago. That such a thing should have occurred in mid-winter, is one of the anomalies of the season.

☞ The Steam Mill in Dover belonging to John Trickey, Esq., was sold at Auction last week, to a company, for $9500. The sale was continued, consisting of Logs, Lumber, Land, Buildings, &c., the whole amounting to about twenty thousand dollars.

Stephen Wright, a native of Littleton, Mass., who enlisted in the Revolutionary war at the age of sixteen years, died on the 16th, at the residence of his daughter, Mrs. Kellogg, in Shelburne, Mass., aged 95 years.

☞ The mortal remains of Doctor Kane, have been received with signal honors in New Orleans;—and his death is noticed by public bodies all over the country.

☞ Esther Cody, a niece of Rev. Jonathan Edwards, died at Rockville, Conn., on the 28th ult., aged 100 years.

WOOD'S HAIR RESTORATIVE.

TO THE MILLION.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; the only article that has been completely successful in cheating age of his gray locks, removing dandruff, itching, scrofula, &c. It restores the gray head to more than the original beauty; adds new lustre to locks already luxuriant; having the effect on coarse, harsh hair to render it glossy and watery; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then, having this portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age, don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

MANCHESTER.

One thousand women in Manchester, N. H., have lately signed the following petition:

To the Honorable Mayor, Board of Aldermen and Common Council of the City of Manchester:

We, the Ladies of Manchester, would humbly call the attention of your honorable body to the sad and fearful effects of the sale of intoxicating liquors in our city. And we would most respectfully represent that there is an unusually large and increasing number of shops, saloons, and places where intoxicating liquors are sold, contrary to the statutes of the State. In consequence of this illegal traffic, intemperance has increased upon us to an alarming extent, and all its attendant evils follow in its train.

A recent examination of the condition of the poor of this city, has disclosed the fearful fact, that more than three-fourths of the poverty existing among us, is caused, either directly or indirectly, by the use of intoxicating drinks. And, indeed, we feel that none of us are safe, while our fathers, brothers, husbands and sons are exposed to its ravages. In their fall, we fall also. We would, therefore, most respectfully, but earnestly pray your honorable body to take such measures as your wisdom may dictate, to suppress the illegal traffic of intoxicating liquors in our city.

☞ Rowland Hill rode a great deal and by exercise preserved vigorous health. On one occasion, when asked by a medical friend what physician and apothecary he employed, to be always well, he replied:—"My physician has always been a *horse*, and my apothecary an *ass*."

☞ The dead body of Mrs. Machael, who had died from destitution, was found in a hovel in Albany on Wednesday.—When discovered an infant was trying to draw sustenance from its mother's breast, and two children were sleeping on the floor.

STEAMBOAT COLLISION.—Steamers Humboldt and Belfast came in collision on the Mississippi river, on Friday. The Humboldt sank, and 20 of her crew, mostly negroes, were lost. She was a total loss. The Belfast was uninjured.

There are 144 colleges in the United States. The oldest are Harvard and William & Mary. In addition to these there are 45 theological seminaries. Texas has prospectively the largest educational fund of any State in the Union.

☞ An act was passed by the present Congress, and approved by the President on the 17th inst., appropriating $550,000 in all for the construction of a wagon road across the continent.

JUSTICE.—In the New York Court of Sessions on Saturday morning, the Recorder discharged John Hartley, who plead guilty to manslaughter in the fourth degree for killing Patrick Greely, whom he found in bed with his wife. The Court might have sentenced him to two years' imprisonment.

If there is any conceivable justification for taking life, it is just that which Hartley could in this case plead.—*Boston Bee.*

LOCAL.

INTERESTING EXHIBITION.—The display of Glass Working, &c., at the Temple, by the Brothers Woodroffe, is entertaining, instructive and amusing in the highest degree.

These skilful workers exhibited wonderful dexterity and ingenuity in forming a great variety of articles with this brittle substance—ships, birds, animals, globes, goblets, writing pens, and an endless variety of others. These articles they make in the presence of visitors, so that the looker can see the whole operation of Glass Blowing, Spinning, and Working, and judge of the skill necessary to practise this highly interesting and important art. After three years of constant experimenting, and numberless failures, these Brothers have completed a *Steam Engine entirely of Glass*, which has been pronounced one of the most interesting productions of skill in the world. Every part of it being perfectly transparent, you can see the whole operation of working machinery by steam, from the beginning to the end. It looks almost like enchantment to witness the water boiling in a glass vessel, and the whole machinery moving with such precision, and reflect that the whole is made of nothing but glass.

Everybody should visit the Glass Workers.

☞ Hon. Richard Jennes having declined a re-election as Mayor of this city, the General Democratic Nominating Committee unanimously nominated Robert Morrison, Esq. as his successor in that office. The Gazette learns that he accepts the nomination.

☞ The Examination of the High School for Girls, taught by Mr. Nichols, took place on Friday, and was attended by a select audience, as numerous as could be accommodated in the building. The examination was highly satisfactory, — and the spectacle of so large and fine a school, in a room so convenient and tasteful, was most agreeable to the numerous spectators.

SUPREME JUDICIAL COURT.

EXETER, Friday, Feb. 27.

In case State vs. Richard Bailey, the jury rendered a verdict of not guilty.

John H. Prescott, of Epping, was also acquitted from the charge of keeping a gaming house.

No. 31, State vs. Richard B. Marsh, is now on trial—an indictment for fraudulent mortgage.—Bell for State; Towle for Deft.

The Grand Jury finished their business this morning and were discharged—eleven indictments were for liquor selling and fifteen for other offences.

CAUTION.—We learn that a lady residing in this city, was badly poisoned, a few days since, by eating a few spoonful of preserved whortleberries, which had been put up in a tin case. The liquid from the berries had formed verdigris on the surface of the metal. For several hours the lady above mentioned remained in nearly an insensible condition, and was with difficulty brought to. This article was procured for the purpose of making pies. All preserves of this description should be put up and kept in glass.—*New Bedford Mercury.*

Verdigris? made from a tin pot? Nonsense. Verdigris comes only from copper. Acid whortleberries in a tin pot might produce iron rust, which isn't dangerous. The old spoiled preserves themselves sickened the woman.

THE BRICK CHURCH TITLE REJECTED.—A special dispatch from Washington states that the Attorney-General, on Monday, transmitted to the Secretary of the Treasury an opinion against the Brick Church title, and that the government will reject that site for a post-office at New York. The location is a good one, but the objection to the title is fatal.

SUICIDE OF A CONFESSED MURDERER.—A son of Abel Crawford, the pioneer settler at the White Mountain Notch, committed suicide lately at Newark, Vt. He was a man of irregular habits. Among his papers was a statement from him that he killed a traveller in the White Hills, and concealed the body in the woods.

FOUND DEAD.—Mr. John Hurd, 81 years of age, a well known citizen of Tuftonboro', N. H., was found dead, one day last week, in his own house, where he had lived alone several months. He had not been seen for several days, and one of his neighbors going in to learn the cause, found his frozen corpse in bed.

We learn that the Young Men's Temperance Society, Newburyport, is in a prosperous and flourishing condition, numbering some one hundred members—chiefly Irish. On Tuesday evening last, the Hall was filled by a respectable and intelligent audience, which was addressed in an able manner by several members of the society. This society has done much good since its commencement. May it prosper.—*Newburyport Herald.*

CONGRESS.

THURSDAY, Feb. 56.

In the Senate, the Committee on Commerce was discharged from the consideration of the memorial of the Boston, Concord and Montreal Railroad, for a grant of public lands to enable them to pay their debts.

Mr. Trumbull presented a memorial from a portion of the Legislature of Indiana, for a decision of the claim of Mr. Fitch to a seat in the Senate. Mr. Toombs, in reply, read a report, accompanied by a resolution, providing for the taking of testimony in the case. The report was ordered to be printed; the resolution lies over.

Mr. Wilson presented a bill appropriating $100,000 to build a court-house in Boston.

Mr. Rusk offered a bill to expedite the construction of a telegraph to California, which was passed, 36 to 14. The House tariff bill was taken up. It was amended by inserting linseed in the free list, and taking out zinc. Another amendment was offered, proposing to reduce schedules A. and B. (including liquors, wines, spices, snuff and segars,) to 30 per cent., and take 20 per cent. from the rates of the other schedules. This amendment was discussed in an evening session, which at the time our report closed, seemed likely to continue through the night.

Mr. Sumner was in his seat about half an hour, and was cordially greeted by his friends.

HOUSE.—On motion of Mr. Campbell of Ohio, the Committee of the Whole on the State of the Union was discharged from the consideration of the five general appropriation bills, in order that they might be put on their passage.

The House, under the operation of the previous question, passed the miscellaneous, the army, the navy, the fortification, and the ocean mail steamer appropriation bills.

The House then acted on the Senate's fifty amendments to the Indian appropriation bill, and tabled, by 5 majority, the bill to invest $8,000,000 held in trust for the Indians, in safe state stocks.

The Speaker announced that the next business would be the consideration of the report in Mr. Gilbert's case, whereupon, on motion of Mr. Orr, the House adjourned.

☞ The Senate of the U.S. protracted the session of Thursday, Feb. 26, into the night, until half past 1 o'clock Friday morning. Mr. Adams's substitute for the House Tariff Bill was reconsidered, and then rejected by a tie vote. Mr. Hunter offered his substitute, reducing the rates of the present tariff twenty per cent. An amendment was adopted, placing raw wool at 23 per cent, and that of twenty cents a pound or less, free.

Hunter's substitute was then adopted by 33 against 12.

The House bill, thus amended, passed at half past 1 o'clock A. M., and the Senate adjourned.

THE KANSAS AFFRAY.—*St. Louis, Feb. 26.*—Mr. Sherrod, or Sherrard, is the man who was appointed to fill the vacancy occasioned by Sheriff Jones' resigning, and to whom Gov. Geary refused to grant a commission, on the ground of his habitual drunkenness.

The Westport correspondent of the Republican says that Sherrod did not spit in the Governor's face, but called him a liar, coward and scoundrel. The remainder of the report is not yet corroborated, nor is it contradicted. We look for letters from Lecompton to-night.

VILLAINOUS ATTEMPT TO DESTROY LIFE ON THE WESTERN RAILROAD.—Two men wearing the uniform of the U. S. army, named John Hardy and Warren Williams, have been arrested on suspicion of being the parties who placed obstructions on the track of the Western Railroad, on Monday night last. An examination was had yesterday at Worcester, and the accused were committed for trial at the next term of the Worcester County Court of Common Pleas.

As the New York express train from Boston had got about a mile and a half this side of Charlton, the engine struck an iron rail placed across the track, carried it some hundred feet, doubled it like a hoop, and threw it one side, without damage to the train. There was an embankment ninety feet high on the road where the rail was placed, and it was a most remarkable escape from a great destruction of life.—*Herald.*

☞ One of the two men arrested on Tuesday for placing obstructions on the track of the Western Railroad on Monday night last, by which the express passenger train from New York for Boston had a narrow escape from destruction, has confessed his guilt in the matter, stating that it was done out of revenge for having been put out of the train.

THE STATE HOUSE.—*Montpelier, Feb. 26.* On an informal ballot taken in the House this afternoon, to indicate the preferences of location for the state house, the vote stood as follows:—Montpelier 116; Burlington 67; Rutland 34: scattering 10.—This is regarded as virtually settling the whole question in favor of rebuilding in Montpelier.

The Vermont House of Representatives, on Friday, passed the bill to locate the Capitol at Montpelier, by a vote of 139 to 80.

THE DEATH PENALTY.—*Providence, Feb. 26.*—The House of Representatives voted to-day, by the casting vote of the Speaker, to restore capital punishment for murder.

Lawrence's Carminative,
OR
CHILD'S PAIN-KILLER.

THIS Invaluable Preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been as successful as any other in the treating of
DISEASES OF CHILDREN,
and it has been used with never failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* child's medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "Dose of Physic."

The ingredients of which the *Carminative* is compounded are known to the Medical Faculty, and it is now extensively used, and approbated by the Physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels which often afflict young children; correct debilitated and sour Stomachs, relieve Pain and give tone, energy and strength to the whole system.

Due regards has been taken to have the price of the *Carminative* so low as to be within the reach of all.

PRICE ONLY 25 CENTS,
and parents who value rest not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

RECOMMENDATIONS.

MR. W. F. LAWRENCE,—*Dear Sir;*—Having made trial of your *Carminative*, in several severe and very critical cases of Bowel Complaints, attended with Prolapsus, with entire success, and from a knowledge of its virtues, I cheerfully recommend it for the complaints for which it is designed, as the best medicine with which I am acquainted.—A medicine of this kind has long been needed, and I doubt not will be a favorite with all mothers and the Medical Faculty as soon as known.
NATH'L BATCHELDER, M. D.
Epping, July 23, 1853.

MR. LAWRENCE:—*Dear Sir*—I have used your "Cherry Pectoral," and "Carminative" ever since they were first introduced by you, and am now purchasing them by the *gallon*. They have proved themselves successful in every case of trial, and I regard them as very valuable medicines.
Yours truly, JOSEPH DALTON, M. D.
Brentwood, Aug. 10, 1853.

MR. W. F. LAWRENCE—Dear Sir: We find your Carminative to be a very valuable medicine for the diseases incident to infancy,—a class of complaints which often baffle the skill of experienced physicians.

For the West.
BENJAMIN NORTON

HAVING spent most of the past year in Winona, Minnesota, and become acquainted with business matters there, will give his attention, the coming season, to the location of Land Warrants, buying and selling Land, paying Taxes on the same, &c. Those holding Warrants would do well to have them located, as the land can be readily sold for cash, and will yield a much larger sum to holders of Warrants, than if sold here. Or Warrants will be taken to Minnesota and sold for Cash—the cash price being much larger there than here—and prompt remittance made, at a small expense.
Also, for sale 440 acres of fine Timber Land.

Morning Chronicle.

HAMPDEN CO. MASS.—At a late meeting at Chicopee, of friends of temperance in Hampden County,—after a brief discussion in the meeting, as to what course to pursue, they reported in favor of the formation of a new county society, on the basis of the following resolutions:

Resolved, That it is with unfeigned gratitude we recognize the hand of Almighty God in the great improvement which has been wrought in the drinking usages of society throughout our beloved Commonwealth during the past third of a century, and in the tone of legislation with regard to the traffic in alcoholic drinks.

Resolved, That notwithstanding the success of the past, the evil of intemperance still wears a threatening and alarming aspect in several of our large cities and towns, as manifested by the increasing number of young men who are becoming inebriates.

Resolved, That the prohibitory law at present on our statute books has been thus far sustained by our Courts; that it it is believed to be entirely constitutional; and that it is as well executed outside of some of our large cities and towns, as are criminal laws in general.

Resolved, That in placing known liquor sellers on a jury before whom liquor sellers are to be arraigned, our municipal authorities are as truly guilty of a breach of fidelity as they would be if they should place counterfeiters, or any criminals, on a jury before whom such criminals are to be arraigned.

The resolutions were adopted, society formed, and officers chosen.

☞ To purchase a pair of boots for one's wife is anything but poetical, but to see how daintily it can be done, and how poetically it can be told—when it was the *first part*, read the second volume of Coventry Patmore's "Angel in the House—the Espousals".

I, while the shop-girl fitted on
The sand shoes, looked where, down the bay,
The sea glowed with a shrouded sun.
"I'm ready Felix: will you pay?"
This was my first exposure for *this*
Sweet stranger whom I called my wife:
How light the touches are that kiss
The music from the chords of life.

WINE.

So Noah, when he anchored safe on
The mountain's top, his lofty haven,
And all the passengers he bore
Were on the new world set ashore—
He made it his first chief design
To plant and propagate a vine;
Which since has overwhelmed and drowned
Far greater numbers on dry ground,
Of wretched mortals one by one,
Than all before the flood had done.

—*Portland Temp. Journal.*

☞ A stingy husband threw off the blame of lawlessness of his children in company, by saying his wife always "gives them their own way." "Poor things!" was the prompt response, "it's all I have to give them."

In the course of a modern rhymester's "Reasons for Risibility," we read:

I've seen a bishop dance a reel,
And a sinner fast and pray,
A knave at the top of fortune's wheel,
And a good man cast away.
Wine I have seen your grave ones quaff,
Might set us all afloat;
But I never heard a *hearty* laugh
From out a villain's throat.

LIQUOR PROSECUTIONS.—The Lowell City Marshal and his Deputy are walking into the liquor sellers. On Saturday afternoon Anson Lamere was convicted in the Police Court of being a common seller, and ordered to the Court of Common Pleas. Mary Fitzgerald was convicted of keeping and maintaining a house (considered as a common nuisance) where intoxicating liquor was sold; was also ordered up. This morning Amariah Danforth and Joseph P. Woodbury were convicted of being common sellers. Ordered up.—*Lowell News.*

MONDAY, MARCH 2, 1857.

KANSAS TROUBLES.

We learn from Lecompton, under date of Feb. 19, that an affray took place there on the previous night, in which Sheriff Sherrod was killed, and three others wounded. A meeting of Geary's friends was held at the capitol, to sustain his course, and express disapprobation of the recent outrage to him. Sherrod and his friends came armed to break it up. When the resolutions were read, Sherrod declared that any one voting for them, was a liar and a coward. The excitement grew intense. Sherrod drew his pistol, and fired, wounding a man named Shepard. Miscellaneous shooting then began, and was continued for some time. Mr. Sherrod was shot through the head by a young man, named Jones, who came in with the Governor. Shepard has two wounds in his thigh, and a wound on his head; two others are slightly wounded. The Sherrod man, seeing they would be overpowered, offered no violence after Sherrod fell. Young Jones was arrested by a bogus sheriff, and after the meeting was thus broken up, Gov. Geary called out the troops to prevent his being lynched. The Governor has also organized a company to defend himself, but disbended it at dusk last night. More violence is apprehended, as great excitement prevails. The Legislature has passed a territorial election law based on the census, which provides for the Constitutional Convention. Only those who may be in the territory in April, and whose names shall be registered, are to vote at the next October election. The Governor has sent in no more vetoes.

Another account says:—Sherrod who was a candidate for Sheriff of Douglas County, of Kansas, and who failed to receive the appointment, induced the bogus assemblage of the territory to pass a resolution instructing Gov. Geary to appoint him. Through the activity of Gov. Geary's private Secretary the passage of the bill was prevented by one majority in the Senate. This enraged Sherrod, who sought the private Secretary, and knocked him down. The Secretary, being physically weak, evidently could make no resentment. A few days afterwards, Sherrod met Gov. Geary in the Senate Chamber, and called him a "d—d scoundrel." The latter made no reply, and Sherrod spit in his face, which indignity the Governor did not resent, inasmuch as such action on his part, would have cost his life on the spot. Anticipating the insult, he met it as became his station. The result is that an indignation meeting of the settlers had been called to take measures to arrest and punish Sherrod, who will undoubtedly be sustained by the bogus Legislature, against the Governor. It is feared by the leading Kansas men, now in Washington, that this affair will revive the hostile feelings between the free state and pro-slavery men in the territory.

CONGRESS.—The Senate, Friday, passed twenty-five private bills, including one permitting Commander Harstein and others to accept tokens of acknowledgment of humane service from the British government. The Post Office Appropriation bill was discussed. In evening session, a bill providing for a mail from Mississippi to San Francisco, was passed.

The Senate, at 1 1-2 o'clock, Friday morning, passed the House tariff bill, essentially amended. A committee of conference with the House must now be chosen.

The House resumed the consideration of the resolution to expel Mr. Wm. A. Gilbert of New York, accused of receiving bribes. Mr. Gilbert spoke in his own defence, protesting in his innocence, maintaining that he had been convicted on *ex parte* testimony, and that he could vindicate himself if a trial had been accorded. He ended by resigning his seat. The resolutions for his expulsion were therefore tabled.

The case of Mr. Welch of Conn., was next considered, but evidence as to his good character and innocence was given, and a resolution absolving him was passed, 119 to 42.

SATURDAY, 28th.

The House took up the report of the Select Committee on the case of Mr. Edwards, who, after addressing the House, resigned. The Simonton expulsion resolution was then called up.

☞ An Act to incorporate the New York Veterinary College, has passed the Senate of that State, and will doubtless pass the House—at any rate it ought to. There is no establishment of the kind in the country; and domestic animals are doctored almost entirely on the "hit or miss" principle, instead of by science.

ARRAIGNMENT OF MCGEE AND CATER, THE MURDERERS.—In the Supreme Court at Boston, James McGee and Charles L. Cater, the Charlestown Prison murderers, were placed at the dock, and separately arraigned. McGee was arraigned for the wilful murder of the Deputy Warden of the State Prison—Galen C. Walker—and plead "not guilty." The Court, Judge Merrick, asked McGee if he had any counsel, to which he replied—"No! I don't wish for any."

Cater was then arraigned for the murder of the Warden of the State Prison—Solon H. Tenney—and plead "not guilty." In reply to the inquiry if he had any counsel, Cater said, "I have got none; *I intend to plead my own case.*"

The Court informed the two criminals that in due time counsel would be appointed to defend them at their trial.

The Boston Journal of the 24th says that when Cater was brought before the Municipal Court a few days since, and notified that an indictment had been returned against him, he expressed much surprise that no more persons were present to see him; and after his return to jail he said there would be more people to see him arraigned, unless the press was muzzled.—Very few persons were present at his arraignment. It is understood that their trial will not take place before June next.

☞ The Augusta Age states that Rev. J. S. Kalloch is not a native of that city, but was born in Rockland, Me., or vicinity.

The Belfast Journal says:—"It is stated that Mrs. Gardner, who is supposed to have poisoned her husband at Hingham, is a native of Islesboro', Me., and formerly worked in a tailoring establishment at this place."

☞ Prof. B. F. Baker's paper, the Boston Musical Journal, has been discontinued, and the list merged in that of "Dwight's Journal of Music," to the columns of which Prof. Baker is to contribute. He writes well, but is not so good an editor as teacher. He was not "brought up to the business" of editing; and has too much other work to do, in which he feels more interest. The readers will not lose by the change; as Mr. Dwight is to copy somewhat the practical features of Prof. Baker's Journal, for their benefit.

WELL DONE.—A lady in attempting to cross Washington street, Boston, on Monday, saved herself from severe injuries by her remarkable presence of mind. Just as the horses attached to a hack came upon her, and when it seemed to those who were looking on that she must be trampled upon, she seized the neck of one of the animals, and held on until the driver stopped his horses. Her clothes were very badly torn. She was not seriously injured. We doubt whether many men would have done so well under the circumstances.

AN EAGLE KILLED BY A LADY.—On Sunday, the 8th instant, Mrs. Mary Taylor, of Hampshire county, Virginia, killed, by a blow of a club, an eagle which measured six feet or a little more between the points of the wings when expanded. The eagle had attacked the geese; the gander, which was its intended prey, resisted the attack and fought the enemy bravely, till Mrs. T. came to the rescue; the eagle then prepared for battle with her, whereupon she struck him a blow with the club that rendered the bird unable to escape by flight.

RESIGNATION OF GOVERNOR HAMLIN.—Hon. Hannibal Hamlin has resigned the office of Governor of Maine, and the Hon. Joseph H. Williams of Augusta assumes the duties of the office. Previous to leaving Augusta, Gov. Hamlin gave a farewell levee to the members of the Maine legislature, officers of the state government, and others. He is now on a brief visit to Bangor, and will in a day or two start for Washington to resume his senatorial duties.

DAM CARRIED AWAY.—An important dam over Ashuelot river at Hinsdale, N.H., was swept away by the flood of water on Tuesday afternoon. "Its "apron" was carried off by the ice last week, which gave an easy victory over the entire structure.—About one hundred persons employed by the concerns dependent upon this dam for power, are thrown out of work, the mills having stopped.

☞ Rev. Enos George of Barnstead, acknowledges a New Year's Visit from his people, with a present of $50 in money, and $20 in substantials for family use.—Mr. George has been pastor there 54 years.

ANOTHER REVOLUTIONARY PENSIONER GONE.—Died, in Pomfret, Vt., the 16th inst., Abial Morse, aged ninety-six years and nine months. He was found dead in his bed in the morning.

SUDDEN DEATH.—Mr. Samuel Nason, of Eliot, Me., aged about 72 years, died very suddenly on Friday night last. He went to bed in his usual good health, Friday evening; and in the night woke his wife, and said he felt as though he was dying. She went to procure assistance in another part of the house, and when she returned Mr. Nason was dead.

☞ Harper's New Monthly Magazine for March, 1856, is received by A. Williams & Co. Boston, and J. H. Foster, Portsmouth. It contains North Carolina, illustrated,—Albany Fifty Years ago,—From Thebes to the Pyramids; Little Dorrit—all illustrated with numerous cuts,—and many other interesting articles.

☞ Putnam's Monthly for March, is received by A. Williams & Co., Boston, and by J. H. Foster, Portsmouth Life at the original Water Cure; How they Live in Paris; and About Dogs,—are prime articles.

☞ There are one hundred and thirty-five first class ships, averaging 1000 tons each, now lying at Chincha Islands, waiting for cargoes of guano. Probably no other port in the world can boast so large a fleet of splendid ships.

THE RELIGIOUS PRESS.—The libel suit between the rival Episcopal papers in New York, has resulted in a verdict of *six cents* in favor of the Churchman. The Church Journal will have to pay the six cents and costs.

PATIENCE.

BY WIDESWARTH.

Patience!—great virtue—I thy praise would sing—
Sublimest of the virtues Heaven sent—
(I once admired a maid named Patience King,
But she is not the Patience herein meant)—
Patience, that, catlike, by persistence wins;
Which sees the corn submitted to the earth,
And waits until it's gathered into bins,
Or smokes in Johnny cakes upon the hearth;
Patience that brooks a note's maturing pace,
Patience that tracks a ship across the deep,
Patience that weaves the complicated lace,
Patience that sings a squalling child to sleep,
Patience—grand culmination of my strains—
That, when allied with balze, cures rheumatic and sprains.—[Sat. Eve. Gaz.

THE DEAD.

BY R. M. STODDARD.

I think about the Dead by day,
I dream of them at night,
They seem to stand beside my chair,
Clad in the clothes they used to wear;
And by my bed in white.

The common-places of their lives—
The lightest words they said,
Revive in me, and give me pain,
And make me wish them back again,
Or wish that I were dead.

I would be kinder to them now,
Were they alive once more:
Would kiss their cheeks, and kiss their hair,
And love them, like the Angels there—
Upon the silent shore.

I know not where ye are, ye dead!
My Dead—so dear to me!
In your low graves—in Heaven or Hell;
But where you dwell I long to dwell,
With you I pine to be!

An amiable bill sticker was about putting a placard on a wall, when he was attracted by the words "Post no bills!" He put down his bucket and brush, and with folded arms confronted the offending inscription: "Post no bills!" said he "and why not? Do you s'pose such a thing as you is going to stop me? Where's your signatour? Where's your authority? What right have you to say about it? I know not what other men may think, but for my single self I don't recognize no titles of *post nobility*, and so here goes." A moment after a big placard informed the world that everybody was a taking the "Concentrated Essence of Phlagroot" for worms.

MORALS IN MISSISSIPPI.—Amendments to the criminal code of Mississippi have passed the senate to prohibit labor on the Sabbath. We suppose if anybody should suggest to them to pass laws against stealing men, whipping women and selling babies, or to protect the sanctity of the marriage relation among the colored people, they would be shocked.—*Boston Bee.*

WOOD'S HAIR RESTORATIVE.

TO THE MILLION.—Prof. Wood, of St. Louis, has, after years of deep study and untiring research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; the only article that has been completely successful in cheating age of his gray locks, removing dandruff, itching, scrofula, &c. it restores the gray hair to more than the original beauty; adds new lustre to locks already luxuriant; having the effect on coarse, harsh hair to render it glossy and watery; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used.

The pride of mankind is singularly developed in the keeping and arrangement of the hair; perhaps from the fact that it is the only portion of the human body that we can train in any way we choose; how important then, having this portion, left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair with its natural color elegantly preserved to extreme old age, don't fail to purchase Wood's Hair Restorative.—[Daily Iowa State Gazette.

COURT COM. PLEAS—ESSEX CO., MS.

Sentenced under the anti liquor law of 1855, at the present term of this Court, now held in Salem, by his Honor Judge Bishop. All these cases with one exception, have come down from the Supreme Judicial Court for sentence, having been before that Court on various points of law.

Peter Laynes, Newburyport; Artemas Kendall, Lawrence; Howitt C. Tucker, Lawrence Brown, James L. Sherman, Salem; Luliter C. Gale, Lynn; and G. W. Wilson, severally convicted of a single act of sale of intoxicating liquors, were sentenced to pay a fine of $10 and costs, varying from $40 to $60, and to be confined to hard labor in the House of Correction for twenty days, and if the fines and costs are not paid, then by thirty days additional imprisonment. In Sherman's case, there were two convictions, the term of imprisonment being 40 days, and 60 days additional if the fines and costs are not paid.

Lawrence Brown, Salem; Patrick O'Connell, Lawrence; John Fisher, Marblehead; John Burchstead, Hamilton; and Roderick Bailey, Andover, convicted as *common sellers* were severally sentenced to pay a fine of $60 and costs, varying from $60 to $150, and to be confined to hard labor in the House of Correction for three months. In all these cases the parties are required to recognize to the Commonwealth in the sum of $1000 not to violate any law relating to the sale of intoxicating liquor for one year. These sentences are the mildest which the law permits.

There are other cases remaining for sentence, which have been sent down from the Supreme Court for that purpose.

The Court here, has been occupied more than two weeks in the trial of parties residing in different parts of the County, on this same law, and will continue for some days to come.—*Salem Gazette.*

☞ The freight train of the B. & M. Railroad, on Thursday, met with an accident at Dover, where one car was destroyed, and the contents of three more badly mixed up. Loss $1000.

There is a talk in Washington of a duel between Messrs. Sherman and Wright, the members who had a fight on the floor the other day. We should think those persons in favor of capital punishment might also be in favor of repealing the law against duelling in the District of Congress. If the law was repealed, some of the fellows would might get justice who escape it now; and if there was an additional act that in case neither of the parties were shot, both should be hung, there would be better behavior among them than has been for a long time.—*Newburyport Herald.*

WASHINGTON, 28th.—This morning a Virginia gentleman named David Hume, called at the Pension Office to demand from a clerk named D. C. Lee, a retraction of a charge that Hume had picked his pockets at the President's levee last evening; Lee declining, Hume dealt him a blow with a stick, whereupon Lee shot him dead. He immediately surrendered himself.

☞ Lawrence's Carminative, we learn, has a good reputation, is prescribed by some of the best physicians in New Hampshire, and we hear it well spoken of. See advertisement in to-day's paper.

LOCAL.

SINGULAR DONATION VISIT.

My Dear Chronicle:—Allow me to relate to you an interesting circumstance, of which I was an accomplice. It was one of those cold evenings in February last, as I sat musing by my comfortable fire, and thinking of the poor and needy of our city, I was suddenly interrupted in my cogitations, by the unceremonious entry of a venerable person whose countenance was not familiar to me. He requested my company for a short time, on business of importance. I hastily prepared myself for the adventure, whatever it might be; and was quickly ushered into a large carriage containing an abundance of this world's goods, and we rode off.

Our first stopping place was at the house of widow A., and my guide with despatch deposited in her residence food and clothing, which made glad the heart of the widow. Before she could thank the donor, he hastily departed; and we soon found ourselves at the humble dwelling of Mr. B, whose sick wife and suffering children gave strong expressions of hunger and sorrow. My worthy friend, with the same alacrity as before, deposited an amount of the wordly goods which were calculated to relieve abundantly their necessities; and waiving all formality of thankful words, passed on from house to house, bountifully relieving the wants of all.

I finally turned to my companion, and eagerly enquired who was the giver of the bounties which he so freely distributed;—and as he was about to reply, I *awoke*, and behold it was a dream! B.

ONE OF THE VETERANS.—Mr. Benjamin Akerman, of this city, full fourscore years old, is a specimen of hale old age. He was the senior in the Old Folks Choir, being about ten years older than any other member; and called in at our office on Saturday, to get his book,—stating that he was to start for Illinois and Ohio, this (Monday) morning, and wished to sing the old tunes with his son and daughter there.—We suggested that it was rather early in the season to be journeying so far; but he replied that he wished to be at home again in time to "make" his large garden, in April; and that if he waited a month or two, for warmer weather, the heat would be great out there,—and that he feared more than the cold.

Mr. Akerman is a shoemaker, and yet makes his lapstone ring, from one year's end to another; besides doing no small amount of duty as a surveyor. He told us that as this was the least busy season with him, he could best make his journey now. He is one of the most industrious, careful and happy of men, and never borrows trouble for the morrow; and we believe he has no desire to "go out West," except on a visit. May his journey towards the setting sun, be through earth's most pleasant scenes.

☞ The Sermon delivered by Rev. Dr. Peabody, at the closing of the South Parish Sunday School Room, in Court Street, on the 15th inst., will be issued to-morrow; and may be had at the bookstores of Messrs. Shores and Foster, the publishers. The Sermon, with the order of exercises, make up a pamphlet of twenty four pages, which will be exceedingly interesting to at least all who care to know the history of Portsmouth. It is neatly and legibly printed from the Journal press.

GRANITE STATE CLUB.—The next lecture before this Club will be by Rev. L. Whiting, this (Monday) evening, Mch. 2d, at half past 7 o'clock, at Washington Hall.

Per order.

SUPREME JUDICIAL COURT.

EXETER, Saturday, Feb. 28.

In the case State *v.* R. B. Marsh, a verdict was rendered against the respondent; but exceptions were taken, and the case was transferred to Supreme Court.
